KENDALL'S SPAVIN CURE.
The most Successful Remedy ever discovered, as it is certain in its effects and does not blister.
READ PROOF BELOW from
Rev. P. N. GRANGER,
Presiding Elder of the St. Albans District.
St. Albans, Vt., Jan. 25th, 1882.
Dr. B. J. KENDALL & Co., Gents:—In my opinion your letter I will say that my experience in Kendall's Spavin Cure has been very satisfactory indeed. Some of your agents visited my place and presented a bottle of your agent with a horse of mine affected with a lameness caused by a spavin. Last season my horse became lame and I turned him out as a useless article when he became lame; but as I had a bottle of Kendall's Spavin Cure left with me I concluded to try it on the lame horse, and to my surprise and gratification, the lameness was removed. I presented the balance of Kendall's Spavin Cure left with me to a friend who cured him so that he is not lame, neither can the bunch be found. Respectfully yours, P. N. GRANGER.
KENDALL'S SPAVIN CURE is sure in its effects, and in no case is it known to blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any hunch or bony tumor, enlargement, such as spavin, ring bone, curb, callous, splint, sweeny, of any age or long standing, and all other lameness of the joints or muscles for which a blister is used as a remedy or treatment. It is now known to be the best liniment for man ever used, acting mild on the system in no respect like a blister.
Send address for Illustrated Circular which gives positive proof of the virtues of this remedy, has ever met with such unqualified success as our knowledge of horses extends.
$1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent by express on receipt of price, by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont.

NEW YORK TRADE.

BAKING POWDER
Absolutely Pure.
This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders.

FORTY-SEVENTH CONGRESS.

HOUSE.

WASHINGTON, 11.—The House went into committee of the whole on the sundry civil service bill.

An amendment was adopted authorizing the establishment of an industrial Indian school on the Pawnee reservation in Nebraska.

An amendment was offered by Atkins (Tenn.) for the purpose of continuing the preparations of the geological survey in the United States, which gave rise to an extended discussion as to the propriety of extending the geological surveys in the States or of limiting it to the survey of public lands. The amendment was finally agreed to.

Willis (Michigan) moved to increase the appropriation for geological survey from $120,000 to $720,000. Adopted.

After completing the consideration of 68 of the 85 pages of the bill, the committee rose.

Adjourned.

AMERICAN.

Washington Items.

WASHINGTON, 11.—A good deal of interest is felt in to-morrow's developments before the grand jury. A little uncertainty exists whether Walsh, the expected witness, will be found. Walsh is said to have made statements implicating Senator Kellogg. He furnished half of the $20,000 which Price is said to have paid for a Star route in Texas, by which the latter made an additional $90,000 yearly.

An error has been discovered in the internal revenue bill, the use of the word "monthly" instead of "annual," by which the tobacco tax on dealers is greatly reduced.

Congress will not adjourn until the amendments to the revenue bill are disposed of. The democrats say they will have the duty on salt removed before the session closes.

Bayne, congressional leader of the independents of Pennsylvania, says he hopes to-morrow's meeting of the republican committee in Philadelphia, will result in the withdrawal of both tickets and a subsequent new one adopted.

Congressman Butterworth's tables regarding appointments made by Garfield and Arthur, presented in the House recently, are said to be grossly incorrect, at least in some particulars.

The House committee of judiciary directed Representative Payson, of Illinois, to report adversely on the Mormon war claims pending since 1859; the amount involved is $130,000.

The intention of the Garfield commission to arrange a hearing of testimony with a view to saving time, and persons desiring to be heard will be notified of the time and place. Ex-President Hayes may be addressed on the subject at Long Branch.

July returns to the Department of Agriculture from all the States and Territories of the United States indicate an increase of all crops.

The Bombardment.

The situation in Egypt has attracted much attention at the Capital to-day, especially at the War and Navy departments. The army and navy officers are awaiting the interesting results of the bombardment. A scientific and squatical interest is felt in this contest, as it is believed that it will be very instructing in determining the fighting value of the latest pattern of iron clads built, with the heaviest ordnance. The British ship *Invincible* is supplied with new eighty-ton breech-loading rifled guns, the representative here of the largest ordnance manufactory in the country. He read the announcement that four forts have fallen said, "no more convincing proof is necessary of the great value of the heavy ordnance. The fortifications cannot stand against them. The same British fleet off Alexandria bay there to-day, could batter down every fort that we have from Maine to the Rio Grande, and could sail directly under our guns and fire with impunity. The lesson of Alexandria's bombardment is for this country, and our Government had better be doing something about it for as Abe Hewitt said, very truthfully in the House the other day, that it would take three years to build a single one of these eighty-ton guns. This is the statement from one of the legislators but it is in the spirit that the officers of the ordnance corps and of naval officers generally are watching the contest in Egypt.

At the State Department no information could be obtained relative to the instructions given to Minister Lowell or Wallace although full instructions have been sent to each.

At the Navy Department it was stated that the remarks attributed to Admiral Nicholson, that if the forts should fire on him he should return the fire, was entirely misstated. The Admiral was not authorized to open fire under any circumstances whatever, and if he should allow his vessels within range or attempt to open fire, he would at once be court-martialed.

Mysterious Disappearance.

Ex-Senator Spencer, of Alabama, who was under subpœna as a witness in the Star route cases has unexpectedly disappeared. He was to give his testimony for the government in connection with the mail route from Connor City to Fort McDermott, Oregon. It is believed that he is now in Dakota, and the government will use every effort to secure his immediate return.

Surveyor General of Arizona.

Jos. W. Robbins, of Illinois, was to-day nominated to be surveyor-general of Arizona. Robbins is the Omaha correspondent of the *Inter-Ocean*, a stalwart journal, and he tried to secure an appointment in Arizona during Garfield's administration.

Stage Wrecks, Hail, Rain and Storm.

CINCINNATI, 11.—During the storm last evening, two coal shovelers in a barge at the river bank were struck by lightning and instantly killed.

Lebanon, Ohio, 11.—A very heavy rain fell yesterday afternoon raising Turtle Creek to an unprecedented height. The reservoir of the hydraulic works broke the banks, and the lower part of the city is inundated. Several small houses were washed away. Several thousand sheaves of newly cut wheat were floated off. The loss is variously estimated at from $50,000 to $100,000.

Hastings, Neb., 11.—A severe hail storm in this vicinity early this morning broke all the glass in the north windows, injured the crops considerably for an unlimited circuit uncovered the depot and elevator at Glenville and overturned the school house. A strong wind prevailed at the time.

Kansas City, 11.—A very high wind storm passed over Margavale, Kansas, on the St. Joseph and Western Railroad, two miles west of St. Joe, about 10 o'clock this morning. From the fact that the wires are all prostrated it is thought that serious damage has been done to the town.

A heavy storm also prevailed at Lincoln and through that section of the country, but as telegraphic communication was severed there is no particulars to be obtained.

Important Decision.

The Secretary of the Interior has rendered a decision in the case of the Virginia and Gilded Age mining claims located within the limits of the townsite of Tombstone, Arizona. In his decision the Secretary holds that the usual clause of the reservation in favor of the occupants of the town property shall be inserted in mineral patents, thus recalling so much of the original decision of December 30, 1881, as is required for the commission to investigate the question of alleged priority. His recent decisions in the Rico case was that these questions are properly determinable in local courts and that a clause of reservation operating as a notice, the possible adverse right should be inserted to ensure protection of all the interests involved.

Nominations.

Nominations: F. T. Dubois, United States Marshal in Idaho; Joseph H. Robbins, of Illinois, Surveyor-General in Arizona; Alvey A. Case, of the District of Columbia, Third Assistant Secretary of State.

Colorado Press Association.

DENVER, 11.—At a meeting of the Colorado Press Association to-day, Col. John Arkins, of the *Rocky Mountain News*, was elected President. W. H. Faber, secretary; Grayson P. McArthur, corresponding secretary; R. H. Tilvey, treasurer. Fifty new members were elected. Captain J. T. Smith delivered an oration and Eugene Field read a poem, after which they banqueted at the St. James Hotel. The association accepted the courtesies extended by the Chicago, Burlington & Quincy Railroad, and about 75 members, with ladies, will leave tonight for Chicago, to be absent a week.

Duels.

LOUISVILLE, 11.—J. B. Gaines, editor of the *World*, and Col. Sears, of the *Post*, emptied revolvers at each other yesterday afternoon as a result of an editorial controversy. The result was a slight wound in Sears' foot and two bullets under the skin of an unoffending witness of the fusillade. Both were arrested and bailed.

St. Louis, 11.—*Post-Dispatch* Matamoras special says: Capt. Alvers and Major Cordova, officers of the Second regiment, fought a duel at St. Louis Potosi. The former was killed on the spot and the latter died soon after.

Fighting Banditti.

Part of the second corps of gensdarmes fought a banditti under Manuel Gomez, near Lameida Luna in Jalesco yesterday. Manuel and Jose Gomez, the leaders, and seven others of the banditti, were killed; the balance scattered.

FOREIGN.

Semi-Official Report of the Bombardment.

A special correspondent of the Associated Press with the British fleet telegraphs:

6 p. m.—A British naval officer has furnished me with the following account of the days' operations:

The bombardment commenced at 7:45 this morning. The ironclads *Superb*, *Sultan* and *Alexandra* engaged and totally destroyed Fort Pharos and the lighthouse batteries, which are at the entrance to the new port and were intended to dominate the approach to the new harbor. The flagship *Invincible*, the *Monarch* and *Penelope* took up commanding positions inside the reefs and were assisted from the outside by the *Temeraire*, which attacked with destructive effect the strong position of Fort Mex, with the lighthouse and shore batteries. The *Inflexible* was stationed to command the lighthouse batteries, Fort Pharos and Fort Mex at the same time and was thus in position to co operate both with the division outside and that inside the reefs. The gun vessels *Bittern*, *Condor*, *Beacon*, *Decoy* and *Cygnet* attacked the Marabout batteries at the entrance of the harbor and taking close and destructive range soon silenced them, after which they bombarded on Fort Mex entrance to the anchorage or outer harbor. The *Invincible* under cover of her own guns and those of *Bittern* then landed a party of blue jackets and marines who entered Fort Mex and blew up the heavy guns. The bombardment practically ceased at noon, though some heavy guns at at this hour are still shooting at Fort Napoleon. The large works situated at the southern angle of the inner harbor and dominating the town fort does not reply. On the whole the Egyptians fought their batteries with more determination than had been expected. Some of the earthworks which we mounted were found to be mere heaps of sand.

The Khedive Captured.

A dispatch to the *Figaro* announces that Toulba Pasha yesterday proceeded to the Palace of Ras El Tin and informed the Khedive that he was to consider himself a prisoner. A cordon of Egyptian troops surrounded Dervish Pasha's residence. Izedeen is making efforts to approach to the shore to carry off Dervish Pasha, but without success. Popular feeling in Alexandria grows more and more hostile to Arabi Bey.

The Killed and Wounded.

In the House of Commons Campbell Bannerman, financial secretary of the war department, read the following:

ALEXANDRIA, 7:50 p.m.

The total number killed is 8, wounded 27; distributed as follows: Killed on the *Alexandria* 1, *Superb* 1, *Sultan* 2, *Inflexible* 1. Wounded on the *Alexandria* 3, *Superb* 2, *Sultan* 7, *Invincible* 2, *Inflexible*, 3, *Penelope* 8.

Twelve officers and men landed from the *Inflexible* under cover of the fire of the *Condor* and *Bittern* were destroyed with dynamite the heavy guns at Fort Mex.

Suppose Treaty.

PARIS, 11.—Though of course it was not expected, yet the news that Admiral Seymour had bombarded Alexandria this morning created a great sensation here. The belief gains ground that England all along had a secret treaty with Turkey. It is even said that De Freycinet knows of a secret treaty between the two Powers. If the question comes up in the chamber this afternoon an exciting scene may be expected, as the committee on Egyptian affairs credit, and will doubtless lay its reports before the House. Gambetta may also find a moment favorable to presenting his elaborate defence of his foreign policy, which he has for some time been meditating.

A dispatch from Vienna says it is admitted in government circles that England is perfectly right in acting against Arabi Pasha's attitude of provocation, and so long as England carries on this line of conduct she will meet with no opposition from the Powers. A dispatch from Alexandria says the Egyptian Ministers were not aware yesterday of Admiral Seymour's ultimatim, because it was intercepted by Arabi Pasha.

Gen. Wallace.

Gen. Wallace has had a confidential audience with the Sultan, which lasted four hours. It is believed the subject of conversation was the Egyptian crisis, and that the friendly intermediation of the United States was suggested. The European conference is in complete discord.

Funeral of Gen. Skobeloff.

MOSCOW, 11.—The Emperor has sent Gen. Skobeloff's sister, the Princess of Bellosisty, the following telegram:

"I am terribly overcome and grieved by the sudden death of your brother. It is an irreparable loss to the army. All will weep for him. It is a sad loss to the country."

Crowds have been to see Skobeloff's body at the church, to which it was transferred on Saturday evening. The visitors were deeply affected and many eyes were wet. The little church was fragrant with flowers and wreaths. Among the most remarkable tributes was that of the Acadamie d'Etat, the major being over 18 feet in circumference, and decorated with ribbons of honor of St. George, with the following—"Skobeloff, the Hero." The first requiem services began yesterday at 10 a.m.

Archimandrite Athanasius officiated, assisted by numerous priests. The Prince Dolgorenkow, Minister of War, and Counts Adelberg and Barenoff, and all old comrades of Plevna were present. At 11 the mass of requiem was celebrated. Skobeloff's family was represented by General Tchernieff and Prince Belosselsky, who received each fresh arrival. Troops lined the road to Rizan. A surging crowd of 100,000 people filled the streets. The roads were covered with human forms. At noon, Grand Dukes Nicholas and Alexis arrived from St. Petersburg, and were driven to the church, cheered by the people all the way. On reaching the building, Archimanditi said a few words and uncovered the body of the hero. It was placed on a bier and borne in solemn procession to Rizan, followed by the Grand Dukes, all the generals, the Moscow military band, and Prince Dolgourki and staff. Prayers were again said in the presence of an enormous crowd, and, the body being placed in a car reserved for it, the train started for Rizan.

Edwin Booth.

LONDON, 11.—Edwin Booth to-day gave a matinee performance of Richelieu. The whole dramatic profession of London had been invited to be present. Booth was enthusiastically received and called forward after each act. Among those present were Wilson, Irvine, Bancroft, Kyrles, Toole, Forbes, Robertson, Warner and Mrs. John Wood, Miss Ellen Terrey and Mrs. Swanborough.

BRIEF TELEGRAMS.

There is a cholera epidemic at Hong Kong.

L. Daniels' flouring mill at Kasson, Minn., is burned. Loss, $30,000; partly insured. Incendiary.

The Mingpoo pirates still defy the Chinese forces. The outlaws were victorious in the recent fight with the troops.

At Phœnix, Arizona, the democratic territorial convention met yesterday and renominated Granville H. Oury, as Delegate to Congress, by acclamation.

A hurricane at Fimore caused great destruction. The steamer *Banda* was foundered, and many native vessels were wrecked. Houses, trees and crops were destroyed.

At Gloucester, Mass., Great excitement was caused among the fishermen by the preparation to put a steamer into the mackeral catching trade. It is feared the mackeral will be driven off.

At Clinton, N. C., Phillip Haison was hanged yesterday for the murder of Henry Sellers. A great crowd was present at the scaffold, which was in an open field. Haison never flinched. The drop was five feet.

STAKE CONFERENCE.

MESA, Maricopa County, Arizona, July 3, 1882.

Editor Deseret News:

Our quarterly conference commenced on July 1st, 10 a.m., under the direction of Councilors H. C. Rogers and D. G. W. Sirrine.

President Macdonald had not arrived from Utah, but is on the road and expected here about the last of the month. We are having some of the hottest weather we have ever experienced since we have been here, the thermometer going as high as 112°.

After the opening exercises on Saturday morning the following Elders addressed the meeting: E. Bunker, H. G. Rogers and H. W. Brinton, on the position of the Latter day Saints in connection with the House of Israel and the fulfilment of prophecy.

2 p. m.

After singing and prayer, Samuel B. Merrill bore a faithful testimony to this being the work of God.

A. F. Stewart spoke on the privilege of the Latter-day Saints if they would only live for them.

C. I. Robson read some portions of the Book of Mormon and Doctrine and Covenants showing what the Lord had promised to do for his people in the last days, and from the signs of the times these things are closer than we realize.

F. M. Pomeroy spoke on the situation of the Saints in this land and their bright prospects for the future if we live so as to enjoy it.

At 7 p. m. the brethern met in the capacity of a priesthood meeting where there was a good spirit enjoyed and some valuable instructions imparted to all and a great deal of business of a local character attended to.

On Sunday morning at 10 a. m., after the opening exercises Elder J. R. Steel addressed us, on the restoration of the Gospel, showing what it would do for all that lived by its laws. G. W. Sirrine, bore a faithfull testimony to this being the work of God.

2 p. m.

The House was full to overflowing, after the opening exercises the Sacrament was administered by Elder J. R. Turman and John Felshaw. The Clerk then presented the general authorities of the Church and also the local authorities who were unanamonsly sustained. When Elders H. C. Rogers and E. Bunker occupied the afternoon exhorting the Saints to live near to God and perform the requirements of the priesthood, when conference adjourned till the 7th day of October 1882 at 10 a. m.

Since our last conference we have organized two corporations. One for the taking care of our surplus cattle and another for mercantile purposes. Brothers Ruben Collett and E. Pomroy and others of our cattle men, report every thing favorable for a good Dairy 25 miles East of our settlement which they intend to have in working order as soon as possible. We have had a very agreeable visit from D. Bockholt clerk of Salt Lake County who left here this morning for home.

Yours truly,
CHAS I. ROBSON.
