The Silk Worms

Mr. Katsunoma, recently mentioned in these columns as being in charge of the silk production interest here, states that the silk worms are growing nicely. It may be said that the different stages of growth from the time the worm is hatched from the egg until it begins to spin the cocoon, are represented as eggs," "ye. First, second, third, fourth and fifth ages. The last three of these ages are in process of growth, the fifth already beginning to spin the cocoon. As soon as the spinning commences the worms are placed in a box by themselves, the box being filled with hay, in which to do the work in. In order to promote the growth as rapidly as possible, a rich supply of mulberry leaves are fed them (mulberry). The average temperature of the room now in use is about 65 degrees Fahrenheit. With the advance of the season that has come for 6 days, they will be much cool where the room ranges from seventy to eighty degrees. The gentleman says that in about two weeks will have eggs to sell.

Information Wanted.

Information is wanted of the whereabouts of Julius Theodore Rich, who emigrated about twelve years ago. Age 38 years old. Rich in Utah. Address,

SOPHIA KLOPSMITH,
Manti, Utah.

Concerning the above notice, Mr. L. L. Louton, manager of the Manti Messenger, writes: "Mrs. Klopsmith is a lady over 70 years of age, and has been a resident of Manti ever any years. She was with an accident during the Salt Lake Temple construction, which has left her almost totally blind. She has no family or relatives left here in this section, and she is virtually a charge upon the charitable people of Manti. She is very anxious to learn the whereabouts of her brother, and I have assisted her both in correspondence and advertising. It is necessary only to come to the Mormon settlements where the News is most likely to reach him."

Sanitarium Change.

There has been another change in the management of the Salt Lake Sanitarium, and now Mr. S. H. Clawson, his many friends will be pleased to learn, resumes the position of head nurse. "Old" is a roller and will continue prove a drawing card at the head of the great healing resort.

PLEASANT GROVE NEWS.

Summer Encampment for Black Hawk Veterans—Personal Notes.

PLEASANT GROVE, July 1st, 1894.—The executive committee of the Black Hawk camp fire met at Springville Saturday, June 30th, 1894, for the purpose of making a plan for a summer's outing. It was decided to extend an invitation to all veterans who had been engaged in any expeditions against the Indians, who have resided or now live in Utah county. Invitations will also be given to members of the Mormon Battalion and the Pioneers who are residents of Utah county. August 23d is the date fixed. The encampment will be made on the Provo river, the exact spot not yet designated. Every effort will be made to make the gathering a grand success. Doubtless some invitations will be sent to veterans outside of Utah county.

Robert Freeman is the happiest man in town. His wife presented him with a fine baby boy about a week ago. The couple have been married eleven years and this is the first child to gladden their home. Brother and Sister Freeman moved here from Fort Herriman about a year ago.

An editor on one of the Provo papers and a saloon man had a "scrap" yesterday over the voting for Goddess of Liberty in that town.

Elder Joseph Larsen has received a call to go to the Southern States upon a mission. Elder John H. Baldwin of this place, who has been laboring in the Southern states, has been assigned to the Chattanooga office.

The First Telegraph Talk.

The following interesting sketch is taken from an electrical journal:

On May 24, 1844, the first electrical telegraph line ever constructed was completed between Washington and Baltimore. On April 30, 1844, it had been completed to Annapolis Junction, Md. On the following day, Clay and Frelinghuysen were nominated by the Whig convention at Baltimore as the Presidential candidates, which information was transmitted by telegraph from Annapolis Junction to Washington, as Professor Morse writes, "another and a quarter before the news reached there." On the morning of May 24, when it was considered to be ready, the following correspondence between Professor Morse at Washington and Mr. Stephen Vail at Baltimore occurred:

"Baltimore, May 24, 1844.—'What hath God wrought?' M."
"Yes. V."
"The City of Baltimore. V."
"Yes. M."
"Stop a few minutes. M."
"Yes. V."
"Baltimore, May 24.—I am ready. M."
"Yes. V."
"Have you any news? M."
"No. V."
"Mr. Ellsworth's respects to you. M."
"My respects to him. V."
"What time have you? M."
"Nine o'clock, twenty-eight minutes. V."
"What weather have you? M."
"Rainy. V."
"Separate post was a mine. M."
"A great success. V."
"I have a great crowd at my window. M."
"And I. V."
"A Whig Democrat came to post with a Democratic opinion. V."
"I would over. M."
"Mr. Ellsworth just came in. The Odes is received. V."
"The odes was immediately distributed in the direction of New York, and in January, 1845, was conveyed to Fort Lee on the left of the Hudson river. There we then by means of crossing the river, and the original cables were in the possession of Professor Mahan, the Chicago Scientific. After the completion of Professor James R. Fell, a Boston office was established, which continued to Washington with a single line of wire. Messrs. Fell and Mahan, the inventors of the Washington line, was very much. On the first day it was processed, amounting to the second day it was sent over the third day it was $2.50 and on the fourth day it was $3.50.

SUPPORT HOME INDUSTRY.

THESE ARE THE PEOPLE WHO SELL HOME MADE GOODS

THEY BUILD UP UTAH and are entitled to the support of the people. By dealing with the merchants who give preference to the sale of Home Made goods, you help the Home Industry cause. You help to give employment to worthy people; you help to keep money at home, which circulates in our midst and you get back a part of that money again in your business or profession. Keep this in mind; every dollar expended for Utah made goods, means more employment for home labor; every dollar expended for goods manufactured elsewhere, means employment for somebody living elsewhere, and whose interests are generally not with us. "Charity begins at home." This is a time for both common sense and patriotism.

When you wish to buy anything be sure to look over the following list before making your purchase:

JOHN C. CUTLER & BRO.,
