Have You a House?

If not I will say you to investigate the advantages of Forest Dale before buying elsewhere. We have our own water system; water pipes in most desirable cast iron pipes, and the ownership of the water, including the extension of the pipes just over their roofs, purchasers in Forest Dale little if any more than laying the mains in most cities. The advantage this affords will be readily seen, for the water belongs to the residents (each purchaser of a lot being allowed his proportion of the capital stock of the Forest Dale Water Company) and it rests with them to fix the water rates charged. The expense of running the system is very small, and after the first expense of laying the mains is paid the rates need not be more than one-tenth those charged by Salt Lake City.

Have You Saved Anything?

Some people have been waiting for years for land to reach hatter prices. In the meantime they have paid rent, and if they have made any improvements or done any work on their residences, the improvements have been made, or the work done, for their landlord. Many other people have built homes, and while these first mentioned have been "waiting for something to turn up," have paid for their property and now own the homes that shelter them.

Don't Get in Debt

unless you feel assured you can get out again. But if you have money saved, buy a home. If you have an income, buy a home. It pays to have all objects in view, and there is no more worthy object than procuring a home for those dependent upon you.

My clerks, at room 334 Constitution building, will give you prices and show you the property.

GEO. M. CANNON, Owner.

Cash paid for Water Scrip at Cannon's Real Estate Office, 334 Constitution Building.

When Billy was sick, we gave him Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

AN OPINION GIVEN.

Recently Mr. J. B. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country located in Winchester, he writes to Mr. V. Richards, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in nearly every state and territory of the United States, and am frank in my opinion that this valley surpasses all other sections in the Union. The lands are low in price, and produce productive crops. I don't pay for my neighbor for farm, and would close up and pleasant and profitable home in lands in this country."

Four year trials and other annoyances, including boxes in a special report, and an Electric Belt, are offered free by Dr. Sanden, the inventor of the Electric Belt, advertised in a few weeks in these columns. Latest research proved to be the best and cures.

DESERET EVENING NEWS.

WEDNESDAY, JULY 18, 1894.

MUNICIPAL MATTERS.

Vote of the Resolution for the Sale of Copper Flat Bonds.

EXTRAVAGANT COUNTY MEMBERS.

Price for Feeding City Prisoners Cut From 12 to 10 Cents.—Fire Department Election.

The meeting of the City Council last night was attended by all members except Clawson and Hardy. President McCallum occupied the stand and a long and wearisome session was held.

THE PROCEEDINGS

Petitions and communications were read and acted upon as follows:

Myriam C. Fox, trustee, asked for $18.17 rebate on curbing tax. Board of public works.

Jane Nott asked for a remission of sprinkling and property tax on account of sickness and poverty. Committee on claims.

D. W. King Jr. asked to be allowed to place wagon scales in the street in front of his place of business, First South and Third West streets. Committee on streets with power to act.

Joseph Long petitioned for a free license to peddle produce. Committee on license.

John Lollie asked permission to pile building material on the sidewalk in front of his premises on East Temple street, north of the Walker House, for a period of three months. Granted.

O. M. Arnold asked for relief from tax sale on payment of all taxes and costs. City attorney.

Fannie E. Smith asked permission to keep a water dog without paying taxes for same. Committee on license.

F. P. Sweet represented that peddling perfumery had proven a failure with him and asked for the return of $27.50 which he paid for license. Committee on license.

John Dunn and forty others asked for the removal of Robert Craven from the position of foreman of the pound for the reason giving as a reason that he is "an idiot, insufferable and a bully." Committee on streets.

Whitaker Brothers asked that connections be made on Third South street between West Temple and First West streets with the water main and Whitaker mill. Committee on waterworks.

A. F. Lawson offered to sell or exchange little rule of ground on Second East and Fifth South street for a joint city and county jail.

The city attorney recommended that the petition of Lewis Jenkins et al be granted asking that the Mayor be authorized to execute deeds to them of certain property on the ground which by a mistake in the description included conveyed by the Mayor to the lawful owners thereof. Adopted.

A. C. Smith & Co. asked that the fruit stand adjoining their premises be removed. Committee on streets.

UPPER PLANT RESOLUTION VETO

The following veto message from the Mayor was read and filed.

I herewith return, disapproved, the resolution of the City Council passed July 16, 1894, authorizing George A. Lowe and others at once to sell the twenty-five Sixty bonds, with the coupons detached to July 1, 1894, passed February 14, 1893, for the following reasons:

According to the terms and conditions of said bonds the principal thereof is payable in twenty years, and the interest which the same bears is payable semi-annually, thereof the resolution, if carried into effect, invades the appropriate of money and is subject to the provisions of the act approved by act of the legislature giving to the Mayor the qualified veto power.

The resolution of February 14, 1893, is illegal and void because the City Council has no authority to pass the same, and it is inappropriate in every sense for corporate purposes.

It is only pretended that the land authorized to be purchased by George A. Lowe et al is for corporate purposes, on the contrary, it is a patent fact that it was the intention to purchase land for a private much beyond its value to enable the vendors, through certain transactions, to double all or a portion of the same to the corporate plant. In other words, it is intended to give the taxes of the people of this city to the upper plant in this crooked way because the law will not permit it to be done in a direct manner.

As a public officer I feel disgust and reprehension at this use of moral or other binding force upon the present council, and anything done by it or myself in recognition of the validity of this act will make us privy to the wrong.

I am in favor of selling these bonds in the regular and usual manner provided for property now allowed to be sold, but the hands of the treasurer to be used to meet the original and legitimate necessities of the city.

EXTENSION WILL BE MADE.

A report from the recorder notified the council that the notice of intention to extend the waterworks to Jeremy street had been published and that none were no protests. Filed and the levy ordered.

SAVIN LAND CONDEMNATION.

The city attorney reported that C. E. Allen, administrator for the estate of Jacob Gruber, had agreed to sell and "is authorized" to purchase seventy-five acres of the land belonging to said estate for public purposes for the sum named and recommended that the council authorize him to proceed with condemnation that title to the same may be acquired. Adopted.

CASES AGAINST THE CITY.

The city attorney submitted a report of the city cases pending. In addition to the last report, the same stood passed by a list of cases. Committee on municipal laws.

A communication was received from the city attorney recommending that John Beck be paid $75 in full settlement of damages claimed in the loss of a horse, the petitioner having obtained judgment against the city in a justice court. Adopted.

WATER TAXES.

Christopher Dahl, assessor and collector of water rates, submitted the record of his proceedings for the year ending June 30, as follows:

Total amount for a variety of water purposes assessed ..... $
Total amount charged to collector ..... $
Total amount collected ..... $
Total amount delinquent ..... $
Total amount abated ..... $
Total amount remitted ..... $
Total amount credited ..... $
Total amount due ..... $
Total amount of water rents collected ..... $
Amount of water rents now outstanding ..... $

OFFICER RELEASED.

The resignation of J. J. Gilmore as city weighmaster was received.

TOO MANY WORKMEN.

The committee on finance declined to approve the pay roll of the waterworks department for the two weeks ending July 15, claiming that to the first [illegible] there were four men employed, two laborers and two teamsters, receiving $1.75 and $2.25 respectively. When there was no more men to work, the committee opined that teamsters should receive no greater wages than regular laborers. Laid on the table temporarily.

LIQUOR LICENSES.

Liquor licenses were granted to Barney C. Harvey, James O'Reilly, the Orpheum Book company and Bieber & Sabin.

FROM TWELVE TO TEN CENTS.

The committee on prisons reported in the matter of the petition of S. H. Goodman asking to be allowed to bid for the contract for feeding the city prisoners, that the party now in charge is giving satisfaction and thought it was not wise to change but recommended that the price be reduced from 12c to 10c per meal. Adopted.

GREAT TANNERY NUISANCE AGAIN.

The committee on sanitary rules and quarantine recommended that the petition of the tannery on Fourth North and Second West streets be required to remove said tannery within thirty days, as it was a great nuisance and gives rise to great offense to surrounding residents, and that in the meantime they be required to abate the nuisance. Adopted.

AGAINST FREE WATER FOR HOSPITALS.

The committee on waterworks recommended that the petition of St. Mark's hospital for free water be not granted, and that the similar privileges now accorded to St. Mary's hospital be discontinued.

Some of the members took the position that such action was anything but economical and after considerable discussion was laid over for one week.

CITY TAX LEVY.

O'Meara introduced a bill for an ordinance for levying the tax on the assessed value of the taxable property for the year 1894, in pursuance of the resolution fixing the levy at 9½ mills. Passed.

FIRE DEPARTMENT ELECTRICIAN.

O'Meara also offered the following resolution:

Resolved, That the committee on fire and police select a man in the fire department to be known as an electrician. He is to do all the electrical work in the police and fire departments and to inspect the lighting of the city, and any negligence he may find on the part of the Electric Light company he report to the chairman of the above committee and for his services he be allowed an additional salary of $50 per month.

AFTER THE JOINT COMMITTEE.

J. J. Daly offered the following:

Whereas, it has come to the attention of this Council, through the public press that a contract has been let for two fountains to be placed in what is known as the Eighth ward square and also a clock to be placed in the Joint city and county building, and as the contracts have not been approved by the Council and as the majority of the Council are not in favor of spending the city's money in this way at this time, as all the money is needed to give work to the unemployed; therefore be it

Resolved, That the city recorder is hereby authorized to notify the contractors for the above articles that the city will not be responsible for the payment of said contract until the contracts have been approved by the Council.

HOT WORDS AND INCENDIARY.

O'Meara gave the resolution hearty support. Cheesman and Newell said the committee had been given power to act and that the contract could not be cancelled now.

Daly declared that it was time to act and that something should be done to put a check on the committee. He proposed to follow the present resolution up with others of a similar character.

Young doubted that the Council had given the committee power to act.

O'Meara said vagrancy on the building must be cut down. The Mayor had his "mug" out in stone on the structure. He understood ex-Mayor Booth's profile was also being chiseled for similar use. If that kind of business could be carried on indefinitely every member of the Council should have his "mug" imbedded in the wall. It would be an act of public benefit for some one to take an ax and destroy every "mug" on the building.

President McCallum vacated the chair in favor of Young and made a bold stand for retrenchment. He was of the opinion that the city members of the joint building committee had been unanimously led on by the enterprising (?) county members to acts of extravagance. Information had come to him that was simply appalling. In the matter of furniture, the contract figure for furnishing the building was outrageously high. For months Andrews & Company had a representative at the Knutsford treating all men with cigars and wines who were supposed to have influence with the committee. Finally they got the contract. Their wily but transparent efforts were not in vain. The company's representative had even gone so far as to offer Recorder Lofgreen, whom he thought had "pull" with the committee the finest seat he could name if he would only "use" his influence.

Lynn resented the insinuation that the offer of liquor, cigars and chairs had ever been made to the committee and Mr. McCallum replied that his remarks were not intended to apply to the city members.

More running discussion followed and Daly on motion of Young the resolution was so amended by giving the committee power to expend some of money up to $100 only without executing for Council.

UPPER PLANT BONDS.

O'Meara moved a reconsideration of the Council's action at the last meeting postponing action on the Copper Plant bonds for four months. The motion was a signal for filibustering which finally ended in an adjournment of one week.

THE CITY'S CASH.

Receipts and Disbursements for the Month of June.

City Auditor Raymond last evening submitted to the Council a statement of receipts and disbursements of municipal cash for the month of June as follows:

Levan Lightning Fatality.

The NEWS this morning received by mail a belated letter from an esteemed correspondent at Nephi, giving an account of the killing by lightning on Sunday afternoon last at Levan of Eric Peterson. The communication contains nothing additional to what has already been published beyond the fact that the funeral was to take place yesterday afternoon at 2 o'clock and that the deceased was a highly respected young man.

To Await Their Trial.

Deputy U. S. Marshal Eaton, accompanied by two special deputies, arrived in this city from Ogden last evening, bringing with them Frank De Camp, Wm. King and S. W. McCoomb, the men charged with trying to blow up the Union Pacific track three miles east of Ogden. They will remain in the penitentiary until their trial, which will take place at an early date.

In the Waterworks Department.

Major Dailey has made no change in the waterworks department by installing George A. Alder as storekeeper. Mr. Alder has assumed the duties of his new place, and other changes in the department will probably soon follow.
