UNITED STATES' NEW ISLANDS

They Lie Just Off the Coast of Borneo.

SEIZED BY AM. WARSHIPS.

It is News in Washington—Believed To Be Those Ceded by Spain After The Treaty of Paris.

Washington, July 15.—The reported seizure of islands off the coast of Borneo by American warships apparently was a great surprise to administration officials in Washington as it was to members of parliament in London. No information that such a step was contemplated has come from the admiral commanding the American fleet in Philippine waters, and no exploitation along the lines indicated has been directed by the officials here so far as could be ascertained tonight.

A very plausible explanation of the reported occurrence is that the commanding officer in the Philippines simply had sent one or more of his vessels and hoisted the flag of the United States over some islands near the coast of Borneo which were purchased by the United States from Spain subsequent to the treaty of Paris and that the sovereignty of the United States over them has been proclaimed formally. These were the Cagayan Zulu group comprising one large and 14 smaller islands and the larger island of Palawan. These islands were not comprehended within the boundaries of the Philippine archipelago when the treaty of Paris was signed. The claim was made later, however, that they rightfully belonged to Spain and that they were formally ceded to the United States by a subsequent action of that goverment and our Congress made an appropriation and paid the purchase price agreed for them.

Jews Satisfied With Conference.

New York, July 15.—In accordance with the understandings at Oyster Bay on Tuesday, Leon N. Levy gave out the following statement regarding the conference between the president and the Jewish committee on the Kishineff position:

"The conference was entirely satisfactory to us. Our views and those of the president are in perfect accord. It has been decided that it would not be well at present to make public any details of the conference. In the meantime it is desired and expected that the petitions now being circulated for signatures should be signed and mailed so as to reach me in ten days. I venture to say that the petition has not been modified in any particular.

"It should be distinctly understood that the petition is neither a protest nor a remonstrance. It does not seek to interfere in Russian affairs. Finally, it is not a petition by Jews, but in behalf of them. It is a petition by Americans regardless of religious affiliations."

Toy Pistol Victims.

Philadelphia, July 15.—Twenty-three deaths from lockjaw as a result of Independence day celebration have been reported in this state up to tonight, seven of the deaths occuring in this city.

Butte, Mont., July 15.—Information has been received here of the death of Andrew Passenberger, a 12-year-old lad of Billings, Mont., from tetanus, the result of injuries received from a toy pistol the Fourth of July. The death of another boy, name unknown, from a similar causes, is reported near Red Lodge.

Portland, Ore., July 15.—Charles Wert and Thomas F. Struble, aged 13 and 14, respectively, died today as the result of injuries inflicted with toy pistols on the Fourth of July.

Pasadena, Cal., July 15.—Burdette Kerr, 12 years of age, is dead from lockjaw, the result of the explosion of a toy pistol on the Fourth of July.

E. F. Masterson Arrested.

San Francisco, July 15.—William A. Pinkerton has received a cablegram from Hamburg stating that E. F. Masterson, who is wanted in Los Angeles in connection with the swindling of the Continental Building and Loan association of San Francisco, out of $102,000 by false representations had been arrested in Lunden, Schleswig-Holstein, Germany, on a provisional warrant and would be held until authority was received by the United States consul at Hamburg from the state department to take him into custody pending the arrival of extradition papers.

The crime for which Masterson is wanted is one of the largest and best planned swindling operations ever perpetrated on the Pacific coast. Acting as agent for the Continental Building & Loan association at Pasadena, he managed, in connection with A. J. Taylor and Henry Christie, to secure $102,000 from the concern, the sum being advanced supposedly as loans on real estate in Pasadena and Los Angeles which were recommended by Masterson in his capacity as agent.

All of the property was greatly overvalued, heavy loans being advanced on unimproved lots of small value. The gang continued operations for six months before detection. At the first intimation of trouble the trio took fight, Masterson making his way to Mazatlan, where he boarded a liner for Hamburg. Detectives were on his trial, however, and his arrest was accomplished at Lunden. Taylor and Christie were apprehended and bound over for trial. The operations of the gang extended from October, 1902, to May of this year.

A NUN'S DEMENTIA.

Tries Self Incineration as Only Means Of Salvation.

St. Petersburg, July 15.—A local newspaper states that a young woman was found lying on the beach of the Gulf of Finland, behind the Sergive monastery, 12 miles from this city, with terribly burned feet and legs. The unfortunate woman had on a monk's cassock. She had been reading religious books and had concluded that self-incineration was the only means of salvation. She attended religious service at the monastery and then calmly prepared her funeral pile. She was unable to bear the pain of the flames and attempted to return home again, but fell helpless and remained 48 hours where she had fallen before being found. Her life may be saved.

RUSSIAN EXULTATION.

It is Over the Increase of Czar's Power in Manchuria.

Port Arthur, Manchuria, July 15.—The conference of prominent Russian officials has ended. Exultation over Russia's increasing power in Manchuria was the dominant note in the gathering. The possibility of taking any backward steps is scoffed at if mentioned by outsiders. It was admitted that the war possibility was discussed, but it was denied that was the object of the conference. The evidence of increase of warlike prepartions since the arrival of Gen. Kuropatkin, the minister of war, and of the intention to bring more troops to Manchuria are abundant. Orders were given to Port Arthur contractors last week for an immediate supply of building materials for barracks to accommodate 20,000 soldiers to be shipped to Harbin.

The officials explained that Russia's opposition to opening Manchurian towns to foreigners was not based upon opposition to foreigners whose trade is desired and who should in due time be invited into the country. But Russia objected, they explained, to having consuls accredited to the Chinese government in towns which are practically under Russian control, which would give the subjects of countries so represented enjoyment of extra territorial rights. They asserted that such arrangements would be certain to result in great friction, such as occurred in New Chwang.

One Rancher Kills Another.

Butte, uly 15.—A Miner special from Glasgow says:

About 4 o'clock this afternoon, at Hinsdale, Robert Walsh shot and killed Joshua Truax. Both men are ranchers near Hinsdale and have lived in that neighborhood for about 12 years. The killing occurred in Dick Pledge's saloon. It is said that the men had some words about some horses and Walsh wanted to fight Truax. When they both got up from a table Walsh knocked Truax down, pulled his gun and shot him in the neck, killing him instantly. Walsh surrendered.

S. P. Engine Explodes.

Oakland, Cal., uly 15.—Engine 2088 of the Southern Pacific broad gauge line in Alameda exploded this morning while hauling a train of six cars to the ferry, bound for San Francisco. Engineer Duncan, Fireman Gale and a shop hand named Hansen, who were in the cab at the time, miraculously escaped with their lives, although they were bruised and burned by the escaping steam. The engine was almost a complete wreck. After exploding, the engine and train ran for a distance of 100 feet and came to a stand. None of the passengers was injured.

The company officials cannot explain the explosion, save by saying that it was due to some hidden defect in the material of the boiler.

WRECK ON MISSOURI PACIFIC.

Ten People Injured, Three of Them Seriously.

Kansas City, July 15.—Missouri Pacific passenger train No. 1 known as the Colorado Limited, which left this city at 6:30 tonight for the west was wrecked at 7:30, 10 miles south of here. Three coaches and the engine were derailed and 10 persons were injured, three seriously. The accident occurred on a straight track near the approach to a bridge and the cause is unknown. Three Pullman cars which completed the train remained on the track.

An engine was sent from here for the three Pullman cars and late tonight the train left for the west over the 'Frisco tracks.

INJURED.

Mrs. C. H. Matthews, Monte Vista, Colo., ribs broken, chest crushed.

R. Broke, Texarkana, legs crushed.

Mrs. Catherine Cole, Pueblo, Colo., serious.

Miss Bertha Hildebrand, Lincoln, Neb., back hurt.

Mrs. A. Smith, Omaha, bruised.

George Thomas, Topeka, colored, cut and bruised.

W. H. Lawrence, colored, St. Louis, cut and bruised.

M. D. Striker, residence unknown, badly cut.

R. Batie, residence unknown, bruised and cut.

G. H. Boody, residence unknown, bruised and cut.

The injured were brought to Kansas City, arriving here at 1:30 this (Thursday) morning.

W. F. Furay of Montana Dead.

Butte, Mont., July 15.—William F. Furay, one of the best known men in the state of Montana and United States marshal during President Harrison's administration, died this morning.

New German Consul at St. Louis.

St. Louis, Mo., July 16.—The newly appointed German vice consul, Ido von Redel, assumed his duties today upon the departure of Dr. F. C. Rieloff, the German consul, who goes to Europe for three months of travel. Consul Rielo will return in October. During his absence Vice Consul von Redel will have charge of the consulate. He arrived yesterday and after Consul Rieloff's return will remain to assist him during the period of the world's fair.

The new vice-consul formerly held the same position to the consul at London, where he remained three years. Prior to that he was judge in the colonial service, being tastioned in German East Africa.

WANTED.

We would like to ask, through the columns of your paper, if there is any person who has used Green's August Flower for the cure of Indigestion, Dyspepsia, and Liver Troubles that has not been cured, and we also mean their results, such as sour stomach, fermentation of food, habitual costiveness, nervous dyspepsia, headaches, despondent feelings, sleeplessness—in fact, any trouble connected with the stomach or liver? This medicine has been sold for many years in all civilized countries, and we wish to correspond with you and send you one of our books free of cost. If you never tried August Flower, try a 25-cent bottle first. We have never known of its failing. If so, something more serious is the matter with you. The 25-cent size has just been introduced this year. Regular size 75 cents. At all druggists.

G. G. GREEN, Woodbury, N. J.

THE OLD RELIABLE

ROYAL BAKING POWDER

Absolutely Pure

THERE IS NO SUBSTITUTE

CZAR ACTS FOR HUMANITY.

Abolishes Harshest Remnants of Barbaric Punishments.

NO MORE CAT-O'NINE TAILS.

To be No More Beating With Cudgels, No More Chaining to Cars.

St. Petersburg, July 15.—The Birzhevia Vedomosti says:

The czar has abolished the harshest remnants of the barbaric punishments of former times, namely, castigation with cudgels and cat-o'-nine-tails, chaining to the car, shaving the head, which were still inflicted for certain offenses on persons exiled to penal settlements or to the mines. Castigation with the cat-o'-nine-tails and even with cudgels not infrequently ends in death, and was one of the harsh forms of death penalty, being death by torture. Only the most hardened prison administration could stand the terrible sight of the human beings under the measured blows of the cat-o'-nine-tails. The cudgel and the "cat" are replaced in the new statute, says the newspaper, by prolongation of terms or by solitary confinement up to 100 days, with bread and water, except every third day, when hot food will be served at one meal. The abolition of the cudgel and "cat" does not, however, mean the prohibition of capital punishment altogether. The revised statute of June 15 prescribes chastisement with birch reeds up to 100 blows "for light offenses and misdemeanors," according to the same authority, and this matter is left entirely to the discretion of the prison authorities or the local governos.

"Lives of rich men, if we knew them,
Might not seem so blamed sublime,
Oft the stomachs fastened to them,
Keep them doping all the time."

Wall Street Poet.

The grind for money and fame nowadays works the brain so hard that it takes away the power from the stomach and so Finanglers, Lawyers, Doctors, Merchants, Great Actors, School Teachers and even thinking and successful Farmers suffer from a lack of power to digest food.

Fact! Fact! Fact! and a deplorable fact.

But there's a way out of it. An old thoughtful money maker was an invalid for about 8 years. During this time and four years after, he studied Foods, Hygiene, Dietetics, Medicine and Suggestive Therapeutics. He got well and during the 12 years of experience and study developed a way for brain workers to keep well. He has been over the hard and rough roadway step by step. Does his experience count for anything? Can he point you to the rocks that ruin men? Can he guide you to safe and healthful channels?

Since he got well he has made 10 or 12 million dollars which is one evidence of the practical results and literally thousands of brain workers in America and England date their recovery to health and money making power from the day they began to follow his advice.

What is it?

First quit coffee absolutely. It slowly and surely exhausts the elements in brain and nerve centers that must be there or brain fag follows. In order to do this take up Postum Coffee for it supplies the phosphates and other elements needed to naturally, by food in liquid form, rebuild the broken down gray matter in brain and nerve centers.

This same is true of Grape-Nuts breakfast food.

Set up your breakfast like this:

A little fruit, cooked preferred. A dish of Grape-Nuts (not a large one) with some thick, rich cream (insist on it) a cup of hot Postum Coffee with thick cream, one or two soft eggs. Nothing more unless it be a slice of entire wheat bread. The same for luncheon, then for the night dinner have a good generous portion of meat, one or two vegetables, a Grape-Nuts pudding and a cup of Postum Coffee and insist on the thick cream.

You will digest these meals, sleep like a baby and find the next day that something has been going on in your body that gives you the delicious sense of power and health and you can in a masterful way "do things" and get results.

Is it worth while? The masters of mankind are first masters of themselves and put into practice the knowledge of trained experts in the art of body and brain building.

You can rule if you will. You must have a healthy body and brain to do it. "There's a reason" and its just good old common sense.

FRAUD THROUGH ARMY CONTRACTS

Senator Alger Contradicts Harper's Weekly's Assertion.

IT MADE SERIOUS CHARGES.

Declared Government Was Defrauded Out of Millions While He Was Secretary of War.

Detroit, Mich., July 15.—United States Senator Alger gave out the following interview tonight in regard to an editorial published in the current issue of Harper's Weekly, charging practically that during the time Senator Alger was secretary of war the government was defrauded out of millions of dollars on army contracts:

"If there was any corruption in the war department during the time when I was secretary, or if there was any reason for thinking there might be such corruption, I knew nothing of it and I do not believe there was any such corruption.

"The assertion made here is a very broad one and the men who make the charges and the paper that publishes them will be held to the strictest accountability.

"I hope that the matter will be investigated to the very bottom in order that the facts may be fully demonstrated.

"I did not even know that any glove contracts had been made. Matters of detail of that kind were left to subordinate officials, and I suppose that many minor contracts were made without being submitted to the head of the department during the time when the army was being mobilized and when there was a great mass of business to be attended to.

"However, I believe that the men who purchased the supplies during my administration were as honest, conscientious and efficient as any set of officials who ever served in the war department."

Andrews Not in Reform Party.

Lincoln, Neb., July 15.—Chancellor E. Benjamin Andrews today denied any connection with the Reform party movement at Denver. Mr. Andrews said:

"I have had no invitation to attend any meeting of the sort, and I am not in sympathy with an endeavor to start a new political party. My name was put on the list without any sanction. I have had no communication with any of the promoters of the movement."

W. H. Doerner Arrested.

Cumberland, Md., July 16.—William H. Doerner has been arrested on a warrant sworn out by Clarence Christie, auditor of the Baltimore & Ohio railroad, charging Doerner with embezzling $17,341 of the company's funds. Doerner had been cashier for ten years and declares he is a victim of faulty bookkeeping.

Frank Manoley Indicted.

Baltimore, July 16.—A presentment has been found by the grand jury against Frank Manoley, the young woodworker, who says he shot his wife while dreaming he was attacked by a burglar. Manoley passes most of his time in his cell reading his Bible.

Report on Iowa's Gun Explosion.

Washington, July 15.—The expert board of naval officers appointed to investigate the cause of the explosion of the Iowa's 12-inch gun on April 9 last, has filed its report and it has been approved by Rear Admiral O'Neil, chief of ordnance. The board finds that the gun was burst by the sudden application to the bore under the "E" bore hoop of gas pressure greatly exceeding that which would result from the normal action of the powder charge being fired in it.

Capt. Harts Heavily Fined.

San Francisco, July 15.—Capt. William W. Harts, U. S. A., who came from the orient on the transport Thomas and who failed to declare 153 articles in his baggage subject to customs duty, today paid a fine of $1,971.12 to the collector. This money will be held subject to the decision of the treasury department to which Capt. Harts' will appeal to have the fine remitted. The articles were appraised at $657 and will be confiscated unless the department decides favorably to Harts.

Statute to Washington in London

London, July 15.—At a meeting of the executive committee of the Pilgrims club tonight a committee was appointed to give effect to the recent suggestion to erect a statute to George Washington in London.

Archdeacon Sinclair announced that he was authorized to offer a place for the statue in St. Paul's cathedral.

Fire at San Luis Obispo.

San Luis Obispo, Cal., July 16.—One-sixth of the business portion of this city has been burned out with a loss of over $100,000. For a time it threatened to destroy the business center of the town and the flames were only subdued by the firemen after a hard fight. The cause of the conflagration is not known, but it is generally believed that it was created by small boys, who built a fire on the bank of a creek under Childer's bicycle store.

APPEAL FROM RUSSIAN PRISON

An American Citizen Writes Asking for Help.

San Rafael, Cal., July 16.—George McCamish, whose relatives live here, has written them from a Russian prison at Vladivostock appealing for help. Although the letter was written and mailed six weeks ago, it has just reached here.

McCamish and two other Americans sailed from Yokohama with permission from the government of Japan to hunt fur animals in the Kurrie islands. They were caught in a gale and swept toward the Russian islands, where they eventually went ashore to get water and other supplies. The Russians suspected them of sealing and threw them into jail. There they have since remained, half starved and shut off from any appeal to the representative of their government, doomed to long terms of imprisonment. An effort will be made to have the authorities at Washington act in the matter.

Report on Yellow Fever.

Washington, July 16.—Surgeon-General Wyman has submitted to Secy. Shaw the full report of the commission of scientists appointed to collect facts concerning yellow fever. This commission acting in conjunction with the yellow fever institute, visited Vera Cruz, Mexico, and after a six months' investigation there and further study of the subject in this country has reached the following conclusions:

"1—That the bacteriolgic examination of the blood of cases of yellow fever during life, and the blood and organs at autopsy performed immediately after death in uncomplicated cases, is negative.

"2—That stegomyia fasciata, when contaminated by feeding on a case of yellow fever 41½ hours after the onset of the disease and subsequently fed on sugar and water for 22 days, one and a half hours can, when permitted to feed on a non-immune individual produce a severe attack of the disease.

"3—That stegomyia fasciata contaminated by feeding on a case of yellow fever, and after varying periods killed, sectioned and appropriately stained presents with regularity a protozoan parasite, myococcidium stemogyiae, that can be traced through a cycle of development from the gamete to the sporozoite.

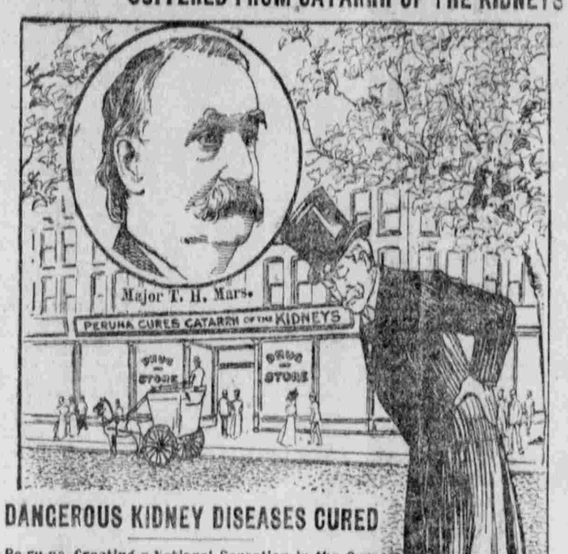
"4—That stegomyia fasciata fed on blood from a case of malarial fever, on normal blood or artificially fed, does not harbor any parasite indicated in conclusion three."

The Eppingers Will be Indicted.

San Francisco, July 16.—The Chronicle says:

The grand jury, by unanimous vote, has decided to return indictments against Jacob Eppinger and Herman Eppinger of the firm of Eppinger & Co., for obtaining money under false pretenses. There were 14 of the 19 grand jurors present. The indictments will be returned into court tomorrow afternoon, to which time the jury adjourned. The crimes upon which the indictments of Jacob Eppinger and Herman Eppinger are based are the obtaining of money under false pretenses from the Bank of Monterey and the National Banking corporation of this city.

FOR TWENTY YEARS MAJOR MARS SUFFERED FROM CATARRH OF THE KIDNEYS



DANGEROUS KIDNEY DISEASES CURED

Pe-ru-na Creating a National Sensation in the Cure of Chronic Ailments of the Kidneys.

Major T. H. Mars, of the First Wisconsin Cavalry regiment, writes from 1425 Dunning street, Chicago, Ill., the following letter:

"For years I suffered with catarrh of the kidneys contracted in the army. Medicine did not help me any until a comrade who had been helped by Peruna advised me to try it. I bought some at once, and soon found blessed relief. I kept taking it four months, and am now well and strong and feel better than I have done for the past twenty years, thanks to Peruna."—T. H. Mars.

At the appearance of the first symptom of kidney trouble, Peruna should be taken. This remedy strikes at once the very root of the disease. It at once relieves the catarrhal kidneys of the stagnant blood, preventing the escape of serum from the blood. Peruna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action and digestive system, both of which are apt to fail rapidly in this disease.

Peruna cures catarrh of the kidneys simply because it cures catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

PAPA—Oh, what a pain! I believe I have a fever in the heart. 558

MAMMA—Nonsense, it isn't your heart, it's your stomach. Every time you eat, this hot weather, you get a sour stomach full of hot gases and acids, and you swell up until your heart hardly has room to beat. If you were not so obstinate, you'd take my advice and keep your insides cool by taking a CASCARET Candy Cathartic every night before going to bed. They work while you sleep and keep you regular in the hottest weather.

Constipation Cured.

Those who have used salts, castor oil, and the many home and manufactured purgatives, know that in such treatment there is no possibility of cure from constipation. These remedies are at most physics and do absolutely no good. In fact they frequently provoke piles, fistula, female disorders and many cases of appendicitis are traceable to their use. Soon the ordinary doses of these physics fail to have any effect upon the bowels.

There never was a case of temporary or obstinate constipation that

Mull's Grape Tonic

would not cure. First, Mull's Grape Tonic is unlike any other treatment for constipation. It is the greatest and most positive laxative known. But that isn't what cures. It is the tonic properties of the grape and other fruits that strengthens the worn-out muscles of the intestinal tract. Mull's Grape Tonic builds flesh, makes strength and creates rich, red blood. Mull's Grape Tonic is the finest thing ever known for constipation. It is guaranteed to cure you. Large sample bottle sent free to any address on receipt of 10 cts. for postage by Lightning Medicine Co., Rock Island, Ill. Send your druggist's name.

All druggists sell Mull's Grape Tonic at 50 cents a bottle.

UNIVERSITY OF UTAH

The University of Utah includes the School of Arts and Sciences, the State School of Mines, and the State Normal School.

SCHOOL OF ARTS AND SCIENCES.

The School of Arts and Sciences offers courses in:
1. General Science.
2. Liberal Arts.

STATE NORMAL SCHOOL.

The Normal School offers:
1. A four-year Normal course.
2. Advanced Normal courses.
3. Courses in Kindergarten Training.

STATE SCHOOL OF MINES.

The School of Mines offers courses in:
1. Mining Engineering.
2. Electrical Engineering.
3. Civil Engineering.
4. Mechanical Engineering.

PREPARATORY SCHOOL.

A preparatory school is maintained which gives preparation for the courses in General Science, Liberal Arts, Engineering, Law, Medicine, and Business.

The shops and chemical, physical, electrical, mechanical, assaying, and metallurgical laboratories are unsurpassed in the completeness of their equipment.

The proximity of great mines, reduction works of various kinds, and power houses for the generation of electricity, affords unexcelled advantages for thorough and practical work in all the engineering courses.

Manual training and domestic science are features of the normal courses.

Entrance examinations, September 9th, 10th and 11th. Registration of students, September 11th and 12th.

Students will be assisted in finding suitable boarding places.

Annual registration fee, $10. No tuition.

Send for catalogue and illustrated circular and learn what excellent opportunities the University offers for a broad, liberal, and practical education.
