SAVE YOUR HAIR. TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Draw and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

U. S. Supreme Court.

WASHINGTON, 4.—In the Supreme Court decision in the case of Washington Ford, plaintiff in error, against James Surget, the judgment is affirmed. The question is whether the owner of cotton burned by Surget under orders from the southern military authorities can recover from Surget its value. The jury gave a verdict for the defendant, and the Supreme Court of Mississippi affirmed the judgment. The United States Supreme Court holds the destruction of the cotton to prevent it from falling into federal hands was an act of war and the executor of such orders was relieved from civil responsibility therefor.

The Chinese and the Burlingame Treaty.

The *Star*, this evening, publishes the following, which there is good reason to believe was furnished or inspired by one of the outside agents of the six companies now in Washington, and which may, therefore, be considered a fair indication of what aid can be expected from the Chinese in procuring a modification of the Burlingame treaty. The mission of the Chinese embassy to this country is said to be to protect the rights of the Pekin government in case any legislation is attempted to reverse the Burlingame treaty, so as to give this government some control of the matter of the Chinese immigration. The Chinese have an idea, founded upon demands made by a congressional committee from the Pacific Coast, that to bring the control of immigration solely within the power of the United States is virtually to prohibit it. It is believed that if such action is insisted upon by Congress, China will take measures to prohibit American immigration to the same extent that Chinese immigration is prohibited in the United States. To guard well the interests of China in this respect is said to be the specific duty of Chen Lan Pin and his suite in coming to the United States.

Mortality Report.

NEW ORLEANS, 4.—The mortality report for the week ending at 6 p.m., Sunday, shows 193 deaths against 210 the previous week, and 69 of yellow fever against 177 the preceding week.

The Chinese Embassy.

BALTIMORE, 4.—The Chinese minister and suit accompanied by Rogers, private secretary to the President, and Commissioner Le-Jue, visited the Maryland Institute fair to-day.

The *Herald* says: Chin Lan Pin, the Chinese minister, was the attraction at the Maryland Institute fair in Baltimore yesterday. He drew immensely, and was hospitably entertained by the managers who entertain none of the foolish prejudices of the San Franciscans.

Kidnapping.

CHICAGO, 4.—James Donahoe, recently arrested in Detroit and brought here on a charge of swindling Henry Helberg out of $500, and who is out on bail, succeeded in kidnapping Helberg, who was the principal witness against him. This is the second attempt to kidnap Helberg.

Schooner Wrecked.

The schooner *George P. Morris*, from Chicago to Buffalo, worth $10,000, is reported to have gone down on the upper coast of Michigan with all on board, namely, the captain, mate, cook, and the cook's son. She met a terrific gale and is a total loss. The cargo was grain worth about $5,000.

Shooting Cases.

LITTLE ROCK, 4.—Carter McClellan, a prominent colored politician, was shot and killed by another colored man, a few days ago, near Pine Bluff. No particulars.

Captain L. Q. C. Elliott, a prominent citizen of Cusahlta county, was shot and instantly killed by John Quillen on Saturday. Cause, criminal intimacy between Elliott and a sister of Quillen's.

Bodies Discovered.

DUBUQUE, 4.—Two weeks ago, Jennie Coyle and her infant child, living with her brothers on a farm near Fort Dodge, disappeared, and no trace of them was found till yesterday, when the bodies of both were discovered in a well. The supposition is that it was a suicide, as she lived unhappily.

WESTERN.

Shaping for a Fight.

SAN FRANCISCO, 4.—On Friday night the Irish citizens held a mass meeting at Union Hall, to denounce the utterances of Col. F. A. Bee, as published in the Washington *Post*. T. F. Omalley Baines, the Irish exile, who took a prominent part in the proceedings refused to allow Wm. Wellock, vice-president of the Workingmen's party, to speak, on the ground that he was an Englishman and had no business at the meeting. At the Sand Lots, yesterday, Wellock denounced Baines as a Fenian renegade and a traitor to his country. To-morrow Baines will publish in the morning papers a card, demanding that Wellock retract his language or name his time and place for a hostile meeting to settle the affair.

FOREIGN.

GREAT BRITAIN.

Spotless Magnolias.

LONDON, 4.—The short time movement is gradually extending in the mills of Burnley, where there will soon be 250,000 spindles and 6,000 to 7,000 looms operated on short time. The India mill, the largest in Darwen, has stopped. The railway companies in the cotton districts are discharging employes and reducing wages because of the stagnation in traffic.

The Afghanistan Affair.

Colonel Lindsay, financial secretary of the war department, in a speech at Abingdon, yesterday, said that England's ultimatum infeoned the Ameer that the Russian embassy must withdraw and that he must not enter into a Russian alliance but must preserve a neutral attitude.

Calcutta, 4.—Information has been received from Simla, to the effect that the Ameer, in his recent reply, said he had been anxious for the British friendship, but that the British policy changed with each new viceroy. The Ameer declares that he is open to make a new treaty; that he is not bound by any Russian alliance, and did not invite the Russian embassy to Cabul.

Simla, 4.—It is reported that Thero Ali is at Jellalabad, determined to attack the British forces near Khyber Pass and Quettah, unless the British take initiative.

The Halifax Fishery Question.

The *Pall Mall Gazette*, in a leading editorial article, says that the United States should choose this precise moment to publish what seems, from a telegraphic summary, to be a rather threatening dispatch addressed by Secretary Evarts to the American minister Welsh, and which can scarcely be regarded as accidental. All the world can see that we have on our hands just now as much as we can well deal with, and a really friendly power, with a grievance like that, whilst holding to its position, would refrain from casting matter in an irritating way before the public until our affairs had assumed a more peaceful aspect. At any rate, this is what, according to the admirers of the *Alabama* arbitration, we might certainly have expected from America. The truth is, that while the very party with which the bargain was made still holds office in the United States, the first opportunity is seized to make a point against us just when it is reckoned that other difficulties will cause us to give way. Nothing else was to be expected, and for our part, we are inclined to thank Evarts for showing our countrymen that nations, generally, are no more inclined to forego their advantages over one another in the nineteenth century than in the eighteenth, seventeenth, sixteenth or first. Let sentimentalists blame Evarts, for he has disappointed them, not us. American newspapers of all shades of political opinion, without giving a moment's consideration, (let us hope) to the fact that the quarrel has nothing whatever to do with the award of the $5,500,000, made in favor of Canada at Halifax, come forward at once, with the contention that this money, due and long overdue to us, must not be paid until and unless this new difference is settled in the way they think right. Nine million dollars of the *Alabama* indemnity remain without any reasonable claimant, and here are $5,500,000 more to be retained. We should have supposed that the Americans could scarcely afford to recall attention to the various matters relating to the Washington treaty, and the manner in which its provisions have been carried out. But then we, too, have a little sentiment about us, for in truth the whole story is one of continued attempt at evasion, and evasion of a somewhat shabby kind, and curiously enough advantage was taken of local regulations—the local regulations of the State of New York—to avoid compliance with one of the most important stipulations of the treaty in favor of Canadian shipping. Therefore, Lord Salisbury has open to him some very pertinent retorts. But two wrongs do not make a right, and if it appears that the Newfoundlanders, who do not form part of the Dominion, had no right to take the law into their own hands, in view of the arrangements entered into on their behalf, of course, compensation will have to be made. When, however, the Americans argue that the whole fishery question may have to be reopened, we are at liberty to disregard what they say, or we might answer that if so some other points would have to be reconsidered at the same time. Thus it would be at least arguable on the part of Canadians, that very serious claims of monstrous injuries inflicted by the American citizens on British subjects during the Fenian raids, should again be put forward. Since, according to the every recognized principle of international law, the United States were, to the fullest extent, responsible for those outrages. We mention that, however, only to show how troublesome it is to go too far back in such matters and mix up questions which ought to be kept separate. It may be possible that Lord Salisbury has taken up a false position with respect to the local or other rights of Newfoundland, though, since he had all the facts before him and the knowledge that he was dealing with a very thorny question, we may fairly hope that he has not done so. But, in any case, we shall have the satisfaction of knowing that whatever discredit there may be in this talk of keeping the money back or suddenly springing diplomatic mines at an awkward time, it is not ours.

SHORT AND SHARP.

The ways of a man who married a $10,000 wife and thereby a $20,000 mother-in-law, are past finding out. "No man serve, two masters."

"Ours was none of your front gate common matches," said she; "no, no; it was a regular, high-tone parlor match!"

A Philadelphia belle is said to have been asked in marriage 100 times, marrying the hundred than. The rest go around singing, "I am one of the Ninety-and-nine."

"That boy will make his mark in the world some day," said a parent of his dullest child. So he did. He never learned to write.—*Edinburgh Herald.*

We are glad to learn even at this late day, that Thomas Jefferson would turn aside rather than step on a bumble bee. He was barefooted when he felt that way, of course.

No man can have any idea of the cash value of an old three-legged stove or a shaky bedstead, until the same is put up at auction and two women get to bidding against each other.

It's amusing to see an abused street dog fly around an adjacent corner with his tail closely reefed, when a six foot female suddenly stoops to pick up her trail.—*Wheeling Leader.*

The father who won't let his daughter sit on the front steps with her beau these cool nights has no respect for the men who manufacture cough syrups.—*Philadelphia Chronicle-Herald.*

It is an interesting sight, watching a young lady in Sunday School endeavoring to instruct a class of little girls, while her own mind is centered upon a class of big boys.—*New York Express.*

You may talk about the "lean and hungry Cassius," but did you ever take a side view of the man who has run a store for ten years without advertising?—*Brooklyn Democrat.*

A little boy from New York went into the country visiting. He had a bowl of bread and milk. He tasted it and then hesitated a moment, when his mother asked him if he didn't like it, to which he replied, smacking his lips: "Yes, ma, I was wishing our milkman would keep a cow."

It has been remarked that women never sleep in church, and inquiry is made as to the reason of her wakefulness. If a man were compelled to make an inventory, during the one hour of church service, of the dry goods displayed upon the ladies, he would immediately understand the reason why women never sleep in church.—*Chicago News.*

THE SUN FOR 1878

The *Sun* will be printed every day during the year to come. Its purpose and method will be the same as in the past. To present all the news in a readable shape, and to tell the truth though he heavens fall.

The *Sun* has been, is, and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American Journal.

The *Sun* is the newspaper for the people. It is not for the rich man against the poor man, or of the poor man against the rich man, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, class, sect or party. There need be no mystery about its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat against the dishonest Republican, and for the honest Republican as against the dishonest Democrat. It does not take its cue from the utterances of any political or political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this Republic was founded for the people. Whenever the Constitution and constitutional principles are violated—as in the outrageous conspiracy of 1876 by which a man not elected was placed in the President's office, where he still remains—it speaks out for the right. That is THE *Sun's* idea of independence. In this respect there will be no change in its programme for 1879.

THE SUN has fairly earned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879, than in 1878, 1877, or any year gone by. THE SUN will continue to shine on the wicked with unmitigated brightness.

While the lessons of the past should be constantly kept before the people, THE SUN does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chiefly with the affairs of to-day. It has both the disposition and the ability to afford its readers the promptest, fullest and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well established prosperity will be liberally employed.

The present disjointed condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of Congress, and the movements of the leaders in every section of the Republic will have a direct bearing on the Presidential election of 1880—an event which must be regarded with the most anxious interest by every patriotic American, whatever his political ideas or allegiance. To these elements of interest may be added the probability that the Democrats will control both houses of Congress, the increased feebleness of the fraudulent Administration, and the speedy and strengthening everywhere of a healthy abhorrence of fraud in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well-known methods, the principles that should guide us through the labyrinth, will be an important part of THE SUN's work for 1879.

We have the means of making THE SUN, as a political, a literary and a general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely.

Our rates of subscription remain unchanged. For the DAILY SUN, a four page sheet of twenty-eight columns, the price by mail, postpaid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight page sheet of fifty-six columns, the price is 65 cents a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.20 a year, postage paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address
