BELLINGER'S ORDER

Means That the Oregon Short Line & Utah Northern Must Be Sold

TO SATISFY THE MORTGAGE.

Judges Sanborn and Merritt Most First Hear the Case, Though—Thurston Explains.

PORTLAND, Or., July 16.—Judge Bellinger, in ordering the foreclosure of the consolidated mortgage, gave a brief oral decision. He paid little attention to the question of jurisdiction raised by the defense. He said that the road was now in the hands of the Union Pacific receivers, who were appointed by the court and were officers of the court. The road was controlled by the court, and the suits concerning it had to be decided here. He said that the consolidated mortgage, amounting to $4,000,000, was not disputed by the Short Line attorneys. They had not denied that it was valid, nor that the interest due on the bonds issued under it had not been paid. In answer to the bill of complaint filed by the trust company they had not set up any claim against the legality of the mortgage.

Then he went on to say that in the arguments which the Short Line attorneys made against foreclosure, no objection to the plaintiff's right to enforce it had been made. The objections were purely technical. They concerned merely the form of procedure in the courts. The answer had said that the mortgage was not fully described in the bill, but it was not denied that the copy of the mortgage was a true copy, and it was therefore to be inferred that it was a correct copy.

The decision means that the Oregon Short Line & Utah Northern, or such portion of it as lies within this circuit, must be sold at public auction to satisfy the consolidated mortgage. The foreclosure is upon the failure of the company to pay its interest.

Before any action can be taken, the case must be heard and decided by two other United States judges—Sanborn of St. Paul and Merritt of Salt Lake. One of the company's property is in Wyoming, which is in Judge Sanborn's circuit, and part in Utah, which is in Judge Merritt's district. It is presumed that Judges Sanborn and Merritt will concur in the opinion, and make decree to solve the entire property of the company. There may be much delay about it, because these judges may permit the Short Line attorneys to withdraw their answer to the bill of complaint, and file another, as they tried to do here. Should this be permitted by the other judges, it will mean further delay.

It is understood that the road will be bought in at the foreclosure sale by the American Loan & Trust company, subject to the first mortgage held by the Farmers' Loan & Trust company, and thus secure control of the road, as is desired to do by the appointment of separate receivers.

NOT SURPRISED.

OMAHA, July 16.—General Solicitor Thurston, of the Union Pacific, said today that the granting of the decree prayed for in the Oregon Short Line & Utah Northern case at Portland was expected by everybody connected with the company.

"Since the sale of the property is recommended,' said Mr. Thurston, 'necessarily similar decrees will be sought for from courts in whose jurisdiction the property lies. This will take some time. Then, again, the reorganization committee will have to get together and unite what now seem divergent interests upon some common basis. This done, a company will have to be formed for the purchase of the property. The defaulted interest will always be paid before the new company can succeed to the control of the property."

Gold Withdrawn.

NEW YORK, July 16.—An amount of gold, estimated at from $50,000 to $100,000, was withdrawn from the subsidiary sale this afternoon, supposedly for shipment on the steamship St. Louis tomorrow. Neither the sub-treasurer nor the firm would give any information regarding the matter. Gold to the amount of $100,000 was withdrawn from the Merchants' National bank today to ship to Canada.

Morley Defeated Too.

LONDON, July 16.—The chief event of the day was the defeat of ex-Postmaster General Morley, making the fourth ex-minister in Lord Rosebery's cabinet who has been sent to oblivion.

At Northampton, which is a radical stronghold, Henry Labouchere had a majority greatly reduced and the conservative won the other seat. The national majority in Birmingham and Aston Manor indicates that the Liberal-unionists continue to be the most important factor in politics.

The resolution of Speaker Gully has started congratulations all around. A minority of unionists supported him on the ground that a member chosen as speaker might not to be disturbed.

Sir William Vernon Harcourt, the liberal leader who was recently defeated by Mr. C. Drage, conservative, at the election held for members of Parliament to represent the two seats of Derby, has accepted the offer of Mr. C. F. Warrington, Q. C., who was recently nominated to stand for election in West Monmouthshire, to retire in his favor.

The *Chronicle*, referring to the disputes between the different sections of the Irish parliamentary party, says: "The people are sick of the miserable quarrels, and the vile personal imputations by which the great cause is dragged in the mud."

Hottest of the Year.

KANSAS CITY, July 16.—The mercury fairly sizzled as it bounded up to the top of the thermometer of the United States weather bureau today. It reached 99 at 3 o'clock this afternoon, and stayed there until Old Sol sneaked away behind the western hills. On the streets, however, was where the most of sweltering humanity felt the severity of the heat. The street realtors ranged from 10 to 20° in the shady side of the street.

Out in Kansas yesterday was the hottest for the year with today's reports yet to be heard from. The hot winds are blowing across the fields, blistering everything within reach.

There was one prostration in Kansas City today.

QUINCY, Ill., July 16.—The thermometer registered 100 in the shade this afternoon. Wesley Collins of Durham, Mo., became crazed while working in the sun and killed himself.

STAMBULOFF'S CONDITION.

Hope That He May Recover—A Political Plot.

SOFIA, July 16.—The condition of M. Stambuloff this evening is such as to give slight hopes that he may yet recover from his wound.

M. Stambuloff has made a statement to the police officials, who has ordered the arrest of Tufekhtchiff, who was formerly charged with the murder of M. Beichoff, the Bulgarian minister of Roumelia, while in company with M. Stambuloff. Mme. Beichoff, it will be recalled, was inclined to believe that M. Stoinoff if was the murderer of her husband, and a warrant was issued, but never executed, for his arrest.

A man who witnessed M. Stambuloff's continuous pursue the assassins last night says he saw a policeman strike the assassins, because of the latter's refusal to give up the revolver with which he was chasing the criminals, to whom the policemen were not paying attention.

M. Stambuloff has long been convinced that he would fall a victim to the vengeance of the friends of Major Panitza, whom he caused to be executed after he had been convicted of treason in 1883, for conspiring against the life of Prince Ferdinand, since the refusal of the government to give M. Stambuloff his passport to Carlsbad, representatives of the diplomatic corps here have frequently called the attention of the government to the fact that they had become aware that an attempt to put the ex-premier's life was impending. Not a single member of the cabinet has called upon M. Stambuloff since the latter was wounded last night.

LONDON, July 16.—A Berlin dispatch to the *Daily News* reports that the *Vossische Zeitung* says that the Stambuloff outrage was political. The Bulgarian government is pronounced accessory to the crime, and Prince Ferdinand is also an accessory. The latter always preferred the better part of valor. With the death of Stambuloff the career of Bulgarian independence is in the balance, and the land becomes a Russian government.

The *National Zeitung* says that Italy like were without Bulgaria, for not only Stambuloff, but most probably also independent Bulgaria, received its death blow.

The *Standard's* Carlsbad correspondent says the Stambuloff outrage caused great excitement here. Prince Ferdinand of Bulgaria is staying in the English quarter incognito, very vexed at detectives. He is rarely seen, and sits at a corner table in the Postlof cafe outside Carlsbad every morning with a large suite. He returned to Sofia for the rest of the day. He now, as at the time of Major Panitza's execution, goes about in fear of his life.

All the London newspapers have severe articles on the Stambuloff affair, condemning Prince Ferdinand and the Bulgarian government.

Half a Dozen Mills Shut Down.

ATTLEBORO, Mass., July 16.—As a consequence of the order from the secretary of war forbidding the use of any water from Fox river for power purposes, all the mills in Fox valley, some fifty in number, are shut down, except less than half a dozen, which have steam power. If the order is strictly enforced there will be no electric car service, no street nor private light in consumers until the Edison company can substitute steam for water power. In the meantime many hands will be idle and many thousands of dollars profit will be lost by the manufacturers.

The Suits Bond.

TOPEKA, Kan., July 16.—The first yesterday afternoon caused two rails on the Atchison, Topeka & Santa Fe railroad, two miles west of Emporia, to spring about two feet out of line. The pressure was so great that the spikes were torn out, and the bending of the rails caused such a loud report that the attention of some trackmen near by was attracted, and a passenger train, then about due, was flagged just in time to save it. Two hours earlier, about 2 o'clock, trains Nos. 114 and 41, eastbound, met with a delay of an hour from the same cause in Osage county.

AS VIEWED IN SPAIN.

Universal America Does Everything to That Country.

NEW YORK, July 16.—A dispatch to the *Herald* from Madrid says Senator Castelar last evening said: "I ought not to meddle in a question involving a conversation between two gentlemen, but I must say that the ideas expressed by the American ambassador in Paris, or those attributed to him, have spread throughout the country, thus injuring an island that the United States are supposed to defend.

"When the old regime ended and we prepared to finish up slavery in 1868 the separatists initiated a war that never would have occurred to them in the time of colonial servitude.

"Now when the Spaniards are about to increase the privileges of the island, without damaging the national unity, back they go to war, which I consider is as anti-human as was the action of the slave owners towards the redeemer of the slaves, Lincoln.

"When Spain represses the insurrection, and she will repress it quickly, what will the United States say of beautiful Cuba be reduced to the condition of a rebellious state. Spain will not interfere with Cuban progress but the fault will be with those who sustain deceitful hopes.

"With Americans are not just to the country which was the mother and discoverer of America. Cosmism in literature and art still reigns in Europe and there still exists throughout the world a sort of religion called Hellenism, because Greece was the initiator of European civilization. In Occidental countries we have made Roman civilization digest and called it catholicism.

"Well, America must sooner or later create a religion which will be called Hispanism, because from the Mediterranean to Patagonia, America owes its civilization, which has been its life, to Spain and the logical laws of religion and society decree that Spain shall always be an American power in the interests of our planet and the good of humanity.

Prelates Excited.

GALESBURG, Ill., July 16.—A sensation prevails here in Prelates circles over the order issued by the Catholic Knights of Pythias to renounce the organization.

English Liberal Defeat.

NEW YORK, July 16.—A dispatch to a local paper from London says:

As the borough results develop it becomes evident that the reaction against the liberal party is not confined to any issue or locality. Nothing could be more impartially distributed than its evil fortune. The latest list of losses covers all sorts of electors and smashes another group of ministers, among whom Arnold Morley can be well spared. It is assumed now that Asquith will be beaten in Fife and probably John Morley in Newcastle and it is obvious that there will not be safe seats enough left to provide for them all. Harcourt, it is said, will come in for West Monmouth.

The indicant worthiest of attention now is that the liberal who set in Pinsbury has been heavily beaten also that the force in late elected another person for national liberal. Today the first of the rural districts will begin to vote and from all one hears they will not do anything to change the current political drift.

The St. Louis's Chief Trip.

NEW YORK, July 17.—The American liner St. Louis will start for Southampton for the third time today at 11 o'clock. She will take the usual short cut course, as the fine weather season is about over. Many of her admirers are confident she will now lower some records.

O'CONNELL'S RESIGNATION.

Speculations as To the Cause of It and His Probable Successor.

NEW YORK, July 17.—The *Herald* today says: The resignation of the Rt. Rev. Mgr. Dennis J. O'Connell from his office of rector of the American college at Rome has started considerable speculation as to the future of this American prelate and about his successor in the resigned position.

Mgr. O'Connell has been in poor health for some time and his resignation has been partly assigned to this fact. One other reason given for his resignation is that he is to be made an auxiliary bishop to help Cardinal Gibbons in the word of the See of Baltimore.

The American college was established in Rome by the bishops of the United States under the leadership of Archbishop Hughes in 1859. It was formally opened on December 7 of that year in a former Dominican convent. The money to buy the property, $200,000 came from contributions by United states dioceses.

The name, of Mgr. John M. Farley, vicar general, pastor of St. Gabriel's church, this city, has been mentioned for the vacant rectorship. The nomination of the candidate will be made by the archbishop of Baltimore, Boston, Philadelphia and New York.

Towne's Death Causes No Change.

SAN FRANCISCO, July 16.—General Superintendent Fillmore said this afternoon that the death of Mr. Towne would cause no immediate changes in the railroad offices. He had heard nothing from officials of the Huntington. The exact whereabouts of C. P. Huntington is not known, as he is traveling in Germany, and it is not expected that he will be heard from for some time. H. E. Huntington is in his city seat from Colonel Bolton, and may not yet have received the cablegram that was sent him.

It is said that H. E. Huntington, who has had the position of assistant to the president of the Southern Pacific, will succeed to the second vice-presidency.

William G. Curtis, engineer of the maintenance of way department of the company and chief assistant to Mr. Towne as general manager, will probably succeed him, temporarily at least, in the last mentioned capacity.

Reader, did you ever take Simmons Liver Regulator, the "King of Liver Medicines?" Every body needs this a liver remedy. It is a sluggish or diseased liver that imparts disease and misery and constipation, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Biliousness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons Liver Regulator and you'll get rid of these troubles and give ease to the whole system. For a laxative Simmons Liver Regulator is BETTER THAN PILLS. It does not gripe, nor weaken, but greatly refreshes and strengthens.

Every package has the Red Z stamp on the wrapper. J. H. Zeilin & Co., Philadelphia.
