Dr. Dunford, Denver:

Your son was killed last night in the explosion. Have received the body. I am waiting instructions.

MRS. J. LAMBERTY.

The foregoing dispatch was received by Dr. Dunford this morning. A telegram has been sent to Butte asking for further particulars, and a reply is expected this afternoon. In case the report is verified Dr. Dunford will take the evening's north-bound train for the scene of the accident. Alma Bailey Dunford was the boy's name, although he is best known by the name of Bailey Dunford. He was the son of Dr. Alma B. Dunford, of this city, and their Young Gates, of Provo. He was a promising young man of prepossessing appearance, and was in his twenties this year. After having called he studied architecture with Mr. Kleiting, of this city, for several years. He went to Butte about two months since in search of employment, not being able to obtain it here.

It will be decided later what will be done with the body. The news was in no communicated to the young man's mother this afternoon.
