A Heartless Proceeding.

The neighborhood of Sixth South and Fourth East streets was late yesterday afternoon thrown into a high state of indignation. It appears that a schoolmaster and his family, who live in that locality, had some time ago purchased three hundred dollars' worth of furniture, on the instalment plan, from a large furniture house in this city. They had paid two hundred dollars on the bill, but had fallen behind in payment a month or so. This was occasioned by the fact that the man's wife was sick, and was unexpelled to use the money which should have been applied on the furniture. The furniture company sent down their men, in company with the sheriff, and removed every article, even a cookstove, from the house. Not a bed or a chair was left, and even the sheriff seized this for humanity's sake the carpets or allowed to remain. But they were determined to take their pound of flesh—and did so. The furniture company claims that the law's permissions on their side, but the law which treats the poisoning at this time as peculiarly merciless was the condition of the women whose sickbed must be exposed every moment, and who has not been able to rest in upon.

Returned Missionaries.

Brother George D. White, of Beaver City, Utah, paid the News a pleasant call this morning. He has just returned from a mission in the Southern States, his field of labor having been in the northern Alabama and Mississippi conferences. Elder White left home on March 18, 1892, and his time has been equally divided in the states named. He reports having thoroughly enjoyed his labors and had received good treatment as a general thing. The mission is in a prosperous condition, he says, and he has been successful in finding out many of the honest in heart, and had assisted in baptizing eleven.

Elder Martin Hemmerle, of Lehi, returned home with him, having been recalled on account of sickness soon after his arrival in the South of six months. He departed for Idaho last evening.

An Explanation.

Mr. J. M. Christensen, of the wholesale produce firm of J. M. Christensen & Co., of this city, called at the News office and requested that an explanation of his remarks at the Dairymen's Convention, as reported in the News, be made. He did not mean what he said in reference to the price of butter being difficult to uphold at 25 cents and that the wholesale price was better for wholesalers at 20 cents. There is no question as to that so far as it goes, but he is not in favor of increasing the wholesale price of butter above 20 cents and thinks the retailers should have at least 2 cents a pound profit. He desired not only to be in harmony with the convention, but to be alert to the interests of the retail trade as well.

Medical Licenses Issued.

The Territorial board of medical examiners held a meeting at their rooms yesterday. There were present Dr. Allen P. Fowler, president; Dr. Dart, secretary; Drs. Hubbards, Carnahan, Graves and Allen. Licenses were issued to the following graduates: Drs. W. W. Betts and John J. Stiles. Licenses were issued to graduates as follows: Dr. J. B. Cooper, of American Fork; Samuel Rodd, Boston; Mary A. Martin, Provo, and Fred A. Kluge, Hooper.

The following women were allowed to practice obstetrics: Jane S. Bedford, of Bountiful, and Isabella West, Salt Lake City. An application was received from a party licensed to practice obstetrics for a license as a non-graduate practitioner of medicine. The application was refused by the board on the ground that the party has never been known as a general practitioner of medicine.

The board adjourned subject to the call of the president.

At the Park.

At a meeting of the stockholders of the Park City Heat and Power company last week there were represented 3,550 shares out of the 4,000 of stock. Everything was reported to be in good shape and working satisfactory. Henry Hewell, Barney Riley, J. H. Dooling, Walter Sack and W. V. Rice were elected as directors for the ensuing year.—*Park City Record.*

E. E. Thirlit, of the firm of Thirlit & Thirlit, butchers, is now lying at the point of death at his home on Park avenue, with pneumonia of the stomach.

Pagson Items.

Ed Underwood, a young man of Salem who is herding sheep for John Dixon, was very much surprised last Friday evening when he approached his camp, to see his dog emerge from the tent with a huge mountain lion close after him. The lion soon gave up chasing the dog and leisurely walked up the mountain side, while young Underwood hastened over to the camp of Eugene Wind, a young man of this city, who seized his rifle and hastened over to Underwood's camp. The lion was soon discovered sitting on a rock a short distance up the side of the mountain. Young Wind fired a shot at the animal, severely wounding it. He approached within a few feet of the wounded beast and fired two shots into her which laid the intruder out. It was killed over by Goshen yesterday, near the R. G. W. railway, only a few miles from the city.—*Tribune.*

The cold hand of death has again visited our midst and taken away one of our respected citizens, Robert Simpson having passed from the scenes of this life to the land beyond. He had been a sufferer of Bright's disease for some time. Deceased was born in Montreal, Canada, in 1844 and came to this city 22 years ago. He leaves a wife and nine children.

The superiority of Hood's Sarsaparilla is due to the tremendous amount of labor and constant care used in its preparation. Try one bottle and you will be convinced of its excellency. It purifies the blood, which, the source of health, cures dyspepsia, overcomes sick headaches and biliousness. It is just the medicine for you.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients. 25c
