LOCAL AND OTHER MATTERS.

Fourteenth Quorum.—A meeting of the 14th Quorum of Seventies will be held on Sunday, February 3rd, at 10 a. m. All members residing in the City are requested to attend.

JOHN H. KELSON, Clerk.

Around Again.—The numerous friends of Mr. James Needham will be pleased to learn that that gentleman is able to be around again, after a very severe attack of illness. He is at his post to-day, the first time in six weeks, in the live business house of Mr. S. P. Teasdel.

A Thief.—A man giving the musical name of J. Pattbene was before Justice Pyper this morning, charged with two separate cases of theft, perpetrated in the Pacific House. The first was the stealing of a pair of pants and the second of a couple of shirts. The evidence was quite direct, he having the stolen articles on his person. The fine imposed was $50 in each case, giving all one an opportunity of exercising his muscle, with the shovel and pick, 100 days on the streets. He is a hard looking fellow.

Plymouth.—This is the name of a small, snug but thrifty settlement in Box Elder County. Parley L. Pierson writes from that place stating that there are between fifty and sixty inhabitants, with a prospect of many more. There is a fine stretch of farming land, about six miles long and five wide.

There has been but little snow there this winter as yet, and consequently stock are flourishing on the range. A Mutual Improvement Society was organized at Plymouth lately, which is expected to be of benefit to the people, as a lively interest is being manifested in it.

About Fish.—A gentleman, of this City, who has had experience in relation to fish, suggests that we publish some of the results of his observation in that line.

He instructs us that fish should be killed and dressed as soon as caught. Allowing them to die from being taken from their native element detracts from their flavor, and renders them in other respects inferior.

Those killed by the shock of giant or other powder are unfit for human food. This wholesale method of slaughtering fish, besides destroying those of sufficient size to be considered of use, annihilates the young. Fish killed in this manner can be detected by their soft, flabby appearance. Fish properly caught and handled at this season of the year are fine and wholesome.

City Council.—The Council met last evening, Mayor Little presiding.

The Salt Lake Railroad Company, on the ground that they had been at large expense in laying track, altering their lines, and that the road was not commensurately remunerative considering the sum invested, petitioned that the per diem tax on passengers carried be abolished. The company also proposed to reduce the fares to 4 for 25 cents and 20 for one dollar. The petition was favorably received, and was referred to the committee on municipal laws, with instructions to draft and present for adoption a resolution suspending the payment of their tax for a period of three years.

A communication was received from Thomas Latimer and 540 other residents of the "North Bench," protesting against the granting of that portion of the petition of W. H. Hooper and others, which related to the watering of public trees from the ditch running through the city cemetery; laid on the table, it being considered that there was no cause for protest or complaint.

William Fuller and 31 others, residents and taxpayers of the 20th Bishop's Ward, petitioned the Council to permit them to work out a portion of their city taxes in labor on the streets and crossings of said ward. Referred to the committee on streets and alleys.

Mark Rodgers, local watermaster of the 20th Ward ditch, asked that $25 be appropriated to him as compensation for services in controlling the ice, etc., in said ditch, during the winter season. Referred to the committee on claims.

Petition of F. & P. Pascoe for a deed to a certain piece of land within the limits of the corporation; referred to the committee on public grounds.

A proposition to sink an artesian well near the city cemetery was received from James Thomson; proposal referred to a special committee, to be hereafter appointed.

On petition the butcher's license of S. B. Davis was transferred to Charles Lyons.

The committee on improvements submitted a plan for numbering the houses of the city, as follows: 100 numbers on a block—50 on each side of the street, odd numbers on the left hand side, and even numbers on the right; the numbering to commence on the west end of the longest street running east, so that they will be the same at the intersection of streets running north and south; also to commence on the south end of the streets running north, the numbering to be the same as north; also to commence on the west and south of plots D and E, the numbering to be done in the same way, with the exception that in those plots the numbers are 50 to a block—25 on a side. The plan was accepted and adopted, and the committee on municipal laws was instructed to bring in a bill for an ordinance to carry the plan into effect, also to take into consideration the propriety of reducing the numbers to fifty on a block.

The committee on cemetery, to whom was referred the petition of W. H. Hooper and 107 others, asking that the proceeds from the sale of cemetery lots be devoted to improvements therein, recommended that $700 be appropriated, to be expended under the direction of the sexton, in beautifying and improving the cemetery. The committee also recommended that a special committee be appointed to consider the feasibility of sinking an artesian well near the north-east part of the grounds owned by the city, east and north of the cemetery; and expressed a belief that contributions by private citizens would be readily made to assist in defraying the expense of sinking such well. The report was adopted and $700 appropriated as recommended. The special committee asked for was appointed as follows: Morris, Raleigh Dinwoodey, Sharp and Spiers.

The committee on cemetery recommended that the annual report of the city sexton be adopted as the correct exhibit of the sexton's business for the year 1877; also that the sexton's bill, $104.75, be allowed, also that the city surveyor be instructed to make a plot of the cemetery and file the same in the recorder's office. The committee's recommendations were adopted and the sexton's bill allowed.

The committee on claims, to whom was referred the bill of James McKnight, for tools, etc., claimed to have been left by him in custody of the corporation, amounting to $62.20, recommended that the sum of $37.20 be appropriated in full satisfaction of said claim. Adopted.

The supervisor of streets, was instructed to place foot bridges over the culvert on North Temple Street, opposite the sidewalks, as far west as the railroad depot.

Council adjourned till next Tuesday evening at 6:30 o'clock.

Correspondence.

Improvement to Malad.

MALAD CITY, Oneida County, Idaho, January 24, 1878.

Editors Deseret News:

We are having a fine winter here, as is the case throughout the Territory. The roads are dry and dusty, but little snow in the mountains, and unless we have more snow or a wet spring, there will be very poor prospects for crops next season.

Our worthy Bishop, George Dunford, with his counselors, has been laboring very diligently the past four months in setting in order the various branches of the priesthood, and they have the faith and confidence of the Latter-day Saints throughout the Malad Valley. The Saints of Malad are being awakened to the sense of their duty, and the majority of them have renewed their covenants in the gospel of salvation.

We have a Sunday school, under the supervision of Edward Roberts, assisted by James P. Harrison, which is a source of great benefit to the young. We also have two day schools in good running order, being taught by R. T. Owens and R. H. Davis, and they are well attended.

We were well pleased with the visit which R. F. Cummings of Salt Lake, and Thomas Wild, Lucius Snow and Joseph Jepson of Brigham City, paid us on the 12th inst., in behalf of the Central Committee, for the purpose of reorganizing the Y.M.M.I.A. Following is the result: For President, John L. Roberts; 1st counselor, James P. Harrison; 2nd counselor, Rochard T. Owens; secretary, Lorenzo L. Evans; treasurer, Frederick E. Jones; librarian, Daniel Evans.

We have about 65 members, most of whom have improved greatly since our first organization. We also have a Young Ladies' M. I. Association under the presidency of Mrs. Alvira Harrison, who is doing all she can in behalf of the young ladies of Malad.

The health of the people generally is good and a good spirit prevails throughout.

Yours in the gospel of truth.

LORENZO L. EVANS.

DIED.

In Kaysville, January 8th, 1878, of consumption, ANN TURNER, wife of William Smith, aged 65 years and 24 days.

NOTICE

IS HEREBY GIVEN THAT A MEETING of the said stockholders will be held at the office of the company at the office of the late President Brigham Young in Salt Lake City, at 11 o'clock a. m. on the 8th day of January, 1878, for the purpose of amending the Articles of Association of the Company so as to alter the route and change the eastern terminus of the road.
