HEART RIGHT

When He Quit Coffee.

Life Insurance companies will not insure a man suffering from heart trouble. The reason is obvious.

This is a serious matter to the husband or father who is solicitous for the future of his dear ones. Often the heart trouble is caused by an unexpected thing and can be corrected if taken in time and properly treated. A man in Colorado writes:

"I was a great coffee drinker for many years, and was not aware of the injurious effects of the habit till I became a practical invalid, suffering from heart trouble, indigestion and nervousness to an extent that made me wretchedly miserable myself and a nuisance to those who witnessed my sufferings.

"I continued to drink Coffee, however, not suspecting that it was the cause of my ill-health, till, on applying for life insurance I was rejected on account of the trouble with my heart. Then I became alarmed. I found that leaving off coffee helped me quickly, so I quit it altogether and have been attracted by the advertisements of Postum Food Coffee I began its use.

"The change in my condition was remarkable, and it was not long till I was completely cured. All my ailments vanished. My digestion was completely restored, my nervousness disappeared, and, most important of all, my heart steadied down and became normal, and on a second examination I was accepted by the life insurance company. Quitting coffee and using Postum worked the cure." Name given by Postum Co., Battle Creek, Mich.

There's a reason, and it is explained in the little book, "The Road to Wellville in each pkg.
