Horses Kick

in self-defense. It is their more vigorous form of protest against the abuse of spiked heels that are driven into their feet by fools who think they look better for being made small, safe in ignorance of the danger that is liable to follow.

This is what happens: One part comes out where it should do the kicking, the other part turns sideways to the danger that is liable to follow.

Shearing Process

by which the fibres of metal are separated and then rolled, is quite similar to the Sharp-nail. This kind of a nail can be easily distinguished by the rough edge along the side near the point.

Putnam Nails

are exclusively Hot-Forged and Hammer-Pointed, producing a nail of the old-fashioned hand-made kind. This process vertically pulverizes and forces together into a compact form nail that cannot split, Silver or Brass and is

Absolutely Safe.

Examine the nails in your house when the box is opened. If their edges are smooth, they are Cut Nails, made by Machine. If they show marks of a hammer, they are Hot-Forged Putnam Nails, and are unsurpassed for durability.

Mailed free, sticker photo, mailed on receipt of ten cents, in stamps or silver.
