THE EVENING NEWS.

Saturday, April, 1, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, April 1, 1871.

Buying at $1.08; Selling at $1.11.

LOCAL AND OTHER MATTERS.

THEATRICAL.—Last night, Shakespeare's sublime tragedy of Hamlet, was produced, being for the benefit of the talented juvenile tragedienne, Miss Rose Evans, who personated the Royal Dane, her rendering of this part was a masterly piece of acting; andgave full scope for this young lady to exhibit her abilities as a classic actress which she certainly took advantage of. Mr. Walpole's King was excellent, he both looked and acted the villain. Mr. Power deserves credit for the manner in which he played the double character of Laertes and the Ghost, he having to enact the latter character in consequence of the indisposition of Mr. Thorne. Mr. McKenzie's Polonius was, as usual, up to the mark. Mr. Margetts, as the Grave-digger, was very humorous. Mr. McIntosh, as Horatio, looked and acted the part well. Miss Adams, Mrs. Waldron, and, in fact, the entire company did their best to make the piece a success. We do not remember ever having seen this play go off with greater life than on its presentation last evening.

A DEPLORABLE ACCIDENT.—The following was received by Deseret Telegraph today

MORONI, I.

At half past seven o'clock, a.m., to-day, Reuben, son of R. M. and Lavinia Rogers, accidently shot himself while handling a revolver. He was shot through the brain, and expired in about thirty minutes after the accident. He was thirteen years of age.

SEXTON'S REPORT FOR MARCH.—Males 18, females 16. Of these adults 12, children 22. Died of the following causes as reported: Lung disease 19; brain fever 2; old age 1; childbed 2; died at birth 2; liver complaint 1; heart disease 1; measles 1; convulsions 1; canker 1; marasmus 1, killed accidentally 1. Total interments, 34.

JOS. E. TAYLOR, Sexton.

AN IMPROVEMENT.—Messrs. Tilden and Lawrence, lessees of the Salt Lake House, finding themselves unable to supply the continued demands for hotel accommodation, are now having added to their premises an additional story, giving another tier of rooms. This will not only supply the demand for "more space" but will also materially enhance the external appearance of the building.

NARROW GUAGE RAILROAD.—A narrow guage railroad will shortly be built between Virginia and Reno, Nevada, a distance of about twenty-seven miles. A party of men are now engaged surveying the route.

ARIZONA NEWS.—The *Miner* contains glowing accounts of recent rich mineral discoveries, in what is called Bradshaw District. These mines are said to bid fair to eclipse everything yet discovered on the continent, being exceedingly rich both in gold and silver.

The same paper says that the Indians continue their depredations in various parts of the Territory. A band of sixty of the savages, from the reservation of Gila lately visited a part of Maricopa county and butchered twelve head of beef cattle, besides driving off several head of work oxen, being the property of Messrs Holcomb, Murray and others, who had recently settled there.

FREAKS OF NATURE.—Bro. Paul A. Schettler showed us, yesterday, some remarkable specimens of eggs, which his fowls, of which he has so fine a collection and variety, laid within the last few days. There was a very large goose egg, which resembled the egg of an ostrich more than that of a goose. It was laid on the 28th of March. Its circumference, lengthwise, was 11 inches, by 7½. It weighs upwards of 6½ ounces. There were also three eggs, one laid by a light Brahma fowl, the second by a Java and the third by a Bowdan, weighing 3½ ounces each, and measuring 2 by 3½ inches. These eggs, we should judge to have double yokes. Besides these large eggs there were three eggs about the size of pigeons' eggs, weighing ¼ of an ounce, laid by a large white spanish hen, and of similar size, but heavier, laid by two Light Brahma hens.

SPRINGVILLE.—Our Springville correspondent, C. D. Evans, writing from that place, March 29th, says:

"During the last six months, our little store in Springville has cleared thirty-seven per cent. on stock invested, after having sold merchandise at fair and reasonable rates. In view of these results, the stockholders of the Institution, at a meeting recently held, expressed themselves as being unable longer to endure the humiliation of renting a store, and doing business off the Main Street. It was therefore resolved that we "come to the front" and show ourselves. It was voted that we build a brick store on Main Street, unanimous; not even a single exception. It was further voted that the premises owned by G. D. Wood & Co., adjacent to the public square, be purchased, being the most suitable site for such a structure. A committee was appointed to let contracts for the building, and the work will be prosecuted with vigor at an early date. How will the enemies to co-operation interpret such results? How will they reconcile them with their predictions of its early dissolution? Co-operation is a "living fact" and needs no eulogy from my humble pen. It contains the elements of perpetuity and success, and will, no doubt, extend itself until it shall embrace, not only mercantile business, but manufacturing, farming, stock-raising, and every other branch of industry."

MESSAGES.—There are messages at the W. U. T. office for T. J. McLean and Mrs. Rickers. Call and get them.

FUNERAL CEREMONIES.—At one o'clock yesterday afternoon a large number of our citizens assembled at the house of Mr. George C. Riser, 16th Ward, to attend to the funeral obsequies of his wife. It is seldom that we have seed more deep sympathy exhibited than on this occasion. The death of Sister Riser was so sudden and unexpected that none of her friends were prepared for the occurrence. The house was filled, and a large number were provided with seats on the front verandah and in the front yard. The assemblage was addressed by Elders Joseph F. Smith, George Q. Cannon and Bishop F. Kesler. The remarks of the latter especially, as to the exemplary and faithful life of the deceased, were calculated to console the family and to hold her up as an example for her children to imitate. The following letter gives a brief sketch of the incidents of Sister Riser's life:

SALT LAKE CITY, March 31, 1871.

Editor Deseret News.—Dear Sir. In connection with what I published in your valuable paper yesterday, concerning the death of my beloved wife Christiana Kull Riser, you will oblige me by publishing the following items of her history.

Deceased was the daughter of Frederick Jacob and Christiana Rummoser Kull. She was born Dec. 3, 1822, at Bambach, Wurtemburg, Germany. In 1832, when nine years of age, she emigrated with her parents, two brothers and two sisters, to America; and was married to me Jan. 19, 1841, at Marion, Marion Co., Ohio. On Sept. 6th, 1843, we migrated to Nauvoo, Illinois, where we were both baptised Dec. 12, of the same year. At the time of the expulsion of the Saints from Nauvoo, 1846, she journeyed with me to Council Bluffs, and in the spring of 1847 we started with an ox team in the first company of families across the plains to Salt Lake Valley, where she resided until her decease. She was the mother of nine children—six sons and three daughters. Three sons and three daughters are still living with me to mourn her loss. She was an honest, upright woman, and a kind and affectionate wife and mother, and very charitable to the poor and afflicted. She lived and died a faithful Saint, with a full assurance of a reunion with her family and friends in the morning of the first resurrection. From your brother in the gospel of peace,

GEO. C. RISER.

PEOPLE'S VERDICT

Over Half a Million sold and in use!
4,000 made and sold per week

SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable:

THE SINGER
NEW FAMILY MACHINE
Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.
It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a wide and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.
The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.
In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and this causing weakness of the back, etc.*
The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.
In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines *drive* their Shuttles, in a race, thus causing great wear, and *requiring oil* soiling the thread and goods.
On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all annoyances and parts of annoyance. All the Very Latest Inventions and Improvements, It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all it is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who *utterly fail on other Machines.*

SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of *heavy and light manufacturing* as *Cloths, Leather, etc.*, and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled MACHINES.
(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS
So that all may possess one of these *Blessings.*
For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Establishment and will also impart to purchasers all needful instruction, so that they can at once commence work.
We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Granite Works.
We having been so fortunate as to secure the
General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without gain examine the singer.
We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
OTHER SEWING MACHINES REPAIRED of all Kinds.
