LOGAN.

LOGAN, UTAH, Oct. 26, 1893.

Spun Glass.

T. R. Cardon, the jeweler, has on exhibition in his show window some handsome specimens of spun glass worn in the shape of hair in brooches, etc., brought from the World's Fair recently by Dr. Archie McAllister.

Rising Company Election.

On Monday evening a meeting of the stockholders of the Sunrown and La Plata mining company was held in the Thatcher Bank building. A board of trustees was elected as follows: George W. and Moses Thatcher, A. E. Ryan, I. B. Hatch, J. H. White, J. F. Wright and Joseph Kimball. No steps were taken for the immediate resumption of work, owing probably to the stringency of the money market.

Fred Turner's Report.

Mr. Fred Turner has just returned from a visit to the Big Horn country and the Snake River power diggings. He says of the latter that the way miners are flocking there would indicate that they seem to regard it as the promised land. Mr. Turner located several valuable claims while there. The gold is so fine that miners heretofore have been able to only make bare wages; but improved appliances are solving the problem of securing the metal more easily, and eventually ground not in the immediate vicinity of the river will be profitably worked.

General Notes.

J. M. Blair, the Democratic aspirant for postmaster, assumed charge of the postoffice on Tuesday morning. Mr. Shirley, the outgoing postmaster, served the public in that capacity for fifteen years, giving general satisfaction.

The Fifth Ward Y. M. M. I. A. gave a very nice dancing party last evening for the benefit of the association.

The free silver meeting and rally was held by the Democrats on Tuesday evening in the Second ward.

Last night a Democratic rally was held in the Sixth ward. Republican rallies will be held next week.

Geo. F. Gibbs and C. Tom, of Salt Lake were on the register of the People's Hotel on Monday.

On Monday Ole Olson, of Clarkston ran a splinter through his wrist. One day this week, Will Frehl, a young man from Logan, while loading logs in Logan canyon, badly mashed and lacerated several fingers.

John H. White of Salt Lake came up to attend the meeting of the stockholders of the Sunrown and La Plata Mining Co., held on Monday evening.

The S. S. Union that was to have been held on Sunday next at Providence has been postponed for one week on account of quarterly conference, which convenes on Sunday.

A special meeting was held last evening by the city council to consider the problem of an ordinance regulating water rates, and providing for an extension of the mains.

A Good Barn.

A good barn will aid you in increasing the profit from the farm. We are now coming toward a good time of the year for building. But before you begin make a thorough study of plans. Modern barns are built differently from the sort that was in favor 30 years ago, and they serve the present needs better. One item in building is to do it so that you may feed with the least possible labor.

An Inexpensive Sod Drag.

In the cut here reproduced from The Farm Journal is a homemade drag devised and successfully employed by a South Dakota farmer, who found himself in possession of 80 acres of tough sod, but without the means for buying an expensive drag.

A SOUTH DAKOTA DRAG.

This drag consists of 2 by 4 inch pine 2 feet long, turned on edge, having six three-quarter inch bolt holes in each to receive six five-eighth inch bolt rods that run the whole width of harrow, as shown in cut. Six of the pine pieces are 4 feet long, having a narrow board bolted to top and bottom to act as smoothers and to draw by. The teeth are made of 1½ by one-quarter inch steel 14 inches long, sharpened at both ends and dished like a butcher knife. These are placed between the wooden pieces at an angle of 30 degrees and the bolts screwed tight. The bolts should be placed at such distances apart that they will hold the teeth at the right angle.

Electric welding of the iron bars for railway tracks has proved exceedingly successful. The welding is reported good for the rails upon curves. Rough places in the rails are smoothed away or with a great press, and the wear and tear of both rails and cars are greatly diminished. Railway passengers will appreciate this side of the invention.

MILLER'S GENEVA

MINERAL WATER.

SPRINGS GENEVA, N.Y.

NATURE'S REMEDY.

A Tonic and a Regulator.

HAS CURED

Dyspepsia, Torpid Liver, Diabetes, Kidney Troubles, Indigestion, Nervous Dyspepsia, Nervous Debility, Constipation, Gravel, Rheumatism, Catarrh of the Bowels, Liver Difficulties, Female Complaints, Catarrh and Inflammation of the Bladder.

SEE WHAT IT HAS DONE FOR ME

I am as good as one risen from the dead. A few months ago I had given myself up to die, and by mere chance I heard of Miller's Genuine Mineral Water, from Geneva, New York. I called at the Water Depot in Portland, Oregon. I told the agent I had been afflicted for many years with what is called Cystitis, or inflammation of the bladder, also diabetes, that I had lost fifty pounds weight in the past year, and that I would soon pass to another sphere. I have spent thousands of dollars on doctors and medicines, and all to no avail; and was using morphine all the time for the past six years, by the time I had used five gallons of the Geneva Water I was comparatively well. Oh, hear me, all you that are afflicted and suffering with Urinary Troubles or Stomach Ailments of any kind, the Geneva Mineral Water will cure you. It has cured me.

Come and see me and judge for yourself. 103 Post office Block, Salt Lake City.

JOHN STODDARD, AGED 63 YEARS.
