LAST NIGHT'S DISPATCHES.

EASTERN.

BRIDGEPORT, 5.—The morning express train on the Pan Handle railroad struck a broken rail. Two sleeping cars went over an embankment. Mrs. Anne Price, of Springfield, Mo., had her leg fractured, and several others were injured.

BOSTON, 5.—At the annual meeting of the Union Pacific railroad, chairman Clarke read a letter from James Brooks saying he sold his stock to disqualify himself for re-election as director, because he was a member of the next Congress. The following were elected directors:—Horace F. Clark of New York, Jno. Duff of Boston, Augustus Schell of New York, Oakes Ames of Easton, Oliver Ames of Easton, Sidney Dillon of Council Bluffs, C. S. Bushnell of New York, Elisha Atkins of Boston, Royal E. Robbins of Waltham, F. Gordon Dexter of Boston, A. H. Baker of Boston, Joseph Richardson of New York, Geo. S. Bowdoin of New York, Frederick Nickerson of Boston, and O. S. Chapman of Canton, Massachusetts.

HARTFORD, 5.—The Republicans of the first district renominated General J. R. Hawley, for Congress. The Democrats nominated S. H. Kendall.

WASHINGTON, 5.—The President received very few visitors to-day, but he received several military organizations, who came to pay their respects, and reviewed others from the stand facing Lafayette Square. The President to-day promoted Levi P. Buckey, of Illinois, to be his private secretary, C. C. Sniffen, assistant private secretary, and O. L. Pruden, executive clerk, in accordance with the civil service reform.

The West Point cadets drew an immense crowd this morning to witness their drill on Pennsylvania Avenue.

NEW YORK.—In answer to a cable inquiry, Jay Cooke & Co., received a despatch from Jay Cooke, McCulloch & Co., London, stating that they have sustained no loss or liabilities to loss through the forgeries referred to in the press telegrams. So far as understood the Bank of England appears to be the only loser by forgeries, the precise nature and extent of which have not been made known by the bank. The above firm have also received a despatch from London cautioning them in dealing in foreign exchange to beware of forged Bills in circulation.

A special from Washington states that Assistant Secretary Richardson says no action has been taken relative to the forty-four million bill, the Secretary claiming the right to issue the whole amount whenever necessary.

Company A, St. Louis national guard, will visit this city on their homeward trip from Washington. The seventh regiment will entertain them during their stay.

WASHINGTON, 5.—The comptroller of the currency notifies the National Banks to report their condition at the close of business February 28.

NEW YORK, 5.—Mayor Havemeyer will review a procession on St. Patrick's day. The Steamers *Mary Castle* and *Columbia*, of the Atlantic Mail S. S. Company, will be sold on Tuesday next to satisfy claims of libellants.

RICHMOND, 5.—The General Assembly passed a resolution appointing a joint committee to make arrangements to receive President Grant in such a manner as shall comport with the dignity of the commonwealth.

SAVANNAH, Ga., 5.—Allan G. Jones, bookkeeper of the Southern Bank of Georgia, is a defaulter to the amount of $30,000.

WASHINGTON, 5.—The only immediate change in the Cabinet will be in the Secretaryship of the Treasury, should the present incumbent be elected to the Senate. The opinion that the President need not renominate the present members of the Cabinet for confirmation by the Senate is strengthened by the fact that all of them were at their respective departments to-day. It is said by gentlemen in executive positions that no such renominations will be made.

INDIANAPOLIS.—W. T. Lockhart, doorkeeper of the House of Representatives, died of smallpox this morning.

NEW ORLEANS, 5.—At about 9:30 o'clock to-night a squad of perhaps fifty men attacked the 3d precinct, firing into the building. They were repulsed by the police, but were quickly reinforced by about 350 men. These were attacked by Gen. Badger with about 200 policemen and a piece of artillery. For about five minutes a sharp rattle of musketry ensued. Both parties maintained their positions during this time, but at the second discharge of cannon the militia retreated through Jackson square, and half an hour later the police relieved their comrades, who remained during the conflict within the building. One man named Hartman was killed and several wounded. The United States troops reached the scene at 11 o'clock. The remaining militia retired, leaving the troops in possession.

PITTSBURG, 5.—Col. Wm. Hopkins, of Washington County, an active Democratic leader, has died.

NEW ORLEANS, 5.—The seventh precinct station was quietly taken possession of last night by the McEnery militia. No resistance was offered by the metropolitans on duty. No effort has been made to-day to displace the militia. It is understood that a further aggressive movement will be made by the militia to-night. For twenty squares to-night only (one) police was found on duty, they had been called from their beats and concentrated about the stations near the Mechanics' Institute.

CHARLESTON.—The Council has resolved to invite President Grant to become the guest of the city.

WESTERN.

SAN FRANCISCO, 5.—Jasper O'Farrel, of the board of harbor commissioners, has tendered his resignation, and Samuel Soule has been appointed in his stead.

Diego Gutierez was convicted of petit larceny in the police court. As the record showed him to be an old offender the court held him to answer under the new code for a felony. This p. m. he was brought before Judge Wallace of the Supreme Court, on habeas corpus, his counsel claiming that the law is unconstitutional. After argument Judge Wallace took the matter under advisement and will render a decision next Monday.

The total rain-fall for the season to noon to-day is 16.65 inches.

Miss Gorman, the witness detained for the purpose of testifying in the case of the boy Bryan for murder, was released to-day upon the deposit of $500 security for her appearance.

It rained very hard here this p.m., but to-night the weather is again clear and cold.

Dr. D. T. Morgan, occulist, is the person who poisoned himself last night. He gave the alarm and sent for a doctor to save him.

VALEJO, 5.—J. D. Page was arrested this evening by a deputy U. S. Marshal, charged with opening letters of Warren Haley, from Russell, who is now under sentence of death at San Francisco.

SACRAMENTO, 5.—M. H. Kerbley, in a dispute over a game of cards in his saloon at Camp, near Galt, last evening, shot a man with whom he had been playing. Kerbley came to Sacramento on the cars and was arrested.

A disease similar to that which proved fatal near Vina, has broken out here.

Headquarters of the Peace Commission, Fairchild's Ranche, 4th, *via* Yreka, Cal., 5.—Steele left yesterday morning with instructions from the Peace Commission to offer the Modocs the following terms as a basis of peace—

1st. To surrender as prisoners of war to General Canby, to receive full amnesty for the past.

2d. To be removed to Angel Island and there clothed, fed and sheltered as soldiers are till a permanent home in some warmer country may be found, perhaps Arizona, for them.

3d. To be fed, clothed and sheltered in their home till such time as they will be able to maintain themselves, their women and children, to receive transportation to Angel Island, and thence to their new home.

4th. Gen. Canby is of opinion that he can promise Capt. Jack and some of his head men permission to visit the President.

CANADA.

OTTAWA.—The Dominion Parliament assembled to-day and unanimously elected James Cockburn Speaker. The Governor General will deliver his speech from the throne to-morrow.

LOSTOWELL, Ont., 5.—A fire this morning, on the corner of Wallace and Main Streets, damaged a block of stores. Loss, $4,000.

EUROPEAN.

PARIS, 5.—It is authoritatively announced that the report from Algeria of the critical condition of a body of French troops in the southern portion of that country is untrue.

The speech of Thiers in the National Assembly yesterday was received with satisfaction by all the deputies except the extremists.

The President has caught cold, and it is rumored that he is seriously indisposed.

The Assembly to-day passed the first and a portion of the second clause of the report of the committee of thirty.

MADRID.—A bill was introduced in the Assembly yesterday by Figuerns, but it does not meet with the approval hoped for by the government.

A meeting of 236 radical deputies, the majority of the entire Assembly, held on Tuesday eve, unanimously disapproved the proposition for the suspension of sitting, and for the convocation of the Constituent Cortes.

The permanent committee elected to-day it is expected will consist of members hostile to the Constituent Cortes.

There are signs of trouble in Madrid, and a street conflict is apprehended. The Republicans are greatly excited and demand a dissolution of the Assembly. The government has decided to make the bill a cabinet question.

General Sickles communicated to Castelar the congratulation of the U. S. Senate upon the establishment of a republic.

The Woman Question in England.

According to the Liverpool *Mercury*, the female sex of England are rapidly acquiring all the rights enjoyed by men, and are fast making their way into professional and industrial occupations hitherto held exclusively by males, and their full political enfranchisement seems an event very near. The *Mercury* remarks:

Lady doctors, lady overseers, lady clerks to school boards, and lady voters at municipal elections, have become, if we may use the term, accomplished facts. The horror with which our immediate progenitors would have contemplated a woman who practised surgery or dabbled in politics has to the present generation only one aspect—that of the ludicrous. And so far we have reason to congratulate ourselves upon the change which has been effected. Not one of the evil results so freely prognosticated by the opponents of the movement has been developed. There are not yet many lady doctors among us; but the experience derived from their practice is, so far as it goes, wholly in favor of a large accession to their ranks, and promises a sweeping change within the next few years in the medical profession, so far as the treatment of women and children is concerned. The interest which the sex have taken in municipal affairs since they were granted to vote at the election of town councilors belies every anticipation of those persons who contended that they would either not exercise the privilege at all, or use it prejudicially. On the contrary, they have voted in many boroughs in a greater proportion to their numbers on the register than the men; and it has not yet been charged against them that, as a body, they voted on the wrong side, or laid themselves open to one half of the serious imputations which have been, and are, without good reason, directed against voters of the other sex. The deeper we inquire into the practical application of the social and political privileges so far possessed by women, the more difficult does it seem to exclude them any longer from the parliamentary suffrage.

UNION
SAFETY LAMP
IS conceded by all who have seen it to be possessed of great merit, and to be altogether the best thing of the kind ever put in the market.
The lamp is constructed with two tubes, the outside one intended only for the attachment of the burner, and the inside one to contain oil and receive the wick. As there is no connection between these tubes it will be evident that there is no possibility of communicating any heat to the oil, and as long as the oil in a lamp can be kept perfectly cool there is, of course, no chance for an explosion.

The Lamp is strongly and well made, attractive in appearance, and something entirely new and novel. It will burn kerosene adapted to any burner. With all of these advantages it combines cheapness, and from present indications it is destined to become very popular.
In case of accident, the Lamp falling or thrown over, by which many explosions occur, is the cause of the oil rushing to the flame. In this Lamp it is not so; it can be thrown over and cannot send the oil to the flame; it will run from it, so there is no danger of catching fire.
The public may rest assured that the Lamp is all that we claim for it, and we cordially invite the most critical to examine the same, and we feel confident the verdict will be the same as that of the most scientific men of the Eastern States—that it is the best oil LAMP that have yet come to public notice.
This Lamp can be filled from the front, on the top of which is a screw.
This Lamp can be attached to any Chandelier or Bracket made.
