LOCAL BRIEFS.

Petit jurors A. S. Geddes and Joseph Balagh were excused for the term by Judge Norrell today.

Information has been received from Manila to the effect that Frederick Gargfeld Wait, ex-assistant county attorney here, has in connection with a lawyer named Jennings, also a former Salt Lake, opened a law office in the chief city of the Philippines.

The first division of the Raymond and Whitcomb tourists, which came in from the west, yesterday, departed last night for the East. Another party of twenty-five are at the Knutsford and will start today enjoying the sights of Utah's capital. They expect to leave for the east this evening.

Tomorrow is Arbor day, and in accordance therewith the offices in the joint building will be closed to permit of tree planting. The day will be observed by the University faculty and students by the setting out of trees on the new University site on the East bench.

The yard of the old school house, formerly the property of President Young, just inside the Eagle Gate, is being leveled for the purpose of making a lawn tennis court; being enclosed within stone walls, the property is well suited for the purpose. It is now owned by Mrs. Luna Y. Thatcher of Logan.

George S. Smith Jr., arrested on Monday for insanity, has been committed to the State insane asylum. This makes the second time he has been sent to the institution within the past two year. He is only 21 years old and his insanity is said to be the result of injuries to his head, received while a boy.

A much larger audience than that of Wednesday evening assembled last night at the First Methodist church and listened with interest and attention to the first sermon of Rev. Dr. J. P. D. John, director his burial and concluding address to agnosticism. The subject chosen was "Life Is Real, Life Is Earnest," and the text was "Dust Thou Art, Unto Dust Shalt Thou Return." Dr. John's address was in part as follows:

A mortgage from W. L. White to Clay, Robinson & Company, buyers of live stock, located at Denver, Colo., has been filed for record with the county recorder. The mortgage pledges as security for an advance of $20,000 the delivery on demand, July 15, 1899, of eighty-one head of bulls, 324 cows and their increase and 111 steers, now at the stock yards at Salt Lake, and the 1900 yearling steers ranged at Sunnyside.

James Olsen, an old employe of the Oregon Short Line, went to work yesterday morning for the last time. He would be his 35th day in mortality. About 1 o'clock Mr. Olsen began to show some symptoms of a sunstroke, and he was taken to his home, No. 212 South Fourth West, where he remained, his condition being much worse. At 7 o'clock he died of heart failure. The funeral will be held from the fifth ward meeting house at 12 o'clock Sunday. Mr. Olsen leaves a wife and five children.

Captain John Hutton, "the original sanson lion," as he calls himself, gave an exhibition of feats of strength and skill, at Christensen's hall, this morning. In a number of ladies and gentlemen among whom were representatives of the press of this city, he said, he would do his 365th day in mortality. About 1 o'clock Mr. Olsen began to show some symptoms of a sunstroke, and he was taken to his home, No. 212 South Fourth West, where he remained, his condition being much worse. PURCHASE OF RESIDENCE SITES

Hon. A. W. McCune Buys the Calder Estate for $18,000.

WILL SOON BUILD UPON IT.

Thomas Kearns Offers $22,000 for the George Teasdale Property on South Temple.

Hon. A. W. McCune, during his absence, has, through his legal representatives at home, purchased the commanding and beautiful residence site on First street, between B and C streets, commonly known as the Calder estate. For the past three years the property has belonged to the Deseret Savings bank and was sold some days ago to Mr. McCune for the sum of $18,000. This has long been regarded by wealthy home builders as the most desirable residence site in the city.

It was stated today by a gentleman who claimed to speak with a knowledge of the facts, that Mr. McCune will, on his return from Europe, take immediate steps toward the erection of a home that will be without a counterpart in the intermountain country. He could not state whether the offers in the joint bulletin will be closed to permit of tree planting. The day will be observed by the University faculty and students by the setting out of trees on the new University site on the East bench.

SITE FOR THE SALT PLACE.

Forty Acres of Ground in Liberty Park Practically Agreed On.

OTHER PLACES CONSIDERED.

Action of Council and Palace Association Committees—Other Questions Considered and Passed On.

The Council committee on public grounds and Messrs. S. H. Hill, Jacob Moritz and E. A. McDaniel, representing the Salt Palace association, met last night for the purpose of selecting and agreeing upon a site for the erection of the proposed Salt Palace. It was practically agreed that forty acres of land in Liberty park, north of the lake and fronting on the East drive, will be the site for the mammoth structure. The inner square and Capitol hill grounds were talked over, but it was decided that the former was too small and the latter more or less inaccessible. Before the committee makes a report to the Council, a number of details will have to be arranged for, such as the making of a contract, etc. Both committees will go over the park grounds next Monday morning and complete all preliminary arrangements.

The waterworks committee decided to recommend to the Council a house to house canvass of water users, in the annual assessing of water rates. It is not altogether impossible that a new assessment will be made this year.

The committee on streets will recommend adverse action on the proposals from Frank $7,500 of the Talmage-Hastings Paving company contract for repair purposes.

The sewer committee will ask the city engineer to recommend a plan of supplying the city farms located south of the gravity sewer with sewage and irrigation water.

The committee on irrigation decided to recommend to the Council the building of a new bridge over the Jordan river on Ninth North street, at a cost of $1,800.

Superintendent Caine was authorized by the waterworks committee to recommendation of the city engineer, to employ a nightwatchman to keep the flume which takes the flood water around the Parley's canyon reservoir, free from obstructions. The his Grande flume, which was washed out last year and the committee does not want a repetition of that this season.

A letter was read from Mr. Smith's suggestion that the old sewer running down Fifth South street, be the drainage system, be utilized for relaying the Eighth West street canal of flood water this season. The committee agreed to the conclusion that the suggestion would be impracticable.

The sewer pipe orders ordered by the Council will not be shipped from Stockbaker's factory in South Bend, Indiana, as the company has not manufactured and will not ready here for at least two more weeks. The sprinkling committee recommended the suspension of the laying of the dust immediately after the carts arrive, whereby it was decided that the commissioner from each of the respective municipal wards should hire the horses and drivers for the sum of $3 a piece, and one man rides a bicycle, will be employed to start the drivers out and to ride the street supporting the sprinkling work.

NO COW STOLEN.

Bascom and Foy Wrongly Arrested —Winn Case Witnesses.

L. H. Smith, chief deputy United States marshal, has returned from Vernal. He said that two men there named J. Bascom and Perry Foy were arrested there on the charge of stealing a cow and calf from an Indian on the Uncompahgre reservation. The cow had carry sprency. Believing that they could not be convicted under the State laws, which have been repealed, they were brought to the United States attorney to have the case taken into the Federal court. Mr. Smith said that the Indian claimed that the man were to appear before the United States commissioner at Vernal. He was absent. The evidence showed that the defendant Bascom had bought the cow of a half-breed Indian named Owen, paid him $25 and was to deliver him $5 worth of wheat. Owen had described the cow to him, as running in certain herds and he went out and got the animal. An Indian named Newsomty appeared and laid claim to the cow. The Indians had tracked the cow from the reservation to near Vernal, and on finding it had Bascom arrested. Owen denied that he had sold a cow to Bascom, but at the hearing he admitted having done so. Foy had no connection with it. The men were discharged.

Later there Mr. Smith subpoenaed the witnesses in the Winn case, which is set for May 5.

THE BEST IN THE WORLD.

We believe Chamberlain's Cough Remedy is the best in the world. A few years ago we bought a bottle of it, tried it and found it a troublesome cough, and having tried it we recommend it to our own and other papers we purchased a bottle to see if it would effect us. It gave us relief, and the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind.

CONFERENCE PROCEEDINGS

The Deseret News, by direction of the First Presidency will issue a pamphlet giving a complete account of the proceedings of the General Conference, including verbatim reports of the discourses. It also comprises, as an appendix, an account of the conference proceedings of the Deseret Sunday school Union. The next issue will be the fourth of the series, and will be ready immediately after April Conference.

The reasons for this publication, in the minds of the Presidency, are:

It is a means of making the saints more familiar with the views, sentiments and instructions of the Church authorities, thus placing them in closer touch with each other.

Such a publication is of great historical value.

It can be made useful abroad through the medium of missionaries, and by being sent out by mail to distant parts by the Saints.

The price of the pamphlet is nominal. It will be sent to any address, post free, for fifteen cents. Agents will be allowed a discount of 25 per cent. Please send orders for the next issue as early as possible.
