Felling a Western Robber.

The great robber of moisture on the plains is the heat of evaporation. The activity of the winds is so great and constant that more vapor is raised from exposed water surfaces than in many regions of greater heat. The annual evaporation is seldom if ever less than four feet, and may rise to eight feet. Water storage upon high plains where there are no trees, if not wholly a delusion, is held to be somewhat delusive. More hopeful is the expedient of deep tillage, for, hidden from the sun and winds in the loose soil and subsoil, the moisture will thus be preserved at the very spot where it is needed to sustain vegetation.—New York Times.

Liebig COMPANY'S

Extract of Beef

For twenty-five years the standard for purity, flavor and wholesomeness. Its quality never varies, and it is the same today as when first put up by its inventor, the great chemist, Justus von Liebig, whose signature it bears, thus:

J. v. Liebig

It is the pure essence of meat built of condensed Beef Tea, free from fat or gelatine, and indispensable to Improved and Economic Cookery.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.

1. It is the Organ of the Church of Jesus Christ of Latter-day Saints, and the authorized medium through which the views, wishes and instructions of the Church Authorities are expressed, and given to the Saints.

2. It may always be relied upon as advocating or defending the right side of every question proper for public journals to treat upon.

3. It is devoted to the interests of the Latter-day Saints and has, from its inception, valiantly defended their rights and exposed the principles in which they believe; and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.

4. It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be derived from it, being devoted to extending its sphere of usefulness, and benefitting the community.

5. It is doing its utmost to establish home industries, among which are paper making and type-founding, stereotyping and electrotyping—branches necessary to the development and independence of the community, but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a pecuniary loss.

6. There is no danger of any subscriber to the News falling to get what he subscribes for through failure of the business and a suspension of the publication—a result in the case of hundreds of newspaper ventures every year.

7. It is now printed throughout in new and readable type, so that even the aged can peruse it without difficulty or danger to their eyes-sight.

8. It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it. In fact, it refuses thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.

9. Its tone is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, financial or otherwise.

10. It never measures its readers by palming off columns of self-praise for news items.

11. The News practises no deception and resorts to no subterfuges to induce people to subscribe, but on the contrary, prefers to stand on its own merits as the people's newspaper, with a promise only to do its utmost to give its patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.

12. In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News; and if more than one, the News should invariably be the first.
