GOING TO MEXICO.

Guatemalans Leaving Their Homes to Escape Service

IN CASE WAR SHOULD BREAK OUT.

The Rumor That an Order to Invade Guatemala Has Been Issued is Denied.

COMITAN, State of Chiapas, Feb. 8.—This border town is full of Guatemalan refugees who are arriving from the south daily by scores, rather to prevent being pressed into the army service. They report great alarm as prevailed among the people of the republic of Guatemala, especially among the countrymen, over the threatened war with Mexico, and say that the greater part of the army of 12,000 men now along the border have been forced into service by the Guatemalan government. The most of the refugees arriving at Chiahan have come along the tenderness but through a wild country and are in a very destitute condition. The problem of taking care of them is assuming serious proportions and, working raising scarce, it is not known from where sub come the means for their continued support. Many of them are willing to enlist in the Mexican army and fight against their own country if thereby they can contribute to the overthrow of the rule of Prospero Barrios. Among the refugees just arrived is a Mexican family named Valles, who have been living for some time in Guatemala. The family consisted of the parents, two sons and two daughters. In making their escape from the country they were overtaken and the father and two sons killed. After being maltreated the mother and two daughters succeeded in reaching this place nearly dead with hunger and fatigue. The matter will be called to the attention of the Mexican government with a request that a demand be made upon Guatemala for indemnity and punishment of the offenders who, it is claimed were Guatemalan soldiers. A number of strategic movements, which have been made by the Mexican troops within the last few days, have given rise to the rumor that an advance upon Guatemala soil has been ordered. This is denied by Don Lorenzo Garcia, who is in charge of the Oriental forces.

FIG TREE FOR NEW YORK.

SAN ANTONIO, TEX., Feb. 8.—A carload of pig tin amounting to 222 tons, passed through here today consigned to New York. It was shipped from mines near Durango, Mexico. It is said to be the second shipment of tin ever mined on the American continent.

THAT BOND ISSUE.

Morgan and Belmont Return from Washington.

NEW YORK, Feb. 8.—Mr. J. P. Morgan and August Belmont have returned from Washington where they had been to consummate the purchase of $65,000,000 of gold bonds. With Messrs. Morgan and Belmont were Robert Bacon, of J. P. Morgan & Co., and Lawyer Francis Lynde Stetson. Messrs. Morgan and Belmont were at first disinclined to say anything with regard to the bond purchase, but later admitted that the facts as already published were in the main correct.

Mr. Morgan laid special stress upon the fact that he had given President Cleveland the option to substitute at par within ten days, in lieu of the 4 per cent bonds, other bonds to mature payable in gold and bearing only 3 per cent interest, if the issue of the same should meanwhile be authorized by Congress. Mr. Morgan would not say whether he had believed that the loan should be $100,000,000. He refused to say what banks and financial institutions were interested with his firm and Belmont & Co. in the purchase of the bonds. While not saying so in that many words he conveyed the impression that neither he nor Mr. Belmont has given the President any assurance that all the gold with which the bonds will be purchased will come from the New York.

SECURITIES SHORTLY.

The Third Installment Over a Thousand Dollars in Bills and Gold.

LOS ANGELES, Feb. 8.—A clever and successful robbery was perpetrated yesterday by an unknown man which netted the thief $1,155 in bank bills and gold.

Shortly before noon a man in the garb of a mechanic presented himself at the Fremont hospital, and representing himself as a reporter in the employ of the telephone company, was admitted by Steward Annette, who showed him where the telephone was located in a room next to the test switchboard. He then proceeded to take down the instruments and the steward left him. After he had completed his processes he called the fellow left and the loss of the money, which was supposed to be safely drawer in the steward's room, was not discovered for hour or more afterwards. The money, which belonged to the steward, was deposited in a drawer which has been never opened and was to have been used in the payment of large purchases made by him. The robber was not in uniform.

VICTORY FOR MINERS.

A Case Dismissed by the United States Supreme Court.

SANTA FE, N. M., Feb. 8.—News from Washington that the United States Supreme Court has dismissed the case of Joel P. Walker vs the United States, appealed from the United States district private land claims, was received here today. The case is of absolute importance to many interested men as it involves a title to a tract in Central county, covering nine miles of land. Walker claims to have a land grant covering the coal mineral dykes in that county. The land court decided that the coal lands had been stricken by land laws to include the mineral bearing veins and rendered in favor of the claims. Then notice of appeal was given, but the sixty days' time was allowed to lapse and upon a certificate from the clerk of the land court that the appeal had not been perfected the government secured dismissal of the case. The miners are elated over the decision, as it means that the coal land claims will be confirmed and other appeal cases to follow. It is deemed very questionable if it will be granted for the grant claims appear to be valued on its face.

FOR RECEIVER CURRIER.

KANSAS CITY, MO., Feb. 8.—The Lewis Black exchange appropriated $2,500 of delinquent stamps, giving $1,000 to Hanna, $500 each to Chambers and Norton, and offices and $1,000 for home charity. The money will be distributed immediately.

THEAR WILL SUPPLY THE GOLD.

Bonbright & Co., Rothschilds & Sons and Morgan & Co.

WASHINGTON, D. C., Feb. 8.—The bond issue today was for a sum above the amount offered by the treasury. It not only, but more within 5% of the revised figures, which from so to [illegible]

"The secretary of the treasury this afternoon said with regard to the issue of notes of the United States [illegible] by new 4 per cent gold notes, upon terms to be duly announced, that advantageous to the public interest."

The contracts were made with August Belmont & Co., of New York, on behalf of N. M. Rothschild & Sons, of London, and themselves, and J. P. Morgan & Co., of New York, on behalf of J. S. Morgan & Co., of London, and themselves, to provide for the use of the treasury in the United States of $65,000,000 worth of standard gold coin of the United States to be paid for in United States 5 per cent bonds.

A large number of other firms and financial institutions participated in the transaction, but their names are not mentioned in the contract itself. The department does not know to what proportions the various parties stand in furnishing the gold coin or receive the bonds, as now it is a matter for arrangement between themselves.

By the terms of the contract, the parties are to bear all the expenses of bringing the gold from abroad. Another stipulation of great importance is that Messrs. Morgan and Belmont agree to exert all their financial strength and influence and that of their associates at home and abroad to prevent any withdrawals of gold pending complete performance of the contract. No bonds are to be delivered, except in payment of gold actually delivered.

Explosion on a Steamer.

PORTAGE CITY, Ark., Feb. 8.—Meager details are received here tonight of the explosion near Mexico, on the St. Francis river, of the Chicago, a river steamboat of considerable capacity. It is reported that seven, consisting of nine persons, were blown to atoms. The boat left Madison early this morning on a trip down the river, carrying two families, whose names are not given, and her crew. Her cargo consisted several barrels of gunpowder.

The coal had reached a point of four miles from Madison, when, without the least warning, the explosion occurred, scattering the dead and floating them on board high in the air. Nothing was left of the boat, being torn to shreds. The explosion was terrific, and was heard three miles distant. Owing to the extreme isolation of the scene and the poor telegraph connection caused by inclement weather, further details of the disaster are uncommunicable tonight.

Three Trains Wrecked.

WASHINGTON, Feb. 8.—Three trains were wrecked at Deltaville, twelve miles from this city, today. Full particulars meager, but it seems certain that the damage to the trains was great, although no lives were lost. No car so can be learned, the train that was stopped at Deltaville by another. The 210 train on the same line ran into them behind, smashing the car badly. While efforts were being made to clear the track, the 241 train came up and ran into the other trains, doing great damage.

A little later the 410 train came up, but was stopped by a drift only a hundred yards from the spot where the three other trains were piled up. But for this, it would have been added to the ruins. It is thought that no passengers were out. There were only thirty-five passengers on the transcontinental, and none of them were injured. They suffered severely from the cold. The wires are down, and no information can be obtained. Baltimore is the only city with which communication is now open.

STRUCK BY A TRAIN.

Several Persons Killed and Others Severely Injured.

HARRISBURG, PA., Feb. 8.—While Singing on a sleigh and train on the Pennsylvania road near Lockbow this afternoon, six men were run down by a section of the Pacific Express. Two were killed instantly, two injured so badly that they died not a short time and the fifth is at the city hospital with a fractured skull, his arm being broken in three places and seven ribs broken on the left side.

Under the direction of Supervisor King, the men were shoveling two engine wheels and been ridden by the section. The section men were on the eastbound passenger track with the hose around which covered all around it. As soon as they cleared the snow away, the wind would drive it over them and on the track on which the train stood. The air was full of it, making it difficult to see in any direction.

Suddenly one of the workmen cried "Look out!" Coming up the westbound track was one of the sections of the Pacific Express which was scheduled to arrive at 3 o'clock in the morning, but which had been delayed almost twelve hours. Before the men could get out of the way the express struck them.

Daughter of a Prince.

SAN FRANCISCO, CAL., Feb. 8.—The evening Bulletin publishes interviews of the death in the Hawaiian village of Kaolawa, on January 25th, a few days prior to the sailing of the last steamer for San Francisco, of Mary Regina Holt, whose mother was Princess Marie Regina of Boston. The latter, according to the story, was sent of the present Japanese, and married a Chinese noble, Ping Lee Chang, brother of an ex-emperor of China. Mary Regina was a daughter of this alliance, and in 1867 married H. R. Holt, a half-caste Hawaiian, but related to ex-Queen Liliuokalani. Mrs. Holt lived in comparative obscurity upon the large plantation in Kaolawa, was an accomplished linguist and is said to have left many valuable unpublished manuscripts.

Covered the Eggs.

CHICAGO, Feb. 8.—H. A. Foster, of Winona, Minn., has just covered the egg market of the United States, and the colder the weather grows and the longer the cold spell lasts, the greater the profits he will reap.

"Eggs are 30c a dozen in New York," says he. "Before another sun goes down I may make them 40 cents or I may stop their supply altogether and compel them to eat Dominick turkeys that were laid before the McKinley bill became a law."

Mr. Foster is the principal of the firm of H. A. Foster & Co., of Winona, Minn., the most extensive egg shippers west of Chicago, Milwaukee, Winchester and the Dakotas. Minnesota is the state on which the firm depends for its supply. During last spring, when the prices were low, the firm gathered in all the eggs it could and stored them in cold storage in Chicago. The Foster company was opposed to when there was a big demand for eggs to crack in the reserve. It always declined to do so.

Mr. Foster said tonight:

"When I was called the cold storage I was called the cold storage and decided to say, I divided my eggs into three parts. One part I sent to New York, one to Boston and one I kept here. As there can be no fresh supplies while the present weather continues, and as there are no holdings outside of mine, I practically control the market."

Cold Snap Broken.

KANSAS CITY, Feb. 8.—The cold snap is broken and the thermometer is gradually creeping up again. Before making the change, however, the low mark for the last ten years for February was reached, which at 10 o'clock this morning the thermometer went 13 degrees below. Since then it has steadily crept up until at 6 o'clock this evening it was 10 above. Over in Kansas city, the weather has become warmer and the wind stated perceptibly. Nevertheless many trains are still snowbound and will for a day or two. Active relief is being put in operation, and so far as we know there has been no loss of human life. The sufferers, however, are still suffering great hardship.

Railroad to Blackwell, Ok.

GUTHRIE, OK., Feb. 9.—Secretary of Territory Lowe has issued a charter to the Northern Oklahoma Railroad company with A. J. Blackwell as president, A. S. Miller as vice president, J. H. May as secretary, and Frank V. [illegible] as treasurer. The capital stock of the company is $100,000. The company will construct a line of railroad to Blackwell, beginning either at Arkansas City or at Hunnewell, Kan.

Yale's Skin Food

Removes wrinkles and all traces of age. It feeds through the pores and builds up the fatty membranes and wasted tissues, nourishes the shrivelled and shrunken skin, tones and invigorates the nerves and muscles, enriches the impoverished blood vessels, and supplies youth and elasticity to the action of the skin. It's perfect.

Beware of substitutes and counterfeits. Yale's Original Skin Food, price $1.50 and $3. At all drug stores.
