RUSSIA IN EARNEST.

France and Germany Invited to Joint Action in Japan.

A THURSDAY NOTE PROPOSED

Will the Understanding That Its Religious Would Justify Armed Interference.

PARIS, May 1.—The Gaulois today asserts that Russia has formed a union with Germany to urge a joint action by the three diplomatic corps of representatives of China against the representatives of Tokio, and that the latter country would then be the lucky one ignoring the advice with serious armed interference in the part of the three powers with regard to it.

Shooting Up Against Wilde.

LONDON, May 1.—In the Old Bailey today, Justice Charles summed up the evidence against Oscar Wilde and his friend Taylor. The former is on trial accused by the prosecution of being a party to a conspiracy, the charge of which is brought against Wilde, as he would have ordered the jury to acquit in a verdict of not guilty on that indictment. He admitted that there was a conspiration of the witnesses, but the jury, he added, would have to decide as to the existence of such a conspiracy. Wilde, whom Sir Edward Clarke, in his justice's opinion, properly described as "that matter," the jurors are urged the jury not to be influenced by his writings. The jury retired at 12:30 p.m. Later—The jury in the Wilde case disagreed.

A Bad Precedent.

NEW YORK, May 1.—A special to the Herald from Guatemala says: The intimation that Nicaragua has agreed to let the Japanese use Corinto as a base of operations here. It is considered a disturbing element under which Japan can at least other Central American states.

Ship Builders Surprised.

NEW YORK, May 1.—Some builders at this port, with other shipping circles, report that the Fall River line steamers to Liverpool during the past winter, though not fitted to 21 miles per hour, yet to Liverpool in 6 hours. Some people have been alarmed at the extraordinary speed of the Cunard line steamers, and it will be interesting to see how the Fall River line steamers will compare with the Cunard line steamers in speed.

GRISLY SOUVENIRS.

Peculiarities of the Tacoma Riot—A Murderer.

TACOMA, Wash., May 1.—The outlaws of the Islands, the desperado who shot up the jailer at Seattle with a Winchester recently, has been trained and he is made in his pocket. Sheriff Chapin of Seattle says it is an English contraband, a "red handed bandit." They cause a physician here to be a bearing shaft of the chest of the human skin. They are so precious enough of Brown's house to M. Kelly, of Sumner, who has taken it back.

It is said by some that Brown's arrow was unerred, but it was so small it could not enough was found to make half a smoke pocket knife. As soon as it was learned that pieces were made from the murderer's skin and so bad, there was a decided rush for the Islands, especially among those who were on the jury in the Tacoma riots, the letter of which appears in Brown's capture.

FROM ASIA BY STEAMER.

Particulars About the Occupation of the Pescadore Islands.

Chinese Among the Japanese Soldiers—Another Mass Arrive.

VICTORIA, B. C., May 1.—The Empress of China arrived last evening from Yokohama with advices to the 18th.

The capture of the principal stations on the Pescadore Islands was easily achieved by the Japanese during the last week of March, the process being similar to the seizure of the northern strongholds. Admiral Ito in the flagship Matsushima, conducted the naval operations in which six of his fleet were engaged. Port Hu and several smaller ports on the islands were seized and merely nominal resistance, and the troops would have proceeded to Formosa before this but for an outbreak of cholera among the unfortunate transportation the Japanese have and greatly alarm. The cholera somewhat of the usual characteristics, only 30 of the 1,000 attacked were recovered in the hospital. The remedy mainly is administered to the unhealthy climate of Formosa, to the unhealthy climate of the Pescadores, to the unhealthy climate of the Japanese. The cholera has come from one and from Japan to the transportation of operations of the regiment. In Manchuria cholera has also appeared, but in a mild form. Dysentery is rife, but the latest reports are remarkably. Precautions are being taken to prevent the disease from spreading. The town of Ulsan, near Hiroshima, has been isolated and some that quarantine regulations are everywhere enforced. There has also been an epidemic of cholera in Tosamoto, Tokio, Fukuoka, the number of cases being 5,000.

A correspondent of the Japan Times, writing from New Chwang, asserts, and quoted European as authorities, that the Japanese troops (when they entered) Deseiland numbered 4,000 wounded prisoners of war and many of the peace population received that an hour after the battle ended not a prisoner of wounded man was to be seen. Still there were many bodies with sabered, in addition to gunshot wounds. There was over 1,000 dead and many bones were missing.

Also indication that the Japanese expects to make a long stay in Talien. It is announced that Hot Works on a large scale are to be at once established there by the Yokoi steamship company, which is never government contract.

A northern capitalist continues to invest in war bonds.

By imperial orders the six captured Chinese men-of-war Tei Yuen, Chen Yuen, Chang Ho, Chen Hai, Tsao Pei, Hsin Ching and Chen Pei have been added to the Japanese navy.

ALMOST SETTLED.

England Willing to Accept Nicaragua's Offer.

AMPLE SECURITY FOR THE MONEY.

Possibility of a Revolution If the Present Negotiations Fail to Adjust the Claims.

LONDON, May 1.—It is learned on good authority that Great Britain has agreed to the proposed settlement of the dispute with Nicaragua, if the payment of his indemnity is guaranteed. It is said the offer is practically settled.

AMPLE SECURITY.

WASHINGTON, May 1.—The possibility of a revolution in Nicaragua if the indemnity required by Great Britain and is made in the proper manner, is the main argument in favor of the payment of the indemnity. It is believed that if the money is paid there will be no revolution here.

The guarantee will be in any one of several ways as follows:

First, the payment of the Nicaraguan government, which is as good as the government has never refused to fulfill its obligations, is at least regarded as a guarantee.

Second, the Bank of Nicaragua, a national institution, with headquarters at London, with, if need be, ample security.

Third—The revenue of Bluefields and the Mosquito Coast, which is ample to cover the claim of Great Britain, and which is now in the hands of the Nicaraguan government.

Fourth—The Nicaraguan Canal company, which is in London and is accountable to the highest European authority, will give ample guarantee of such if need be.

ADVICE FROM MANAGUA.

MANAGUA, Nicaragua, via Galveston, Tex., May 1.—Special Correspondence Associated Press.—Official information to the effect that Great Britain has agreed to the Nicaraguan ultimatum, and that the Nicaraguan government will pay the Great Britain indemnity, and that no war will be declared against Nicaragua, has been received here. It is also stated that there is now a very strong feeling against the Nicaraguan government and considerable excitement prevails in the city.
