DESERET EVENING NEWS.

Wednesday, November 1, 1893.

FRAGMENTS.

The grand jury has been in session again today.

The county clerk today issued a marriage license to Wm. R. Hill, 23, and Ella L. Sellers, 19, both of South Jordan.

COUNTY CHAMPION LEONARD and his staff are branching more freely today. The grand rush is over.

In the courts today, with the exception of the Hammond murder trial, everything has been singularly quiet.

JULIA GREEN, the young domestic arrested on the charge of stealing $60 in cash from Mrs. Lapish, has been held to await the grand jury's action in default of $500 bonds.

U. S. DISTRICT ATTORNEY John has approved the bond of Mr. A. L. Pickett as consul to San Salvador. The amount fixed for the bond is $2000. The sureties are Messrs. Wendell Bowen and W. H. Rees.

PROFESSOR WILLARD DOW delivered an interesting lecture on Astronomy before the Nineteenth ward Mutual Improvement association last night. The audience was a large and appreciative one.

HARDSCRATCH H. C. BARRELL announces that there will be a meeting of the Juvenile Drum Corps at his residence on Saturday night next at 8 o'clock. The boys are requested to appear in full uniform to take part in the Chinese parade.

FRED BUCHER, a police suspect, was run in by an officer last night. Bucher had a formidable looking revolver and a mask in his possession. The police are of the opinion that he was prepared for "turn a trick" but that he was prevented from doing so by being given a night's lodging behind the bars.

Eight More Indictments.

The grand jury filed into Judge Bartch's court this morning and reported having found eight indictments—four under the laws of the United States and four under the Territorial statutes. Prosecuting Attorney Howat thereupon moved for the issuance of warrants of arrest against these defendants not already in custody.

Before Judge Zane.

In the case of James H. Mayne vs A. M. Whitehead et al, on cross-complaint of J. H. Bailey, default was entered this morning and decree of foreclosure.

The trial of the case of James Devine et al vs Jos. Wm. Taylor et al, begun yesterday, was resumed. It is an action to foreclose a lien and was in progress when the NEWS went to press.

A Smashup.

This morning, about 8 o'clock, a couple of students were driving towards town to a cart on the State road about four miles south of the city. The approaching street car frightened the horse, which ran a short distance and collided with a heavy ice wagon. The young men were thrown out and the cart overturned and smashed to pieces. The riders did not appear to be hurt beyond a few bruises.

COUNCIL DOINGS.

Heber M. Wells Appointed a Member of the Board of Public Works.

REFUNDING OF SEWER TAXES.

Extension of Time Granted for Paying Regular Taxes—Retrenchment Resolutions Adopted.

The City Council met in regular session last evening with Councilmen Lowney in the chair. All the members were present except Katrick.

THE PROCEEDINGS

A petition from Angus M. Cannon and others was read, asking that Eighth West street be repaired between Third and Fifth South streets. Committee on streets.

J. and H. Stringham asked, as they have completed the sidewalk in front of property on South Temple street between Second and Third East, that the same be accepted and that the taxes assessed against the property be remitted. Board of public works.

John H. Bailey having paid $25 about two years ago for extension of water mains in front of lot 11, block 15, plat J, and having petitioned several times to have the work done, so he desires to build a house on said lot, which cannot be done without water, asked that the Council order the work done at once. Committee on waterworks.

A communication from Contractor Frank Harrigan stated that he is prepared to lay and complete sidewalks according to his contract with the city dated June 27th, 1893. Board of public works.

A petition was read from J. H. Bailey asking that his agency, which has been placed in the city proof he requires in case without cost as the petitioner has to every way complied with the requirements of the law. Referred to the recorder.

H. O. Hoch sent in a bill for $400 due for sprinkling West Temple street from Eighth South to Tenth South, also West Street, Eighth South to Tenth South, and Fifth East Street from Ninth to Tenth South as per contract for the months of August and September, 1893. Sprinkling committee.

A petition from Hoshelson, Griffith & Morris, the gravity sewer contractors stated that owing to the scarcity of hard brick in this market, they would esteem it a favor to be permitted to have the present mode of structure changed according to accompanying blue print. The request was made because it would not only enable them to close down the work now open at an earlier date, but would be considerably less expensive than the present method of construction. They also stated that the city engineer has adopted this method of structure for the tunnel. The petitioners earnestly asked for early action in this matter. Referred to city engineer, board of public works and city attorney, with power to act and to report their findings at next meeting of the Council.

A petition from Hoshelson, Griffith & Morris and Hobson & Wilkerson asked for one year's extension of time within which to complete their contract for the completion of the gravity sewer. Referred to board of public works.

A communication from the American District Telegraph company called attention to the fact that they were working under a franchise granted by the City Council in 1881 and that another company was encroaching on their rights. Committee on municipal laws.

A petition from Fred Kessler requested that Frank Rindell be given employment as he has a family to support and is in need. Referred to the Mayor.

Hans Nilson, American house, asked the Council to act on his request made about a month ago for a free license to parade 8th. Committee on license.

B. Symons petitioned the Council to furnish him with employment in the amount of his city tax as he has no means to pay the same. Referred to the Mayor.

APPOINTMENT OF HEBER M. WELLS.

A communication from Mayor Baskin was read appointing Heber M. Wells a member of the board of public works, submitting the appointment for the approval of the Council. Referred to committee on public works.

SANITARY INSPECTORS.

A communication from Theodore B. Beatty, M. D., recommended that W. F. Anjetzy, Daniel Dunn, Daniel Connolly and E. R. Kinnes be appointed sanitary inspectors at a salary of $2 each per day, actual service. Laid over one week.

AMENDMENT TO ORDINANCE.

The city attorney submitted an amendment to the license ordinance, requesting gardeners to pay a license for peddling their products in the city. Laid over after third reading.

REFUND TO TAXPAYERS.

The matter of refunding to sewer taxpayers various amounts, aggregating $6,401.11, was brought up for consideration. A motion was made by Bell and seconded by Wantland that the amounts be placed on a special appropriation list, that the treasurer be instructed to pay parties only on condition that they waive all right to make further claims, and that he include in the vouchers a list of the names of persons to whom rebates are due.

SPECIAL POLICEMAN.

The committee on police presented a report with reference to the request of M. L. Cummings et al, for the appointment of A. H. Davidson as special policeman without pay from the city. The committee recommended that the Mayor be requested to make the appointment. Adopted.

MORE SPRINKLING.

In the matter of employing for the balance of the season more sprinkling teams in the business portion of the city and on streets leading to depots, the committee on sprinkling recommended that ten teams or less, if necessary, be employed for the purpose at $4.50 per day or each team for actual service. Adopted.

LICENSE RATES.

In the matter of a resolution of Councilmen Wantland and Bell, providing for a conditional remission of 25 per cent on licenses for the three months ending Dec. 31st, the committee on license presented the following report: We believe no permanent change should be made in the rates for licenses now fixed by ordinance; but if the Council see fit, on account of hard times and the desirability of securing payments of license fees in cash, to make the following reduction in licenses, we recommend that it be done in this way, viz: That the treasurer and license collector be authorized to allow any person now holding a license to whom same shall be renewed by the Council to accept for renewal for one-quarter such percentage of the present license rate as the Council may direct, provided such payment be made in each instance of its city warrants, and provided such renewal be made before the 31st of January next. Adopted.

LIQUOR LICENSES.

The committee on license recommended that the applications of the following for licenses to act as retail liquor dealers be granted: Geo. W. Clancy, Salt Lake Brewing Co., Fred S. Hodge, Jos. O'Reilly, Wilson & Hastings, M. Lowenstein, John A. Williams, C. T. Wallbaum and J. S. Andrews. Adopted.

ON RETRENCHMENT.

The committee on retrenchment reported they have found, under existing circumstances, that it is necessary to make changes in several departments, and recommended that they (the committee) be empowered to act as provided for in the original motion of Wantland.

Moran was opposed to letting such a report go through the Council.

Horn—I am opposed to this report. I do not think it right that this Council should give such extraordinary power to any committee as to practically manage every department in the city, and to make such changes as may suit them.

Daly—This is not a report at all. The committee were to bring in a report recommending what parties could be dispensed with in the city departments.

Moran said the question was not debatable.

A motion was made to lay the report on the table, but it was lost.

Parsons said the committee were afraid to bring in the names of those on whom they should report, and believed the names were withheld for political reasons.

Bell refuted the charge.

Hardy—I believe as Mr. Parsons—that there is something back of this. I am opposed to the report.

It was moved and seconded that the report be referred back to the committee. Carried.

Moran—I move that nine committees be discharged.

Bell seconded the motion.

Rich—I want the committee discharged. We have spent enough time on the matter. I do not care a cent whether you retrench or not. You can keep on the men if you want to. You have too many men employed, and it will take six months before we can get them. The superintendent of waterworks could get on thousands of men, and not one of you would say anything. Now and then we will retrench. I don't care, gentlemen. Bottoms up! Carry it through. I am all right.

Simmons—In the waterworks department there are men at work. One of them can be dispensed with. That is one example. It is so through the whole list.

Hardy—The great trouble with this Council has been that we have allowed the heads of departments to run it, instead of having the Council to run them. The body has never acted as it should have acted. We have never acted in union in one movement, and there is not a head to a department of this city, but has been running the Council instead of the Council running the department. I am satisfied that there are men on the pay roll that can be dispensed with or employed there is no money to pay them. It will take three months to do that.

Evans—I want to say that every member who presented a former report on retrenchment acted in good faith. But the Council seemed to treat that report with distrust, or rather marked it as having some personal reason at the bottom of it. I want to get myself on record as having acted in good faith at the time. If we had cleared the departments then, we would have accomplished something, and would have taken the venom out of the mouths of our opponents. We know there were men in the departments that ought to have been kicked out, men who were not only disloyal to the city but obnoxious to the heads of the city government. I hold the chief executive officer to be responsible for this. He has not gone out and kicked after the heads of these departments. I do not consider it was not duty to go out after gangs of men and critically examine every man employed.

Hardy—I believed Mayor Baskin signed our report, and was in favor of retrenching and keeping it. We ought to do something to straighten up this matter before the incoming commission takes charge. I feel as though I ought to be relieved of myself in binding things in the condition in which they are in some of the departments.

Pulleid—If my memory serves me right, I have been on only one committee that employs men, and I think that department did fall pretty freely.

A division was called on the motion to discharge the committee. The motion was lost.

Bell—I put in my resignation as a member of that committee, and I refuse to act.

TO LOWER THE WATER MAINS.

In the matter of the communication of the superintendent of waterworks calling attention to the necessity of lowering certain waterpipes exposed to damage from frost, the committee on waterworks reported that they found certain of the mains so exposed, and recommended that the superintendent of waterworks be authorized to proceed to lower such pipes to the extent of $800 not at the estimated cost of $2500 exclusive of service. Adopted.

HOW THE OF TAXES.

As the present times are so stringent, so many honest people are out of employment, so business men experience difficulty in collecting money, and so forced sales of property have been made to pay taxes, Lawson offered a resolution that the time of payment of the city tax for the present year be extended to the latest possible date and that the collector of taxes be notified accordingly. Adopted.

The Council adjourned until Friday evening.

Cash paid for water certificates at Cannon's real estate office, room 332 Constitution Building.

If you have water taxes to pay, save money by calling at room 332 Constitution Building.

NEW RATES AGAIN.

Rio Grande Western Railway.
