UTAH AFFAIRS.

Congress and Polygamy,

Including the

POLAND BILL.

THE ABOVE IS A SERIES OF LETTERS by "VERITAS," intended to give the reader some acquaintance with affairs in Utah, political, religious and social, and to show, in some degree, the real objects levelled against here for years, in anticipation of Congress assembling and promulgation legislation for the Utahns.

The writer has used, very generally, the language of prominent and characteristic parties, knowing that such matters lose the greater weight.

Erie R. R. Matters.

NEW YORK, 22.—At the meeting of the Erie stockholders, to-day, Mr. Brownell, V. P. of the Stock Exchange, in the chair, the following resolutions were adopted:

"Resolved, that in our judgment, if the company cannot avoid paying the interest on the bonds lately sold in Europe, and cannot earn money to pay that interest, sound policy would require that money for that purpose be raised by assessments on the stock.

"Resolved, that we recommend the directors of the Erie Railway to open books of subscription, at this office, and invite the stockholders to voluntarily contribute the sum of blank dollars a share, to prevent the company going to protest."

It appears from the report that President Jewell states that the earnings of the company fall short of its requirements by three million dollars a year; that the funded debt has been increased at the rate of five millions a year for the last four years, without a corresponding increase in equipment or other property; and that for the last moneys borrowed in Europe the company issued seven per cent. gold bonds, at the rate of forty cents on the dollar and, in order to raise the money to pay the June interest on these bonds, the company is about to hypothecate its only remaining assets, its coal lands, on terms which will involve their sacrifice for less than their value; and, finally, that adherence to this financial policy will most inevitably lead to bankruptcy. It has been rumored that there is a movement on foot for a general strike of the Erie employees; an inquiry has failed to confirm the rumor, but it revealed the fact that the employees have not been paid since March.

The U. P. R. R. Will Appeal.

OMAHA, 22.—There is no truth whatever in the report telegraphed from Council Bluffs, that the Union Pacific Railroad would abide by the decision of the U. S. Circuit Court, in the mandamus to compel the company to operate the bridge as a part of its road, and the whole as a continuous line to Council Bluffs; the case will be appealed, as previously stated, and in the meantime the U. P. trains are made up this side the river.

Five Men Killed.

WILKESBARRE, Pa., 22.—Three men were killed to-day at the Stanton mine, by the falling of the carriage in which they were being hoisted out of the mine; two men were also killed in a mine at Plymouth, to-day.

Appointment.

WASHINGTON, D. C., 22.—John Lighten has been appointed collector of internal revenue for St. Louis, *vice* Constantine McGuire, resigned.

Another Thief in Office.

NEW ORLEANS, 22.—Ferdinand Dudenhoffer, receiving teller of the Germania National Bank, was committed to prison to-day, charged with embezzling a hundred and fifty thousand dollars.

Terrible Fires.

MAUNCH CHUNK, Pa., 22.—Very severe mountain fires have been raging in Carbon county the past few days; an immense amount of lumber and sawed logs and a number of dwelling houses have been burned in the Hickory Run and Mud Run regions. Only a rainfall can extinguish the fires. The inhabitants of Mud Run have suffered terribly from the flames, numerous families only escaping with their lives, all their household goods and residences being lost. Mr. Abel Kelley, of Hickory Run, lost his sawmills, house, barn and five tenements, with all their contents. Five sawmills and eighteen houses have been burned on Mud Run. Stephen Gould lost about three million feet of lumber. The lumbermen, with their wives and children, turned out to fight the flames. At Jeanesville, Beaver Meadow, and other mining villages, the flames had to be fought, all who were able turning out. At the back of Weatherly and Parryville the fire is raging and spreading rapidly. The damage done in Carbon county will amount to half a million dollars.

Last Night's Dispatches.

EASTERN.

Len Wines Appointed P. M.

WASHINGTON, 23.—Len Wines has been appointed postmaster at Kirby Valley, Elko county, Nev.

A Denial.

John Richards, Indian agent at the Wichita agency, has sent, though the Indian bureau, a reply to the statements reflecting on affairs at that agency, explaining the circumstances of the short rations. He admits that there has been a scarcity of provisions, but denies the statement that every means possible was not used to prevent suffering, and says there is no truth in the statement that there is danger of an outbreak among the Indians there.

Indian Chiefs Not Settled—New Branch Mint.

The seven Sioux Indians, with Red Cloud and Spotted Tail, left the quarters provided them by the commissioner at the Trement House, and went to the Washington House; it is not known what action the commissioner will take in the premises, but this step on the part of the Indians is considered a bold one. It is said that negotiations will not be accomplished so easily as the government anticipated.

Dr. Linderman will, on June 10th, begin a personal examination of the western mints, with a view to ascertaining the best locality for a new branch mint.

Affairs in Texas.

CHICAGO, 23.—The *Tribune's* Washington special says that some very curious correspondence was intercepted yesterday, between General Sheridan, the President, and the Governor of Texas. The U. S. military authorities have complained that the Texas officials on the Mexican border have caused the arrest, on a charge of murder, of the U. S. soldiers engaged in preventing the raids. The President, after reviewing the correspondence informs the governor that a repetition of such acts by the Texas people will result in the withdrawal of the troops from Texas. Texans who are in Washington say that the withdrawal of the troops would give such an impetus to volunteer companies as would lead to a border war.

A Big Walking Feat—Report Made.

Daniel O'Leary, a pedestrian of this city, completed, at West Side Rink, this a.m., at 1:30 o'clock, the unparalleled feat of walking 500 miles in 153 hours, being three hours less than the time he had allotted himself for the task. During the walk he made the fastest mile on record, seven minutes and twenty-eight seconds. He walked 50 miles in nine consecutive hours. O'Leary was presented with a purse of $1,000, and the receipts at the door must have amounted to $2,500 more. The attendance, particularly during the last three days of his walk, was very large, not less than five thousand people being present yesterday.

The *Times'* Washington special says that General Hammond, who was sent west with the direction of Congress, to report on the real status of the New Ionia, Panoche Grande, and other valuable mining claims, has returned and sent in his report, which is a palpable attempt to obey the letter of the congressional command and to evade its spirit. A correspondent says that Hammond is the tool of Delano, and merely gives a few vague generalities as to the boundaries and elevations, while the great issues involved are carefully dodged.

No Mining Parties to go the Hills.

The following dispatch has been sent by General Sheridan:

"Chicago, May 23rd, 1865.

"To Hon. A. W. Hubbard and others, Sioux City, Iowa.

"The Secretary of War has sent me your despatch of the 21st inst., from Sioux city. General Terry, commanding the Department of Dakota, has directed that the Gordon mining party be released, if the capture was made outside of the Sioux reservation; but in case it was made inside, to require a promise from each individual composing it, not to violate the conditions of the treaty of 1869 with the Sioux Indians, which forbids any trespass on the part of the whites until the government gives permission. The Gordon party, or any other party, have no more right, under the treaty of 1869, to go to the Big Horn than they have to the Black Hills, and it might just as well be understood at once, that it, or any other party, will not be permitted to go to these places until the instructions which now govern the military are revoked.

(Signed) "P. H. SHERIDAN,
"Lieut. Gen."

The Burmese Difficulty.

NEW YORK, 23.—The *Herald's* cable special from Mandolog, says that his majesty, the King of Burmah, is most anxious to settle matters with the British and Chinese governments amicably. Lefeedtie, the Chinese General supposed to have arrested Col. Browne's advance on the march for territorial explanation, arrived three days ago, the bearer of dispatches from the court of Burmah. The King denies all complicity in the failure of Col. Brown's expedition, a position which is confirmed by careful inquiry. No serious difficulty is anticipated regarding the Kaavenee question. The opinion which prevails in the public mind, in regard to the King's ill-treatment of foreigners, is quite unfounded. The rumors regarding the concentration of troops towards the frontiers are incorrect. Trade is depressed and almost at a standstill pending the question in dispute.

The Destruction At Osceola.

TYRONE, Pa., 23.—The destruction and devastation at Osceola are very much greater than has been reported. Nine-tenths of the town are burned, leaving scarcely enough houses to mark where the town stood. In the midst of the conflagration thieves and robbers were plying their trade, breaking into trunks and appropriating articles of value. Money and clothing are needed, and a supply of food.

Fine Prospect for Crops.

COUNCIL BLUFFS, 23.—Advices received from a large number of the principal towns in the State say there are no ravages in this State by grasshoppers, nor is there any danger anticipated. The crops were never in a better condition, nor the prospect for an immense yield more favorable.

GREAT inducements offered to wholesale purchasers in Lamps, Coal Oil, etc., at Reid & Kinsey's.

ONE-THIRD ACTUALLY SAVED.—Economical housekeepers should know that Dr. Price's Cream Baking Powder is a perfect powder, and as such is very light, and that those powders which weigh heavy are made so by ponderous adulterants. As baking powders are used by measure, teaspoonfuls, and not by weight, the heavier ones being less effective and more expensive.

Dr. Price's cans are the same size, hold the same number of teaspoonfuls as others, and as two teaspoonfuls are only needed when three of the others are required, it will be perceived that there is in its use an actual saving of one-third; that two cans of Dr. Price's go as far as three cans of the common kinds. Dr. Price's Powder is not sold in bulk; it can only be found pure when bought in cans securely labelled. d148
