MINING, BUSINESS AND STOCKS

FIGURES ON METAL OUTPUT.

The Production of Mines in the United States Last Year Was About $500,000,000.

MANY INCREASES ARE SHOWN.

Particularly Interesting is the Story Of Copper—Lead, Iron and Silver in Abundance.

In its issue of the 7th inst., the Engineering and Mining Journal presents some interesting statistics bearing on the metal products of this country, upon which it places an estimated valuation of $509,037,145. While it is admitted that these figures cannot be exactly accurate, yet it is not expected the official figures of the government to be released next June will show no radical change in the totals.

The production of alluminum in the United States during 1903 was about 7,500,000 pounds, valued at $2,325,000, as compared with 7,200,000 pounds, valued at $2,284,590 in 1901.

The copper production is given at 679,880,000 pounds, valued at $88,334,770, as compared to 610,815,384 pounds, valued at $71,072,586, during the previous 12 months. The quality of metallic copper, other than manufactures, imported during the first 11 months of last year, were 126,615,475 pounds, valued at $15,996,502, against 86,857,978, valued at $11,126,239, in the corresponding period of 1902. The exports were 272,000,604 pounds, valued at $36,200,667, in the 11 months of 1903, and 336,023,154 pounds, valued at $41,179,887 in 1902.

In estimating the output of gold, the figures furnished by the director of the mint were used, being 3,600,645 ounces, valued at $74,425,340, as compared with 3,870,000 ounces, valued at $79,992,800 in 1902. The imports of gold for the 11 months ending Nov. 30, amounted to $48,037,398, while the exports during the same period were $42,882,178.

The production of pig iron showed a small increase in 1903, thus establishing a new record for the industry in the United States. The total output was 17,942,840 long tons, against 17,821,307 tons in 1902, a gain of about 0.7 per cent. There was a large decline in the average market prices of the different grades of pig iron, and the total value of the product was approximately $265,554,032, against $303,156,995 in 1902. The imports of pig iron into the United States in 1903 were 602,855 long tons, and the exports for the same year were 17,111 tons against 625,383 tons and 27,487 tons, respectively, in 1902.

The total output of desilverized, soft and antimonial lead produced in 1903 was 289,030 short tons, valued at $24,492,402, as compared with 289,030 short tons, valued at $24,492,402, as compared with 280,524 tons, valued at $22,829,043 in the previous year, showing an increase of about 3 per cent. In addition, there was a production in 1903 of 84,771 tons of lead from foreign ores and bullion. The imports of lead in ores and all forms other than manufactures during the first 11 months of 1903 amounted to 196,936,017 pounds, valued at $3,510,043, against 193,828,431 pounds, valued at $4,141,032, in 1902. The exports were 111,269 pounds, valued at $6,156 in 1903, and 6,477,380 pounds, valued at $283,248, in 1902.

The production of quicksilver in 1903 was 29,103 flasks, valued at $1,295,083, against 34,451 flasks, valued at $1,500,142, in the previous year. The exports during the first 11 months of last year were 1,280,298 pounds, valued at $682,700, as compared with 942,980 pounds, valued at $535,702, in the same period of 1902.

The total output of silver from domestic ores in 1903 was 56,519,793 troy ounces, valued at $30,520,688, against 55,500,000 ounces, valued at $29,415,000, in 1902, showing an increase of 1,019,793 ounces, or about 1.8 per cent. No statistics of the quantity of silver recovered from foreign ores and bullion in 1903 are available at this time, but the total for 1902 was 48,087,244 ounces. The imports of silver during the 11 months of last year, ending Nov. 30, was valued at $21,895,853, as compared with $23,701,649 in the same period of 1902. The exports were $34,119,689 in the 11 months of 1903, and $43,726,079 in the 11 months of the previous year.

The production of zinc in 1903 showed a slight falling off, the total being 156,318 short tons, against 158,237 tons in 1902, a decline of 1.2 per cent. This small decrease was more than counterbalanced by the rise in prices, so that the total value of the product in 1903 was $16,882,344, as compared with $15,317,342 in 1902. During the first 11 months of 1903 the imports of zinc and manufactures of zinc were valued at $48,761, as compared with $71,745 in 1902; while the exports for 1903 were $205,290, against $402,345 for 1902.

AMONG THE BROKERS.

Stagnation Was Appalling During Forenoon Calls on 'Change.

The mining stock market this forenoon was about as dead as it could be. During the regular call the volume of business transacted amounted to just $614.62, the equivalent of 4,300 shares transferred, while the open board presented the spectacle of a $9 session, the sum paid for 200 shares of Victor Consolidated.

The first stock which recorded a sale during the forenoon was Consolidated Mercur, which held even with the quotations of yesterday. A single lot of Sacramento found a taker at 20⅞ cents, while the price of Century held firm, only a small bunch transferring.

The closing quotations and sales posted were:

READY TO SHIP ORE.

Ohio Management Prepared to Send Out 200 Tons Daily.

Major H. G. Caitrow of the Ohio Copper company came in from that Bingham mine last night, very well satisfied with the condition of things there, only that he is anxious to get ore moving towards market.

"The Copper Belt wreck," said the major this morning, "has tied us up for a few days, otherwise we would be shipping. The bins are all filled at the mine and with the exception of laying a short piece of track in lower Bingham, the Winnemuck mill will be connected up with the Copper Belt line. We are ready to ship 200 tons of ore daily, 150 tons of second class to the mill and 50 tons of first class direct to the smelters."

The mill will not go into commission before some time next week, as it will probably take several days yet to get the Copper Belt line in operation again.

UNCLE SAM MILL.

Demonstration Being Made There Shows Satisfactory Results.

Word received from Tintic during the day conveyed the information that Foreman J. S. Jensen is turning out a nice grade of concentrates at the new mill at the Uncle Sam mine. The plant is doing splendid work, it is said, the basis of concentration being about six into one.

The concentrates produced show about 50 per cent lead, 20 ounces silver and .15 ounce gold.

Contracting Engineer J. M. Callow is working on a device to enable a great saving in the water used, which is already low, being at the rate of 15 gallons per minute.

NOT SO BAD AFTER ALL.

Salt Lake Stock Exchange Led in Volume of Business Done Last Year.

Notwithstanding that the business of the Salt Lake Stock & Mining Exchange was about 50 per cent lower in 1903 than that in 1902, it outdid all the other established exchanges of the country last year, that is, so far as mining stocks are concerned. After commenting to some length on the subject an eastern publication continues by saying: "At Colorado Springs there has been a very quiet market with narrow fluctuations, though in some specialties erratic quotations were witnessed. In New York the usual conditions prevailed, except last March, when a genuine Comstock boom was gotten under way and prices advanced from 500 to 600 per cent. The market simply followed the lead set by the San Francisco exchange. Natural levels were soon reached."

CONCENTRATES.

A lot of Columbus Consolidated lead ores are at the Pioneer sampler today.

Manager Tony Jacobson, of the Columbus Consolidated, went to Alta this morning.

Superintendent W. J. Craig of the Yampa mine in Bingham is in from camp.

Three cars of Tetro high grade ore are at the samplers, making nine so far this month.

The annual meeting of the Daly-West Mining company will take place in Denver, Feb. 15.

The New York Bonanza is closed down on account of the breaking of a shaft on the engine.

The 10-cent assessment on the stock of the Comstock mine at Park City becomes delinquent next Saturday.

Manager C. W. Whitley of the American Smelting and Refining company expects to start east on the 23rd inst.

Henry M. Crowther, manager of the Continental-Alta mines, departed today on a business trip to New York.

The members of the family of former Secretary W. H. Merriman, of the Majestic Copper company, have gone east.

Managing Director A. F. Holden of the United States mines is scheduled to reach the city from the east next Saturday.

A. L. Jacobs, manager of the Butler-Liberal, went to Bingham today.

The Utah directors meet this afternoon—no dividend.

The ore and bullion settlements reported late yesterday were: Crude ores and concentrates, $21,400; base bullion, $29,700. Total, $51,100.

The delinquent stock sale of the Wheeler & Wilson mine in Big Cottonwood is scheduled for tomorrow. The mine is closed down until spring.

A Montana and local syndicate is about to organize the Anaconda-Tonopah Mining company to operate on Lone Mountain, Nev., near the Nevada-Alpine mine.

F. A. Pasco of this city has been granted a patent on a device, of his own invention, which has for its purpose the consumption of smoke and fumes from reduction works and smelters.

It is claimed that the Mammoth Mining company and the A. S. & R. company have reached an agreement concerning smelting rates, and that the big Tintic mine will soon be active again.

Tragedy Averted.

"Just in the nick of time out little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Z. C. M. I. Drug Store. Price 50c and $1.00. Trial bottles free.

MISFORTUNES OF THE CAMP OF ELY.

Stock Jobbers Reaped a Harvest And, as a Result, Progress Is Now Retarded.

SHAREHOLDERS INVESTIGATE.

And Are Demanding an Accounting—Chainman Finances Are About to Be Fixed Up Again.

Ely, Nev., is an unfortunate camp and is a good demonstration of what mismanagement, coupled with appalling stock jobbing will do, for a mining district that is truly meritorious. Eminent mining engineers, who have examined this region, have proclaimed that its possibilities are indeed great; but unfortunately, all the money derived from the floating of stocks throughout the east has not been spent legitimately in all cases and Ely has suffered by it.

Two years ago the citizens of the camp were encouraged in the belief that several strong companies had entered the camp with the intention of conducting their operations as they should be. On the contrary, the very ones in which the people of the camp placed the greatest confidence turned out to be the worst stock manipulators that ever landed in Nevada. Stocks were sold at enormous prices and the proceeds usually went into the pockets of the promoters.

Late advices from Ely are to the effect that the victims of these sharks are demanded an accounting from some of the late managers and a determined effort is being made to place the responsibility for the outrages that have been committed.

The shareholders in the Chainman mine, it is said, have hopes of straightening out affairs in such shape that a resumption of operations is not unlikely within a few months.

Only a few days ago R. J. Davidson, one of the heaviest of the eastern stockholders in the company was in the city and held several sessions with some of the creditors of the company and when he left expressed the opinion that the company's finances would soon be straightened out and the mines started up again, this time, under experienced and competent management. The Chainman is one of the best equipped mines in Nevada, although a very large portion of it is absolutely of no use to the company. For instance, a large combination mill was built at an expense of several hundred thousands of dollars without going to the care of ascertaining whether the process installed was suitable to the ores of the mine. In fact, at the time the plant was built, the mine contained very little ore at all. Fred Butler, formerly connected with the Mercur mines, was called in as superintendent and during his administration considerable ore was developed, but until then the workings showed up little ore of any value.

On leaving the city, Mr. Davidson proceeded to Sumpter, Or., where he has mining interests. Upon his return east he will confer further with Chainman stockholders.

MINES OF DUGWAY.

Fine Showings Made at Two of the Camp's Important Properties.

B. L. Cutler, superintendent of the St. George Copper company's claims at Dugway, is in the city. He says the camp was never in a more properous condition and cities as an indication thereof the fact that many of the claims are showing high grade copper ore, which also carries good values in gold and silver. The St. George property is owned by W. F. Snyder, Clarence McCornick, Mr. Cutler, E. J. Raddatz and others and the miners are now drifting from the 100-foot level and have encountered an immense body of lead ore 200 feet from the chute, some of which is now being taken out for shipment. The group also shows surface ore running as high as 45 per cent copper, $60 in gold and from 12 to 15 ounces in silver.

Mr. Cutler is also overseeing work on the claims of the Dugway Mining company, of which Hon. Angus M. Cannon is president. The Dugway has 29 1-3 patented claims and is now working a small force of men on the Black Maria, on which the shaft has been sunk to a depth of 50 feet, with a crosscut of 51½ feet. The ledge was cut at a depth of 20 feet and the miners sacked five tons of ore, showing values running well in copper, gold, silver and lead. The highest assays go 28½ per cent copper, $41.34 gold, and 70 per cent lead. The ore occurs in the different stratifications in quartzite and gives every indication of being permanent. The miners are now crosscutting for the contact, which, it is believed, will present a showing similar to that in the St. George group.

In the Endline claim on the same property there is a vein 28 feet wide at a depth of 60 feet, where a Buffalo whim has been installed. The Rattler group of 14 claims shows a body of lead ore two feet thick in the vein and can be traced for 2,000 feet. From this property the company has never shipped a car going less than 55 per cent lead. The Dugway company is incorporated for 60,000 shares at $1 per share, and has 16,000 shares in the treasury. If a railroad were built into the camp this property would be a regular shipper. Mr. Cutler will return to camp the end of the week.

UTAH CONSOLIDATED.

Anticipated That Mine Will Produce 24,000,000 Pounds of Copper This Year.

The Utah Consolidated produced 14,000,000 pounds of copper during last year which showed profits of between $1,200,000 and $1,300,000, equal to slightly over $4 per share, says an authority.

This showing was made in the treatment of ore averaging about 4 per cent copper for the year, of which there is a great abundance in the property. The management is figuring upon a prospective output of 24,000,000 pounds of copper per annum, when the enlarged smelter is completed.

It is not anticipated that the company will make any change in its dividend rate six months hence, although it is possible, but before the close of 1904 Utah Consolidated may be placed upon a $4 basis.

The present smelter was built originally for the treatment of 250 tons per day and it cost $329,900. When the extent of the company's copper deposits became apparent, however, an additional expenditure of $425,000 was made, increasing the capacity for the treatment of 500 tons and at the same time preparations were made for a still further enlargement by providing power for the treatment of 500 tons daily.

The enlargement now being made, it is claimed will not cost more than $250,000.

MORE DIVIDENDS COMING.

Physical Conditions Good at the Rocco-Homestake Mine.

A letter from Bert L. Smith, secretary of the Rocco-Homestake mine in Nevada, conveys good news concerning conditions at that property, which has again come forward with a dividend.

During the past year, it is said, ore of the estimated value of $100,000 has been blocked out, hence this year begins with everything to indicate that there will be several distributions of "velvet" during the next twelve months.

In themeantime work is progressing satisfactorily in the new shaft, started sometime ago, over which a new steam hoist has been installed.

Considerable Rocco-Homestake stock is held in Salt Lake, but the bulk of it is in the hands of San Francisco people.

Completed the Contract.

Reports from the Park City Gold and Silver mine are encouraging. Orson and Owen Spiers have just completed a contract by which they established a drift of 85 feet, beginning at a depth of 365 feet. Excellent prospects were discovered and the contract will be renewed immediately.

AS A RULE MARKET WAS BETTER.

New York, Jan. 14.—Opening prices in the stock market today advanced on very small dealings in response to the more cheerful sentiment in foreign markets over the far eastern outlook. Traders took profits immediately on the overnight advances and the important stocks reacted slightly. The downward movement was accelerated by pressure against Rock Island and liquidation in United States Realty preferred. Buying of Southern Pacific, which carried it above 49, subsequently stiffened the entire market, and some of the western stocks added to their earlier gains. Realty preferred dropped 2¾ and showed little resistance to pressure. A rise of 1¾@1¼ in Pennsylvania led a fairly general advance in which St. Paul, Union Pacific, Wabash preferred, Delaware & Hudson, United States Steel preferred, Sloss-Sheffield Steel, the New York public utilities and a few minor stocks rose 1¾@1½. Rock Island rallied a point. Intense dullness developed on the rise.

Bonds were irregular at noon.

In the early afternoon the standard stocks were motionless and but little heed was given to the strength shown by a sprinkling of the low priced stocks. Kansas City Southern preferred advanced 1¾.

LIVE STOCK.

CHICAGO.

Chicago, Jan. 14.—Cattle—Receipts, 8,000; market steady. Good to prime steers, stockers and feeders, 2.25@5.40; heifers, 2.00@4.75; canners, 1.50@2.35; bulls, 2.00@4.25; calves, 3.00@6.25.

Hogs—Receipts today, 32,000; tomorrow, 25,000; market steady to 5c. lower. Mixed and butchers, 4.75@5.05; good to choice heavy, 5.05@5.15; rough heavy, 4.80@5.00; light, 4.60@4.90; bulk of sales, 4.85@5.00.

Sheep—Receipts, 15,000; market steady; lambs, steady. Good to choice wethers, 4.25@4.60; fair to choice mixed, 3.00@4.00; western sheep, 3.75@4.45; native lambs, 4.50@6.25; western lambs, 4.25@6.25.

OMAHA.

South Omaha, Jan. 14.—Cattle—Receipts, 3,200; market steady. Native steers, 3.50@4.15; cows and heifers, 2.75@4.15; canners, 1.75@2.50; stockers and feeders, 2.75@4.00; calves, 3.00@5.25; bulls, stags, etc., 2.75@4.00.

Hogs—Receipts, 7,000; market steady. Heavy, 4.75@4.85; mixed, 4.70@4.75; light, 4.50@4.70; pigs, 3.75@4.25; bulk of sales, 4.70@4.80.

Sheep—Receipts, 5,000; market steady to easier. eWsterns, 4.25@5.10; wethers, 3.75@4.40; ewes, 3.00@4.00; common and stockers, 2.50@3.75; lambs, 5.00@6.00.

KANSAS CITY.

Kansas City, Mo., Jan. 14.—Cattle—Receipts, 9,000; market stronger to higher. Native steers, 3.60@4.75; native cows and heifers, 2.35@3.70; stockers and feeders, 3.00@4.00; bulls, 2.35@3.50; calves, 2.50@6.00; western steers, 3.30@4.30; western cows, 1.50@3.75.

Hogs—Receipts, 9,000; market weak to lower. Bulk of sales, 4.50@4.80; heavy, 4.65@4.90; packers, 4.60@4.80; pigs and lights, 4.25@4.70.

Sheep—Receipts, 4,000; market steady. Muttons, 3.60@4.50; lambs, 4.75@4.85; range wethers, 3.25@4.40; ewes, 2.50@4.00.

PRODUCE.

CHICAGO.

Chicago, Jan. 14.—An active demand for wheat caused a strong market today. May advanced steadily until it reached 87⅝@87¾, at which point there was considerble realizing and prices reacted to 87½. Initial sales were made at 87@87¼ to 87¼, a loss of ⅛ to ⅛@¼, due largely to easier cables.

Cash: Wheat—No. 2, red, 88@89; No. 3, red, 87½@88; No. 2, hard winter, 78@82; No. 3, hard winter, 72@79½; o. 1, northern, 85½@88½; No. 2, northern, 82@87½; No. 3, spring, 78@86½.

Corn—No. 2, 44@44½; No. 3, 44@44¼.

Oats—No. 2, 37; No. 3, 36@36½.

Later May sold up to 87¾, but prices broke sharply on selling by a prominent commission house. The close was easy with May at 86⅞, a loss of ⅝ for the day.

Close: Wheat—Jan., 82⅞; May, 86⅞; July, 81½@81⅝; Sept., 87¼.

Corn—Jan., 44½; May, 48½; July, 47; Sept., 46⅝.

Oats—Jan., 38; May, 40⅝; July, 36⅝; Sept., 32⅞.

Pork—Jan., 12.77½; May, 12.95@12.97½.

Lard—Jan., 6.67½; May, 6.90; July, 6.95.

Ribs—Jan., 6.27½; May, 6.60; July, 6.70.

Rye—Jan., 54.

Flax—May, 1.02.

Timothy—Jan., 3.65.

Clover—Jan., 11.35.

Barley—Cash, 38@58.

LIVERPOOL.

Liverpool, Jan. 14.—Close: Wheat—March, 6s 4¼d; May, 6s 4½d.

NEW YORK PRODUCE.

New York, Jan. 14.—Butter, easy. Creamery, 15@20; dairy, 14@19.

Eggs—Firms. Western, 27@31.

Sugar—Raw, nominal. Fair refining, 3⅞; centrifugals 96 test, 3⅝; molasses sugar, 2⅝; refined is quiet; crushed, 5.05; powdered, 4.55; granulated, 4.45.

Coffee—Steady. No. 7 Rio, 7⅝.

WOOL.

ST. LOUIS.

St. Louis, Jan. 14.—Wool, nominal. Territory and western mediums, 18@19; fine, 15@17; fine medium, 16@17.

Working Overtime.

Eight hour laws are ignored by those tireless little workers—Dr. King's New Life Pills. Millions are always at work, night and day, curing Indigestion, Biliousness, Constipation, Sick Headache and all Stomach, Liver and Bowel troubles. Easy, pleasant, safe, sure. Only 25c at Z. C. M. I. Drug Store.

Right You Are When You Write

If the paper is Whiting's. We have it in every popular tint and make a specialty of white. There's nothing in stationery put up in such exquisite form as the Whiting paper. Regular sizes, and novelties in different lengths, in boxes of beautiful design, ranging in price from 25 cents up.

SCHRAMM'S,

Where the cars stop.

IS THIS FRESH PAINT?
Yes, it is.
That's the Answer.
G. F. Culmer & Bro.,
20 East First South St.

Imperial Hair Regenerator.

The Standard Hair Coloring for Gray or Bleached Hair, is a clean, durable and perfectly harmless Hair Coloring. Any natural shade. Leaving hair beautiful, clean and glossy. ONE APPLICATION LASTS MONTHS. Sample of hair colored free. Privacy assured. Send for pamphlet.
IMPERIAL CHEMICAL MFG. Co, 135 W. 23rd St., New York.

Going East?

If so, why don't you go the pleasant way, through the scenery of Colorado, probably the most beautiful in the world, and over the SHORT LINE from Denver—the Burlington?

Better see me about your trip. I have been in the passenger business twenty years, and I know about traveling.

I have got it systematized, and can give you some help in ways that won't occur to you. Write me—a postal card will do.
