AMERICAN.

The Railroads.

CHICAGO, 29.—The *Inter-Ocean* says: In the Iowa pool meeting yesterday, an important question came up. Roads running from the Missouri River to California have been in the habit of making contracts for 12 months from January 1st each year with leading shippers to the Pacific Coast, in which they were allowed greatly reduced rates. These reductions were made so as to prevent the Pacific Mail Steamship Co. from carrying the bulk of the business by way of Panama. Somehow or other the Eastern trunk lines have managed to secure greater *pro rata* rates from these reduced through rates than they are entitled to. The Iowa lines learning of this decided on steps for securing a better percentage for themselves, and reducing that of the Eastern lines. They appointed a committee comprising Commissioner Midgely and the general freight agent of each interested road to meet representatives of the Eastern trunk lines at a meeting to be held December 10, 11 and 12, when the question of the Pacific Mail contracts will be considered.

The following breezy note was received at the Associated Press office, in answer to a query addressed to the Rock Island office: "If Mr. Merrill's threat to run fast trains to St. Paul is carried out, the Rock Island will make up to the passenger in fare the loss he sustains in money. Time is money, and money in this case will be made to represent time.

(Signed) ST. JOHN,
Gen'l Passenger Ag't Rock Island Road.

Port Jarvis, N. Y., 29.—The express train on the Erie Railway, two hours late, ran into the rear of a freight train near Greenwood to-day. The conductor of the freight train was killed, and the engineer and fireman of the passenger train severely hurt.

Milwaukee, 29.—The management of the O. W. and S. P. road have ordered a general cutting down of running expenses. A number of employees will be discharged. The hours of labor in the large machine shops in the Menominee Valley have been fixed at ten hours per day.

Omaha, 29.—M. H. Goble, who for several years past has been freight auditor of the Union Pacific, has been appointed general purchasing agent of the Union Pacific Railway, headquarters at Omaha, vice A. D. Clark, resigned.

CHICAGO, 30.—Messrs. Keep and Hughitt, of the Northwestern roads, and Porter, of the Omaha line, arrived this morning from New York. The Northwestern magnates declined any statement in regard to the existing war in the northwest, further than to express the opinion that it was was far from a settlement. He said the present war had not grown out of matters of recent date, but was the result of grievances running back for a period of three years. He exhibited a letter written to one of his leading officers early in 1881, in which he forecast the present situation. The whole trouble, he says, grows out of reckless extension by the Milwaukee & St. Paul into the territory of other roads, and he does not hesitate to assert that his fight is entirely against this practice. In the action of the St. Paul road stockholders were not considered in these extensions, which have been largely into territory already occupied; that such extensions have been engineered in the interest of construction companies made up of persons interested in the management of the road, and when these extensions were completed, they used their influence in the directory to secure the purchase by the main line, at a handsome profit over the cost of construction, to the detriment of the interest of the general stockholder. These methods in which he charges the St. Paul road to be more guilty than the others, must, he says, by duplication, be unprofitable lines, and bring about a financial crash in a short time, unless checked. If the St. Paul road builds into this territory, for instance, where there is only business for one road, the result is two unprofitable lines instead of one paying line. To prevent this, he asserts, is the object of the fight, and avers that he will never listen to any proposition until this principle of territorial rights is fully recognized and a basis for their determination is established. He asserts that he has been waiting until fully prepared before going into the fight; that his road has sufficient surplus to pay the interest on its indebtedness for three years without earning a dollar; that he is prepared to carry on the war to that extent, if necessary, to establish the principle, which he deems necessary for the preservation not only of railroad interests but those of the entire country.

Mexican Claim.

ST. LOUIS, 30.—A dispatch from Dallas, Tex., says: Prominent railroad men connected with the Texas system who have just arrived from the City of Mexico say: It is stated there that the Mexican authorities are going to make a claim on the United States at the approaching session of Congress for Galveston Island, including Galveston City. It appears in the Mexican cession of the republic of Texas, Galveston Bay, which is north of the Island, was taken as the southern boundary of the ceeded Territory, and the Mexican claim is said to be *prima facie* good. It is thought trouble and some international complications may grow out of this claim.

Accidentally Shot.

CINCINNATI, 30.—This afternoon, at the Colisseum Theatre, in the fourth act of the play "Si Slocum," Frank Frayne, in shooting the apple off the head of Lucy Slocum, personated by Miss Annie Von Behren, missed the apple and shot Miss Von Behren in the head. She died in fifteen minutes. Frayne was arrested immediately. The curtain fell and the play was stopped. The audience supposed the girl only slightly hurt. Frayne used a rifle of 22 calibre, and in executing the backward shot the catch snap of the weapon was imperfect and slipped as the hammer fell, and blew the cartridge out backwards.

Commercial News.

NEW YORK, 29.—The Clearing House exchanges for the week show the following gains and losses in business transactions, as compared with the corresponding week last year:

GAINS.

New York 39.1, Boston 6.6, Philadelphia 26.8, Chicago 27.3, Cincinnati 19.1, St. Louis 35. Pittsburg 97.2, Baltimore 72.9, New Orleans 34.9, San Francisco 17.2, Louisville 6.2, Kansas City 75.5, Providence 7, Cleveland 8.6, Memphis 42, Hartford 32.6, New Haven 21.6. Several minor towns also show gains.

LOSSES.

The only losses are Indianapolis, 4.5, Peoria, 15.1.

The *Public* says of these remarkable figures: The transactions reported are remarkably large, and indicate a volume of business which would have been unprecedented long ago, but part of it is due to speculation in oil, grain and cotton. At the New York Exchange they were the largest ever known in any week. The sales of stocks account for a large part of the business. On Wednesday, the 22d, these sales amounted to 838,030 shares, an amount never exceeded. The best that can be said of the returns is that they do not justify much enthusiasm, but these are too large even at points where speculation has not been rampant to warrant discouraging influences.

Toronto, 29.—The Great Northwestern Telegraph Company has appointed a committee to consider the project of laying a cable in Lake Superior.

New York, 29.—The heavy snow storm all day which raged prevented any movement at the wharves.

H. B. Claflin denies he is going to start a store in Chicago, or back one.

Scranton, 29.—The Lackawanna Coal and Iron Company's steel mills shut down to-night for an indefinite period. Over a thousand men are thrown out of work.

Vicksburg, Miss., 29.—McClellan and Col. Sharp, of Milliken's Bend, La, have failed; liabilities, $140,000; assets $100,000. The creditors are mainly in St. Louis, New Orleans and New York.

Miscellaneous Matters.

OMAHA, 29.—The high license liquor law works well. Saloons are reduced in the city from 120 to 94. The dealers themselves are practically a constabulary to expose non-licensed venders. In the State saloons are reduced two-thirds in number.

Calais, Me., 29.—Jas. Spike, writer and politician, died to-day.

New York, 29.—Frederick Wagner, wine merchant of this city, has been missing since August 31st. He left for California then on a business trip, After leaving Kansas City all trace was lost of him. It is supposed he became suddenly deranged, and is at present in some institution.

Louisville, Ky., 29.—Captain Allen May, of Hardin County, aged 101 years, yesterday, procured a license to marry a young lady aged 19, of the same county.

Boston, 29.—"Lotta," the actress, in equity against Benjamin F. Randall & Co., with which firm she was in partnership in cotton speculation is awarded $13,000. Lotta claimed $21,000.

Columbus, O., 29.—The epidemic of scarlet fever at the Imbecile Asylum continues with 94 cases at present; six deaths to date, and the fever is spreading to an alarming extent.

Washington Items.

WASHINGTON, 29.—The annual report of the treasurer of the United States says: The receipts of the government show an increase over 1881 of $22,251,054 in revenue from customs, $71,233,309 from internal revenue, $2,651,277 from sales of public lands, and $6,707,416 from miscellaneous sources, making a total increase in the net revenue of $42,742,957. Total net revenues, $408,825,250.28. Net expenditure decreased from $260'712,887 to $257,981,440—a reduction of $2,732,448, which added to the increase in receipts makes an increase of $45,474,495 in surplus revenues applicable to the reduction of the public debt. The amount of standard silver dollars coined from February 28th, 1878, the date of the act requiring their coinage, to Oct. 31st, 1882, is $128,329,380, of which $93,006,382 remain in the treasury, and $34,323,498, or about 27½ per cent. are in circulation. The proportion of the total coinage in circulation September 30th, 1881, 34½ per cent. Of $30,007,175 coined during the last 13 months, $2,950,072 have gone into circulation and $27,057,103 remains in the treasury.

The total currency of the country November 1st appears to have been more than $1,488,000,000, which is $433,000,000 in excess of the amount held January 1st, 1879, and $183,000,000 in excess of the amount held a year ago November 1st.

The gain in gold coin since the resumption of specie payments alone has been $288,000,000 and in gold and silver coin $391,000,000. The increase in National bank notes has been $20,000,000. No change has been made in the amount of legal tender notes outstanding. The same causes which operated to bring about a rapid reduction of the public debt also tended to increase the circulating medium. The *per capita* of circulation is larger and it is probable its proportion to wealth, greater than at any previous time. It is undoubtedly large enough to supply the legitimate demands of business, and there is little doubt that the addition to the coin of the country since the resumption of specie payments has been in advance of the enlarged demand of business. There has been no complaint of scarcity of money, which cannot probably be traced in those engaged in speculative business.

It is estimated the reduction in the public debt for November will reach $6,000,000.

The House Appropriation Committee completed the Indian appropriation bill, reducing the total expense $67,000, but increasing the education fund.

The hearing of the case of Dickson, Star route juror, is fixed for Tuesday.

The Comptroller of the Currency to-day authorized the Champaign National Bank, Champaign, Ills., to commence business. Capital, $50,000.

The exchange of 3½ per cent continued bonds into 3's to date amounts in the aggregate to $280,894,750.

Shotwell Shoots.

OMAHA, 30.—This evening, E. P. Shotwell, porter at the Occidental Hotel, got into an altercation with Henry Elberting, butcher by trade, which ended in provoking a street fight, and finally Shotwell, who was getting badly punished, drew his revolver and shot Eberting in the neck, inflicting a probably fatal wound. Shotwell surrendered to the police.

Snow!

NEW YORK, 30.—It still snows and sleighing is fine in every direction, about eight inches covering the ground. This is the first thanksgiving day since 1854, that New York has had sleigeing.

Wrangel News

SAN FRANCISCO, 30.—A Victoria, British Columbia, dispatch says: The steamship *Idaho*, just arrived from Wrangel, reports that placer miners have stopped work on account of the sluice boxes freezing. The miners at Junction City have had a profitable season, and will make preparations to go on a large scale next year. New claims have been discovered on Douglal Island, and are reported very rich. It is reported that several new quartz mills will be erected next summer. The United States steamship *Adams* is still lying at her moorings off the town with all on board. A detachment of men are still stationed at Kittismoo to prevent further troubles with the Indians.

Another Blucher.

BALTIMORE, 29.—Corporal Blucher, second artillery schoolmaster at Fort McHenry, a lineal decendant of the famous marshal, has been tendered by Baker Pasha a staff position in the Khedive's army. He has served as military attache of the German legion in Egypt.

Dead.

CHICAGO, 29.—Boston dispatches chronicle the death of Rev. Jacob Manning, formerly pastor of the Old South Church, of malarial fever contracted while chaplain of the Forty-third Volunteers of Massachusetts.

A Stubborn Old Puritan.

CHESTER, Pa., 30.—An unsuccessful attempt was made to-day, to launch the monitor *Puritan*, on the stocks since 1875, awaiting orders to be launched.

FOREIGN.

British Briefs.

LONDON, 30.—In the Commons, this afternoon, Ashley, secretary of the board of trade, stated that the ladies accompanying Maco, Cuban refugee, when he surrendered, had been imprisoned, and condemned the conduct of the local authorities; but in consequence of a telegram from Lord Napier, English commander at Gibraltar, the decision had been suspended until April, for further intelligence from that office.

Gladstone refused to grant Parnell's request for facilities to discuss the administration of the land act.

Trevelyan, Irish Chief Secretary, stated that the recent inflammatory speech of Davitt and party and Redmond had been considered by the government, and if such speeches continued, the meetings of the National League would be prohibited. Redmond's speech [illegible] came within the purview of the 7th section of the prevention of crime act and prosecution would forthwith be instituted in his case. The speeches of Davitt and Healy did not come within the act. Those made by Healy were indictable, but he (Trevelyan) advised that Healy be not prosecuted. Trevelyan said if Healy and Davitt persisted in making inflammatory speeches, an application would be made to have them bound over to be of good behavior or be committed to prosecution.

Healy here arose in a defiant manner and said he begged to inform the government he would return to Dublin to-morrow.

Richard Asheton Cross asked if the fact that Davitt was a ticket-of-leave man had been brought to the notice of the Secretary of State for the Home Department.

Trevelyan said the attention of the Irish government had been called to the fact, and that their opinion was very strong that Davitt should be treated like any other person.

Liverpool, 29.—Steamer with eleven persons foundered on Port Reath, Cornwall.

The two Americans murdered on the west coast of Madagascar were on an expidition ordered to punish the natives, but a French Consul at Tananrivo stopped it.

The British Government has ordered a war ship to Madagascar.

London, 30.—Lord Granville receives the Malagassy envoys on Saturday.

London, 30.—The condition of the Archbishop of Canterbury is dangerous. He has taken leave of his servants.

A compromise is affected between Lord McDonald and the most presistent section of Skye crofters.

Dublin, 30.—The Queen has telegraphed an inquiry into the condition of the ex-juror Field and to express sympathy for his family.

Dowling's counsel intends to plead that Detective Cox was shot by one of his own comrades.

The Suburbs will shortly be proclaimed under the Curfew clause

Seventy-seven men of the marine artillery at Portsmouth, volunteering for police duty in Ireland, they will start on Saturday.

General Jottings.

Alexandria, 30.—The European police force is to be reduced to 300 and at Cairo to 250, for purposes of economy. The remainder of the force will be sent home at the expense of Egypt. Much dissatisfaction is expressed at the reduction.

Constantinople, 30.—The charge that Fuad Pasha is engaged in the conspiracy for the deposition of the Sultan, is declared an unfounded accusation, and attributed to the hostility of Osman Pasha.

Vienna, 30.—The Bulgarian Ministry has ordered the release of Zancoff.

Paris, 30.—It is believed a French company is secretly organized at Paris, Bordeaux and Marseilles for operations in Madagascar.

Berlin, 30.—The Reichstag rejected—153 to 119—the motion to allow, as optional, the use of French in debates of the provincial committee of Alsace and Lorraine during discussion. Boert Reich vigorously opposed the motion, and declared there was no chance of the federal council using the French language, moreover it was not necessary, because 8 per cent. were Germans, and another 8 per cent. speak both languages. Bennigsen also opposed the motion, and added there might be, in any case, another struggle for Alsace and Lorraine when the increasing ferment in France came to a head.

Worst of the floods is over. The Rhine has fallen a foot and a half in the last 24 hours. Six inches water in the streets of Cologna and Coblitz.

St. Petersburg, 30.—The council of the university decided to expel 46 students, chief actors in the late disturbances. Their parents are to be placed under police supervision. Twenty-three others are to be expelled with the understanding that they are to be re-admitted if repentant.

Odessa, 30.—A military tribunal found Col. Stavraky guilty of embezzling 1,125,000 roubles, and sentenced him to banishment. A captain and a lieutenant and two Jewish contractors were sentenced to various penalties for complicity in the crime.

Paris, 30.—The Chamber of Deputies, to-day, voted the naval estimates. During the discussion, Admiral Jauerguinerry announced that he would shortly introduce a bill for developing and strengthening the French protectorate.

Bonne, 30.—There are 400 houses submerged, and nearly all the provisions and fodder destroyed, with much sickness in the flooded districts among the children and poor.

Halifax, 30.—The steamship *Cedar Grove*, from London, for Halifax and St. John, N. B., struck the ledges on Canso, this morning, during a gale, and sank an hour later in ten fathoms. Three boats were launched shortly after the vessel struck, two of which, containing thirteen people, reached the shore safely, the remaining boat has not been heard from, and it is feared is lost in the breakers. Among the missing is the captain, chief officer and Miss Farrell, a passenger. There was so much confusion just before the vessel went down, it is not known whether any more are missing or not. The following is the list of saved: Stephen A. McVittie, passenger; J. Pearson, second officer; P. Reed, chief engineer; J. Griffin, Dan Keyman, J. L. Decker and D. Carey, firemen; E. B. Wilson, B. Clemmons, H. B. Phipps, W. Bartlett and Scott White, seamen; E. Patton, steward; John Walsh, boy. The *Cedar Grove* was a new steamer of the New Brunswick steamship line, and insured for $130,000, within $20,000 of her value.

52 Main Street.

THE SUN.
NEW YORK, 1883.
More people have read THE SUN during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.
We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:
Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense—all the news of the busiest world at present revolving in space.
Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth to the best of its ability three hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good.
Because it is everybody's newspaper. No man is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.
Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robesonism and for honest government. No matter what party is in power, THE SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.
All this is what we are told almost daily by our friends. One man holds that THE SUN is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already wiped half of the rascals out of that party, and is proceeding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.
If you already know THE SUN you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.
Terms to Mail Subscribers.
The several editions of THE SUN are sent by mail, postpaid, as follows:
DAILY—55 cents a month, $6.50 a year; with Sunday edition, $7.70.
SUNDAY—Eight pages, $1.20 a year.
WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled merit, market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's households. To clubs of ten with $10, an extra copy free.
