VALUABLE TO EVERY HOME.—We shall do our readers a favor by calling their especial attention to the value, the usefulness, and we may say the direct *profit*, of supplying themselves, the present year, with one of the *cheapest*, as well as the most valuable, Journals issued in this country. It costs hardly half a cent a day, a sum easily saved, while its practical hints and suggestions will be most likely to bring back that amount many times over. The 500 to 600 beautiful, instructive Engravings, are alone worth many times the cost of the paper. We refer to the *American Agriculturist*, so called because started 35 years ago as a Rural Journal, but now enlarged and improved to suit the wants of every family in Country, Village, and City. It is packed full of good things, useful, reliable, and instructive. Each number contains 44 large (double octavo), pages, beautifully printed. It has much for instructing and pleasing Housekeepers and Children, and Farmers, Mechanics, Merchants—indeed all classes. Its House Plans and improvements, with Engravings and particulars as to cost, and the common-sense directions, are worth more than many costly architectural works. Its constant, persistent, fearless exposure of humbugs and swindling schemes, is of great value to the whole country and to every individual. In short, it is full of good things for everybody, and we advise everybody to take it this year. It will be specially valuable in this Centennial year. Its circulation, which is a hundred fold greater than the majority of other journals, enables the publishers to supply the *American Agriculturist* at the very low rate of $1.60 a year, post-paid, or four copies for $5.40. Take our advice and send for it to the publishers, viz: Messrs. ORANGE JUDD COMPANY, 245 Broadway, New York City. d60

EVENING NEWS.

Friday, . February 4, 1876.

Local and Other Matters.

THERMOMETER 42 degrees F. in the shade at 1 p. m. to-day. Fine, some clouds.

Delayed.—The Union Pacific train six hours and the Central Pacific three hours late to-day.

Calendar.—There is a neat Centennial calendar from the office of the Montana *New North-West*.

A Peculiar Weapon.—Brother James Dunn has presented to the Museum a peculiar looking weapon, a kind of pike, with a hatchet face and a long semi-circular blade projecting from behind it. This, with a long pole stuck in it, constituted the weapon of defense and attack of the late Brother Benbow, when he was in the Nauvoo Legion, when it was commanded by General Joseph Smith, in troublous times, when the saints were beset by blood thirsty mobs. Fire arms were scarce in those days, and people had to defend their homes and families with the handiest weapons they could get.

An Incident.—Last evening, at the Tenth Ward new meeting-house, just before the commencement of Dr. J. M. Benedict's lecture on digestion, one of the chandeliers suspended from the ceiling fell to the floor, smashing the lamps and spilling the oil, which spread around in a blaze. The incident caused some consternation and a stampede among the lady portion of the audience, but some of the young men promptly stripped their coats and spread them upon the flames, smothering them out in a short time. Others quickly brought buckets of water, which was, however, not needed, and order was soon restored.

The lecturer treated his subject in an able, interesting and pleasing manner, and was listened to with the strictest attention.

Literary Association.—Last evening a meeting of members of the 17th Ward was held in the District school-house, for the purpose of organizing a Literary Association, for the special benefit of the young of both sexes and the general benefit of all. Brother James Dwyer was elected temporary President, and Brother W. C. Spence Secretary. A committee was appointed to draft a constitution and by-laws to be presented for acceptance at a future meeting. Suitable and encouraging remarks were made by Bishop John H. Smith and Brother John C. Graham, when Friday, Feb. 11th, at 7 p. m.

We are pleased to note that societies of the kind above-mentioned are becoming so general as to amount to a great movement in the community, indicating a desire for intellectual, moral social, and religious culture that is encouraging. Under judicious management they can be made very powerful auxiliaries in the education of the young, and every person of ability who will lend aid and encouragement to such institutions is a benefactor. The educational elements introduced into such societies, by not only appealing to the intellectual, but also to the moral, social and religious nature of the young, constitute them a powerful antidote to the evils that have been insidiously creeping upon the youth of the community by the introduction, during the last few years, of the baser concomitants of so-called civilization. The present existing system of education is, in our opinion, wrong, appealing, as a general rule, merely to the intellectual, leaving the social, moral and religious nature uncultivated, hence the immense crop of intellectual, educated scoundrels that is being produced in this and other nations, more especially in this.

The establishment of literary improvement associations and their effects are "like bread cast upon the waters," being but the forerunners of advancement.

THE LEGISLATIVE ASSEMBLY.

COUNCIL.

Council convened at 2 p.m. yesterday, Feb. 3rd.

Councilor E. Snow, chairman of the Centennial committe, to whom was referred the petition of the president and members of the "Women's Centennial Executive Committee for Utah," moved that they have leave to withdraw said petition; carried.

Councilor A. O. Smoot, having obtained leave, presented (C. F. 8), "An act providing for the election of county prosecuting attorneys, and prescribing the duties and fees of the same;" referred to committee on judiciary.

On motion of Councilor W. A. Snow, the committee was instructed to take into consideration the propriety of making such a law general in all the counties.

Councilor Clute presented the following report—

"Gentlemen—Your committee on railroads, to whom was referred (C. F. 5 and 7), bills for 'An act amending an act providing for the incorporation of railroad companies,' etc., have examined said bills, and beg leave to report back C. F. 9, a bill embodying the two, and recommend that the same be put upon its passage; report accepted.

The said (C. F. 9), "A bill for an act to amend 'An act providing for the incorporation of railroad companies, and the management of the affairs thereof,' approved February 19, 1869," was recommitted to the committee on railroads, with instructions to incorporate certain amendments therein.

(H. F. No. 19), "A bill incorporating Ephraim City," was referred to the committee on municipal corporations and town sites.

(C. F. No. 11), "The penal code of Utah," was recommitted to the committee on judiciary, and made the special order for to-morrow.

Adjourned.

HOUSE.

House met yesterday at 2 p. m.

The Speaker announced that he had appointed the Hon. George Atkins, member for Tooele, in the following standing committees:

On revenue, elections, engrossing and enrolling, and education.

Mr. Rockwood, chairman of committee of elections, reported adversely on the petition of C. W. Tappan and forty others. Report accepted, and the committee discharged from further consideration of the subject.

(H. F. No. 19), "An act incorporating Ephraim City," was passed.

Mr. Farr, chairman of committee on judiciary, reported back, amended, (H. F. No. 12,) "A bill to limit the time within which Criminal Actions may be Prosecuted in this Territory," and recommended its passage as amended; recommitted to committee on judiciary.

On motion of Mr. Lyman, Messrs. John Taylor and C. W. Penrose were added to the committee on judiciary during the consideration of said bill.

Mr. Preston moved that the regular sessions of the House be at 10 a. m. and 2 p. m. the remainder of the term; motion put and lost. Adjourned.

FILLMORE CITY,
January 28, 1876.

Editor Deseret News:

The past year with us has not been one of marked success. In the first place our usual supply of snow in the mountains hitherto, failed this last year, and our late crops did not mature as they would have done had there been more water or rain. Our farming facilities in this section of the county are very limited indeed, connected with the scarcity of water. The people have been under the necessity of organizing an irrigation company in compliance with the laws for the mutual benefit of those justly entitled to the mountain streams of this place, with an eye to a more wise disposal of that blessing, and to try and store up some grain for future use.

Our present prospects for water for irrigation next summer are more than fell all the winter season that is past. But the jack rabbits cover our extensive valley, high and low, with but little prospect of their numbers being diminished. Last season they destroyed about one-third of the small grain. They are so thick that one man killed forty in one short day, last week. We are talking of a general rabbit hunt. We have now some other visitors high up and low down on the mountain sides, plenty of deer, and to see their hides hanging around, you would say we were valson eaters indeed.

Our fruit is our main source of revenue. I must say that we raise as fine a fruit and as good flavor as does any part of the world. Apples and peaches can't be beat, and the rest of the different kinds of fruit. There is a fine chance for a fruit canning establishment, but money with us is very scarce, and times are dull in that respect, and it brings to mind times past when for years I would not see money, and when we got a dime or a fifty cent piece we would pass it around to our neighbors. But if times are dull in that respect, I will give you an idea of what we are doing in this place and you may judge if we are so. We number in this place over 1000 inhabitants. We have one liquor store here, a small affair, the only place where any kind of drink can be obtained, and I believe there has been only one case wherein the public peace has been disturbed through the effects of whiskey this winter. We have no gambling saloons or houses of ill-fame, or hurdy den. We are not so far advanced in the so-called civilization that our friends (?) would put upon us.

We have a public library of over 200 volumes, choice works, an athenæum once a week, wherein saint and sinner pass an evening in exercising their abilities for the developing of their minds. We have four schools in full blast, about 250 scholars with good teachers. It would do you good, being a married man and a father in the great country we live in, to see the children of our Sunday School come out about half past three o'clock eve y Sunday. You would think times were not dull. No indeed. We have a library connected with the Sunday School, also, for its use and benefit.

Bishop Partridge, with his brethren, have under way and soon will be running, a co-operative tannery, shoe and harness shop, another step to independence. Our Relief Society is not dead either, neither are the ladies. Our different quorums have their weekly meetings, the High Priests, the Seventies, and have good times in meeting. The Elders have their weekly meeting, also the lesser priesthood has been re-organized, and I almost forget the Young Men's Theological Class every Saturday eve, which is not the least of our labors here. I must say our young friends are on the upward track and it does one good to see the confidence manifested in their meetings.

Our public meetings are well attended and the majority are waking up to their duties, and those who would do good are doing so, while those whose deeds have been evil develop themselves continually. Yours truly, OBSERVER.

Educational—Social Habits—Improvements.

BRIGHAM CITY,
January 24th, 1876.

Editor Deseret News:

The U. N. R. R. blockade interrupts our communication with the world in an eminent degree. Educational matters have a good share of attention this season. Mrs. Minnie Snow's students of the intermediate department of the Academy had a day of review last Friday. The school has two Second, two Third and one Fourth Reader classes, and three Arithmetic, three Geography and one Grammar classes, about one hundred pupils. The school is well furnished, but has insufficient light. Favorable progress has been made during the past term, the discipline and government of the school can hardly be excelled. Miss Minnie Snow has obtained a knowledge of the French and German languages, and high accomplishments in music, through constant perseverance. Mr. Joseph Jensen, assisted by Misses Lana Nicholls and Hulda Jensen, keeps a school, having 130 pupils, all boys, who are doing very well. Prof. E. A. Box teaches in the first department of the academy. The upper story of the Social Hall is likely to be used as a seminary, for which it is well adapted. Said building has been erected the past season by Brigham City Mercantile and Manufacturing Association. Its cost when fully finished will come to at least $15,000. A number of teams are engaged hauling rock for the new Tabernacle to be reared next summer, a complete foundation of which was laid some years ago, but the immense labor performed by our citizens in building the U. N. R. R, hindered its further progress at that time. Our people are very busy in general, and enjoy good health.

Yours, truly,
A. C.
