DELEGATES TO DENVER

Utah Wool Growers' Association Appoints Fifty of Them.

ALSO THE SAME NUMBER OF ALTERNATES

They Will Form Part of a Delegation of 300 to Represent Utah at the Stock Growers' Convention.

A delegation of wool men like 100 years ago represent Utah at the National Stock Growers' convention, to be held in Denver Jan. 24th to 26th inclusive.

This was the intention given a "News" reporter today by a gentleman who visited in the Bullion, who should know, being that member had actually enrolled their intention of going. The proper part of this delegation will come from the Utah Wool Growers' association, which today, through its president, John M. Zane, sent out letters to its members, special circulars and an exact number of alternates to represent the institution in the big meeting. These delegates are limited to one from each county, and as a great many of them will be unable to attend, it is thought there will thus be materially augmented attendance.

A committee on transportation is now formed with the railroads for rates, and this is will succeed in almost a delegation of 300 men, the number of alternates equal of the delegation. At the meeting Hon. John C. Backer of the Utah Wool Growers' association will present a paper on the tariff, to serve opinions, one of the sessions of organized interest to sheepmen.

WOOL SHOWING DELIBERATION.

The delegates and alternates appointed by President Zane and to be notified by Secretary H. H. Cushing within the week for next are as follows:

Delegates—Jesse M. Smith, Layton; John S. Hoyt, Ogden; Wm. Hall, Ogden and J. Ed. C. Mooney, Taylorville, Geo. Canning, Salt Lake; J. E. Chapman, Antelope Park; Peter Cogle, Tooele; Peter Jensen, Salt Lake; Ezra Sheber, Monti; W. D. Cardwell, Mt. Pleasant; Ann Hills, Riverside; Andrew L. Anderson, Grantsville; G. S. Jackson, Gale; Heber Bennion, Taylorville; Preston Hales, Marriott; M. L. Phoenicen, Mt. Pleasant; Wm. Hall, Heber City; Silas Adams, Layton; C. L. Anderson, Grantsville; Heber Anderson, Brigham City; Wm. Wood, Woods Cross; O. P. Gatch, Woods Cross; E. P. Ellison, Layton; W. S. Hoyt, Ogden; Wm. Hall, Ogden; H. F. Fingerald, Draper; Sanford Gustavson, Grantsville; L. Hansen, Bay; Thos. Smith, Salt Lake; Jas. M. Jensen, Brigham City; Wm. Kirk, Fremont Greve; S. S. Jones, Salt Lake; Joseph Kapp, Peterville; F. Kearns, Gunnison; Jas. Love, Kaysville; Walter Lindsay, Eden; H. E. Lambert, Monroe; Jas. Lewis, Ogden; G. M. Mumford, Salt Lake; Morris Marriot, Marriott; F. A. Hudson, West Weber; O. P. Miller, Riverside; Thos. McCann, Neola; George Naylor, Sugar; Jas. E. Olsen, Brigham City; Adam Paterson, Ogden; Lorben Pettit, Mendon; Isaac M. Waddle, Herriman; S. C. Thompson, Provo; Jas. L. Weathal, Grantsville.

Alternates—James Whitaker, Cedarville; George Ivors, Croydon; H. C. Stephens, Hooper; Daniel Simpson, Murray; Jas. Simpson, Salt Lake; Thos. H. Smith, Kaysville; H. Sharpton, Salt Lake; John R. Daly, East Lake; Jas. W. Marsh, Brighton; Alma Jensen, Brigham City; Sharone Smith, Ogden; Robert A. Peterson, Salt Lake; Atkinson, Woods Cross; Armon Green, Ogden; Heber Gardner, West Jordan; Robert A. Peterson, Salt Lake; Thos. Etherington, Ogden; C. H. Elsworth, Plain City; Brigham Hoe, and Hoth, Granite; Wilford Day, Cedarville; L. J. Duncan, Draper; H. D. Baird, American Fork; Lewis Bitton, Hooper; George Bennion, Hunterville; D. F. Osborn, Newton, Salt Lake; Mrs. Geo. C. Beal, Sugar; D. W. Chase, Harrisville; J. G. Duke, Heber City; A. Freshatt, Salt Lake; W. H. Gillespie, Tooele; W. T. Toon, Nephi; John Ballard, Salt Lake; Martin McFarland, West Weber; Wm. Oswald, Salt Lake; Wm. Gross, Nephi; William Paxton, Taylorville; Jas. Pack, Miller; Quentin Bros., Salt Lake; David Smith, Lehi; Chas. Steadman, Bluff; Robert A. Peterson, Salt Lake; Jas. Wadsworth, Plain City; W. J. Terry, Draper; George Roberts, Hunter; Thos. Smith, Salt Lake; Wilford Day, Cedar Creek; C. H. McFarland, West Weber; Wm. Ingram, Salt Lake.

THE NEW GAS PLANT.

Will be Equipped With all Necessary Modern Improvements.

The new gas plant of the Utah Light and Power company is nearing completion. It has all modern improvements necessary for the manufacture of gas. The old process of extracting the vapor from the coal dust is to be changed, and coke and crude petroleum are to be used instead. The vapor is taken from the coke and carried by spraying the oil on it, which overheated.

The advantage of this process over the old one is the quickness the gas can be made. General Manager Cornell will add this month a new plant, now ready for the Grand Avenue main, so that the present service could be filled in from six to eight hours.

The cost for the manufacture of the new gas is already on the grounds.

NO NATURAL GAS COMING IN.

Not a Particle of the Vapor Has Been Received for Ten Days Past.

It was learned this morning at the office of the Union Light & Power company that there has not been a particle of natural gas received in this city for the past ten days. The flow in the field has been down to a depth of 300 feet, and several oil wells have been struck, but the flow has gradually decreased from the time it was first struck. It is thought it is now full beyond the gas where the vapor was originally drawn from, and that it will be necessary to go down another 300 feet to get the gas in sufficient quantity.

The manager says that for every dollar of gas received in the city, the company is losing a dollar and a half, but the company is loth to give up the service, and will continue it as long as possible. It is hoped that a deep supply will be encountered, for it means a great increase cost to the consumers.

In the British Mission.

Differential Mail, Dec. 15.)

The date of sailing of the Anchor line S. S. Furnessia from Glasgow has been changed from December 22 to December 23, 1898.

Elder A. McQuarrie has been released to travel in Ireland. The Lord confer some good upon him in his new labors in the field among the churches in the Emerald Isle.

Elder Lorenzo Allen has been released as traveling Elder in the Irish conference and appointed to preside over that conference.

Walter J. Kent has been released as a traveling Elder in the Irish conference and appointed to labor as a traveling Elder in the conference in Glasgow.

Henry Colman has been released as traveling Elder in the Irish conference and appointed to preside over the Belfast conference.

AN ABUNDANCE OF HOBOS.

Petty Pilfering Still Goes On in Different Parts of the City.

Stock thieves are still quietly getting in their work in the city, and the officers are just as quietly getting in their work in an effort to bring the culprits to justice. The news of the theft of a number of robes in the wagon yard, and the officers have been interrogated by an enterprise correspondent, who pulled a number of hobos in the jail, but they were released, and officers will be brought into the act in the session, this morning, as warrants against this class of people.

MOBBING KENTUCKY MORMONS

Report That They Are Receiving Ill Treatment Near Vanceburg.

President Roe F. Rich Knows Nothing of the Story as Published in the Salt Lake Morning Papers.

The Salt Lake morning papers published the following under the heading of "special" today:

Louisville, Ky., Dec. 28.—For the past two years a colony of Mormons has been located near Vanceburg, in Lewis county, Kentucky. There recently his several such properties that they have decided to leave, and on Saturday last of the Mormons started for Salt Lake City. Fifty others and members will soon follow. The Mormons have been very quiet, and no disorder, and recently the Mormons have been holding revivals nearly every night. Such threats have been made against them that they have decided to leave the state. They will take with them several converts.

The account of a party of the people was attempted to be late. Not knowing, however, that there might be a special with the story, the "News" correspondent at Vanceburg, Ky., telegraphed to President Roe E. Rich of the Northern States mission, Salt Lake City, and received the following reply:

"Salt Lake City, Dec. 28, 1898.

To the Editor:

The Sunday schools of Spanish Fork held a session on Christmas day. The meeting was presided over by Superintendent David Williams of the Fourth ward, and an interesting program was rendered. One feature of the exercises was the singing of a song specially composed by Brother Franklin Parr of Spanish Fork.

G. CAMMACK, Sec'y.

An Age of Palaces.

Omaha Bee-News: Salt Lake City will have a "Salt Palace" next summer. This seems to be an age of palaces, the Mormons have proved excellent advertisers of the virtues to which they were erected, but this salt palace is the most novel idea of them all.

WEATHER REPORT.

Weather report showing observations at 8 a. m. Central time:

Salt Lake—Barometer, 30.31; temperature, 31; minimum, 31; wind, northwest; 10 miles per hour; rain, .01 of an inch; rapid snow.

Baker City—Barometer, 30.32; temperature, 10; minimum, 10; wind, southwest; 10 miles per hour; clear; 10 of an inch.

Cheyenne—Barometer, 29.92; temperature, 20; minimum, 20; wind, north; 18 miles per hour; rain, .01 of an inch.

Havre—Barometer, 30.32; temperature, 10; minimum, 10; wind, northwest; 10 miles per hour; rain, .01 of an inch.

Helena—Barometer, 30.40; temperature, 20; minimum, 20; wind, west; light; rain, .01 of an inch.

Lake Park—Barometer, 30.02; temperature, 20; minimum, 20; wind, northwest; 10 miles per hour; rain, .01 of an inch; partly cloudy.

Miles City—Barometer, 30.36; temperature, 20; minimum, 20; wind, northwest; 10 miles per hour; rain, .01 of an inch; partly cloudy.

Winnemucca—Barometer, 30.36; temperature, 32; minimum, 32; wind, east; 4 miles per hour; rain, .01 of an inch; snow.

Observer Weather Bureau.

Poisoned by Ivy

Was in a Dreadful Condition

Happened to Read About a Similar Case—Followed the Other Man's Example and Was Cured.

The following incident is given by Charles Morris, general jobber, 32 Lexington Avenue, North Cambridge, Mass.:

"Several years ago I became poisoned by ivy. I tried many medicines, spending a large sum of money without obtaining a particle of good. My children were also afflicted with the same disease. We were all constant sufferers with an awful itching sensation, and it seemed as if I should tear myself to pieces. I picked up a paper in which I found printed a testimonial from a man in Vermont who had been similarly afflicted and had taken Hood's Sarsaparilla with good results. I bought a bottle, which we took and it did

Me and My Children

so much good I purchased another supply. We continued taking Hood's Sarsaparilla until we used five bottles and I can truthfully say that neither myself nor children have any signs of the poisons. I perfectly felt as cool as we are perfectly cured. We give the whole credit to Hood's Sarsaparilla. Before resorting to this medicine I was reduced in weight, but now I weigh 175 pounds. Hood's Sarsaparilla has not only done us much good but has been the means of saving us a great deal of money. I would not be without it in my house and I heartily recommend it to all who are afflicted. I have written this statement for publication, of my own will, as I wish others to know what has done for us." CHARLES MORRIS.

Hood's Sarsaparilla

Hood's Pills are the only pills to be taken with Hood's Sarsaparilla.

SECOND DAY'S SESSION.

State Teachers' Association Having an Interesting Time at Ogden.

PROF. CUMMINGS ON LANGUAGE WORK.

Subject Ably Discussed with a Prevailing Sentiment Expressed Against Courses in General Education.

Special to the "News."

Ogden, Dec. 29.—This morning's train from Salt Lake being late, the second day's session of the Teachers' Association was not called to order until 10:40, when there were still more than 175 teachers present, who listened intently to the morning's general exercises.

Prof. Byron Cummings, of Salt Lake, was promptly introduced by the president. The true function of language work in education" was the topic handled. The speaker said in part that for many moons since, a prominent educator of this state remarked that too much time was being given to language work in our schools, that if we gave the pupils those and thoughts, the expression would take care of itself, and at best the work in language drills only the memory. Men were then only acquainted mindpieces and parroted—things that seem to burst spontaneously into existence in a single night, full grown and equipped, for the start.

"I am thankful," said Prof. Cummings, "that the majority of us do not yet see an estimate rather upon man's ability or the importance of life's work. Excellence in language is not the gift of the gods either by inspiration or otherwise. In fact, few true and noble things come to us in this way. God has organized the world on a fair wise and effective plan. He has endowed us with mental powers and placed us in circumstances which tend to draw out and develop these powers, and assist us in measuring up towards the full stature of the ideal which God has set before us as the goal of our spiritual growth. Herbert Spencer, in his phrase—language work in English in the public schools and the study of other languages in the advanced grades of the grammar schools and in the high schools and academies. If the old Greek maxim, "Know thyself," could be placed above the entrance of every modern school its influence would be amazingly helpful. We learn to know ourselves only as we begin to appreciate our powers and recognize our limitations by our use. The boy at school has had much before, but now he is acquiring new ones.

"The consciousness of new and increased power is making a man of him. Language work quickens these capacities and produces those results throughout the course. Observation is constantly brought into exercise, the forms of words, capitalization, punctuation and arrangement. Constantly telling the pupils to "bring forth from down our minds" intellectual thrusts, because we think we are crowded to time and more and over the ear, and drew our ear, is worse than a waste of time to both pupils and teacher. Give the pupil a fair opportunity to use their minds and exercise their brain power in forming judgment; then will them become matured with language work. Language does not develop the memory alone, but it does help all the mental faculties and step by step leads the pupil to a knowledge of his own powers and how to use them. Confidence to start out in life's work. Pure literature has no small share in enlarging a layer of the good and beautiful. We may see myths and fairy tales occasionally to develop the imagination, but we study English from the beginning to the end of our days that we may gain the mental and moral nourishment, the culture and power, and gave a style of expression that will make our thoughts most effective on our fellow-men.

"In some quarters today there have come to literary interitment and criticism, the study of the Latin, Greek, German, etc. According to these methods linguistic education the study of a foreign language rules in the high school or academy. It is not the study of the sciences of language per se, but the world tongue. The student must not be satisfied with a mere knowledge of the story, he has a parallel column of it, the book of the book a comprehensive knowledge of the story of his tongue.

"Let us study Latin and other foreign languages not only that they may give us the knowledge of the sciences they are capable, but also that we may get that broad minded culture which they alone can give."

This discussion was opened by Miss Ida Hewson of Cedar City, who appeared on the platform in the midst of a speech which she had prepared and read a page beyond that he had not received a paper until a few days, consequently he was in a state of nervous excitement, which added independence. He read an interesting paper on the study of language. He was followed by Prof. Wells, of Provo, who took the other side of the question in an admirable paper interspersed with humorous illustrations. Time prevented reading of some three minutes.

W. H. Harlan said the public on the language question would like to see some compromise between the two. Commissioner Ball in some three minutes.
