NEWS OF THE WEST.

From as the Home of the Nevada Southern to Utah.

HUSBAND GONE FOR 20 YEARS.

Terrible Crowding of a Jail—Advantage of Irrigated Fruits—Drowned in a Reservoir.

A young son of Guild Fish, an Indian gardener, was drowned in a spring in his father's place, north of Ione, Cal., Tuesday. The child had been playing in the vicinity of the spring, which was blocked and walled, he accidentally fell in and before assistance arrived was drowned. This is the second fatality in the family in the same spring within one year, the elder brother of the deceased fell into the same spring and was drowned a few months ago.

Mr. L. W. D. Bamhoff told a remarkable story to Judge Sanderson in the Fresno county court on Tuesday. Mrs. Bamhoff was present in court seeking for a divorce from John Bamhoff, whom she accused of having deserted her nearly a quarter of a century ago. The lady thought at the sudden disappearance of her husband. She neither saw nor heard from him for twenty years, and supposed him to be dead. Some months ago, however, Bamhoff turned up very much alive, and hence the suit for divorce. Judge Sanderson took the case under advisement.

Mabel Morse, the infant daughter of Mr. and Mrs. Harry F. Morse, residing at 516 Seventeenth street, Oakland, Cal., was found dead in bed Tuesday morning. When the mother entered the room she at first thought the child was lying face downward on the pillow, and, on turning it over, it was seen that the little one was dead. The child was in a perfectly healthy condition and all through in the morning the mother attended it and left it sleeping peacefully and naturally. Mr. Morse thinks the child must have been smothered by turning on its face.

Santa Rosa, Cal., Republican: The matter of spraying your trees for blight was discussed before the sonoma County Horticultural society recently. J. H. Hornbeck stated that in his experience the best compound is solution of tobacco, dissolved in two gallons of a barrel of water, mixed with a thick whitewash made of thirty pounds of lime. Spray just before buds open. When the tree has bloomed use a spraying fluid the same as the first with the addition of a pound or two each green and five or six pounds of soap to the barrel. It necessary spray again a little later. This will thoroughly destroy scale.

The Fresno, Cal., Republican of Tuesday last published an account of the condition of the prisoners in Fresno jail, in which it says that the prisoners filed to overflowing mostly by tramps who have drifted in with grapepicker. Eighty-five of them occupy one room, sleep on the concrete floor, with few blankets, and many of them have not a rag to cover them, except their clothes, which are scanty. They suffer with cold. There are not enough cots and chairs for them to eat with. Some of these prisoners have written letters to outside acquaintances to help them procure blankets. They say they have to walk about at night to narrow quarters to keep warm. The prison is crowded to its utmost capacity.

Owing to the fact that the Nevada Southern is about to pass into other hands and be extended, a new company known as the Colorado Colonization company, has been organized and has purchased from Riverside, Cal., about 60,000 acres of land lying in Pahrump valley, near the ill-fated mining camp of Vanderbilt. The land is in the direct line of the California and Eastern railroad. In one spot in this tract of land there rises out of the ground 300 inches of water, and it is certain that artesian water can be had. A tract has been laid out and the land placed at $10 per acre. The company claims that the land will grow all kinds of nuts and fruits, except oranges. A stage line runs just now between Manvel, the railroad terminus, and the new town.

Fresno, (A. T.) Gazette: Fruits grown by irrigation find a ready market of the world. The flavor of the irrigated fruit is more natural, the juice more abundant and the quality cannot be excelled. No better test of this fact can be made than the Denver fruit market. There the eastern and western fruits are sold on the same stands, and the rain belt and irrigated products come in direct competition. The fruits of irrigation are taken long before other fruitons, and all classes of people, eastern and western, remark upon the superiority of western fruits. The irrigated fruits never lack for moisture at the proper time. When the buds are swelling the orchardist puts on the water, which is absorbed by the growing trees. As the blossoms come forth sufficient water is applied to make the fruit form, and throughout the entire season there is no set back to the formation, development and ripening of the products. The insects do not so greatly delight the trees, because they are always in a healthy and thrifty condition. The foliage of an irrigated tree is more luxuriant, and hence its fruits are more perfect and luscious.

Tuesday morning at 11:45 o'clock Albert H. Neude of the Kingsburg Lake Vineyard Land and Water company, in making his usual inspection of the Villanovitch reservoir in Pasadena, Cal., was horrified to see the body of a woman floating on the surface, face downward. The hair was loose and spread about the hidden face, and the lower part of the body was submerged. Neude called Mr. Horton, and together they removed the corpse from the water. It was evident from the discoloration of the flesh that the victim had been dead some hours. Coroner Campbell has in the afternoon went from Los Angeles and held an inquest. The verdict was suicide. The dead woman was Miss Celestia Fenele, who has resided in the town for something over a year with her sister, Mrs. Mary Payne, widow of William Payne, and previous to coming to California had been an inmate for ten years of the insane asylum at Hamilton, Ontario. She was pronounced cured by physicians and discharged. About fifteen months ago she was brought here. She has exhibited at times a mild form of insanity, frequently spoke of suicide, especially of drowning herself. Monday morning, at 7 o'clock, she left her sister's house with the avowed intention of committing suicide, but no trace of her could be found. Miss Fenele was 42 years old, and is said to have well-to-do relatives in the East. The reservoir was emptied by the men as soon as the body was removed. It contained about 20,000,000 gallons.

AN OPINION GIVEN.

Recently Mr. J. D. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country decided to Winchester, he writes to Mr. V. Blackburn, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in every state and territory of the United States, and am frank to say opinion that this valley surpasses all other sections in the Union. The lands are low in price, and produce profitable crops. I thank you for getting me here, and solicit those seeking pleasant and profitable homes to locate in this country."
