A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R.R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST!

Its main line runs from Chicago to Council Bluffs and Omaha, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell, and Des Moines, (the capitol of Iowa) with branches from Bureau Junction to Peoria; Wilton Junction to Muscatine, Washington, Fairfield, Eldon, Belknap, Centreville, Princeton, Trenton, Gallatin, Cameron, Leavenworth and Atchison; Washington to Sigourney, Oskaloosa and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independent, Eldon, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe, and Des Moines; Des Moines, to Indianola and Winterset; Atlantic to Audubon and Avoca to Harlan. This is positively the only Railroad which owns, controls and operates a through line between Chicago and Kansas.

This Company own and control their Sleeping Cars, which are inferior to none, and give you a double berth; between Chicago and Council Bluffs, Leavenworth, or Atchison for Two Dollars and Fifty Cents; and a section for Five Dollars, while all other lines charge between the same points, Three Dollars for a single berth and Six Dollars for a section.

What will please you most will be the pleasure of enjoying the magnificent scenery over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining and Restaurant Cars that accompany all through Express Trains. You get an entire meal, as good as is served in any first-class hotel, for Twenty-five cents; or you can order what you like, (a la carte) and pay for it.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes, and the economy to passengers that a combination car (warranting it,) we are pleased to announce that this Company runs its PALACE SLEEPING CARS for Sleeping purposes, and its PALACE DINING CARS for Eating purposes. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by this line, and transfers are avoided at Council Bluffs, Leavenworth and Atchison, connections being made in Union depots.

THE PRINCIPAL R. R. CONNECTIONS OF THIS GREAT THROUGH LINE ARE AS FOLLOWS:

At CHICAGO, with all diverging lines for the East and South.

CATARRH

A PHYSICIAN'S TESTIMONY.

30 Years a Physician. 12 Years a Sufferer. Tried Regular Remedies. Tried Patent Medicines. Permanently cured by

SANFORD'S RADICAL CURE.

MESSRS. WEEKS & POTTER.—Sirs: I have M. practised medicine for thirty years, and have been a sufferer myself for twelve years with Catarrh in the nasal passages, fauces and larynx. I have used everything in the medical medicot without permanent relief, until finally I was induced to try a patent medicine (something that we allopathists are worry down) and I tried one, and divers others until I got hold of yours. I followed the directions to the letter, and am happy to say have had a permanent cure. Your RADICAL CURE is certainly a happy combination for the cure of that most unpleasant and dangerous of diseases.

Yours, respectfully, D. W. GRAY, M. D., Of Dr. D. W. Gray & Son, Physicians and Druggists, Muscatine, Iowa. MUSCATINE, IOWA, March 27, 1877.

The value of this remedy must not be overlooked in the cure of those

SYMPATHETIC DISEASES,

Affections of the Eye, Ear, Throat, Lungs and Bronchial Tubes which in many cases accompany a severe case of Catarrh. The inflamed and diseased condition of the mucous membrane is the cause of all these troubles; and until the system has been brought sufficiently under the influence of the RADICAL CURE, perfect freedom from them cannot be reasonably expected.

It is but three years since SANFORD'S RADICAL CURE was placed before the public, but in that short time it has found its way from Maine to California, and is everywhere acknowledged by druggists and physicians to be the most successful preparation for the improved price. It will be seen of more importance when it is coupled with the statement that there are over 200 different remedies for Catarrh have been placed on sale, and to-day, with one or two exceptions, their names cannot be recalled by the well-informed druggist. Advertising may succeed in forcing a few sales, but, unless the remedy possess undoubted specific medical properties, it is absolutely certain to fall into merited obscurity.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for its use in all cases. Price $1.00. Sold by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

GREAT BRITAIN.

In Memory of Shakespeare.

LONDON, 23.—The Shakespeare memorial theatre at Stratford-on-Avon was formally opened on the 315th anniversary of the birth of the poet, with the performance of "Much Ado About Nothing." A brilliant audience was present. The town was gaily decorated with flags and crowded with visitors, notwithstanding the unfavorable weather.

The Trouble Among the Miners.

A circular has been addressed to the various organizations of miners throughout the country asking their representatives to the congress, in Yorkshire, in May, to decide upon the advisability of stopping all mining for four or five weeks, so as to lessen the output.

The Turkish Authorities Defied.

ATHENS, 23.—In consequence of the delay of the Porte in carrying into effect the reforms voted by the Cretan assembly, the Turkish authorities have been defied and the laws utterly disregarded. Armed men have assembled in various districts, determined to resist the collection of taxes.

Correspondence.

Reservoirs.

ST. GEORGE, April 17, 1879.

Editors Deseret News:

History tells wonders about artificial lakes, and from my own experience I can recommend the Latter-day Saints to husband the waters and store it securely as you would garden wheat. I once used the waters of a small spring, and with difficulty could water a lot in 24 hours; in four hours I made a reservoir that held this water 48 hours; I could then draw water from my lake and water a city lot in two hours. History tells us that the Egyptians checked the current of the mighty Nile by opening their floodgates, till their (mostly natural, partly artificial) lake of 180 miles square was full, the gates were then closed, and the waters preserved for irrigation. In that day Joseph laid up corn for the seven years famine, and the people of Utah and Arizona could, if they would, in a very short time secure the water that runs to waste in winter and early spring, and use it in the heat of summer. These lakes should be made out of the way of floods and washes, and precautions taken to avoid accident. Lakes of this kind are common in Europe for swans to sport in, for the growth of fish, for family use and for pleasure boats.

A Chinaman would tell you the produce of an acre of water is worth more than the produce of an acre of highly cultivated land. Necessity has driven the Chinaman to try everything. Fish can be fed as well as pigs and chickens; common raw Irish potatoes, cut up, is good food for fish. President Young enjoined this upon us as a duty, and recommended the cultivation of fish as more profitable and more in keeping with our profession than the feeding of hogs. Ancient Israel were forbidden to use swine's flesh, and modern Israel had better quit. In evidence of this, I will say that history records of the Jews who zealously avoid the use of swine, that while cholera and plague sweep away their thousands, the Jews go unharmed. If the people will set about this in earnest, in places where water is scarce, especially, the utility will soon be proven, and many an acre can be redeemed from the desert with small expense, and President Young's words proven true. It is better and cheaper to feed cows and fowls and fish, and let the devil have the hogs. We are decidedly too hoggish now, too sluggish; have too much disease. If our food was lighter our minds would be clearer, and we would be less subject to sores; we would sleep better, live longer, and be happier. And again, water attracts water; the more lakes, the more rain; the more the water is taken from the streams and spread over the face of the land, the more rainfall on this dry and parched soil.

Your fellow-laborer, J. W. CROSBY.

GRAVITATION.

A BOLD SCIENTIFIC DENIAL THAT IT IS A UNIVERSAL LAW.

Professor Joseph Tingley, of Indiana Ashbury University, flings a bombshell into the scientific camp in the shape of a denial that gravitation is the universal law, as Newton taught, and the world has since believed. If it is, the Professor wants to know why we pass through the tails of comets and through groups of meteors without feeling the collision or being affected by it. Instead of the axiom that gravitation is a universal law of matter, Professor Tingley maintains that matter is para-gravitant and dia-gravitant, some bodies attracting and others repelling each other, even as different things are differently affected by the poles of a magnet, and varying their joint influence according to some other law than inversely as the square of the distance. In elucidating his theory the Professor says: "The analogy between the magnet and gravitating forces is closer than appears at first thought. There are good reasons for suspecting that all gravitant bodies possess the power of induction. The influence of the sun upon comets as they draw near that great magnet is usually manifested first by a widening of the distance between the nucleus and its envelope, and subsequently by the projection of the tail. It seems evident that by some inductive action of the sun the nucleus is endowed with power to repel the envelope toward us well as away from the sun. Those portions which happened to be driven towards the the sun are met by a superior repellent force, and are turned backward past the nucleus, giving the appearance of a double tail. The marvelously rapid projection of this appendage to almost incredible distances into shape is inexplicable on any other hypothesis than that which attributes to its substance the quality of negative gravitation or actual repellency. It must not be inferred that this condition is one of mere levity or absence of attraction, nor that the repellent quality is due to expansion by heat or any other known force, excepting the inductive action of the sun superadded to that of the nucleus. The substance of the coma is actively repellant only within certain distances, beyond which the residue of para-gravitant force which it retains becomes equal to or exceeds that of its diagravitancy. This balance of forces determines the magnitude of the envelope, whether in equilibrium around the nucleus or disturbed by the repellent influence of the sun or other proximate body. I suspect that a careful examination of the positions occupied by certain comets that have had supernumerary tails will reveal the fact that some planetary body had assisted in their ejection. It is even possible that the hitherto unseen intra-mercurial body may have participated in their formation. There are other corners in the solar system where it is reasonable to suppose that the dia-gravitant condition prevails, at least when phenomena occur which admit of no satisfactory explanation on any other hypothesis.—*N. Y. Graphic.*

UTAH DIRECTORY

FOR 1879-80.

H. L. A. CULMER & CO., PUBLISHERS.

OFFICE OF

SALT LAKE DAILY TIMES.

SALT LAKE CITY, UTAH, March, 1879.

TO THE CITIZENS OF UTAH: WE ARE about to publish a general and complete Directory of Salt Lake, Utah, Davis and Weber Counties, giving name, occupation and residence of every citizen, and in addition, will be a correct Business Directory of every City and town in Utah, giving name, business and residence of every merchant, dealer or manufacturer in the Territory; thus constituting a work long needed and that will be of immense value and interest to the country, and especially to the business portion of the community.

Incorporated into the Directory will be a concise and reliable account of the various advantages which each city presents, whether manufacturing, mining or commercial, its public buildings and institutions, together with all other practical information that will be of value to the general public.

An efficient corps of experienced men have been engaged in this work throughout various parts of the Territory, and are now making a record of the residents and business houses of SALT LAKE CITY. They will also dispose of the limited number of pages which the book will devote to advertisements, and we respectfully solicit for them the information and support that a work of this character deserves. The Directory will be sold only by subscription. Price Three Dollars.

Respectfully, H. L. A. CULMER & CO., 116 P. O. Box 367, Salt Lake City, Utah
