JOHN SMITH.

A HORSE WHO CAN TALK!

Everybody has heard of a "horse laugh," but who has ever seen an equine gifted with the power of speech? Such an animal would be pronounced a miracle; but so would the telegraph and the telephone a hundred years ago. Why, even very recently a cure for consumption, which is universally acknowledged to be scrofula affecting the lungs, would have been looked upon as miraculous, but now people are beginning to realize that the disease is incurable. Dr. Pierce's Golden Medical Discovery will cure it, if taken in time and given a fair trial. The world-renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when other means have failed. Thousands gratefully testify to this. It is the most potent tonic, or strength-giving, alterative, or blood-cleanser and purifier, or flesh-builder known to medical science. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, Catarrh in the Head, and all Lingering Coughs, it is an unequaled remedy. In derangements of the stomach, liver and bowels, as Indigestion, or Dyspepsia, Biliousness, or "Liver Complaint," Chronic Diarrhœa, and kindred ailments, it is a sovereign remedy.

"Golden Medical Discovery" is the only medicine of its class, sold by druggists, under a **printed guarantee**, from the manufacturers, that it will benefit or cure in every case of disease for which it is recommended, or money paid for it will be promptly refunded.

PRESBYTERIANISM.

Business Disposed of in the Presbyterian General Assembly Yesterday.

MORE RESPECTING THE KEMMLER CASE.

Supreme Decision.—The House Committee on Elections.—The Cherokee Strip.

By Telegraph to the News.

THE PRESBYTERIANS.

Reports Presented and Proceedings Discussed Yesterday.

SARATOGA, May 23.—In the Presbyterian General Assembly this morning the unopposed report of the committee on methods being called up, Rev. Dr. Patton, chairman, spoke at some length. He said he was in the minority, but bowed to the will of the majority of the Presbyterians, which desired a change in the creed. He therefore advocated that it be formulated by the committee for submission to the Presbyteries. "We of the minority," he said, "must not stand against a great right, but must define the functions of the committee. We must have no change that will affect the Calvinistic character of our standard." (Great applause.) He offered an amendment to Dr. Craig's plan, providing for a committee of 15 to have nothing to do with the Elders, of which, not more than two shall be appointed by any one synod, to report to the next assembly the alterations to be sent down to the Presbyteries, and committee to be instructed from proposing changes such as will alter the Calvinistic character of the standards, and to propose only such as will remove popular misapprehension.

Dog of New York read an amendment to both Dr. Craig's and Patton's plan, which provided for a

COMMITTEE OF REVISION

of fifteen ministers and six elders, the moderator of this assembly to appoint one member of this committee from each synod to act with the moderator as a committee of nominations of the committee of revision, said committee to meet on Monday, the 2nd of June, 1890, and report to the next general assembly.

Rev. Dr. Van Dyke of Brooklyn opposed entering the committee to change.

The three propositions were discussed at very great length by Dr. Van Dyke of Brooklyn, Mattie of the Lane Theological seminary, Howard Crosby of New York, Robert M. Patterson of Chester, Agnew of Philadelphia and others. Dr. Patterson in his address said that he would never vote, if there were no other objections, to confess that for 250 years the church had slandered the race in calling him anti-Christ. He asserted that only a minority of ministers and elders had voted for revision.

Dr. Agnew contended that the revision should be without Calvinistic lines. He also opposed the change proposed regarding "elect infants dying in infancy."

Dr. Craig of the Presbytery of Iowa said: "I have been an anti-revisionist, but it seems we cannot stay where we are, and although I see many difficulties, they are not impossibilities. Therefore, I will vote that the experiment be made, lest we must be unfaithful."

Finally, the three proposals were referred to a committee, consisting of Dorian, Patton, McNaughton, Erdman and Kempshall, and Elders Day, Graham and Torrey, to report to the assembly tomorrow.

TROY WASHINGTON

The Kemmler Case.—An Inter-State Commerce Decision, Etc.

WASHINGTON, May 23.—The Kemmler case will come up before Chief Justice Fuller and Justice Wallace, who made an order to open up a city until the Supreme Court can open the question involved. This order was issued with the understanding that the counsel would immediately apply to the Supreme Court for a writ of habeas corpus. Their application for such a writ was thrown out, but they were allowed a hearing on the application for a writ of error, and it was this application which was today denied. It is therefore supposed that Judge Wallace, when the order remains returnable in June next, will decide it, that being practically the understanding upon which the order was made.

INTERNATIONAL RAILWAY.

McCreary (Ky.) today introduced a bill to provide for the survey of an international railway to connect North and South America.

INTERSTATE COMMERCE DECISION.

The Interstate Commerce Commission today decided the case of Lehmann, of Humboldt, Kas., against the transcontinental lines, for charging a higher rate on sugar from San Francisco to Humboldt than to Kansas City, a longer distance. The commission holds that the lower rate to Kansas City was forced on the carriers by competitive conditions, and that to Humboldt was not only unreasonable, but lower than it would be except for conditions on the Kansas City rate.

CARD.

Wilson (Ky.) today submitted to the House, from the committee on agriculture, a report containing his views on the bill reported by the committee defining and taxing compound lard. From the arguments presented before the committee in favor of the bill, inference is drawn, the report says, that the immediate result of its enactment will be to increase the value of every hog in the United States thirty-two cents. The claim that the depreciation in the value of cotton and lard is due to the manufacture of lard compounds, Wilson holds, is not borne out by the facts. The greatest injury to the farmer and his hog crops comes from the unwholesome methods of the packing houses and stockyard inspect. Wilson is reluctant to enforce a measure which he believes will either increase the price or retract the sale of healthful food, and which would do the farmers no good, but the laboring men injury.

THE CHEROKEE STRIP.

The President having received information that settlers are invading the Cherokee strip in violation of his proclamation, has instructed General Merritt to rigidly enforce the provisions of the proclamation.

THE SUPREME COURT

has affirmed the judgment in the case of Ortgen, the Cuban filibuster, now held at New York. The effect will be to allow his extradition by Spain.

CONFIRMATIONS.

Registers of Land Offices—Joseph Tracy, Humboldt, Cal.; John F. Sheehan, San Francisco.

Receivers of Public Moneys—Alfred D. Campbell, Miles City, Mont.; Jay B. Sanborn, Coeur d'Alene, Idaho.

William H. Davis, San Francisco, supervisor of census, First California District.

THE HOUSE COMMITTEE

on elections today acted upon three pending contested election cases, and the result will probably be an increase of the republican majority in the House by two members. The cases decided were those of Langston vs. Venable, Fourth Virginia, Miller vs. Elliot, Seventh South Carolina, and Chalmers vs. Morgan, Second Mississippi. In the first two cases the committee will report in favor of seating the republican contestants, Langston and Miller. But in the Mississippi case the report will be in favor of seating Morgan.

A Story of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed now thirty seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle. It helped her, she bought a large bottle, it helped her more, bought another and grew better fast, continued to use and is now strong, healthy, may, plump, weighing about 150 pounds. For further particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial Bottles of this wonderful Discovery Free at A. C. Smith & Co.'s Drug Store.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of healthgiving, blood-purifying and appetite-restoring which everybody wants to need at this season. Do not continue in a weak, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

D. L. Davis,
68 and 70 W. 1st South.

Dr. E. Hamilla, of Lemoore, Cal., says a few days ago a bottle of Chamberlain's Cough Remedy which he sold there created such a demand for the remedy that he could not well get along without it. No one can fully appreciate the real value of this remedy until they have given it a trial. Those who use it find it so much superior to any other remedy they have ever tried that they recommend it to their friends and that is what makes it so popular. For sale by Z. C. M. I. Drug Dept.
