Wired from Washington.

WASHINGTON, 13.—Secretary McCulloch is busily engaged in the preparation of his annual report to Congress. It is intimated that he will make some important recommendations in regard to the revision of the tariff, on which subject he is understood to have very decided views. In the meantime Assistant Secretary Coon is Acting secretary on all routine matters. The Secretary has requested the Comptroller of Currency and the Treasurer of the United States to withhold their annual reports from publication until after the meeting of Congress.

The charters of 721 National banks, with an aggregate capital of over $189,000,000, will expire during the year 1885. This is more than one-third the number of National banks now in existence. From information already received from the comptroller of currency, it is expected that a large majority of these banks will continue their existence either by extending their charters or by reorganizing under other titles. There are at present more National banks in existence, with a larger aggregate capital than ever before. The capital invested in National banks was increased about $15,000,000 during the year ended Sept. 30, 1884.

Secretary McCulloch to-day received the following petition in regard to the importation of old rags from European ports, signed by prominent medical men in New York:

"Recognizing the fact that there is great danger of the introduction of Asiatic cholera into the United States through the medium of old rags imported into the country, and coming from European ports, we do hereby respectfully suggest and urge upon you the necessity for immediate and decisive action in reference thereto."

It is understood that the question raised by counsel for Judge Advocate General Swaim, with regard to the legality and authority of the court-martial appointed in the latter's case, has been decidedly adversely. Gen. Swaim and other counsel will assemble and the trial begin on Saturday.

The democrats in this city and vicinity celebrated the election of Cleveland and Hendricks to-night by a grand torchlight procession. While the procession was passing through the part of the city in which a great many negroes reside, a colored man standing in a crowd on the sidewalk, without any provocation, shot into the crowd, the bullet striking a torchbearer named Sullivan in the temple. He fell in the ranks, and a number of processionists charged on the crowd of colored men who surrounded the man who did the shooting. The latter ran, and in the confusion escaped, but was afterwards captured by the police and locked up.

The special press commissioner of the New Orleans World's Exposition is perfecting arrangements to have a congressional excursion of Senators and Representatives from here to New Orleans, to be present at the opening of the Exposition on December 16th. A press excursion, representing the press of the New England States, New York, New Jersey, Pennsylvania, Delaware, Maryland and the District of Columbia will go at the same time. Ample accommodations will be provided for these guests in the Crescent City. The board of management of the Exposition have made the most complete arrangements for the convenience and accommodation of representatives of the press in the Exposition building. The force will be equipped with telephone and telegraphic wires and postoffice and messenger service for the use of correspondents. Invitations have been extended to President Arthur and his cabinet, Mr. Cleveland and Mr. Blaine, and also to President-elect Diaz of Mexico and Emperor Dom Pedro of Brazil. The Mexican Congress will adjourn to attend the opening exercises.

Governor Crosby's Annual Report.

WASHINGTON, 13.—Gov. Crosby of Montana, in his annual report, estimates the increase of population in the Territory during the year at about 4,000. He says the cattle now in the Territory number over 900,000, and the value of the taxable property, which, he says, does not represent one quarter of the wealth of the Territory, is between 250,000,000 and 300,000,000. In other directions Montana is steadily increasing the value of her material resources, and she will, at an early day apply for admission into the Union as a State. The announcement of the discovery of gold in the Little Rockies, in the heart of the great northern Indian reservation, 100 miles southeast of Fort Assinaboine, has drawn hundreds of miners to that locality, and the Governor gives it as his opinion that it would be unwise to attempt to prevent this intrusion of the whites. A large portion of the report is devoted to the Indian question.

The Governor favors a reduction of the size of Indian reservations. He thinks that a few thousand Indians should not be allowed to occupy an area equal to that of a large State, when they do not use it, and when their occupation prevents its settlement by white men. He advises the concentration of Indians upon smaller reservations, and recommends that they be taught to be self-supporting. The Governor also objects to the present policy which permits the Indians to lease their lands for grazing purposes, on the ground that it opens the way for large corporations and speculators to get a footing on these reservations, to the disadvantage of *bona fide* settlers who would be glad to purchase small farms if the reservations were opened to settlement. Of the present condition of the Northern Indians in Montana the Governor says that, although rations have been supplied them, they are now in a deplorable condition, and he fears that many of them will die during the coming winter.

He calls attention to the continued slaughter of game in Yellowstone Park. He describes the late superintendent of the Park and his assistants as entirely worthless, and about as competent to discharge their duties properly as is a Sioux Indian to run a locomotive. He recommends the appointment of experienced woodsmen to take care of the Park and suggests that U. S. cavalry be detailed to guard its borders, which are now the resort of escaped criminals. Much space is devoted by the government to the cattle question. He says: "Canadian officials and the dominion press, aided by certain Chicago stock-yard men, who fear a diversion of their business, have maligned and outrageously attacked the health of Wyoming and Montana cattle, and all movements on the part of our stock men towards obtaining a foreign market are bitterly opposed."

In conclusion, he recommends that no polygamous Mormon be allowed to pre-empt lands. He thinks this prohibition would be a step in the complicated problem of extinguishing the overshadowing evil of Mormonism.

Stockmen's Convention.

CHICAGO, 13.—The second annual convention of American stockmen assembled at the Sherman House at 11 o'clock this morning. Nearly five hundred delegates were present. De Witt Smith of Illinois was elected temporary chairman. The roll call showed delegates present from twenty-two States and Territories. Committees on permanent organization and order of business were appointed of one member from each State and Territory. Several gentlemen from Omaha were invited to take part, and the convention at noon adjourned till 2:30 this afternoon. This evening Geo. B. Loring, of Massachusetts, United States Commissioner of Agriculture, will read a paper on cattle. Among the papers presented to the convention are the following: "Sanitary Service," by J. D. Hopkins of Wyoming; "Danger from Chronic Cases of Pleuro-pneumonia," by Dr. Gadsden of Philadelphia; also one by Dr. Salmon, and others.

In the afternoon, permanent organization was effected as follows: President, DeWitt Smith, of Illinois; secretary, Thos. Sturgis, of Wyoming; assistant secretary, George E. Morrow, of Illinois. Each State and Territory represented was allowed one vice-president. Committees, composed of one member from each of these 22 States and Territories, were appointed to organize a national association and prepare resolutions.

J. B. Grinnell, of Iowa, made a lengthy report on the legislation secured by the action of last year's convention.

Papers from Messrs. Gasden and Hopkins were then read, and adjournment taken till evening, when Commissioner Loring delivered an address embodying his views on the cattle industry.

The Record Lowered.

NEW YORK, 13. — This afternoon Maxey Cobb and Neta Medium, owned by Isidore Cohnfeld of the city, were sent at the Driving Park to beat Edward and Dick Swiveller's record of 2:16¾. Murphy drove the pair and was four pounds overweight. The running horse J. O. May accompanied the team in harness. The Mile was trotted without a break—quarter in 33, half in 1:05¾; three-quarters in 1:48¾ and mile in 2:15¾; half a second better than the time of Worth's team.

Ohio Shaken Up.

Cleveland, 13. — The rumble and shock believed to have been caused by an explosion at Toledo was plainly heard and felt this morning at Leavittsburg, distant from Toledo about 250 miles on an air line. Here, 112 miles east from Toledo, persons who observed the motion thought it was an earthquake. At Chagrin Falls, 24 miles southeast of here, it was supposed to be a cannon being fired in the city over the election returns, and telephone inquiries were made to ascertain what the artillery salute signified.

The Situation in New York.

NEW YORK, 13.—The vote on the Presidential ticket canvassed by the board of canvassers is as follows: First assembly district (fourth election district missing)—Blaine 2,231, Cleveland 4,265, Butler 92, St. John 15.

Second assembly district — Blaine 2,130, Cleveland 5,239, Butler 94, St. John 82.

Third assembly district—Blaine 2,624, Cleveland 5,111, Butler 180, St. John [illegible].

Fourth assembly district — Blaine 2,391, Cleveland 6,822, Butler 158, St. John 10.

Fifth assembly district—Blaine 2,605, Cleveland 4,508, Butler 123, St. John 17.

Sixth assembly district—Blaine 2,650, Cleveland 5,612, Butler 136, St. John 5.

Seventh assembly district (two Election districts missing)—Blaine 4,653, Cleveland 4,343, Butler 88, St. John 74.

Eighth assembly district—Blaine 4,722, Cleveland 4,140, Butler 60, St. John 10.

New York, 13.—The official canvass of the vote received at the headquarters of the Democratic State Committee to-day from various points in the State is as follows: Delaware county, Blaine's plurality, 975; Columbia county, Blaine's plurality, 510; Rockland county, Cleveland's plurality, 1,104; Schoharie county, Cleveland's plurality, 1867; Kings county, Cleveland's plurality, 15,734; Broome county, Blaine's plurality, 1,402; Schuyler county, Blaine's plurality, 537; Franklin county, Blaine's plurality, 1,060; Oneida county, Cleveland's plurality, 30.

NEW YORK, 13.—The Independent Republican committee of 100 met tonight in Brooklyn at the Academy of Music. President Maxwell said the question to be decided was whether the organization should be made permanent. He was in favor of this for the purpose of holding the balance of power between parties. Beecher said he was also in favor of making the organization permanent. In local matters he was a republican; in national matters a democrat. He believed Cleveland had been elected by the independents, and every man who helped to put him in the Presidential chair was bound to support him until he had done something to forfeit their support. They should keep the organization intact, ready to be summoned at the sound of the trumpet. A committee was appointed to devise a plan for permanent organization.

New York, 13.—The *Star* (regarded as the Tammany organ) says: The Tammany Hall committee of seven, appointed on the part of the Tammany organization to watch the canvass of the electoral ticket, held a long conference this evening with the chairman of the democratic National and State committees to positively deny the existence of any deal between Tammany Hall and the republican aldermen affecting the Presidential count. Ex-Senator Forster, chairman of the delegation, satisfied the representatives of both committees that the Tammany supervisors would permit no action in the board which would lose the democratic electoral ticket a single vote. He further volunteered his services to the committees to act jointly with the republican State representatives and to carry out faithfully any instructions which they deemed would be beneficial to the National ticket.

The *Herald*, in its summary of the vote of New York State by counties, as far as ascertained by the official count, gives Cleveland a plurality of 1,254 votes. In the counties of Kings and Schoharie, where the canvass was adjourned owing to some technicality, and where the pluralities may be changed, unofficial figures are given. The votes for Butler and St. John are as follows: St. John, 22,002; Butler, 12,539. In the counties already canvassed there is no material change in majorities since yesterday. Blaine has gained one vote in Columbia and two in St. Lawrence county, and lost two in Schuyler, making his net gain one vote. Cleveland has gained six votes in Kings and lost ten in Oneida, making his net loss four votes. This reduces Cleveland's plurality five votes, making it now 1,254. Only three counties have not yet furnished the official result — Franklin, Greene and New York.

Allentown, Pa., 13.—Some time since John J. Shadt of this city sent a beautifully-finished horseshoe, bearing the words "Luck to Gov. Cleveland." The following acknowledgment was received to-day: "Since the receipt of your present, the contest has been decided in favor of the party which I represent. I shall give due credit to the horseshoe for what has already happened, and shall carefully preserve it, in the hope that it may bring success to my efforts to give to the people good government."

New York, 13.—The *World* has the effrontery to say editorially: The republicans will have the next State Legislature by a majority probably of 24 on joint ballot. Would it not be an honor to the State and to the credit of the people if party considerations could be laid aside and the Legislature be induced to tender the United States Senatorship unanimously to Roscoe Conkling?

The *Graphic* this afternoon, in an editorial very complimentary to Conkling, says: Now if Mr. Conkling should be the democratic candidate for United States senator, has he friends enough among the republicans of the legislature to secure his election?

MICHIGAN.

DETROIT, 13.—The congressional delegation of this State stands 7 fusionists to 4 republicans.

Sixty-three counties in Michigan report a net Blaine plurality of 4,007. This includes this county, which is strongly democratic. The remaining seventeen counties will change this slightly.

THE CATALOGUE OF CRIME AND DISASTER.

The Standring Murder.

DENVER, 13.—Additional particulars of the Standring murder, near Pine Grove, were received here this evening, from which it appears that Mr. and Mrs. Standring were shot, evidently when on the point of retiring last Sunday night. The bodies were not discovered until yesterday morning, when a neighbor called, and on entering found Mrs. Standring in bed undressed, with a bullet hole in her left breast. The husband was found in a kneeling position at the side of the bed, with three bullet holes in the back. An old neighbor and bitter enemy of Standring's is suspected to be the murderer. Officers are in pursuit.

Fatal Collision at Sea.

BOSTON, 13.—A dispatch received at the Merchants' Exchange to-day, dated Pernambuco, Nov. 12th, reports the loss of the ship *Andrew Johnson*, Captain Kelleran, of Thomaston, Maine, while on a voyage from Odleto Buena to Hamburg. She collided with the British ship *Thirlmere*, Captain Smith, from San Francisco for Queenstown, and sunk with 17 of her crew. The *Thirlmere* has arrived at Pernambuco with the survivors of the *Johnson's* crew.

Suicide.

TRENTON, N. J., 13.—Rev. Henry Williamson, rector of St. Paul's church in this city, committed suicide this morning by shooting himself through the head, near the outskirts of this city. He used a new revolver and fired through the temple, dashing his brains all about. He was found by two boys. No motive is known for the act. The deceased was a son of ex-chancellor Williamson, of Elizabeth.

Mysterious Shooting.

NEW YORK, 13.—James Ryan, an actor in John Thompson's Eighth street theatre, went into a liquor store adjoining the theatre last night, accompanied by Lillie Ellis of Brooklyn. Shortly afterwards a pistol shot was heard and Lillie was found on the floor bleeding from a bullet wound in the head. The bartender says Ryan and the woman were in a back room when the shot was fired. Ryan says the woman threatened to shoot herself if he did not accompany her home. He affirms that he was not in the room when the shooting occurred. The woman was taken to the hospital and died this morning. Ryan was before a police magistrate to-day and will have an examination Saturday.

The young woman was later identified as Lizzie Krueger by her sister. The deceased disappeared from her home, 181 Jay street, Brooklyn, on Tuesday, and was not seen again alive by her friends.

Incendiarism and Suicide.

MCPHERSON, Ks., 13.—August Tuxhorn, a farmer of this county, set fire to his house, barn and granary, and then blew out his brains with a shotgun. The buildings were destroyed with $4,000 in money in the house. Total loss 11,000. Evidence showed he intended to murder his wife and four children, but his design was frustrated by his wife. No cause assigned, except that he was a man of violent temper.

FOREIGN.

LATER FROM THE SOUDAN.

THE CHOLERA.

THE NILE EXPEDITION—THE BLUE BOOK, ETC.

SPANISH AMERICAN COMMERCIAL TREATY.

Conflicting Reports From the Nile.

PARIS, 13. — Prime Minister Ferry communicated dispatches to the Cabinet this morning from which it would appear that while passing from Khartoum to Berber Gen. Gordon was shot dead.

London, 13.—The government believe Ferry's dispatches alleging the killing of General Gordon are a revival of the old rumors current some days ago.

Dongola, 13.—A Kabbabish merchant who has arrived here in seventeen days from the camp of the Mahdi on the White Nile, says Mahdi has lost his mahdiness of war and that a severe fever has caused serious mortality among the rebels. The rebels captured a messenger sent by General Gordon to Dongola. General Gordon pursued the rebels to Abupazazi, capturing a quantity of stores.

Cairo, 13.—A later dispatch from the Mudir states that one of the Mahdi's chief lieutenants is marching against Dongola with 12,000 men, and another with 9,000 men is advancing against the Kabbabish tribes.

London, 12.—In the Commons this evening the secretary of State for war read a dispatch from Gen. Gordon dated August 30th, as follows:

Khartoum — Provisions for five months. Shall send Stewart with the French and English consuls to the relief of Dongola after destroying Berber.

Cholera in France.

PARIS, 13.—Fifty-eight deaths from cholera are reported since midnight, 20 in the city, the remainder in the hospitals. Two deaths are reported at Cran.

England's Military Expenditures.

LONDON, 13.—In the Commons today, Hartington, Secretary of State for War, moved an appropriation of £1,000,000 for the war in the Soudan. He explained that the object of the expedition was to accomplish the relief of Gen. Gordon, and add Lord Wolseley was not prevented by the terms of his instructions from establishing a settled government over Khartoum and the surrounding districts.

BRIEF TELEGRAMS.

The Vienna newspaper report that Minister Astor has resigned is emphatically denied at the State department.

Isaac Henderson, associated with Wm. Cullen Bryant in the ownership of the *Evening Post*, died yesterday in New York, aged 71.

At Columbus, Ga., Jeff. Diggers and two of his family were poisoned and killed yesterday. A negro has been arrested on suspicion.

Ferdinand J. Allen, vice-president of the Young Ireland Society, charged with treason and felony, has been committed for trial at Dublin.

The steamer Etna, which left Hamburg Oct. 28, for New York, has put in at Queenstown with her main shaft and machinery damaged.

The conservatives of both houses of the English Parliament will hold a meeting on Tuesday next to consider the franchise bill and its relation to the redistribution bill.

The schooner *La Victoire* capsized near Pilgrims Tuesday. None of the seven persons aboard when she left Quebec have reached their destination, and they are supposed to have been lost.

Cleveland, 13.—Duncan C. Ross has issued a challenge to any man in the world, to wrestle or compete against him in general athletics for the sum of $5,000 or $10,000. He has deposited $250 forfeit in the hands of the Mayor of Cleveland.

A shock of earthquake was felt in Colchester and Kingsvilles, Essex Co., Ontario, yesterday about 10 o'clock; in the former place it was quite severe and alarmed the people in the village. In Kingsville, glass in a few windows was broken.

Buenos Ayres, via Galveston, 13.—Another case of cholera has appeared here, causing great alarm. The strictest quarantine will be observed on all vessels coming from France. Three Italian steamers are expected soon, but they will not be allowed to enter port. The press censures the agent of the Italian line, and all others who have managed to evade the sanitary measures.

Chicago, 13.—The meeting of the American Racing Association to-day was devoted to a general clean of rules. An order was made that hereafter no bookmaker will be allowed to start or enter a horse. The scale of weights was changed only as to two-year-olds in the fall months, ten pounds being added. A new rule was enacted prohibiting the entry of a horse with a changed name, and in auction pools the selling of single horses against the field was tabooed.

The Beetle and the Flea.

If a one hundred and fifty pound man had strength in proportion to that of the beetle, he could lift nearly 200,000 pounds. If he were agile in proportion to the agility of the flea, he could leap over a three story house. Some poor fellows are so feeble that they can neither lift nor leap. Their blood is poor, their digestion bad, and their energy gone. Give such men Brown's Iron Bitters, which will enrich their blood and tone them up gloriously.

NOTICE

NOTWITHSTANDING GEORGE THURGOOD'S breach of promise to us and the invitation he extends to his old customers, in having bought out his good will in the Globe Market, desire to return our thanks to them for their liberal patronage in the past, and hope that in the disposal of none but CHOICEST MEATS to retain their patronage in the future.

Special Notice to Tax Payers.

ALL PERSONS OWING TERRITORIAL, School and County Taxes, are hereby notified that all of said taxes remaining unpaid on the 31st day of October become delinquent, and it will be the duty of the Collector to proceed immediately thereafter to collect the same as by law required. Extract from Section 19, Chapter VIII, Laws of Utah, 1878:

"If any person neglect or refuse to pay his taxes on or before the 31st day of October in the year the taxes are assessed, it shall be the duty of the Collector to levy up on enough personal taxable property of the tax-payer to pay the taxes and costs, and proceed to sell the same," etc.

N. V. JONES,

Collector for Salt Lake County.

Office, No. 5, County Court House.

Salt Lake City, October 20th, 1884. dtf
