MINING, BUSINESS AND STOCKS

FINE OUTLOOK IN THUNDER DISTRICT

Capt. Treweek Has Changed Condition for the Sunnyside Mining Company.

CONDITIONS BRIGHT THERE.

All the Mines in the Northern Camp Are Being Worked With Gratifying Success.

Samuel Woolf, the storekeeper of the Sunnyside company of Thunder Mountain, came down to Salt Lake for Thanksgiving and this morning was circulating around among his many old friends. Mr. Woolf brings with him a lot of information concerning the northern camp, in which many Salt Lakers are interested. He said that when President Lovejoy of the Sunnyside company, put Capt. Treweek in charge of the mine he made a ten strike. The mine was doing little before Mr. Treweek took hold, but under his able management the mine is quickly developing into a bonanza. He has developed the ore channels and has demonstrated beyond a doubt that there is plenty of ore in the company's ground. At the present time there is a large body of ore blocked out and all will be ready when the new cyanide plant is erected in the spring.

There is a large stamp mill on the property now, but the ore has proved to be cyaniding and not free milling, as only 60 per cent could be saved by the plates. The new plant will have a capacity of 200 tons, and Mr. Woolf says that the ore to keep it in commission will be forthcoming.

Speaking of the camp in general Mr. Woolf said that the great success of Mr. Treweek with the Sunnyside had put new life into the camp, and that many mines were being worked. Of these he mentioned the Mysterious Slide and the East Dewey. These are being systematically developed and were showing up good ore bodies. The old Dewey mine is still being worked, and the mill is pounding out a profit for the owners of $10,000 per month. Altogether things are looking bright for the Idaho camp, which will be heard from from now on. Capt. Treweek, who has wrought the change in the camp, is a brother of Col. Treweek of the Wabash at Park City.

A MIGHTY MINE.

Utah Copper of Bingham Has 75,000,000 Tons of Ore In Sight.

Since the Guggenheims gained control of the Utah Copper company, the powers that be have given out some inside information which bears out all and more that has ever been rumored concerning the riches of the property. It turns out that this Bingham bonanza is one of the biggest things in the copper line in the world.

There is blocked out in the mine at the present time over 20,000,000 tons of pay ore, and in tested ground enough more to bring the tonnage up to 75,000,000 tons. From now on development will cease as there is enough ore to keep both the old and new reduction plants running for years.

The present plant has shown earnings as high as $1.50 per ton even under disadvantageous conditions, so that it is not unreasonable to suppose that the new plant and improved mining conditions will result in much greater earnings per ton.

As the new plant is of 6,000 tons capacity per day, and the old plant of 1,000 tons capacity, the two together should handle approximately 200,000 tons per month, so that the earnings when the new equipment is in full operation can be easily computed at from $3,000,000 to $4,000,000 per year. It is said that the first unit of the new plant will be able to handle about 1,000,000 tons of ore per annum. The recovery from this should be between 25 and 30 pounds of copper per ton. The old plant will handle 250,000 tons per annum, giving approximately the same recovery. The combined output calculated on the most conservative basis is therefore 25,000,000 pounds of copper per annum.

When both units of the new plant were in operation the company will be turning out 60,000,000 pounds of copper per annum at a cost of between 6 and 7 cents per pound. This figure is known to be conservative through experience gained from the operation of the mine and the present mill for the past two years and is doubly so by reason of the fact that nothing has been allowed for the value of the gold and silver contents in the above cost per pound, although the gold and silver recovered is sufficient to pay transportation charges on crude ore.

RICH CALIENTE ORE.

Quartz Runs $460 to the Ton in the Three Pines Mine.

Word comes up from Caliente that Hewetson and Landers of the Three Pines group of claims near that place have uncovered a two-foot vein of gold ore which runs $463.20 to the ton. The quartz is filled with hematite of iron to which is attached nuggets of the yellow metal. The two are on the way to New York with several sacks of samples to exhibit to their New York backers. A 10-stamp mill will be installed at the mine during the winter.

A. J. DAVIS IN LUCK.

Has Interest in a California Mine Which Looks Good.

Councilman A. J. Davis, who several months ago secured an interest in McKenzie's Cactus flat property out of Keeler, California, has returned from a trip of inspection to the mine. He says that the shaft is now down 175 feet on the ledge which is going down strong. Of the four foot ledge matter there is 18 inches which runs $80 per ton gold, while upon the foot wall there are several inches of black matter which assays $565.35 per ton. Mr. Davis is very pleased with the outlook.

SILVER JUMPING UP.

Has Made a Remarkable Rise in Past Two Months.

San Francisco, Dec. 1.—Silver is jumping up in price. It is now 65¾ cents per ounce. This is the highest price since 1896. Two months ago the market quotation was fifty cents. Demand is greater than supply, say brokers, in accounting for the higher prices.

But they also say in addition to a legitimate business demand there is also a speculative demand which must be taken into consideration.

ORE SHIPMENTS.

The ore shipments reported by the samplers today amounted in all to 28 carloads, as follows: At the Pioneer, two cars from Tintic, two from Alta, and one from Bingham. At the Taylor and Brunton six from Nevada, six from Bingham, seven from Tintic, three from Idaho and one from Wyoming.

A NEW IDAHO MINING CAMP.

H. S. Woolley of Mines Development Company Secures a Group of Fine Claims.

IS A COUNTRY OF BIG LEDGES.

Many Eastern Companies Are in the Field and Much Development Work is Under Way.

Manager H. S. Woolley of the Mines Development association of Utah has returned from a trip to Idaho, where he went to look over properties in the Saw River mountains for his company. He returns very much impressed with the district, which, he says, is one of great promise and which has been overlooked by mining men. So much impressed was he that he secured a group of claims in the Alta district near the eastern end of the range. Mr. Woolley says that the country is full of great mineral bearing fissures which show rich ore at the very grass roots. Many of these veins are from 20 to 100 feet in width and though almost all of this ore is in an undeveloped state, yet what work has been done upon them shows up fine quantities of copper, gold, silver-lead ore.

The property Mr. Woolley secured for his company is known as the Copper Belt mine and it has a vein eight feet in width, which carries high values in copper and silver. Samples of the ore brought down by him certainly look fine, and it only takes a glance of anyone acquainted with ore to know it runs high in the red metal. Just what they contain cannot be said until returns are in from the assayer. He says that he will put a force of men at work on the property at once and feels sure that he will develop a mine. Speaking of the Alta district, he says that only recently has it attracted the attention of the mining world. At the present time there are many eastern companies coming in and the country is becoming very active.

The new district lies 40 miles from Mackay on the line of the Oregon Short Line.

DULLNESS ON 'CHANGE.

Business Fell Off, Stocks Still Remain Strong.

The call on the mining exchange this morning was somewhat spiritless when compared with those of the first of the week. The volume of business only amounted to 18,206 shares, which brought $4,473.70. Stocks on the whole however were strong, and the sales made were upon a raising market. Carisa sold up to 20 cents, Lower Mammoth to 39 and May Day to 12¼ per share on the regular call. On the open board Columbus Con. sold up to $2.70, while Daly-Judge made a month's record at $8.05. Lower Mammoth passed out 2,300 shares at figures around 40 cents and Silver Shield was dealt in at about 25. Thompson closed the dealing by passing out 200 shares at 10 cents.

Of the higher priced stocks Little Bell was wanted at $2.35, and Daly-West was held at $20.50. Boston Con. is still strong with $21 bid and $22 asked, while U. S. Mining was bid $39.62½.

The regular call closed as follows:

GOLD 16 Years Old

SIXTEEN YEARS AGO TWO MEN AT BLACKFOOT, IDAHO, GAVE STUDEBAKER BROS. THEIR NOTE FOR $149 00. IT BECAME DUE SEPT. 6, 1889. WHEN THE TIME CAME TO PAY, THE MEN HAD SKIPPED; PEOPLE SAID TO SOUTH AMERICA. THE NOTE WAS PLACED WITH US FOR COLLECTION; WE FOUND THEM; THEY WOULDN'T PAY. WE SUED THEM LAST SPRING. WE HAVE ALREADY COLLECTED $367.00 ON THIS NOTE, AND THERE'S MORE TO COME.

OUR LAW DEPARTMENT IS THE BEST. IF YOU TURN IN YOUR OLD NOTES, WE WILL TAKE CARE OF THEM, AND SOME DAY MAY COLLECT THEM. THE GOLD WILL BE GOOD WHEN IT COMES.

WE WANT AGENTS TO GATHER BAD DEBTS FOR US IN EVERY PRECINCT, VILLAGE AND TOWN EVERYWHERE. EVERYBODY HAS A CLAIM OR TWO, AND SOME HAVE HUNDREDS OF CLAIMS NEEDING COLLECTING. BOTH MEN AND WOMEN CAN MAKE MONEY GATHERING THESE FOR US.

ADDRESS, AGENTS' DEPARTMENT,

Merchant's Protective Ass'n

SCIENTIFIC COLLECTORS OF BAD DEBTS.
COMMERCIAL NAT'L BANK BLDG. SALT LAKE CITY, UTAH.
FRANCIS G. LUKE, GENERAL MANAGER,
"SOME PEOPLE DON'T LIKE US."

Among other things—on Thanksgiving—give thanks for

HUSLER'S FLOUR.

Utah's Best.

CONCENTRATES.

Manager Rood of the Ontario has gone to Park City.

Manager Chipman says that Uncle Sam is still looking good.

The Red Top people of Goldfield are sacking ore worth $5 per pound.

Supt. Waples of the Pioneer sampler spent Thanksgiving in the city.

The delinquent stock sale of the New York Bonanza will take place at noon tomorrow.

John R. Stanton, an authority on the red metal, predicts a still higher price for copper.

Manager Thomas Kearns of the Silver King mine has returned from a business trip to California.

Manager Spiro stated today that the ore body at the Little Bell is still improving.

An assessment of 10 cents per share has been levied on the stock of the West Quincy of Park City.

Conditions on the Copper Belt railroad at Bingham as regards motive power were reported to be unchanged.

A letter to Manager Delmas of the Gold Quartz company of Nevada, shows that the property is turning out fine.

Manager Jacobson of the Columbus Con., who came down from the camp yesterday, says that the snow is now 18 inches deep at Alta.

Reports come up from Miner's Basin, La Sal mountains, of a discovery of platinum in the ores of the Toronado-Indiana mine.

Manager Adkinson of the New England, Bingham, spent the holiday in the city. He reports things running smoothly at the mine.

ALARM IN MIQUELON.

Caused by Large Emigration of the Population.

St. Johns, N. F., Dec. 1.—There is alarm among the authorities of St. Pierre, Miquelon, at the extent to which emigration from the colony has grown, over 1,600 persons of a total population of 6,500 having left there within the past three months. No one will predict what the future of the colony is destined to be. The poorer classes are talking of petitioning the Paris government to permit the annexation of the island to Newfoundland, for it is pointed out that so long as Newfoundland maintains the bait act St. Pierre's industry cannot thrive.

STOCK MARKET WAS DEPRESSED.

Professionals Felt Around to Feast Temper of Stock Then Boomed So. Iron.

WERE NOT VERY SUCCESSFUL.

After Noon Selling Orders Became Larger, Making Big Inroad On Prices.

New York, Dec. 1.—Opening prices in the stock market showed some wide changes both ways. Anaconda advanced 4 points, American Tobacco preferred 1¾, Lead 1½, Railway Steel Spring 1½, U. S. Pipe 1¼, Smelting Amalgamated Copper and the Republic Steel stocks about a point and Brooklyn Transit, Locomotive and Northern Pacific large fractions. The notable declines were Northwestern 1½, Tennessee Coal and Reading a point and U. S. Steel preferred, Union Pacific and St. Paul large fractions. After preliminary efforts to test the general temper of speculation by bidding up this stock and lowering that, the professionals commenced operations in the Southern Iron group for a rise. Gradually other stocks in immediate favor were bid up and before the expiration of the first hour prices began to rise briskly. Standard railroad stocks, however, were unable to bet much, if any above Wednesday's close. Shortly before 11 o'clock the entire market became heavy and the western railroad stocks were driven below the opening level.

Efforts were made to control the general reactionary tendency, by marking up specialties. Lead was lifted 3½, the preferred and Smelting, General Electric 1½, Cotton Oil 1¼ and Pressed Steel Car, U. S. Rubber, Sugar and a number of minor industrials and railroads a point. The general list was unresponsive and worked lower. St. Paul declined 1⅝, Kansas City Southern preferred 1¼, Union Pacific 1½ and Canadian Pacific, Missouri Pacific U. S. Steel preferred and a few others a point or more. The firmness of the call money market and uneasiness over Russian affairs were the cause of depression.

Bonds were irregular at noon.

Selling orders were much larger in volume after 12 o'clock and large inroads were made on prices. Most of the well known stocks suffered severely, losses reaching 3 in Tennessee Coal, 2 in St. Paul and 1 or more in many others including the Pacifics, Reading, Ontario and Western, Erie, Delaware & Hudson, Pennsylvania, New York Central, L. & N., Atlanta Coast Line, Brooklyn Transit, Colorado Fuel, Anaconda Mining and International Pump. Central Railroad of New Jersey exceptionally moved up 2 points and St. Louis & San Francisco second preferred 1.

Ineffectual efforts were made to stimulate the market in the afternoon, but although the selling was checked scant progress was made toward recovery and the fractions that were picked up were not rapidly held. The selling of Lead caused only a partial relinquishment of its gains and when this pressure ceased it moved up steadily to 72½, a rise since Wednesday of 4¼. Havana Electric also shot up 3⅝ and the preferred 5. American Woolen lost 1¾.

LIVESTOCK.

PRODUCE.

CHICAGO.

Chicago, Dec. 1.—Moderate demand from commission houses held the wheat market steady notwithstanding the liberal shipments from Argentina. Trading was quiet, offerings being light. May opened unchanged to a shade lower at 88⅛@88¼, to 88¼, and later sold at 88⅜.

Minneapolis, Duluth and Chicago reported receipts of 770 cars against 735 a year ago.

Small receipts had a strengthening effect on the corn market, sentiment in the wheat pit being quite bullish. Commission houses were moderate buyers of the May option, but the total volume of trading was small. May opened unchanged to ⅛ higher at 44⅝ to 44½, and for a time held within the opening range.

Oats were steady in sympathy with the firmness of corn. Trading was quiet and confined chiefly to local traders. May opened unchanged to a trifle higher at 31⅞@32 to 32 and held around 32.

Realizing by longs caused slight weakness in provisions. May pork was off 5 cents at 13.87½; lard was down 5 cents at 7.35, and ribs were 2½@5 lower at 7.25.

Corn—No. 2, 46@46½; No. 3, 42⅝@43.

Oats—No. 2, 29@29¼; No. 3, 29½@29¾.

Cash: Wheat—No. 2 red, 87@88½; No. 3 red, 85@88; No. 2 hard, 84@86; No. 3 hard, 82@85; No. 1 northern, 87½@90; No. 2 northern, 85@88; No. 3 spring, 82@86.

NEW YORK.

New York, Dec. 1.—Sugar, raw, steady. Fair refining, 3; centrifugal, .96 test, 3 9-16; molasses sugar, 2¾.

Refined—Steady. Crushed, 5.40; powdered, 4.90; granulated, 4.70.

Coffee—Steady. No. 7 Rio, 8 1-16.

LIVERPOOL GRAIN.

Liverpool, Dec. 1.—Hops at London, (Pacific coast), steady, £3, 10s@£4, 10s.
