EXCHANGE MAY CHANGE QUARTERS

Parent Institution Now Looking for a New Home.

MAY GET IT NEXT DOOR.

Increase of Rent Forces the Issue—Horn Silver Sells on This Morning's Call.

The Salt Lake Stock and Mining Exchange is seriously considering the advisability of changing quarters, the place in view being the west section of the new building erected by the Walkers, a few doors west of its present location on Second South street. The governing board was scheduled for a meeting this afternoon for the purpose of discussing the matter, but what decision will be arrived at is not known, as there seems to be several points that need full and thorough consideration before definite action can be taken.

A change of location was not mooted until recently, the brokers being perfectly satisfied with their present surroundings. But it came to their ears several days ago that the landlord was about to increase the rent 150 per cent, making it $30 instead of $20 a month. This did not sound reasonable to the governors, and they at once set out to look elsewhere for a suitable place. It is said that they "spotted" the new building now nearly completed, and on inquiring the rent, had a big portion of it tendered them for $250 a month. Of course the exchange could not think of paying such a figure, but when it took into consideration the fact that the front half of the room could be subleased for at least $200, the offer was looked upon as being at least worthy of consideration.

In view of these circumstances, the remodeling of the old pit will be held in abeyance for the present, and in the interim negotiations will go on looking to the best bargain for the least money.

THE MORNING CALL.

Good Trading, Insisting Sales of Horn Silver at $1.30.

The morning call in the pit of the old exchange brought out sales of 25,000 shares, which had a value of $15,375, and a stated value of $1 a point in a sale of 1,000 shares at $1.35, while it was in good demand at $1.33½. With firm tone Iron Silver was approached and gave out 100 at $1.25, after which Dalton and Lark found takers at 9 and 9¾ cents, and Daisy was dealt in at 21 cents. Four Aces maintained a good position and did heavy business in yesterday's figures, while Green-Mariott sold at 56 cents and Golden around 18, these being followed by the surprise of the day—a sale of 200 shares of Horn Silver at $1.30 a share, with the stock in good demand at $1.40. Mammoth continued weak and made transfers at $1.34, and Grand Central was wanted at $6.25, in the face of offerings of the stock at a cent higher. Lower Mammoth was active but sold on a declining basis, being down to 69½ cents at the close. Yesterday Light showed improvement in the bidding and found ready buyers at from 57 to 59 cents. Sevenoaks maintained its 4½ cents, and Star Consolidated at $1.35, after which attention was given to stocks of a lower order.

Boston-On-To-Mar developed unusual activity and changed hands at 2¾ cents, 1,000 shares changing hands at that figure. Then Crown Point was a seller at 5 and 10 cents, and Bowers Extension followed, the stock opening morning by quoting firmness and making transfers at 11½ cents. Manhattan sold at 7 cents, May Day at 65 and 66, and Martha Washington at 15½, while Bowers Consolidated was handled at 25 cents a share and Richmond Anaconda at 7 cents.

The closing figures were as follows:

LISTED MINES.

Stocks.	Bid.	Asked.
Alice	[illegible]	[illegible]
Ajax	1.25½	1.30
Alliance	40	1.21

UTAH MINE OWNERS,
Wishing to interest capitalists in their properties, are invited to correspond with
E. S. GATCH & CO.,
27 State St. Boston, Mass.
MINING BROKERS.
In writing give following information:
1st—Name, location and number of claims.
2nd—Concise statement as to amount of development work done, and values that have been obtained.
3rd—Price and terms of sale.
4th—Name definite time in which your offer can be accepted.
We have special inquiry for a load producing mine, large body of low smelting ores percentage is lead.
E. S. GATCH & CO.,
27 State St. Boston, Mass.

MARKET REPORTS.

NEW YORK MARKETS.
STOCKS AND BONDS.

New York, Feb. 10.—The irregularity of the London market was reflected to a slight extent in the home trading. There were no distinctly weak features outside of sugar and Pacific Mail, but on the other hand there were also no decided signs of aggressive support. The complexion of the stock trading underwent a decided change for the better through marked strength in the coalers and Burlington.

Sugar also improved roughly. There was some increase in activity during the purchasing movement but at noon the market again settled into stagnation.

The bond market showed a good undertone with pronounced strength in the semi-speculative issues.

MONEY.

New York, Feb. 10.—Money on call nominally, 2½ per cent.

Prime mercantile paper, 3½@4½ per cent.

Sterling exchange firmly with actual business in bankers' bills at 4.86@4.86¼ for demand and 4.83@4¾ for 60 days. Posted rates, 4.84½ and 4.88½. Commercial bills, 4.82@4.82½.

Silver certificates, nominally, 59½@60.

Bar silver, 59⅞.

Mexican dollars, 47½.

Government bonds irregular; 5s, 1.07½, reg. 5s, 1.12½, coupons, 1.12½; 4s, reg. 1.11½, 4s coupon, 1.12½; 2s, reg. 1.11½, 2s coupon, 1.11½.

SUGAR.

New York, Feb. 10.—Sugar—Raw, steady; fair refining, 3 15-16; centrifugal 96 test, 4 5-16; molasses sugar, 3 9-16.

Refined, steady; crushed, 5¾; powdered, 5¼; granulated, 5.

CHICAGO MARKETS.
LIVE STOCK.

Chicago, Feb. 10.—Hogs—Receipts, 18,000; left over, 4,171.

Mostly to packers. Mixed and butchers, 4.10@4.25; good to choice heavy, 4.20@4.30; rough heavy, 3.95@4.15; light, $4.05@4.30; bulk, 4.10@4.20.

Cattle—Receipts, 2,500; steady; beeves, 4.00@6.30; cows and heifers, 1.80@5.00; stockers and feeders, 3.25@4.75.

Sheep—Receipts, 4,000. Steady; sheep, 3.90@4.60; yearlings, 4.60@5.00.

Chicago, Feb. 10.—Wheat opened at 72½, advanced to 73¼, declined to 72⅝@¾.

Corn—May, 32½@¾; July, 34⅝.

Oats—May, 27¼@⅜; July, 25⅝@¾.

Pork—Feb. 8.85; May, 10.00@10.05.

Lard—Feb. 5.40; May, 5.45.

Ribs—Feb. 4.50; May, 4.60.

Cash:

Wheat—No. 2, red, 72@72½; No. 3, red, 69@71; No. 2, hard, 67@69; No. 4, hard, 64@67; No. 1, northern spring, 70½@72; No. 2, northern spring, 69@71; No. 3, spring, 66@70.

Corn—No. 2, 32½@33; No. 2, 32¼@32½.

Oats—No. 2, 26½@26¾; No. 2, 26.

Barley—37 to 53.

Pork—9.42½@9.45.

Flax—1.18.

OMAHA LIVE STOCK.

Omaha, Feb. 10.—Cattle—Receipts, 1,500. Market active, stronger; native fat steers, $4.60 @ $5.40; western steers, $3.30 @ 4.80; Texas steers, $3.70 @ 4.65; cows and heifers, $1.25 @ 4.50; canners, $1.25 @ 2.50; stockers and feeders, $3.00 @ 4.80; calves, $4.00 @ 6.50; bulls and stags, $2.50 @ 4.00.

Hogs—Receipts, 4,700. Market active to higher; heavy, $3.70 @ $3.77½; mixed, $3.70 @ 3.77½; light, $3.65 @ $3.72½; pigs, $3.60 @ 3.65; bulk of sales, $3.70 @ 3.75.

Sheep—Receipts, 1,600. Market steady; native muttons, $3.75 @ $4.50; westerns, $3.60 @ $4.20; stock sheep, $3.75 @ $4.60; lambs, $4.50 @ $6.30.

KANSAS CITY LIVE STOCK.

Kansas City, Mo., Feb. 10.—Cattle—Receipts, 4,000. Market strong; native steers, $3.75 @ $5.85; Texas steers, $2.75 @ 4.75; Texas cows, $2.00 @ $4.00; native cows and heifers, $2.00 @ $4.25; stockers and feeders, $3.10 @ $4.70; bulls, $2.50 @ $4.00.

Hogs—Receipts, 5,000. Market active, strong; bulk of sales, $3.60 @ $3.80; heavy, $3.80 @ $3.85; packers and mixed, $3.65 @ $3.72½; lights, $3.65 @ $3.72½; pigs, $3.65 @ $3.75; skips, $2.25 @ $3.45.

Sheep—Receipts, 2,000. Market firm; lambs, $5.00@5.65; muttons, $3.90@4.30.

DENVER LIVE STOCK.

Denver, Colo., Feb. 10.—Cattle—Receipts, 200. Market steady to strong; beef steers, $3.75@5.00; cows, $2.00@4.00; feeders, fairly solid to firm, $3.60@4.00; stockers dull, $3.75@4.75; bulls and stags, steady, $2.00@3.00.

Hogs—Receipts, 700. Market active and higher; light, $3.75@3.80; mixed, $3.70@3.75; heavy, $3.60@3.70.

Sheep—Receipts, 200. Market steady; lamb fat, muttons, $3.00@4.25; lambs, $4.00@5.00.

SAN FRANCISCO MARKETS.
PRODUCE.

San Francisco, Feb. 10.—Wheat, steady; May, 1.12½; Dec., 1.12½; cash, 1.12½.

Barley—Steady; nov, 90½; cash, 1.21½.

GERMANY'S AIMS IN SAMOA

Trouble in Apia Precipitated in Hope of a Modification of Berlin Treaty.

Administration, However, in Reserve Mined to Adhere Strictly to the Terms of the Compact.

New York, Feb. 10.—A dispatch to the Herald from Washington says:

Dispatches have been received at the state department from Consul General Osborne and Chief Justice Chambers at Samoa, giving the principal points in the decision of Chief Justice Chambers in regard to the election of Mataafa Tanno as king, and the officials are satisfied that the decision was proper and will uphold the chief justice.

The administration is determined to adhere as it has thus far done to the treaty. It is believed here that Germany precipitated the recent trouble in the hope that the United States or Great Britain would be tired of the tripartite arrangement and would ask for a modification of the Berlin treaty. The administration is determined, however, that any suggestion for a modification must come from either Great Britain or Germany.

The German government has sent to the state department a copy of the report of Chief Justice Chambers relating to the arrest of a German subject for breaking a window in the supreme court room and the action of the chief justice in fining the German subject for the former president of the municipal council. The department is still waiting for Germany to disavow the action of Raffel and remove him and Consul Rose, and will make no further representations to the German government on the fresh advices received today, but will give Germany every opportunity to receive full redress. The present information is that Germany will withdraw the two men and it is expected that they will be recalled.

Australian Mail to be Changed.

San Francisco, Feb. 10.—Postmaster Mathews, with the sanction of the postoffice department, has perfected a plan which for a certain space will save four days time in the transmission of mail from this city to Australia and New Zealand. At present the mails are sent alternately from San Francisco and Vancouver. It takes four days for mail matter to reach Vancouver from here. The loss of time is to be obviated by arranging for the transfer of mails at Honolulu. Mail will hereafter be sent from here by an outgoing steamer that can catch the vessel from Vancouver at Honolulu, the latter port being one day less than from the northern city. The government may secure a dock for transfer purposes at Honolulu.

Laws of Alaska Codified.

Washington, Feb. 10.—When the bill to codify the laws of Alaska was passed by the House it contained the substance of the Illinois doctrine of localizing the high license provision for the regulation of the liquor traffic in the territory. The Senate committee on territories striped out the provisions of course as applied to liquor laws and substituted for it a section which embodies the prohibited liquor law now in force in the District of Columbia. When the bill gets into conference Representative Warner will make a fight to have the Illinois act retained in the bill.

Four Miners Break Loose in Boston Harbor.

Boston, Feb. 10.—Four miners placed in the harbor for its protection from hostile attack during the war with Spain were torn from their moorings by the storm and drifted about the harbor until the waves finally cast them upon the beach at Charlestown park in south Boston. Each of the mines was charged with 250 pounds of gun cotton and if exploded would have shown up any vessel unfortunate enough to come in contact. Luckily there was no such collision while they drifted forward.

Nearly 24 hours has gone by over the due Cunard steamship Parisia, now she has overtide from Liverpool. The vessel was supposed to have left the tail force of the series of hurricanes which have swept the probable course. Her owners are beginning to be felt concerning its safety.

TROOPS AND YELLOW FEVER.

Today's Report is Not Unfavorable—There is Great Consternation at Guanajay.

New York, Feb. 10.—A dispatch to the Tribune from Havana says:

The yellow fever cases at Guanajay came unannounced, though today's reports were not unfavorable. Until there came news yesterday of the death of the point New York, which is stationed there, was very good. Guanajay is not an unhealthy place, and the troops have allowed his soldiers to visit during the day time but strict orders were issued against their coming into camp at night. One case of yellow fever has developed in the eighth regiment of infantry, which is stationed in Havana along the entrance to the harbor.

The transport officers who have been passing the last few days at Tampa, have taken the hint at Gomez's diplomatic over their coming and now appear without regulars. Secretary Quesada, who has returned from a visit to Gomez, tells the reporter he was told that their commander will do anything in his power to the status of the assembly, but he expects the disbandment of the transport troops to Washington with his promise to President McKinley.

THREE DIVIDENDS PAID TODAY.

Silver King, Grand Central and Swansea Do As They Promised.

THE TUSCARORA CHIEF.

Copper in Wayne County—Smelter For Vernal—The Blue Bell Mine—Miscellaneous.

In line with its promise of three days ago, the Silver King Mining company came forward today with a distribution of $54,000, which gives it a grand total of $1,080,000 since it began to pay from all reports, is in better condition than ever, and with a new mill ready to treat the vast ore bodies promises to make a handsome showing during the current year. Announcing the King's payment was one of $11,250 from the Grand Central, giving that company a total of $911,250 and a subsidiary of $3,000 by the Swansea, which is credited with having paid the tiny total of $148,500. Both the Grand Central and Swansea are in a healthy condition, and unless unforeseen conditions arise, are looked to for the payment of dividends for years to come.

THE TUSCARORA CHIEF.

Owners of the Elva and Big Bear Incorporate, and Will Build a Mill.

Articles of incorporation of the Tuscarora Chief Mining company were filed with the county clerk today. The company has a capital stock of $200,000 in shares of $1 each, and sets aside 50,000 shares as treasury stock, from the sale of which the cash realized is to be used in the erection of a mill. Twenty thousand shares of the treasury stock already found a market, the same being sold at 20 cents a share. In E. D. Ellis, president of the Big Bear, Fulton of Boston, vice president, and C. C. Gillingwood, secretary and treasurer, Chief Justice Chambers and Judge Sheeks and E. F. Sullivan make up the directory.

The Tuscarora Chief owns the Elva and Big Bear mines, located in Tooele county, Nevada. These mines adjoin the Dexter on the west, the former being a good record of production. It was the Elva that made such a sensational shipment a few days ago, the ore sent to smelting by the Dexter being of a similar nature. The values were so startling that the ore was resampled with precisely the same results. The property is too always been worked for high-grade ore, in which it has produced handsomely, but it has plenty of opened milling ore—mineral like unto that found in the Dexter, and from which the company expects to make good profits. In a few days, another shipment similar to that just marketed, will be found at the smelter.

The building of a mill by this company will make room for Tuscarora during the coming year, as the Young America and Tuscarora Gold Mining companies each have a plant in contemplation, the latter being the nearest to the front as a producer of mineral wealth, and the sellers have manifested it all due to Uncle Sam.

SMELTER FOR VERNAL.

Uintah Company May Put One In—Big Copper Deposits Expected.

Vernal, Utah, Feb. 9.—With copper at $17.75 per hundred people round, indorsed by the management of the Uintah Copper Mining company are not stopping more ore, unless it be that they intend to put in a smelter in the near future. By running the mine at its full capacity 800 large freight cars will need to be kept constantly at work to haul the ore to the railroad. The manager is expected from Boston soon and it is strongly hinted that he is coming to lay down the law with a view of putting in a large smelter.

Interest in the gold discoveries across Cross Hollow creek in Ashley Fork continues and people are looking for a great boom there as soon as spring opens. Prospectors are coming in almost every day and a great many more are on the ground despite the deep snow and cold weather.

COPPER IN WAYNE.

Boston-Utah Developing a Prospective Bonanza in That County.

The Boston-Utah Mining company, which filed articles of incorporation yesterday to develop claims in Wayne county, is one of the many that expect to have a fortune out of the possessions. It owns ten claims on miner's mountain, all of which have been developed sufficiently to justify the belief that within a short time the company will have a good copper mine on its hands. The showing, based upon the property, is taken from the Los Wayne county Advocate:

L. H. Martin, a mining broker of Salt Lake City, was in Loa last night and his meeting made an early start for Miner's mountain, a distance of about thirty miles, where he is interested in several copper propositions. In a brief conversation with Mr. Martin that company we learn that about four thousand dollars' worth of work has been done on the Boston-Utah claim, which is the most important one only developed, as Mr. Mayne expresses it, there is a paying vein of copper 3 feet wide. Work is coming up the claim has been extra early in the months past, and it will be completed by the time the spring energy until completed. We were also informed that no ore would be shipped from the mine for the present, time for treating the point at the mines would be placed in the grounds at once. For copper ores in large quantities on Miner's mountain, but not until the experiment has been made which Mr. Mayne is at the head look head of the matter has anything been done on Miner's mountain.

THE BLUE BELL MINE.

Carbo County is Live With a Good Copper Prospect.

Special Correspondence.

Bitumen, Utah, Feb. 1.—Mr. W. H. Dow has just returned from his Blue Bell copper mine in the mountains south of Paradise, and says there have been 4 feet of ore taken out of the copper vein, and expect to go much further. The vein increased in width and will be some 3 feet wide at the point I have indicated. The mineral is nearly pure copper with a good deal of both silver and gold. Mr. Dow states that in the near future Carbo valley mountains will show that they contain wonderful deposits of valuable metals and pine. If Mr. Moses Shutt Lake has spare to see it will be worth another Carbo as well as for Idaho improvements.

Pine Tree a Jump.

Joplin, Mo., Feb. 8.—Mine row took a reduce firing today, and at the point, at Galena, Kansas, Wednesday, Pine Tree sold at $46 per ton, the highest price ever known, and $5.50 per ton lower product was sold at $21 per ton. The reason demand is said to be the industry, cause for the steady advance this year, which are so evident, have been than $20. The unprecedented cold weather has caused several mines to shut down, reducing the supply and thus increasing the demand.

Pushing into the Ore.

Manager Brimhall of the Tecumseh at Silver City, Tintic, informs the "News" that the miners are still pushing into the ore with very satisfactory results. He says the claim is more confident than expected and yields good values in silver and lead, with also a light sprinkling of copper. He says of the fact that the shaft is but 150 feet deep. Mr. Brimhall thinks they have been very fortunate in development, and says if present conditions continue, shipments will be made in short order. Already there is a half car of ore on the dump, and by next week, he believes, there will be sufficient ore to make a car shipment, the product being taken to the Dunlap mines, the former very promising indeed.

Work from California.

Comstock of the fact that Utah is for about of her money, western capitalists are a mining country. With it, Lowe interested from California this morning accompanied by Mr. Lowe and Mr. E. W. Wagner, who for the past the party has been connecting on the court visiting places of interest and having the pleasure that it has enjoyed that glorious climate at this season of the year. When seen this morning, Mr. Lowe said they had a very pleasant trip, especially in visiting southern California, where conditions were of that could be desired, and where the people are caring for prosper. Mr. Lowe said that Utah's mining boom is beginning to be felt in California, and that State is looked upon as never before as a center from which comes some of big fortunes. The gentleman will open up on a stock brokerage office in the new Walker building, directly opposite the Cullen hotel.

Patents Filed for Record.

Special Correspondence.

Provo, Utah, Feb. 10.—Patents have been filed for record for the Little Lena, Anaconda, and Mountain View mining claims, in the Richmond and Anaconda Consolidated Mining company, and for the Paramount, in Lake district, in the Grand Central Mining company. The patents are all situated in Tintic mining district.

H. E. Leslie as at have located the Great Silver mining claim, situated in Pine canyon, Tintic district.

Two New Tintic Producers.

Centre Dow came in from Tintic last evening, after having inspected the Lower Mammoth and Four Aces, in both of which he is somewhat interested. Mr. Dow was pleased with the showing in these mines, especially the exhibit of copper ore that the former is now making, and of which the company expects to make a shipment. Materials as soon as conditions will permit, it this week, says Mr. Dow, the thawing of powder a few days ago caused an explosion which displaced a few timbers and come nearly crushing the carpenter in charge. He was sent to the Knight-Horner hospital suffering a bruised back. At the Four Aces the series improvement is all complained on and the mine looks as though it was soon to rankled with the big ones of the Tintic district. On the Lower Mammoth Mr. Dow, the showing is especially fine and at present a good grade of ore is being hoisted for shipment.

New Shipper for Stockton.

Stockton, the home of some of the best shippers in the State, promises to pick up its prestige in the development of the Lion Consolidated, where a three-foot body of ore has been encountered, rather better than 30 per cent. The mine is looking very well indeed, says the management, and as soon as the weather moderates a little, it is the intention to make shipments. The property is one of the many old producers that will be found to have lived through the impending boom in mines and mining securities.

MINES AND MINING MEN.

Lead dropped 10c per hundred in price today.

Charles Dalton, the well known metallurgist, is again in the city.

The danger of the Pinebridge Bonanza are rushing ore showing a value of 37 per cent copper.

The regular monthly meeting of the Dalton-Beck company's directors, was looked for this afternoon.

The Grant Gold Mining company's adjourned meeting will be held in this city on Wednesday next, the 15th inst.

The conference between representatives of both sections yesterday at Lemon resulted for very little, the new definitions refusing to accede to the request of the old one.

At the Queen of Sheba election yesterday afternoon, Vice President George D. Hardy was elected president, H. Hodenger, otherwise the company's secretary, retains the same, and the property at Dunn Creek is in good hands.

The Valley View in Blaine county, Ida., is reported to be looking better right along. The manager writes that the mine is making good headway and the amount of ores there, and in his opinion conditions will soon be such as to warrant the making of shipments.

Bricklin at the Ramona Consolidated Refinery yesterday contained of copper, 1,000 pounds from the mines of Tacoma, Nev., and the Old Jordan and Galena at Stockton. These properties are neither subscribers to the refinery and are reported in shape to continue to send samples of ore as indefinitely period. The Denver also sent in several bars of bullion.

The Johnson Mining company has filed articles of incorporation. The directors are Thomas Ellerbeck, Frank C. McDaniel, F. T. Cook, Melville Peck, J. J. Pilkington, George E. Wright and Joseph N. Ferguson. The capital stock is $1,000, in 1,000 shares, $1 each. Thomas Ellerbeck is president, J. C. Ferguson secretary, J. J. Pilkington treasurer, and F. T. Cook general manager. The company's claims are located in Summit, Midnight, Hatter, Belle of the North and Grand Prize in the Tintic district.

LEWIS' 98 % LYE,
FOR SOAP AND PERFUMES (PATENTED)
The strongest and purest Chemical Lye. Unlike other Lyes it is fine granulated, and will not cake, fill the can, packing into lumps, rendering it difficult to use and the contents uncertain. Will make the best Perfumed Hand Soap in 3 minutes. Full directions on every can. Price 10 cents. It is the best household lye for all purposes, disinfecting sinks, closets, drains, pools, bottles, barrels, washing trees and killing insects on vines, plants, greenhouses and gardens, to remove old paint, etc.
PENNSYLVANIA SALT MFG. CO.
Philadelphia, Pa.

Horses Kick
In self-defense. It is their most important form of protest against the abuse of Split Hoofs that are not properly trimmed. Split hoofs are as much a disease as corns on human feet. Barnsdoffs other one stop cure for this abuse of the dumb beast is known to follow.

This is what happens. One pair cures each case in succession. Barnsdoffs Horse Shoe Pads are the easiest, best, most durable and cheapest Pad ever invented.
Shearing Process
Applied to the lower surface of the shoe, leaves a smooth, even surface, and the sound foot. Shoes or Dead and is
Absolutely Safe.
Dispense the nuisance over worthless Pads, the wasted time, the cost, the pain, the lameness, the lost time, the cost of the dead horse, and the sound foot. Shoes or Dead and is
Sound, long, robust plates, mailed on receipt of 50 cents.
Sold by all first class dealers.
PUTNAM NAIL COMPANY,
Neponset, Boston, Mass.

Putnam Nails
are exclusively Hot-Forged and Hammer-Polished, precisely like the old-fashioned hand made nail. The process makes all patterns of nails closely resembling the old hand made nail, and the cost of the old hand made nail.
For sale by Z. C. M. I., Clark Eldredge & Co., Salt Lake Hardware Co., and Geo. A. Lowe, Salt Lake City, Utah.

Saponifier.
Pennsylvania Saponifier is the original and only reliable concentrated lye. Unlike other lyes it is sold in powdered form. The strongest alkali made. The greatest economy purchase to include in household use. The success of this article has led to imitations, worthless compositions and adulterations. Pennsylvania Saponifier is the only lye that is Pure and Strong enough for Soap Making.
It is unlike no other.
