UTAH WEATHER SERVICE.

What the Director Says of the Snow and Prospective Water Supply.

A Late Spring and Very Little Farm Work Done.—Rising Rivers and Bad Roads.

George N. Salisbury, United States weather bureau director, makes the following report for the last week:

The great amount of snow that has fallen during the winter, being from 50 to 80 inches in the northern valleys and very much more on the mountain ranges, has assured an abundant water-supply for Northern Utah, for irrigation during the ensuing season. It is to be hoped that the mountain snows will not melt too rapidly, so as to cause disastrous floods in the valleys.

The season is late—everywhere reported as from two to three weeks later than last season, which was not itself an early one. No rain was reported from any point during the past week.

In the northern counties the snow had not gone at the end of the week, being in some sections quite deep, so that no plowing or putting in of crops could be undertaken, but the week was one of fine weather, and winter wheat, where visible, looks well.

In the central section, from Davis down to San Pete county, the snow had mostly gone, but very little spring work had begun. In the warmer parts of Utah county some planting has been done. In San Pete county snow yet covered the fall grain at the end of the week.

Throughout the southern section the week was favorable. Spring plowing is under way, and sowing of grain in some sections. The spring is backward, but the last week was warm and fine. Lucerne is coming up nicely and the range grass is doing well. Fall grain looks to be in good condition. There will be an abundance of water for irrigation.

NORTHERN SECTION.

Bear River City—Snow continued to lay on the ground longer this year than for years past, but since thawing set in it has dried up rapidly, there being but little frost in the ground. Wheat crop did not sprout but fall but does now.

Cache Junction—There was sunshine all the week, taking the snow off slowly.

Box Elder—Winter grain appears thin and is backward. This week's warm weather has dispatched the snow, and improved the appearance of the grain materially.

Grouse Creek—Most of the farm land is under snow. It will probably be two weeks before farming will commence here.

Corinne—The weather during the week was beneficial to growth of grass and grain.

Millville—The weather has been fine and clear all the week. There is still some snow on the ground. No planting of any kind has been done yet.

Newton—The snow is not all gone yet.

Benson—Delightful weather; snow nearly gone.

Logan—Snow nearly all gone, but spring work not started on the farm.

Randolph—Weather warm, taking off the snow. There is about 6 inches of snow on the ground at this writing.

Hooper—Very high wind during the night of the 30th ult. No damage. I can give no idea of crops yet, but the winter wheat that I have seen and heard of looks well.

Huntsville—Snow is yet 20 inches deep on the level.

Peterson—April 3d, snow going fast; water in river rising; roads most impassable to travel; this week has been very pleasant, sunshiny and calm.

Layton—No crops planted yet; ground wet; favorable weather.

Farmington—Snow disappeared on the level about March 20th. Plowing was begun on April 1st, perhaps two weeks later than the average of other seasons. Last season crops were far advanced by this date.

Chesterton—The ground is covered with snow and the spring will open late. Old settlers say this is an indication of good crops this summer, as it is thought when the season opens up it will be warm enough to start all the seeds sown. No fall or winter crops sown here.

Sandy—A warm week beneficial to all crops.

Lehi—Seed planting has commenced, with good prospects, the delay in commencing insuring a better start for all seeds.

Little Salt Creek—Weather fine and spring-like, melting most of the snow. Nothing can yet be said of fall grain.

Levan—Weather fine since March 24th. No spring work commenced yet.

Kanosh—The weather good for planting small grain, being clear and warm, with exception of 30th ult., and 2nd inst. Some farmers entertain the opinion that the dry windy weather will form a crust over the grain sown, thus preventing it growing.

Meadow—Weather fine and good for all planting and out door work. The crops that were planted last fall are looking well. All fruit looking promising.

Moroni—Weather fine. No crops are planted yet.

Wales—The snow has not gone off the land yet, so cannot report on crops. Nothing planted yet. Fall grain still covered with snow.

Spring City—The fields are getting bare, but it will be very late before crops can be put in, at least. Much snow in the mountains, so there will be plenty of water for irrigation.

SOUTHERN SECTION.

Moab—Weather beneficial for all crops. Apricots blossed on March 30th.

Richmond—Fine growing weather; small grain and new seeding of alfalfa doing well. No irrigation needed yet.

Beaver City—This week was a busy one among the farmers. About one-third of the wheat, barley and oats is in. Range grass doing well.

Monroe—No grain sowed here the past fall. Lucerne in good condition for spring work. Farmers putting in their crops. Lucerne is the only crop just starting—looks well.

Loa—Farmers began to plow a very little during the week.

Teasdale—Spring very backward; first plowing March 20th; plowing not yet general; no grain yet sown.

Koosharem—No crops put in here yet. Preparing to put in this week.

Kanarra—Commenced putting in barley and wheat on March 20th. Mountain tops pretty well covered with snow; good prospects for plenty of water.

Lorne—Farmers are busy putting in wheat and oats. Lucerne just coming out of the ground; also grass is starting to grow last; weather has been warm for the past four days.

NOTES.

Correspondents are requested to send in their notes at the end of each week, without delay, in order that this summary may be prepared at the earliest possible moment after the end of the week covered. More correspondents are solicited. As this bulletin goes to all the press of the Territory, and to all parts of the United States, its influence in making known the climate and crop conditions of Utah must be apparent.

NOTICE.

To Stake Superintendents of Sunday Schools.

The lectures of Dr. Karl G. Maeser on Sunday school work have been published in pamphlet form and are now ready for distribution. If the Stake superintendents or some representative from each Stake will call upon Brother Joseph H. Ferry, 27 and 29 west South Temple street (opposite south gate of Temple block) they can obtain the number allotted to them. They will in turn immediately deliver them to each school in their respective Stakes, so that the valuable information contained therein may be put to use.

Hood's Cures

Saved From the Grave

Scrofula in Face and Neck—Blind at Times

Hood's Sarsaparilla Restored Health—Gained 34 Pounds in Weight.

Mr. Wm. Erbik
West Duluth, Minn.

"I have been a very good sufferer from a severe case of scrofula. First, a large bunch came in my neck growing as big as a good sized apple. It was so hard to heal, and after healing it to a head the disease turned to, and for two years I was blind. The swelling would subside in the middle of the afternoon so that I could see a little. Well, I was in this condition for about a year. I went to every physician in my town, all of whom failed to help me and said nothing could be done to cure me. But I began to take Hood's Sarsaparilla, and when I had used a bottle and a half the swelling in my face had entirely gone down. I went on taking the medicine, and gained 34 pounds in weight.

I Have Been Perfectly Cured ever since in good health, and confidently say Hood's Sarsaparilla saved me from the grave. Today I am looking as stout and hearty as ever."

Hood's Sarsaparilla Cures

In my life, and I cheerfully recommend Hood's Sarsaparilla to anyone suffering from blood disease." WILLIAM ERBIK, West Duluth, Minn.

Hood's Pills do not purge, pain or gripe, but act gently, easily and efficiently. 25c.

AMERICAN FORK, March 29, 1893.
Mr. J. R. Walker, 18 Commercial St., Salt Lake City:

Dear Sir—I received the picture from you on 22nd, yesterday, and I had it framed with one of the best frames in town and it looks so good, if not better, than any large picture I have seen. The work is good, and when I want some more pictures taken I will know where to get them done good and cheap.

Thanks for the one you sent me by mail. Yours Truly,
William Thornton.

Trusts and Combinations

Are unpopular. But there is one form of trust against which no one has anything to say. That is the trust which the public reposes in Hood's Sarsaparilla, and the best of it is the trust is fully justified by the merit of the medicine. For, remember, HOOD'S Sarsaparilla CURES.

Hood's Pills are purely vegetable, and do not purge, pain or gripe. Sold by all druggists.

How to Save Doctor's Bills.

From Chicago Daily Calumet.

Many a doctor's fee has been saved by the use of Chamberlain's Cough Remedy. The name is a household word in many parts of the country. Chamberlain's medicines have an extensive sale in the World's Fair City and many people testify to the merits of their different remedies. For sale by Z. C. M. I. Drug Dept. d&s

We would advise our readers to visit the store of Alex. I. Wyatt, 202, between the Walker and Cliff houses. He has a very large stock of goods, fine watches, and everything in the jewelry line, at surprisingly low price. He does not sell anything but what he can recommend. A visit to Wyatt will save money.

Being=Beautiful

is the least of being—that's all right for us hardware folks; we only think of being good and of how many nails we can give for a dollar. But with the women it is important to be too sweet for anything, and the MAJESTIC RANGE or RELIABLE GASOLINE STOVE will sweeten the temper of any woman. They too have wound their way into the hearts of many a housekeeper solely on their own merits.

They may not be as beautiful as some, but who looks for beauty in a range? It is quality and price that are looked for, and the Majestic Ranges and Reliable Gasoline Stoves possess both, something never before found.

When not too busy drop in on us and we will tell you the little we know about steel ranges and gasoline stoves.
