Tooele, Sunday and Monday, October 27th and 28th—Elder Heber J. Grant.

THE SEWAGE QUESTION.

Discussed By the Committee on Sewers —Waterworks Committee.

The City Council committee on sewers was last evening wrestling with the question: "How shall we dispose of the sewage, now that the unobstructed gravity sewer is about to be opened?" Last week, in response to a call for bids to care for the sewage, but one was received, and it seemed to work the wrong way, consequently it was rejected. Now, the committee has decided to enter into negotiations with property owners in the vicinity of the mouth of the sewer, to have them utilize the contents as a fertilizer, and thus save the city an expense of $18,000, which City Engineer Young says it would require to filter the sewage, removing the solids and turning the remaining part into the waters of the Jordan.

This action would meet with the vehement protests of Salt Lake's millions as it means the pollution of the waters of the Great Salt Lake if the substance of the sewage is turned into the Jordan river. The committee has faith, however, that property owners at the mouth of the sewer can be prevailed upon to utilize the contents as a fertilizer, which they claim will be a boon to those owning lands that are now virtually unproductive.

WATERWORKS COMMITTEE.

The waterworks committee had under consideration several minor petitions which were referred to them at the last session of the Council. Among them was the petition of L. E. Hall, objecting to a $5 assessment on the sprinkling of his lawn, he claiming that prior to the laying of the water pipes, he had the free use of the water from an irrigating ditch fed by City Creek streams. Mr. Hall's protest was overruled, as right of ownership of the waterworks is vested in the city, and a tax for the use of said water was considered equitable and just.

Oscar Groshell's petition asking for an extension of the water mains in Tenth South and Fifth East was disapproved, as there was now not enough water to supply the needs of those who already had the waterworks.

Amelia D. Clark's petition asking for a refund of certain water scrip which had been overpaid by her former husband, Barney Harvey, was disallowed.

The committee also turned its attention to the proposition made by the Utah Central railway concerning to furnish material if the city would repair the crumbling embankment in Parley's canyon. The communication from the railway was addressed to the Council and Superintendent Dailey, and the committee decided to refer the matter to the parties addressed, that it might be placed on file with the recorder.

Serious Runaway.

Mrs. H. M. Dinwoodey and her 4-year-old niece were riding along Ninth street in a phaeton yesterday forenoon when the horse became frightened and ran away. The animal dashed south on B Street at a high rate of speed and continue on its mad way for three blocks where it collided with a telephone post and threw the occupants of the buggy out. The little girl had one leg broken and was otherwise very badly bruised, and although not fatally hurt her condition is very serious. Mrs. Dinwoodey was so badly injured about the body as to be unable to walk and it was found necessary to carry her to her home, where she is likely to be confined for several days. After throwing out the occupants of the buggy the horse kept going south until South Temple street was reached. Here he jumped the high embankment and was stopped, the buggy being a shapeless wreck.

In many cases, the first work of Ayer's Sarsaparilla is to expel the effects of the other medicines that have been tried in vain. It would be a saving of time and money if experimenters took Ayer's Sarsaparilla *at first* instead of at last.

ANOTHER RAMBLER DAY.

The Rambler boys made a great showing in the Ogden races. The first event of the day was the ten mile road race, in which McCumsey finished third, taking third prize and third time prize. Then came the track race, Joe Bird taking second in the novice, Fowler first, Weber second, and Thatcher third in the mile scratch, class B, all "Ramblers" you will note. In the half mile class A, Mayer took second, Oates third. Half mile class B, Thatcher second, Fowler third. Five mile, class B, Fowler second. In this race he came in a walker out one lap ahead and fell. Cornabear and Weber being immediately behind him, the result was a split for those parties and the race left to Evans. The five mile, class A, was another Rambler event, May taking first, Joe Bird second and McCumsey third. Fourteen prizes for one day is going enough for any one.

People may laugh and people may say,
And does they laugh? If they please,
But Rambler's are the boys to whom we tip our hats
Regardless of how others feel.

Moral—Buy a Rambler! Ride a winner and you'll be a winner.
