ADJACENT CITIES

PROVO.

PROVO, UTAH, - JAN. 4, 1894.

City Council.

The retiring and incoming city council met on Tuesday evening. The following resolution was presented by Wilcox and unanimously adopted to the retiring council:

Resolved, That the thanks of this council are due to President R. A. Harvey for the able and impartial manner in which he has presided over the meetings of this council, and

Resolved, also, That the recorder, George Haversnap is entitled to the highest praise for the efficiency and dispatch which have characterized the performance of his duties, as well as for the courtesy toward each member of this council and the public generally.

Speeches were made by the retiring mayor and councilmen, and the new officers were introduced and responded to the remarks made by the "Pouts" with the same good feeling that prevailed in the introductory speeches.

Josiah W. Cluff was elected president of the council.

Mayor Holbrook delivered his inaugural address, which contained many practical suggestions to the new council regarding the Provo waterworks system, protection from fire, the electric light system, sidewalk cleaning, running at large of stock, the city cemetery and other departments of public business that come under municipal control.

Mayor Holbrook nominated J. W. N. Walkenshaw as city attorney and Jonathan Buckley as policemen. The former nomination was confirmed, and consideration of the latter postponed.

First District Court.

Court resumed session after the holidays, yesterday.

Isaac Clark pleaded not guilty to assaulting his brother Gideon.

Katrina Young was granted a divorce from Charles H. Young on the ground of desertion.

The case of J. W. Beesley vs Sheriff John A. Brown came on for trial. It is a contest between creditors over the possession of a bicycle, which was attached as the property of T. M. Samuelson. After hearing the testimony and arguments of attorneys, Judge Smith decided for defendant. The bicycle will be sold by the sheriff on the execution of Skelton & Co.

Sales.

Dr. W. H. Pike and Miss Hannah T. Clark, both of this city, have been joined in wedlock.

Bert Leavitt and Harry Logan, two bad boys of the Third ward, were sent to jail for sixteen days by Justice Wedgwood for turkey stealing.

Charles Swenson and Clarissa Anderson, of Lake View, and George T. Robinson and Beulah Adams, of American Fork, are licensed to wed.

The new banking firm of Heaney & Martin commenced with the new year, to succeed the National Bank of Commerce.

A compromise has been effected between Rhodes Brothers and Provo City in the damage suit. Rhodes Brothers have agreed to keep in repair the wooden pipes of the waterworks system for two more years.

A fire at American Fork on Tuesday night damaged the goods in Jacobsen's dry goods store. The place was heavily insured. An examination of the premises after the fire uncovered incendiarism.

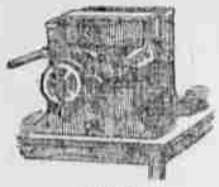
The retiring city council was banqueted by ex-Councilman Hansberg at the conclusion of the session.

NEW CHURN.

A Disk of Hard Wood Revolves Vertically in the Cream.

The English papers contain descriptions of what is called the New Era Dairy churn, a picture of which is shown. It is thus described:

"The churn consists of an oblong vessel with a circular bottom, in which a disk of hard wood revolves vertically in the cream. Over this disk is a loose, or 'splash guard,' so that when the disk is revolved the cream picked up by it is



NEW CHURN.

dashed into this cover and then returned to the churn at the other end of the vessel. The speed of the disk is modified by gearing, so that considerable concussion is given to the cream, and the butter is brought in an incredibly short time.

"Unchurned cream is characterized by a great amount of viscosity. Now, this viscosity is the feature which has been utilized in this churn, for by reason of it the disk, revolving perpendicularly, half in the cream and half out, gets coated with a layer of cream, which is thrown off by the tangent force of the revolving disk. Thrown violently into the hood which covers the disk, it receives its concussion there and immediately returns to the churn. When, however, that change takes place which the dairymaid knows as the 'breaking of the butter,' the viscosity of the cream disappears, and the disk immediately clears and shows the bare wood once more. When this is observed, the dairymaid ceases and then proceeds 'churning.'"

The churn is open so that the cream can be constantly watched.

Another Fire Boat.

PARIS, France, Exposition, a Swedish only, has commenced business as Rouen, the center of the silk dye industry, as an auxiliary engine. The boat cruised under a celebrated professor at Stockholm, and for several years held a responsible position as chemist in large dye works.

LOGAN.

LOGAN, UTAH, - JAN. 4, 1894.

Burglars Captured.

At some time during last Friday night an entrance was forced into Heber Carlisle's cellar on the island, and between thirty and forty bottles of fruit were stolen. In the morning Mr. Carlisle discovered the theft, and found the track left by a hand sled, upon which the thieves had evidently taken their plunder. He communicated with the city police officers, and together they started on a sled ride that finally ended on Monday in the arrest of James Kelly, Frank Gribble and C. L. Jenny. These three came to Logan last spring. Five of them lived in the Seventh ward, and the other in the Fifth. The first was found at the den in the Seventh ward, and at the one in the Fifth the officers found some seven gallons and a quantity of lard, that were stolen some time ago from a car that was broken into by thieves at the depot. These parties are now also suspected of having burglarized the Chain school building last winter, robbing it of $18 in cash and two gallons of liquor on Monday night, although the demijohns were not found. Kelly and the others waived examination and were bound over to the grand jury. Jenny plead not guilty and was held for a preliminary examination, at which he also was bound over.

Change of City Government.

On Saturday evening last the Republican city council held its last session and wound up all unfinished business. At the conclusion of its regular business speechmaking was indulged in for some time, the council being addressed by Mayor Quayle, President Thorstensen and others. Mr. W. H. Shearer of the Agricultural College board made a speech in which he thanked the council for the courtesy they had always shown the board and the encouragement that had been given to the college.

During this administration a system of waterworks has been built that is a great credit to the town and many other improvements.

On Tuesday evening the new council met and organized for business. This council is of quite a different political complexion—there being a Democratic mayor and eight councilmen, with only two Republican councilmen. Like the last council, they are all good, solid citizens, and will doubtless serve with equal zeal as Logan's interests.

Youthful Burglars.

The Co-op store at Preston was burglarized last Saturday evening and nearly $100 stolen. Several boys were suspected and watched, and nearly all the money was recovered. The thieves are all children of respectable parents, and there is much sympathy for the parents.

Surgical Operations.

Thomas Davis of Rexburg ward almost severed his right thumb from the hand while splitting kindling wood. It is thought though that the member can be saved.

On Tuesday Dr. Grassby operated on Robert R. Hastings, 19 years of age, for the removal of some disease. Each that has caused a tumbling now on his right side for more than a year.

The doctor also removed a tumor from under the right eye of John Bradley of Paradise that had been troubling him for a long time.

Notes and Personals.

Assistant General Superintendent Milton Hardy and George H. Brimhall of the territorial central board of Y. M. M. I. A. met with the board of Cache Stake last Thursday evening in business connected with the association. They returned home on Friday morning.

Parties and entertainments of all kinds for the benefit of young and old were the rule during the holiday week.

The First National bank of Logan made a profit during the year of 11 per cent, 41 per cent of which was added to the surplus fund.

Mrs. W. B. Preston and daughter spent the holidays in Logan.
