

BOISE EXTENDED A ROYAL WELCOME

Gave the Red-Capped "Denverites"
The Time of Their Lives While
They Tarried.

RIGHT IN THE SWIM THERE.

Took a Bath at the Natatorium, Saw
The Town and Then Left for
Pocatello.

Special Correspondence.

Boise, Ida., May 4.—"Come right in and make yourselves at home." That is what the Denverites did today. The bars were let down and the "keep off the grass" signs were covered up and the Red Caps from Denver were turned loose for a "time." And from all appearances they had it, for they kept going from the time they stepped out of their palace car until they stepped back into it again.

Their special train arrived in Boise at 9:30 this morning. The party was composed of about 80 representatives of the leading manufacturing establishments, professions and trades of Denver and Cook's famous drum corps of 48 persons. When the train pulled into the station, Mayor Hawley, members of the city council, members of the chamber of commerce and other leading citizens were standing upon the platform ready to extend to the Boosters the hand of welcome.

To make sure that they would see right—that no more would be found in their eyes when they looked Boise in the face—they were immediately transported to the Natatorium where they got the dust washed out. They certainly have it to say that they were "right in the swim in Boise, the first thing." All participated gleefully. It could be readily observed that some of them had been there before.

From the Natatorium the party was conducted to the Elks' hall, where acquaintance was made with the Boise business men, while the band rendered several pleasing selections. From here the party scattered about the town taking in the sights. The excursionists then marched to the depot and took train at 12:30 for Pocatello.

All were highly pleased with their short stay in this city and repeatedly expressed themselves as being greatly impressed with the wonderful possibilities and resources of the Gem state.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at Z. C. M. I. Drug Dept. Price 50c.

LEGISLATORS MAY ACT.

Another Plan to Raise Money for University Gymnasium.

A concert in the Tabernacle is the latest move of people interested in securing money for the University gymnasium. Representative Stonewall J. Stookey and several other members of the Legislature who wanted to vote money for the "gym," but were forced to consent to the low figure on account of the straitened condition of state finances, are considering the matter of organizing a committee and arranging for two events, for which a season ticket will be sold. One will probably be a lecture, and the other a concert in the Tabernacle. For this latter event Prof. Stephens of the Tabernacle choir has been conferred with, and it is understood that he has promised to give the matter his heartiest support.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At Z. C. M. I. Drug Dept.

TO TAP IRON DEPOSITS.

Colorado Fuel & Iron Company Getting Ready for Business.

It is learned that the Colorado Fuel & Iron company will at an early date extend the Maryvale branch to Cedar City and to the iron deposits, and complete the Salina cut-off to connect with the same from Green River direct. Two blast furnaces are to be erected on the Green river, where plenty of water can be had, and the ore shipped from the deposits for making into pig iron. The furnaces cannot be put up in iron country, as there is not enough water there, and it requires as much water to run a blast furnace as is required to supply a city of 70,000 inhabitants. The pig iron will then be shipped into California and to Pueblo for manufacture.

The price of a pretty face is \$1.00—three packages of Hollister's Rocky Mountain Tea. Brings red lips, bright eyes and lovely color. 35 cents, Tea or Tablets. Ask your druggist.

SALT LAKE'S CHANCE.

Has Splendid Opportunity to Get Trade of Bullfrog and Vicinity.

George Beckinger of the mining camp Rhyolite, is in the city on business, and says that Salt Lake has a big opportunity to secure the trade of Bullfrog and adjoining districts. He calls attention to the fact that the country from Las Vegas through to Tonopah is level and there is no reason why Salt Lake should not go into that country and get all there is in there. Mr. Beckinger advertises laying light rails through the section and running flanged wheel automobiles on them. Prices are high in Rhyolite, with hay at \$100 per ton, and lumber \$120 per thousand. The camp has now 1,200 people.

TEA

We return every cent we get for unsatisfactory tea.

Your grocer returns your money if you don't like Hollister's Tea.

Good Health to the Children

Children especially are fond of dainties and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

ROYAL BAKING POWDER CO., NEW YORK.

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

A 2-year-old daughter of Bishop George Honney crawled into a corral and was frightfully hooked by two cows.

At Bonito, New Mexico, Martin Nelson, bent on robbery, killed Dr. William H. Flynn of Boston, M. S. Mayberry, wife and two sons, a neighbor who came to the rescue, and afterwards slew Herman Beck, one of a posse that tried to arrest him. The murderer was finally shot dead.

Gen. Otter's Canadian troops were defeated in a long and bloody battle with Indians under command of Chief Poundmaker.

TEN YEARS AGO TODAY.

A fight between a lion and a bull was witnessed at Monterey, Mexico. The lion was killed at the end of an hour's combat.

At New York James Herbert killed his wife with a razor. After slashing his own throat, he jumped into East river and was drowned.

President Cleveland sent a check for \$500 to Albert Zerkles, a poor farmer of Decatur, Illinois, whose triplet daughters had been named Frances, Ruth and Esther.

FIVE YEARS AGO TODAY.

Many victims of the Schofield mine disaster were buried in various parts of the state.

While his vessel was burning at the pier in New York, Capt. Charles Leach had to choose between saving his wife or his 9-months-old daughter. He rescued the former, and the baby perished.

Severe tornadoes swept over portions of Kansas, Nebraska and Texas.

FOUND GUILTY OF EMBEZZLEMENT

Jury Brought in its Verdict in
Fisher Case at 9 o'clock
Last Night.

AN APPEAL MAY BE TAKEN.

Man Convicted Was Formerly Depot
Agent for the Wells-Fargo Ex-
press Company.

The jury in the case of the State of Utah vs. Peter Fisher, the trial of which was concluded in Judge Armstrong's court yesterday afternoon, returned into court at 9 o'clock last night with a verdict finding defendant guilty of embezzlement of over \$50. Fisher was formerly depot agent for the Wells-Fargo Express company in this city, and was charged with embezzling \$278.14 while in that position. His attorney will probably appeal the case to the supreme court.

IN THE DIVORCE COURT.

Alice Healy Gets Decree and Two Others
Make Application.

Alice C. Healy has been granted a divorce by Judge Morse from William C. Healy on the grounds of desertion and failure to support. The parties were married at San Antonio, Tex., on Nov. 10, 1888, and defendant deserted plaintiff in 1892.

Suit for divorce has been filed in the district court by Fred B. Brooks against Barbara E. Brooks on the ground of adultery. The complaint alleges that defendant has acquired the habit of going out at nights and associating with men and women of bad character and neglecting her two children. Plaintiff asks the custody of their two children as he claims that his wife is not a fit and proper person to care for them. They were married in this city on Dec. 29, 1899.

BAILEY TO BLAME.

City Thinks So and Claims Damage Suit
Against Him.

Suit has been filed in the district court by Salt Lake City against John H. Bailey, 55, to recover \$4,136.30, which the city was compelled to pay Minnie V. Conner as damages for personal injuries received by falling over a portion of fence which had fallen across the sidewalk in front of Bailey's residence on First West street between Sixth and Seventh South streets. The accident occurred in the summer of 1902 and resulted in permanent injuries to Mrs. Conner.

She filed suit against the city for \$5,000 damages, and the jury awarded her \$4,000. The case was appealed by the city to the supreme court, but the

BRADFORD IS NAMED.

Will Supervise Mining Exhibit at
Lewis and Clark Fair.

The work of getting the mineral exhibit for Utah in the best possible shape for the Portland fair commenced this morning, when Prof. Robert W. Bradford, of the school of mines of the University of Utah, assumed charge of the exhibit. Mr. Bradford's first work will be to supplement the ores now on hand by shipping to Portland, with an extensive and representative hydrocarbon exhibit. The hydrocarbons of the state were not made important enough, it is thought, in the St. Louis fair and consequently there is a disposition to add largely to this exhibit at Portland. Mr. Bradford had charge of the mining exhibit at St. Louis and is thoroughly in touch with the needs of the new display.

The appointment of Mr. Bradford was made yesterday afternoon at a meeting of the Lewis and Clark commission, at which all members were present. An invitation was read from President Goode of the fair, to be present at the opening exercises on June 1, and nearly all the members signified their intention of responding.

It was decided to have a honey exhibit and \$200 was appropriated for this purpose. John Beck of Salt Lake was appointed to arrange the display and will have it ready May 15 for shipment.

Next week another meeting of the commission will be held to arrange for the appointment of a director of the agricultural and horticultural exhibit. It is understood that provided he will accept the position the commission will name Dr. John A. Widtsoe for the place.

Dancing tonight Saltair 8 o'clock.

ALL SITES INSPECTED.

Committee Will Now Proceed to Select
One for State Farm.

The sub-committee appointed at the last session of the Legislature to look up and select the most favorable site for the location of a state experiment farm, has concluded its labors, so far

as pertains to investigating the various properties proposed as a home for the institution. It now remains for it to report its findings to the general committee of the Legislative body. The lawmakers decided that the farm should be located either in the counties of Utah, Davis, Weber or Salt Lake, and these were visited by the committee in the order named, for the purpose of making the most favorable selection possible.

In Utah county, the cities of Provo, Spanish Fork, Lehi, American Fork and Pleasant Grove, were in turn visited. Properties in Farmington, Centerville, Hountiful, Kaysville, Layton and Roy were next inspected. After an investigation at Ogden, Hooper, North Ogden, Roy and Pleasant View, the committee turned its attention to Salt Lake county. The Keller farm at

East Mill Creek, the poor farm adjacent to it, and a property at Holladay, were the sites visited in this vicinity. The committee consists of William Spry, W. D. Caudland, George C. Whitmore, J. A. McAllister and John A. Widtsoe. Mr. Spry is chairman of the board, and he expresses great satisfaction with the prospects for making an ideal choice of land for the establishment of the proposed farm. The committee is non-committal as to the result of its deliberations thus far.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At Z. C. M. I. Drug Dept. Price 50c and \$1.00; guaranteed. Trial bottle free.
