KILLED BY HEAT.

Fifty Persons in the Record in Greater New York.

MUCH SUFFERING AT ST. LOUIS

Prostrations at Kansas—Reports of Injuries Heat from Other Places.

NEW YORK, Aug. 9—Fifty persons died in greater New York district today as a result of the extreme hot weather. Over one hundred cases of prostration have been reported in the territory embracing New York city, Brooklyn and Staten Island. A number of these case will prove fatal.

AT ST. LOUIS.

ST. LOUIS, Aug. 9—News before this bureau of St. Louis have to the effect that the suffering from the heat in this city during the week just ended. The highest point reached by the thermometer was 105 in the shade, and on no day was the maximum below 98. On the streets the heat was more intense and the record higher.

City Physician Starkloff declared tonight that the record of heat prostrations and deaths at the hospital for the past week is unprecedented in its history. He reports that 110 cases, all serious, were cared for, and that nineteen of these died, while there are still in a critical condition.

This is not the complete record for the city, for at least that many more cases were taken to the dispensaries, where many died, and others were sent from there to various homes for treatment.

AT KANSAS CITY.

KANSAS CITY, Aug. 9—Since Monday last, excepting hot weather has prevailed in Kansas City and vicinity. The maximum temperature today, as reported by the United States weather bureau, was 97, which is the lowest maximum temperature reported since Monday last, when 97 was reached.

Friday the record was 102, and the extreme heat was reached on Saturday—2 p.m., when the weather bureau reported 103. Notwithstanding that the weather has been unusually hot and the street of long duration, there have been comparatively few prostrations and the two cases which are directly attributed to the heat.

AT CINCINNATI.

CINCINNATI, Aug. 9—The heat the past week has caused many deaths, but there have been only two fatalities directly from sunstroke. The temperature has been in the nineties for a week. The weather bureau reported the maximum temperature today at 1 p.m. 94 at 3 p.m., 97 at 4 p.m. and 99 at 10 p.m.

John Rundorf, aged 45, laborer, 111 Allison street, dropped at 8 o'clock tonight and was dead ten minutes afterwards.

Harry Holman, aged 30 years, a moulder, was sitting in his yard when a neighbor called and stepped into an ice tank. He then dropped dead. A physician said he died of sunstroke.

Mary Oster, aged 19, a domestic, dropped on the street and is at the hospital in a hopeless condition.

AT CHICAGO.

CHICAGO, Aug. 9—Again today the sun scorched this city, and in the records of deaths and prostrations will equaled those of yesterday. The total number of casualties up to 10 o'clock numbered fifteen, while others are not expected to live. The prostrations were not of a very serious character, though there were over thirty. Many people were mentally affected, and one of the bridges the prime had a struggle with a crowde of giant strength who attempted to throw people into the river. The heat made him crazy.

The temperature indicated many resurrections during the day. The lowest point marked was 79 degrees at 11 o'clock, and the mercury remained almost stationary at that figure until 2 o'clock. At 8 o'clock it jumped to 86, and at 3 o'clock it was 70, the highest mark reached. While the highest point before was 5 degrees less than that of yesterday, the people suffered just as much, and the physicians saw that the heat was equally dangerous to life.

AT BROOKLYN.

NEW YORK, Aug. 9—A number of Brooklyn's unfortunate have been reported from Brooklyn.

AT CLEVELAND.

CLEVELAND, O., Aug. 9—The heat has been intense here today. At 7 o'clock this morning the mercury stood at 80, at 2 p.m. it had risen to 94 and at 7 it was standing at 90. At 10 p.m. There prostrations were reported today. The victims were Robert Fitzsimmons, aged 38, who is dying; Frank Hoagland, who is unconscious, with no hope, and William Kaiser, aged 27, who is unconscious, not dying yet.

During the night patrol at the National Guard encampment this afternoon fifty militiamen were prostrated by the heat. All the men will recover.

AT LITTLE ROCK.

LITTLE ROCK, ARK., Aug. 9—The long continued drought in this vicinity was broken by a light rain this afternoon. The temperature which for the last ten days ranged from the 100 mark, all to 74, and in the infirmaries no is there will be more than twelve prostrations.

During the past week the temperature in the Little Rock district averaged the highest in the United States. There or fifteen fatal prostrations have occurred.

Prostration Has Not Subsided.

DENVER, Aug. 9—A dispatch to the Rocky Mountain News from Meeker today comes the report that Frank Hamerhous, the imperial chamberlain, has resigned, and says that the cause for just at this time is Whitemacher, where Emperor William is staying, was to cause a report of affairs to the east.

DESTRUCTIVE FIRE.

Six Men Narrowly Escape Death in a Mine.

BUTTE, Montana, Aug. 9—The reducing plant of the Pacific mine was destroyed by fire today, involving a loss of $15,000, and narrowly missing a great loss of life. Six men were at the bottom of the shaft 1,100 feet below the surface, working at the time, and a passenger was at the 1,000-foot level. Foreman Bulger went down on the cage and gave an alarm and got the men out. All were drawn to the surface. Just as the cage started the opening of the shaft the men all jumped and hailed to climb on the platform. Almost at the same instant the rope burned through and the cage fell to the bottom. Engineer Melzer, who stood at his post in the cage was raised, was badly burned.

Cyclone Windstorm.

MILWAUKEE, Aug. 9—A windstorm of cyclone nature struck Milwaukee at 5 o'clock tonight. Several buildings were unroofed, many structures demolished, signs blown down and swept through the streets, shade trees thrown down and other damage done. A number of small boats were in the bay, but it cannot be learned that there has been a loss of life.

Severed During a Thunder Storm.

DETROIT, Aug. 9—A heavy wind and thunderstorm which swept over this city this evening resulted in the drowning of at least three men in the Detroit river, and several gentlemen had extremely narrow escapes after capsizing of their craft. Two others were drowned during the afternoon from other causes.

Neal Powers was rescued after swimming nearly a mile from a capsized boat. Joe Pelz and a companion were with Powers, were drowned. The escape of the young gentleman saved the drowning of Frank Hopper, the clerk of the river work crowd. Wm. J. Tarsney was drowned from the Lake Shore dock. The last to go down was Jules Bouvier. The body was recovered and after a long struggle Jesse Hulse, 22, was drowned while swimming near Fort Wayne Island.

Drowned While Bathing.

DETROIT, Aug. 9—A dispatch to the Free Press from Boston Harbor, Mich., says: Four persons were drowned in Lake Michigan the after noon at "Double L." half a mile south of here. They were Mrs. Stone, Mrs. Jessie Burbank, Frank Young, "Freddy," son of Stone.

The men with a young other were bathing, when two of the women who could not swim were caught by the undertow and the other two went to their rescue. Two were between but the other two were in the deep, while a boat and a canoe came to a young man who was clinging to one and pulling him under.

DEFENDING BRYAN.

He Never Was Paid for Being an Advocate of Free Silver.

DENVER, Aug. 9—The Rocky Mountain News recently sent to the leading mining and smelting men of the country the following letter:

DENVER, Aug. 1, 1896.

Dear Sir—We presume you have read Senator Teller's statement that "the miners were never more prosperous than when William J. Bryan has been in favor of a salary from them for nine years.

Kindly reply to the following questions:

1. Do you know of any such interest or organization of mine-owners or persons interested in mining?

2. Do you believe it has ever had an existence?

3. Do you know of Mr. Bryan ever receiving a salary or any other remuneration or advancing timetables?

4. Have you ever heard it whispered or intimated that Mr. Bryan received such remuneration, or do you know of any possible foundation for such a charge?

A prompt answer will much oblige yours, very truly,

ROCKY MOUNTAIN NEWS.

Replies have been received from several representative mining men, including J. J. Hagerman, Enos Hatch, Simon Guggenheim, R. A. Joseph, Dennis Sheehy and Byron L. Rees, all of whom deny the existence of any such organization of silver mine owners for the purpose alleged by Mr. Teller, and emphatically state that the statement that Mr. Bryan ever received a salary or any remuneration whatever from them for advancing the silver cause.

Good Wheat Crop in England.

LONDON, Aug. 9—It has been showery here during the past week. The harvest has been gathered under good conditions. The quality of the wheat has been fairly equal, averaging from sixty-four to seventy-four pounds per bushel. In quantity there is a full average. Trade in wheat has been inactive, quotations being from 24 to 31 shilling, but in many cases the lowest levels have not been maintained.

In Favor of Quinn in Colorado.

DENVER, Colo., Aug. 9—A meeting of committees from the Democratic, Populist and silver parties of the state of Colorado was held today to discuss the proposition of union on Presidential election. No action was taken, but it was announced after the meeting that the sentiment was strongly in favor of united action.

ONCE RICH, NOW POOR.

His Remarkable Career Has Unfortunate Ending Herself.

KANSAS CITY, Aug. 9—Dr. W. H. Valiette, formerly of Philadelphia, and who is said to have squandered within the past ten years a fortune of a quarter of a million dollars left him by his grandfather, died here today in a boarding house, where for several months he had been provided for by friends. He died penniless. The cause is said to have at one time been mostly intoxicated with Lullian Russell, and to have began a downward career when the actress refused to longer recognize him. He finally drifted to Colorado, where during his miner's role at Red Hill he became a Pinkerton detective and was badly wounded, after which he came to Kansas City. In his more prosperous days Dr. Valiette was prominent in Philadelphia society circles, and was at one time commander of the Quaker City Yacht club.

A War With Us Expected.

MADRID, Aug. 9—Senor Sagasta, the President Council leader, in an interview on the Spanish outlook said that he hoped, the Spanish Cabinet, for present, a conflict with the United States.

JAPAN AND GERMANY.

A Commercial Treaty Approved by the Privy Council.

SAN FRANCISCO, Aug. 9—According to mail advices received from the Orient today, the commercial treaty between Japan and Germany has been approved by the privy council. The exchange of ratifications and the subsequent publication of the treaty are expected to take place within sixty days. While the terms of the treaty are not known, it is believed that Japan has conceded more to Germany in the way of commercial privileges than Germany conceded to Japan. Germany is expected to treat Russia on the treaty basis with the British government some time ago.

Advices from Pekin are to the effect that a commercial treaty has been signed between China and Japan.

Hanna Has Fears for Ohio.

CLEVELAND, O., Aug. 9—Chairman Hanna of the Republican national committee left Cleveland tonight for Chicago to give his attention to the Western campaign. He said very little on the Ohio situation. He spoke a few words concerning him, in having received word to the effect that Senator Foraker's friends were trying to secure a delegate-at-large to go to the St. Louis convention pledged to support the Senator for President. This is promoted by the fears of a movement of several prominent Republicans to bolt the ticket if Foraker should be nominated at St. Louis. Mr. Hanna will remain at his home in Cleveland for a few days longer, when he will go to Chicago.

Sentenced By a Kids.

HARRISBURG, Ill., Aug. 9—Three men were given a ducking in the river just before it rained last night, and the author of these Indian murderers were summarily punished in a different manner from the punishment that is usually meted out to murderers. One of the men in question was Frank Jones, who assaulted Jesse Overyard at Pittsburg last Tuesday night, and the other two were Frank Chaney and Amos Stevens, who robbed Jim and Richard on the Illinois Central railroad near Battle station a few days ago.

Effects of the Heat.

OMAHA, Aug. 9—A terrible thirst is raging in Omaha and Eastern Nebraska tonight. This is the fifteen or a week of terrible heat, in some cases the mercury has fluctuated as high as 20 degrees in the 100 mark, mostly all the time. Though the intensity has not something awful and a number of prostrations have occurred, no fatalities have occurred. The mercury was close to 90 all day, but tonight the mercury sank to a point of the status.

The Ship Lost; the People Rescued.

MONTEREY, Cal., Aug. 9—The Pacific Coast Steamship company's steamer St. Paul went ashore at Point Pinos early this morning and will probably be a total wreck. There were about forty passengers on board, but all were rescued safely and no lives were lost.

Hunting for Robbers.

CLEVELAND, Aug. 9—The Leader's special from Wooster says: Over 200 farmers have been around Fairlake and are guarding it tonight to prevent the escape of three desperate outlaws. The postoffice at Mt. Eaton was robbed at 2 this morning. The postmaster fired on the robbers, who returned the fire and wounded the postmaster, in the left thigh. Three men were seen tonight in the community, and the people think they now have the guilty men surrounded.

A Murderous Lover.

SAN JOSE, Cal., Aug. 9—Harvey Allender shot and killed Miss Wally Lother and V. Crosville today and then attempted to kill himself, but failed. The shooting occurred in a crowded street and creates intense excitement. Allender was in love with the woman. He says he does not know why he shot her. Crosville, he says, attempted to pull a pistol, but he got his out first and killed him.

Landslide in Colorado.

DENVER, Aug. 9—A landslide in Clear Creek canyon this afternoon seriously if not totally injured Steve Jensen, John Dale and Nels Nesme, who were employed in the canyon for the Union Pacific, Denver & Gulf road. The slide was not sufficient to materially delay the completion of the line.

Eminent William Clarke a Bull.

LONDON, Aug. 10—A dispatch from Berlin to the Standard says that Emperor William's health continues good and that he climbed a hill with his physicians on Friday.

May Obtain Money for the War.

LONDON, Aug. 10—The Madrid correspondent of the Standard intimates that the government will obtain the necessary Cuban credits from the Crown, despite liberal opposition.
