Zion's Savings Bank and Trust Company
Do a general banking business, and receive deposits in amounts as low as one dollar.

PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringement, and all business arising under the Patent Laws, promptly attended to—inventions which have been REJECTED by the PATENT OFFICE may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make close researches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington. INVENTORS send us a model or sketch and description of their invention for opinion free of charge. All correspondence strictly confidential. Hand book, and 100 pp. pamphlet, containing Patent Law and Rules for obtaining Patents in the United States and foreign countries, sent free. We refer to Hon. Postmaster General D. M. Key, Hon. F. A. Power, The German-American National Bank, officials in the U. S. Patent office, and to members of Congress from all states. Address,

C. A. SNOW & CO.,
Opposite Patent Office, Washington, D. C.

OLD,
TRIED,
AND
TRUE.
People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the
MEXICAN
Mustang Liniment,
FOR MAN AND BEAST
This liniment very recently originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 35 years, until now it encircles the habitable globe.
The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast.
To stock owners and farmers it is invaluable.
A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep.
It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.
It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc.
The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to Miners.
It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.
Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold everywhere.

EASTERN.

The Potter Investigating Committee.

NEW YORK, 15.—The testimony of John A. Leete continued as follows: They would manufacture a lot of affidavits, just for moral appearance, you know. Kellogg wanted me to manufacture affidavits, but I refused. I never did wrong in my life, and sacrificed many opportunities to keep within the dictates of my conscience. (Great laughter.) I thought by working Anderson I should get enough evidence out of him to expose the whole thing and make a sensation and my fortune. I can't say what I would have done if some one had offered me $100,000 to keep quiet, and the high moral statesman had come pressing around me to keep my mouth shut. (Laughter.) When Anderson told me he had signed the protest and got no money for it, I told him the visiting statesmen and Kellogg would leave him in the mud. I told him that if he had held out with his protest he could get documents from those visiting statesmen that would make them his slaves for the remainder of their political lives. About this time Anderson began jumping around and threatening to whip Pitkin, Kellogg and everybody else. Kellogg and others called on me one day and said, "Come, old fellow, I want to introduce you to the visiting statesmen." The statesmen admired the hall in the naval office, and then they edged toward the affidavit mill. I told Kellogg I would not go to such a lot of frauds. I was afraid if I not them they might get something out of me. My desk in the Custom House was a sort of political Mecca, where all Louisiana statesmen gathered. Anderson told me that he and Weber had an interview with Sherman and that Sherman had promised them everything. I told Anderson he was an unmitigated lunatic to believe in anything but a written contract. He said he was promised the naval office and I told him he would never get it, and he has not. (Laughter.) Another day he called on me and said, "I've got it!" I replied: "What have you got? More taffy?" He said: "No, sir; I've got them fixed." He pulled out a letter and said it was from John Sherman. It was a letter giving him the naval office. He showed me Sherman's name at the foot of the letter but refused to let me see the remainder of the letter. I had a talk with Darrall and Kellogg about the letter. Kellogg said the letter was only a general one and non-commital. Kellogg and I considered the contract of the votes finished before it was begun. (Laughter.) I spoke to Dorsheimer about the Sherman letter and he said it gave no grip to Anderson on the statesman. They had a hold on him, however, on his protest if he had opened his mouth for the democrats. They could produce his sworn protest and have him up for perjury. The bulldozers were plentiful and would shoot a white man or black man to get an office. E. C. Butler, Anderson's clerk, was one of these. I had a difficulty with him in Vermillion parish and tried to kill him, but failed; he is dead now, however. Warmouth admitted the State would be lost by 25,000 votes. He said to me confidentially, "These visiting statesmen are a lot of frauds and have come down here to steal the State and they will steal it, too."

After some further testimony of like character, the witness was cross-examined by Gen. Butler. He said he was intimately acquainted with all the politicians of Louisiana and in his judgment they were the most complete set of rascals he ever met; that Cassanave of the returning board, was the most honest of the lot. Witness was then questioned as to his standard of honesty and becoming a little nettled at the manner of questioning, said he purposed answering when, how, and where he chose. The witness then submitted a copy of his paper, in which he published his prediction that the election of 1876 would turn on Louisiana. Several extracts from the paper were read to the committee. Several letters of Anderson's to witness were placed in evidence after being read; but after they showed terms of intimacy between them, witness complained that he was not allowed to make a full statement of his record to the committee. Potter said they only wanted his testimony. Adjourned.

Fatal Explosion.

A tug-boat exploded, this morning, off Staten Island, and Capta'n Murphy and engineer Gillen have died of their injuries. Four of the deck hands were fearfully scalded.

Good Shooting.

NASHVILLE, 15.—Charles E. Dwight, of this city, yesterday, accomplished the unparalled feat of 39 consecutive bullseye shots at a distance of 800 yards. This places him at the head of long-range marksmen, and insures him a position in the American Rifle Team for this season. Yesterday's shooting completed his trial list.

The Yellow Fever Calamity.

CAIRO, 15.—The board of health, this afternoon resolved to prohibit the entrance to the city of all passenger and freight trains from the south after to-night, thus placing embargo on the travel and shipments of of any kind from that direction. Steamers from below will not be permitted to land or send passengers ashore.

VICKSBURG, 15.—The health officer reports two new cases of yellow fever in the city to-day.

LITTLE ROCK, 15.—The board of health met, to-day, and determined to establish a quarantine on the Memphis road at Hopefield, thus preventing the running of trains entirely. The St. Louis I. M. and S. Railroad agreed to stop the running of trains between Columbus and Poplar Bluffs, a health officer to be stationed at Belmont, Mo., to examine all trains coming south from St. Louis. Quarantine officers are also to be stationed in Texas to examine trains coming this way. Steamboats and stages between this city and Pine Bluff are stopped. The Memphis train stopped last night at the county line not being permitted to come to the city. Over 100 Memphians are prevented from entering the city. Several came in on foot and to-day were ordered out. There is no signs of fever and every precaution is being taken. No epidemic ever reaches this city and everybody is confident fever will not reach here at this time. Considerable excitement prevails among all classes.

MEMPHIS, 15.—Thirty-three cases of fever and six deaths are reported from 9 o'clock last night to 9 to-night. The Memphis and Grenada and M. & L. railroads have stopped running their trains. Nearly all the towns in all directions are quarantined against us. Several of the largest business houses in the city will close to-morrow and remain closed till after the frost. Gaston's and the Commercial Hotels closed to-day. The Hofbrands have organized and sent out 20 nurses to-day. The Masons and Odd Fellows have gone to work and are doing much good.

NEW ORLEANS, 15.—A Grenada, Miss., special says: Last night was fearful on yellow fever victims. Deaths during the last 24 hours are the largest since its appearance. Ten or twelve new cases. Great excitement during the day. Many are flying from the town. The population is now reduced to not over 300. Total number of deaths, 45. The number of cases down is estimated at 150. New Orleans physicians pronounce it of the most virulent type. The distress is too fearful to contemplate.

WESTERN.

A Notorious Desperado.

SACRAMENTO, 15.—This morning Wm. G. English was fatally shot in the back with a shotgun by Henry Caulfield. English was putting up a fence on land claimed by Caulfield. The latter is a notorious desperado; has been indicted 23 times, mostly for murderous attempts; has been wounded often, several times desperately; had three revolver balls put into him once, lungs penetrated twice and head split open with an axe, besides getting an eye knocked out with a club.

Dye Makes a Full Confession.

Troy Dye, public administrator of Sacramento County, has made a full confession concerning the recent murder of A. M. Tullis, on Grand Island. He confesses to have instigated the murder for the purpose of getting control of the estate of deceased. He implicates as the perpetrator of the deed, Edward Anderson, a Swede, formerly in his employ, and another party, name not yet ascertained. Anderson has also made a confession corroborating that of Dye. Anderson was to receive $6,000 for the job. They had previously tried to kill Tullis by poison. They had also discussed the murder of other citizens. The details are replete with cold-blooded cruelty. Dye has heretofore borne a good reputation in the community, and his connection with the affair has created the utmost surprise and excitement.

Wreck of a British Bark.

The steamship *City of Sydney* brings news of the abandonment of the British bark *Kedar*, from Berrard Inlet, with lumber, to Melbourne, near the Friendly Islands, off Cook's Island, April 3rd. A hurricane swept the sea over the bark, making a complete wreck. In this condition the crew remained on board 50 days, when they made a raft, and, weak and famishing, managed to reach land. Their sufferings from want of food and water were great, but only one perished. The remainder were taken to New Zealand on a coasting vessel.

Destructive Freshet.

A Eureka, Nevada, dispatch says: The town was visited this evening by a freshet caused by the heavy rains in the mountains. The flood swept down the ravines on which the town is built, carrying away everything, and destroying stables, outbuildings, etc. One man is supposed to be lost. Damage considerable, but since a similar visitation four years ago most of the buildings are raised above the level of the water, and escaped destruction, though the lower floors were flooded.

FOREIGN.

GREAT BRITAIN.

New Occupation Plans.

LONDON, 15.—A Vienna dispatch says: It is now recognized that the arrangements for the Austrian occupation of Turkish provinces were inadequate, and new plans have been resolved upon. The Servian government regards, with anxiety, the menacing attitude of the Albanian chiefs at Prierend.

Stricken with Fever.

A correspondent at Larnaca, Cyprus, says: One-fourth of the white troops and two-thirds of the doctors are stricken with fever. The disease, however, is not fatal.

Colonel Ruestow, the well-known military author, killed himself at Zurich, Switzerland.

BRITISH AMERICA.

The Irish Disturbances.

OTTAWA, 15.—No further disturbances are expected. The Irishmen and French Canadians, in a meeting last night, appointed a patrol of 21 men, under D.G.O'Donnoughue, member of parliament, to give the alarm to Union men in case of disturbance. Speeches were made declaring that the Orangemen would never be allowed to walk again in the lower town. It is said the Orangemen of this district will have a monster procession on the 5th of November. A Protestant named J. Salmon, was badly beaten on Field Street last night; also a Catholic whose name is not known.

FRANCE.

Awards to American Inventors.

PARIS, 15.—Of the eleven objects of art offered by the Agricultural Society of France for exceptional merit in agricultural machinery in the recent field trials, eight have been awarded to American inventions. Independent of the medals of exhibition proper, the United States agricultural exhibit has received the diploma of honor, and the United States educational exhibit a gold medal.

AUSTRIA.

The Troops Advancing.

VIENNA, 15.—General Philippovich telegraphs that Hafis Pasha and a deputation of the leading inhabitants of Serajevo have begged him to stop his advance, as neither the information from the Porte nor the Austrian proclamation had been promulgated at Serajevo. General Philippovich refused, telling them that Europe had decreed the occupation and the Porte had assented. He called upon the deputation to use their influence to calm the population.

Gen. Zapary, commanding the Twentieth Division, telegraphs from Dobej that he was vigorously attacked on the 13th inst., but repulsed his assailants. Nevertheless, on account of a lack of ammunition he resumed, on the 14th inst., his retreat to Dobej and saved all his wounded and trains, though his troops were exhausted and constantly harrassed by the insurgent bands, and were themselves obliged to drag the wagons over bad roads.

SELECT SCHOOL.
THE FIRST TERM of Mrs. M. E. Randall's Select School, for the present year, will open August 19th, at 9 a.m. in Morgan's College building. Also an evening school at the same place, commencing at 6:30 p. m.

NOTICE.

In the Probate Court in and for Salt Lake County, Territory of Utah.

MARGARET SMITH, Plaintiff,
AGAINST
ELBERT SMITH, Defendant.

The People of the Territory of Utah, To Elbert Smith, defendant, greeting:

YOU are hereby summoned to appear in an action brought against you by the above named Margaret Smith, plaintiff, in the Probate Court in and for the County of Salt Lake and Territory of Utah, and answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons—if served within this county, and if not within this county but within the Third Judicial District of the Territory of Utah within twenty days; otherwise, if within the Territory within forty days.

This action is brought to obtain a decree from this Court dissolving the bonds of matrimony existing between the plaintiff and you, and costs of suit.

(SEAL.) In witness whereof, I have hereunto set my hand and the seal of said Court, in Salt Lake City, this 3rd day of August, A. D. 1878.

D. BOCKHOLT,
Clerk of the Probate Court,
Salt Lake County.
