THE PRESIDENT'S VOTE.

President Lorenzo Snow said: Before proceeding with the business of the evening I want to say with reference to the statement of the president of the council regarding the right to vote and I desire that it shall be made a matter of record, that we do not make no mistake and that this point may be fully understood, I will claim to exercise the right to vote on all matters that come before this council the same as any other member of this body, just as I did before I was elected President. I shall exercise the right to vote on either side of the question. In case of a tie, however, I will cast no decisive vote. In case of a tie the vote on the proposition will be declared lost.
