BRYAN ADDRESSES.

Large Crowds Gather at Various Stations to See and Hear.

OPPOSITION AT DOWNEING

A Prediction That the Silver Bloc Will Fly a Different Line.

WATERTOWN, Mich., Oct. 14.—The weather has been considerate to William J. Bryan the last two days. Where he had reason to anticipate cold, disagreeable traveling, he has encountered sunshine and warmth. As usual, he began work early this morning, making his first speech at Delaware at 8 o'clock.

A large crowd was in waiting to see and hear Mr. Bryan. It was composed of the great part of miners, who gave him an enthusiastic welcome. He spoke from a gaily decorated platform erected a few hundred yards from the train. Fifteen minutes later he addressed a large crowd at Bessemer.

He said: "If we are simply going to pelt foreign nations to assist us, every Republican meeting should be provided with petition blanks so that the people who attend can sign a petition asking foreign nations to please to send us so and give us what they think we ought to have. If we don't care to do what we want them to do for this country, and they do not do it, we can turn them out and shut somebody out; if we trained the republican power to other nations we are helpless to protect ourselves and must submit to whatever they give us."

At Watertown, which was reached soon after 11 o'clock, Mr. Bryan spoke to a few hundred enthusiastic Democrats, some one-thousand. "The national bank system is what this place is interested in," Mr. Bryan said. "The difference between gold plan and the national bank plan is this: We have a great lot of greenbacks now, and these greenbacks draw no interest. When you retire these greenbacks with an issue of bonds and then let the banks loan money on the bonds, the banks will then draw from the people of the country interest. It is good for the banks not good on the people.

"Our Silver Bloc, William J. Bryan sent, and this silver," was the ovation of an enthusiastic individual at Iron River, and it was spoken of heartily. The train stopped five minutes there and Mr. Bryan talked the full limit of the time. While he was speaking frequently, some gentlemen around the train wearing gold badges not attempted to hoot the candidate, but was quickly silenced.

AT IRON MOUNTAIN.

The biggest crowd of the day up to that time was encountered at Iron Mountain. Apparently it was a most unanimous silver aggregation. Mr. Bryan said in part:

"You say that a dollar raising in value every day is a good thing for the farmer, because when he gets a dollar it will be a good dollar? Put the emphasis on the 'when.' You say it is a good thing for the laboring man to be paid with dollars which will buy a great deal. Remember that the laboring man is waiting for a chance to work before he is interested in being paid with good dollars. I would rather trust these laboring men to know what is good for them than to trust men who have spent their lives trying to destroy laboring men's organizations and who try now to speak for them."

AT ESCANABA.

By the time Escanaba was reached the bright sunshine of the day had changed to a bleak cold wind, which was to be expected in the northern peninsula. This, however, did not deter a large crowd from being present around the stand built within a hundred yards of the depot and the cold apparently did not chill the enthusiasm at those assembled. Here Mr. Bryan was presented with a badge of national colors surrounded by a crown of silver from a citizen who expressed the hope that through the miners were enabled to be present to speak for the two men, they could do nothing to aid the unfortunates, who were doomed to death. Flagman Ulmer was outlaw between the second-class and freight cars, and he is supposed to have been killed to death also. Two other cars were smashed, but no passengers were injured.

FIREMEN ARRESTED

For Setting Fire to Numerous Bottle Houses.

CHICAGO, Oct. 14.—For outrages of Hose Lavin, George Dunnigan, Tony Moody, Emil Pauna, a saloon-keeper and an ex-chief of the volunteer fire department, and Fred Vogt, a tailor, all residents of the Bohemian district, five years past, have been arrested. The charges will setting fire to bottle houses in the district during the hot weather of last year. It is said the motive of the fires in order to show their skill in putting them out.

MURDER AND SUICIDE.

The Two Victims Evidently Agreed to Die Together.

CINCINNATI, O., Oct. 14.—A sensational murder and suicide occurred tonight at the apartment house of Nellie Rice, on George street. The circumstances indicate that the two victims agreed to tragically end their troubles and their lives together. The persons of the drama were Dr. Harry Rutter of Cripple Creek, Colo., and Clara Russell, an inmate of the house, only 18 years of age. No one saw them sing, and the inmates of the house were attracted by two reports. A revolver fired in rapid succession. Running the stairs to the room occupied by the girl, Clara Russell, half dressed, on the bed blood spurting from a wound in her left breast, which had been made in the first revolver shot, evidently in the heart, and a bullet wound in the breast. On the table lay a sheet as follows:

DENVER, Colo., Oct. 14, 1896.

First National Bank—Pay to the order of Clara Rice hundred dollars.

D. HARRY ROLLAND.

This is for our funeral expenses.

The Louisville Strike.

LOUISVILLE, Colo., Oct. 14.—Gov. McGaffey, who has been here for two days, has held numerous conferences with the officers of the Miners' union with miner managers and with delegations of striking citizens. There were reports which in some cases that he might be able to arrange a compromise of some kind, but he has not done this.

The action of the miners in attempting to call out the engineers, firemen and pumpers, followed on the Sunday and Earnest attacks, proved the last straw for the miners, and they now decline to recognize the union in any way or at all. They will let their mines with men and work them up to their full capacity as fast as possible.

Rockingham for Congress.

FRANKFORT, Ky., Oct. 14.—The Harrison district Republican committee today received from him a nomination and nominated W. C. P. Breckinridge for Congress.

It practically insures the election of the ex-Congressman after one term in private life, defeating the Democrats that selected him in his place for nominee two years ago.

Hamilton Resigns.

CHICAGO, Oct. 14.—Dr. Hamilton of the United States marine hospital, stationed in Chicago, has wired his secretary resigning to President Cleveland. Some time ago Hamilton was released by the marine hospital at San Francisco, and he made an official attack, which was suppressed. He then decided to retire from the service.

MEDICINE FOR SILVER.

Should Be Sold at Silver Dollars at 70 Cents and Was Taken as the Word.

HELENA, Mont., Oct. 14.—H. H. Kleinschmidt of this city received a letter from W. J. Bryan of Memphis, Tenn., October 10, in which Mr. Bryan said that two solvent bankers of his town offered 200,000 American standard silver dollars, delivered Williams, to insure after Bryan's election and the course of a free silver coinage law, at 70 cents on the dollar in gold. Mr. Kleinschmidt immediately telegraphed Bryan to accept the proposition for him. A letter received by Mr. Kleinschmidt from Mr. Bryan, dated Oct. 10, says:

"Your letter of October 1st, and telegram came only to hand, and I have been continually drinking of Mr. C. I. Scott, president of the First National bank, and J. T. Fort, president of the Memphis City bank, the gentlemen who made me a firm offer on the $200,000 in silver, to comply with terms of sale. One of them has been pulling me off from day to day with excuses, but now they both positively refuse to do anything, and are comparatively down, but I think still that they mean what they have contracted, as they intend it upon me, and I will let you in the matter. If you desire to insist, please instruct me, and I will have them to do so. They seem to be very uneasy and I want to make them stand to their contract. They have been trifling for past silver Dollars for a month. They now want to close."

To the letter Mr. Kleinschmidt replied yesterday as follows:

"Your offer of October 9th has my attention. I cannot permit the bankers, C. I. Scholle and J. T. Fort, to withdraw from the offer which they made through you, and I therefore request you to place the matter in the hands of competent attorneys to use what will be necessary to compel the contract to be complied by me."

TROLLEY CAR ACCIDENT.

Three Men Killed and Many Others Injured.

HARRISTON, Pa., Oct. 14.—Three men were killed and a score of others more or less seriously injured between 6 and 7 o'clock this morning at the Hazelton crossing of the Delaware, Susquehanna & Schuylkill railroad and the Lehigh Traction company.

The engine caught the rear end of the car and tore it from the main portion, which was thrown over on the southbound side, a distance. Motorman Kunkel, who was near his rear end of the car, was caught and dragged over a hundred yards before the engine could be stopped.

The Bartholdis to the Rescue.

NEW YORK, Oct. 15.—The Herald correspondent in Stuttgart, Kendall, telegraphs that the Bartholdis have granted a credit to the Bank of London of £100,000. The banks not the official commercial house will resume business during the current week.

DRINK AT SEALS.

An Important Fact.

The real reason why tea and coffee drinking is not generally understood. It is due to the fact that people with every one that physicians advise the discontinuance of both tea and coffee when a remedy is sought, particularly when the digestive machinery is affected. Any person with a slight knowledge of chemistry can make the following experiment, showing the results as given. Coagulated egg albumen when mixed with artificial gastric juice, will be practically entirely digested in one hour.

When tea is added during the process of digestion, 40 per cent of albumen will be digested, leaving 84 per cent undigested, while a similar quantity of egg is mixed with tea and coffee, the result will be but 10 percent digested and 90 per cent undigested. Tea and coffee are the two most active enemies of good digestion. When tea is taken into the human stomach, they very actively interfere with the natural and healthful operation. Where a person has an exceedingly jaundiced digestive apparatus, tea and coffee is about for a time, but it is sure to end sooner or later.

In addition to the above it may be said that any ordinary assortment of medicine chests will show a set of the poisonous alkaloids of much so-called medicine as found in cryoselin, whisky, tobacco and morphine. These poisons are absorbed by the blood, the liver, and a dried tissue, causing nausea, bad skin and various other indications of approaching sickness and depression. These symptoms are regarded by physicians for many years, but it is difficult to induce people to leave off their habits even when they realize are shown to be responsible for the existence of the human body.

The manager of Ia Vita Inn, a health institution at Battle Creek, Mich., made a large number of experiments in the attempt of a food drink that would be at once palatable, healthy and fragrant, without any of the poisonous or injurious properties. His experiments were confined to compounding, and to arranging the proper various extracts, or grains, such as were thought to be valuable for man's consumption. Being in a position to know the effect of the various grains upon stomachs, and patients who needed the most nourishing food and drinks could be obtained, his experiments were conducted under the most favorable circumstances. After continued trials, he finally arrived at a combination of the healthful properties of the beverage, patients who had been needed without to continue the use of the cereal drink after their return to their homes, and others made demands for it.

In order to supply this demand and the public generally, the Postum Cereal Co., Limited, was formed. All people who drink coffee and tea do not care to discontinue their use, although open admission of their injurious properties. There are enough people, however, in America who hold their health in high enough esteem to be willing to make a change provided a fair but not extreme. There is no reason for students acquires which prevents a man from enjoying himself as the one mentioned habit is broken, although well. When a man can take a cup of pure air and feel that every part of his system is in good condition, he will be working perfectly, the feeling of comfort produces a deep sense of well-being and thankfulness to the Author of the basic principle of life.

Postum is a thoroughly healthful food-drink. It can be taken at each meal by all members of the family, including the children. It quickly establishes itself as an important part of the meal, and when left out, one misses the fragrant aroma, the delicious flavor and the health-giving properties.

1 lb. coffee (20 cents) gives 40 to 45 cups.

1 package Postum (20 cents) gives 100 cups.

About 2 to 1 in favor of Postum.

This item of economy is of no means the only consideration. Health comfort and self-respect speak convincingly for the physical drink.

This rare food drink brews exactly the color of the richest coffee and has a rich, full, mellow taste and bears with none of the beneficial properties.

Sold by Geo. T. Brooks, Jas. McDonald, Jr. and J. H. Williams.

Notice to Water Consumers.

All parties owing monthly water rates—that is, those who haven't paid up to January 1st, 1897—are hereby notified that unless they are prepared to be turned off now at any time without further notice, are to pay due and delinquent.

J. L. MAY, City Treasurer.

There is one medicine which every family should be provided with. We refer to Chamberlain's Pain Balm. When it is lost at hand the severe pain of a burn or cut may be prompt. If relief and will be healed in more less time than when medicine has to be sent for. A scald may be promptly treated before blistering sets in, which means a saving in time, and the time saved is the injured. Cuts and bruises should receive immediate attention and the pain immediate relief, and when Chamberlain's Pain Balm is applied it will heal them without matter being formed, and healing is much more rapid. A sore throat may be cured in one night. A piece of Mustard dampened with this liniment and bound on over the seat of pain, will cure a pain in the side or chest in twenty-four hours. It is the most valuable, however, for rheumatism. Persons who suffer with this disease will be delighted with the prompt relief from pain which it affords, and it can be expected upon to effect a complete cure. For sale by all druggists.

"While down in the southwestern part of the state some time ago," says Mr. W. Chalmer, editor of the Chico (Cal.) Enterprise, "I had an attack of rheumatism. Having heard of Chamberlain's Colic, Cholera and Diarrhoea Remedy I bought a bottle. A couple of doses of it completely cured me. I can now be a champion of this remedy for all stomach and bowel complaints." For sale by druggists.

Mr. J. K. Fowler, auditor and treasurer of the Colorado Gold Quartz and Stock Co., of Ontario, Utah, in speaking of Chamberlain's Cough Remedy says: "I consider it the best in the market. I have used many kinds but that Chamberlain's the most prompt and effectual in giving relief, and now keep no other in my house." When troubled with a cough or cold give this remedy a trial and we assure you that you will be more than pleased with the result. For sale by druggists.

PURE FOOD AND DRINK

Wanted!
Your tea trade from now on.
Schilling's Best wants it—your money back if you don't like it.

A Schilling & Company San Francisco

Wanted to know why Bryan now, for McKinley in 1896.

Mr. Bryan said in part:

"Somebody has said that everybody knows more than everybody and when we get an opinion of a majority of the people we get as near the opinion of everybody as you can obtain in governments, and in this campaign we are submitting our cause to the judgment of the American people. I have spoken to them many times for overflowing crowds among the people; but, my friends, I do not know where a candidate is going to go if you do not allow him to go among the people who are going to vote for him. There is no other place that I can go and feel at home. If I wants to go and visit the headquarters of a great party would you not. If I were to try and make my home with the syndicate that has been bleeding this government, I would not stay there long, and the people are about the only one to whom I can go and feel that my coming will be welcome. If a candidate is to meet the people, he must go to them or they must come to him, and those are so hard under the yoke of monopoly that I had to come to you. I do not think it is undignified for a man to tell the people what he believes to and what he stands for. I stand for an American financial system for the right of the American people to attend to their own business, and I am entitled to the votes of those who believe with me.

"I believe in bimetallism, and I believe it is no sense that I am not willing to wait until a gold standard can bring it to me before I have it. I believe that bimetallism is good for the American people, and I believe in it so much that I want the American people to get the benefit of it, whether foreign nations like it or not."

AT DOWNEING.

The opposition was not in force at Downeing when the Bryan party arrived there. There was a large crowd to listen to the candidate, but it was not overwhelming. His speech was applauded not little.

There was a big Republican rally on, at which Washington Gardner was to speak. The McKinley club of the city marched to the Democratic gathering. Mr. Bryan he, constituted his address and Timothy Ferney had been speaking for a few minutes, when the Republican gang had to be preached. Mr. Ferney stood in front of Mr. Bryan, turned to the audience, and addressing himself more particularly to him said:

"I am informed that band is at the head of a Republican McKinley club. We are very much pleased to have you come to the people who sent them out for this kindly interruption, but just as soon as the band band will be playing, it will in the same employment, a very different tune."

There about the stand applauded this statement heartily and then Mr. Bryan was taken toward the cars.

HEADEND COLLISION.

Fire Adds to the Horror of the Accident.

COLUMBIA, S. C., Oct. 14.—Through a misunderstanding of orders, the north and southbound trains on the Florida Central & Peninsular railroad had a headend collision early this morning just south of Swansea, about thirty miles from this city. The trains came together on an embankment.

The engineers and firemen jumped and escaped without injury. The crews of both trains were demoralized and the leader of the southbound engine jumped into the nonmission mail baggage and express car. Baggage and Express Manager W. B. Lines and Mail Agent L. A. Thomas were pinioned in the wreck. Baggage caught fire from the stoves in the car and the flames spread so rapidly that the men were unable to release the imprisoned men, they could do nothing to aid the unfortunates, who were doomed to death. Flagman Ulmer was outlaw between the second-class and freight cars, and he is supposed to have been killed to death also. Two other cars were smashed, but no passengers were injured.

FIREMEN ARRESTED

For Setting Fire to Numerous Bottle Houses.
