DESERET EVENING NEWS.

FRIDAY, JULY 7, 1893.

FRAGMENTS.

Governor West is expected to arrive from the East on Sunday next.

The semi-Prophet day excursion train will not be issued, owing to cheaper rates and being attractive than the railways.

Dr. Ely this morning, accompanying W. W. Riter, Democratic candidate for Secretary of State, to Provo, addressed a meeting in Provo. Yesterday he addressed meetings at Ogden, Brigham, Corinne, Tooele, Grantsville, Stockton, Bingham, Ophir, Alta and Salt Lake. The party is very favorably received by Prohibition Judge Judd.

There are 56 days when the men who are claiming against the city looks like a divine mind. When he is dead there is no money in our treasury for anyone himself and wants to know what has been done with the people's cash.

The City Council will meet tonight and the indications are that it will be a most interesting session. It is said the Mayor will be heard from on the Rosser and contingency and that he will come his enthusiasm to an overwhelming moment.

DAMAGING DROUGHT

It is Beginning to Tell Injuriously on Irrigated Crops.

RAIN IS ANXIOUSLY LOOKED FOR.

Considerable Thunder and Lightning in Southern Utah but Very Little Rain.—General Review.

Observer Salisbury of the Weather Bureau submits the following report for the past week:

GENERAL REVIEW.

The continuous drought, which has been so adverse to dry farming, is at last beginning to tell injuriously upon the irrigated crops, in sections where the water supply has become low, or where the interval is long between times of watering. Where the water supply was abundant the crops have made splendid growth. It was a fine week for haying, and the first harvest crop is now all cut, except in the more elevated valleys. Rain is anxiously looked for by nearly everybody, especially in the southern section where streams are very low and stock ranges dry.

Wheat is now heading out in the coldest and latest sections. The prospects are still good for plentiful crops in favored sections; light crops in other sections; probably a general average of three-fourths the usual yield.

Extracts From Correspondents' Reports.

BOX ELDER, CACHE AND RICH COUNTIES.

Snowville—Unless rain comes soon the dry farm grain will be of very little account. The grain crop will be light and the hay crop short.

Bear River City—Very warm, causing considerable dry land grain to whither, and become yellow at bottom. Some pieces put in with pulverizers on stubble are being plowed up as a total failure; the best will be poor, where not watered. Lucern is all put up.

Box Elder City—Continuous drought. Grain and fruit with water are growing well. The lucern crop about the average, is nearly harvested. Crops without water are drying badly.

Brigham—Hot days, with nice cool nights. Fine haying weather.

Mendon—Hot and dry. The prospect is very short straw, and light hay crop.

Newton—This week has been dry and windy. Grain is growing but very little. Fall wheat is the best looking. Lucern has mostly all been cut this week.

Randolph—Everything is growing slowly. Winter wheat is coming in head, and spring wheat in the boot. Irrigating is full blast.

MORGAN, SUMMIT AND WASATCH COUNTIES.

Peterson—Weather very favorable to all kinds of grain and vegetables, which have made rapid growth, where they could be irrigated. In some parts lucern has been cut.

Heber—Another good week of continued sunshine, but with hot and drying winds. Gardens need much irrigating, but as there is an abundance of water, they do not suffer. Some little lucern patches cut, the first of the season. Grain is growing fast. Clover and timothy are in blossom.

WEBER, DAVIS AND SALT LAKE COUNTIES.

Hooperville—A week of continued sunshine, warm days, but cool nights. Plenty of water for irrigation.

Hooper—The week has been very favorable for haying; the crop is very light in some parts. Harvesting is about to commence on the dry ranches. Our fruit crop is looking well. Tomatoes and melon vines are making rapid growth this week.

Harrisville—The first crop of alfalfa is nearly all put up; it is a good crop. Fruit and vegetables are doing well.

Sandy—(1) Weather warm and dry, but plenty of irrigation water. Hay crop said to be fully as good as last year. (2) Warm weather, excellent for the harvesting of peaches. As water is plentiful, so far, it was a very good fruit crop.

UTAH, JUAB AND SANPETE.

Lehi—On the whole the week has been fine. Crops growing well, some grain looks good. Beet are much better than for two previous years. The first crop of lucern is pretty well through and in good condition.

Fairfield Camp—Hottest days of the season so far noted. No rain, and water is beginning to get scarce. Crops look well, generally. The strawberry crop which has been light, is about at a close.

Levan—A splendid week for haying. Streams will be kept busy another week, hauling and stacking lucern. The prospect is that the wheat and oats crop will be under the average; the country corn and potatoes look well.

Wales—Drying winds. The turn to irrigate corn and some around seed enough. It seems as if we never could get enough water for all.

Moroni—Very dry and windy. Lucern cutting has commenced.

MILLARD, SEVIER AND SANPETE.

Sugar—We are in the midst of warm harvest; the grain is very backward, as grain is just well headed out. Water for irrigation is coming well. Crops generally good.

Kanosh—Very warm, but a good growing condition, and all kinds are doing as well as water will permit. It is just beginning to increase in volume; there has been plenty heretofore. Fruit prospects are good, in spite of early frost.

Meadow—Harvest is being run the crop is amazingly heavy. Fruit and vegetables are looking well. Grain is in good condition, and promises an average crop. Water is plentiful at present.

Beaver—The past week has been most excellent for all growing crops. The farmers are up to their necks in the hay fields. Cutting and drawing hay is in full blast.

Minersville—The week has been favorable for growing crops, and for gathering hay. Cutting and gathering are taking place. Grain is in good condition, and promises an average crop. Water is plentiful at present.

Beaver—The past week has been most excellent for all growing crops. The farmers are up to their necks in the hay fields. Cutting and drawing hay is in full blast.

Minersville—The week has been favorable for growing crops, and for gathering hay. Cutting and gathering are taking place. Grain is in good condition, and promises an average crop. Water is plentiful at present.

Kanosh—The week has been very warm. Highest, 105, lowest, 50. Water needs every 5 days.

Marion—Very hot weather, much above temperature, 102 in the shade; and it has been quite beneficial to all irrigated crops. Nine apricots are becoming plentiful. Blackberries are getting ripe.

WAYNE, PIUTE AND SEVIER.

Torrey—Crops growing fairly well. Will certainly need the second week in July (usual time), farmers start will be somewhat early, owing to late and backward season. Now moving on the 12th, with light summer storm. Reports are frequent of crops lying dead on the wheat range, dying through week of snow. The loss from that cause has been very great.

Loa—Drought still continues. Water falling in the river, has to fall back on the men to increase the supply. No damage at present; unless it arise crops are likely to suffer before the water can be exchanged.

R. Creek—Warm and dry. The water supply has been sufficient as yet to keep crops from suffering.

Monroe (1)—The water for irrigation has dwindled down to almost nothing, and unless we get rain soon our crops will be seriously damaged. (2) Hay is heading out. (3)—The past week has been hot and dry, and crops are likely to suffer, as the water for irrigation is very low. (4) Up to the present crops have looked well, and farmers are anxiously hoping for rain.

IRON, GARFIELD AND KANE.

Parowan—Continued dry, windy, sunshiny weather. "Dry farming" is getting a set-back. Wheat grain looks well, and our stream keeps supplying well.

Kanarra—Haying has commenced here; it is some lighter than last year; lucern is headed out; wheat starting to head.

Lund—Clear nearly all the time with the exception of the 12th, which was partly cloudy with considerable thunder and lightning, and just a very slight trace of rain. Haying in full blast; everything is busy.

Mt. Carmel—The week has been dry and windy; thunder on the 25th and cloudy on the 26th, but no rain.

TOO LATE FOR CLASSIFICATION.

Blake (Green River), Emery county—Hot days and warm nights. Cutting second crop of lucern.

Richmond, Cache county—The nights are cool which is unfavorable for corn. The most of the grain of all kinds, is far below an average. Potatoes look well; also the gardens where the seed come up. Grass is drying up on the high ground. Apples, pears and plums are looking well.

NOTE.

Quite a number of reports have failed to come this week, but we hope it is only because the farmers are so busy getting up their hay, and that they will favor us as soon as the rush is over.

Young Ladies at Saltair.

The Y. L. M. I. association of the Fourteenth ward will take an excursion to Saltair on Tuesday, the 11th inst. The evening promises to be a most successful one. At 8:30 p. m. a concert will be given, and the fairies and dryads will be resolved on the pavilion.

Pursuing a Murderer.

A dispatch received at the railroad office at Kawsmouth, Cal., at a late hour on Tuesday night, states that Frederick, the murderer of Sheriff Pascoe, was seen that morning at Money's Siding, about one mile and a half from Kawsville. Sheriff Conroy was notified and with several deputies started off for the fugitive. It is believed that Frederick is making for Marysville, and the police officers

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

of the latter place have been notified to be on the lookout for him. The officers have been informed that Frederick made his way from the region of the North Star Junc, where it was thought he was surrounded last night. Following the trailing dirtbos which crossed that country in a point where he would be seen. It is understood that the murderer is penniless, but still has his trusty revolver, and that he will desperately resist any attempt to capture him. The officers have never moved that Frederick has obtained food from prospectors and the owners of small ranches that should in the region over which he is travelling. Sheriff Conroy has telegraphed to the railroad officials that he is positive he will effect the capture of the desperado very shortly.

CURE OF CANCER.

Whooping Cough is not dangerous when Chamberlain's Cough Remedy is freely given. It makes expectoration easy and prevents the violent fits of coughing. There is no danger in giving it to small children as it contains nothing injurious. For sale by E. C. M. I. Drug Dept. 4

GOOD LOOKS.

Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the Liver be inactive you have a Bilious look, and if your stomach be disordered you have a Dyspeptic look, and if your Kidneys be affected you have a pimpled look. Secure good health and you will have good looks. Electric Bitters is the great alterative and Tonic, acts directly on these vital organs. Cures Pimples, Blotches, Boils, and gives a good complexion. Sold at A. C. Smith & Co's Drug Store, 50c. per bottle. 4

Colonia Coffee is unequaled for Purity and Flavor, Barlow Thompson Grocery Co.

The Mountain Ice and Cold Storage Co. desires to call attention to the fact that they are now prepared to supply their family trade with manufactured ice at the following rates:

Books of thirty (30) pound coupon tickets, $2.50 each; books of thirty fifteen (15) pound coupon tickets, $2.50 each; books of twenty, twenty-five (25) pound coupon tickets, $2.25 each.

These books are sold on cash only, and the ice is therefore 10 per cent cheaper to the consumer than last year's rates.

Please note that there are no exceptions to the cash system, as the company's collector's are dispensed with and the trade gets the benefit of the 10 per cent reduction.

Tickets can be obtained at the office, No. 50 E. Second South street, or from the drivers.

The Gold Band Package is handsome, but the quality of the goods tells the story.
