NEWS OF THE WEST.

Suicide By Swallowing Carbolic Acid at Phœnix, Arizona.

CHEYENNE HAS A WATER FAMINE.

Mountain Fires.—A German Shoots Himself.—A County in a Dilemma.

The machinery for the new Queen City Roller mill at Mount Pleasant has arrived, also the machinist, who will soon have it in position, and another enterprise will be operating in Mount Pleasant.

Rock Springs, (Wyo.) has two dainty female comedians. The *Independent* of that place says: "The demure tones of the fair artists has captivated the boys and they all go there to get 'scraped,' just for the novelty of the thing."

Fires in the mountains are becoming common in the northern part of the state nowadays, says the Laramie, (Wyo.) *Boomerang*, and it is reported that much valuable timber is being destroyed. It is supposed that they are caused by the straggling bands of Indians from the reservations who take this method of driving out the game.

Casper (Wyo.) The county of Natrona and city of Casper have spent several thousand dollars in the creation of a county jail and residence for the sheriff, and now it comes to light that neither the county or city has a shadow of title to the land upon which said buildings stand. Something ought to be done immediately by Mr. Carey in fulfilment of his promise to Mr. Brooks.

The first mountain fire of the season started last Tuesday to the mountain about fifteen miles southeast of this city, in a very valuable body of timber. These fires are annually destroying millions dollars worth of timber, and causing heavy losses otherwise. They are the result of carelessness or deliberate malicious ness, and it is too bad the offenders cannot be apprehended and punished.—*Mount Pleasant Pyramid.*

A tragedy occurred at Bellevue (Idaho) in which Frank Sullivan, widely known throughout Idaho, was killed. The trouble arose over a foot race, and Sullivan threatened to kill one of the parties. He was known to be a dangerous man and Deputy Sheriff Hopf undertook to disarm him. Sullivan resisted and reached for his revolver, whereupon Hopf shot him dead. Sullivan had a pistol grasped in each hand.

Says the Grangeville (Idaho) *Free Press*: A very large acreage of seed has been broken this year, but the amount seeded to grain is not little, it say, larger than previous years. Fall sown wheat has an uncommonly thick stand, but the greater portion of spring wheat was sown too late to get the benefit of the moisture in the ground, and it is not going to be a very healthy crop.

Cheyenne was threatened Thursday with a water famine. At 9 o'clock in the morning there was only two feet of water in the reservoir. At that time C. W. Ricker, chairman of the city council committee on water and sewerage, was notified of the sudden falling off in the supply. After some investigation it was found that a fire hydrant at the Union Pacific yards had been kept running all the morning. Thursday was registered the low water mark, the supply never becoming so small before when the reservoir was in use.

The prosecuting attorney was notified the other day that there was a case at Walsburg that needed investigating. He went over there. It was reported that a Mr. Harper had severely whipped his twelve year-old daughter and that a crowd of citizens came very nearly lynching him. The attorney found that the man had whipped his daughter but the girl refused to testify against him. He also found that a gang of young fellows assembled at the Harper residence the following evening and that Mr. Harper said their business was to lynch him but for some unknown reason he would not testify against them. Such cases as that should be investigated by the officers and such heathenish doings on both sides stopped.—*Walsenburg Herald.*

A German rancher named Fritz August fatally shot himself at Livingstone, Montana, a few evenings since. Some time months ago he came with his family, from Dakota and settled on a ranch near the city. About the 1st of June he left his family in this city and went to Cinnabar, where he found employment in the mines. Several days ago his wife applied to the county for transportation back to her former home in Dakota, which she obtained. Fritz upon learning this came down from Cinnabar and endeavored to persuade her to remain. This she refused to do, and departed with her children. Fritz then began drinking, and in several of his companions detected his intention of committing suicide. Every boat evening he wandered about two miles from the city and shot himself by the roadside.

Harry M. Bissell, aged thirty-two years, committed suicide at Phœnix, A. T., on Wednesday morning by swallowing carbolic acid. He was one of the leading young men of Phœnix, both socially and in business, having been connected with the sewer and electric light companies and with the Hartford bank, holding the position of business manager in the first, and that of director and secretary in the latter two. Lately business trouble had weighed upon his mind. He consulted his lawyer Tuesday afternoon, who encouraged him to struggle on, as his position was by no means perilous. Suicide seemed the farthest thing from from his thoughts. The last meeting at 9 o'clock he chatted pleasantly with Judge Campbell in the Cotton block, where said room. Ten minutes thereafter he was found dead, lying diagonally across his cot. He had swallowed an ounce of carbolic acid. One scream was heard in the building, but it was supposed to be that of a patient in a doctor's office in adjoining apartments. He when was he feel his father cries should bring successors before the adal dose had wrought its work (not so long) a handkerchief under his lower jaw and strapped his head. The coroner's jury returned a verdict of suicide by poisoning.

Freeman's Arnica Salve.
