Medals

Two Gold Three Silver

FIVE—that's the number of Medals taken in November by Goodyear Welt Shoe-making System at Mechanics' Fair, Boston.

People said it was the most complete working exhibit of Modern Shoemaking ever made.

The World's Fair at Chicago gave us a half-dozen medals. They'll be delivered, so they tell us, about February, 1, 1896. A little late; but, added to those we have, they'll make a fine display.

Taking medals is "dead easy"; but, what is more to the purpose, the people are taking

Goodyear Welt Shoes

And wearing them. Easier, stronger, and wear longer than the hand-sewed kind; cost less.

Try a pair, but first be sure you get Goodyear Welt Shoes. Any honest shoe merchant has them in all grades, all styles, for both sexes.

Smooth bottoms seat the foot, no wax, no tacks, no nails to hurt the feet, do not rip, pliable, easy, comfortable, stronger, fit better, and keep shape better than hand-sewed shoes, because the machines draw tighter stitches than the hand workman can; repaired same as hand-sewed shoes—these are some of the good points in Goodyear Welt Shoes.
