THE quaint and beautiful drama of "Rip Van Winkle," with Robert McWade in his great impersonation of "Rip," at the Theatre this evening.

DREADFUL CASUALITY! A man broke his jaw (nearly) in trying to eat tough beef. Accidents of this kind may be avoided by buying nice fresh fish daily at Crocheron's Pioneer City Fish Market. d144

Thus talks an old farmer about his boys: From 16 to 20 they knew more than I did; at 25 they knew as much; at 30 they were willing to hear what I had to say; at 35 they asked my advice; and I think when they get to be 40 they will acknowledge that the old man does know something.

VALUABLE AND RELIABLE. — "Brown's Bronchial Troches" are invaluable to those exposed to sudden changes, affording prompt relief in coughs, colds, etc.

Why has Sozodont
Become the staple Dentrifice of America? Simply because it is impossible to use it, even for a week, without perceiving its hygienic effect upon the teeth, the gums and the breath.

To gather pearls from ocean's vases
Divers go down in divers places;
But at our mouths of streams and bays,
No pearls do Asian swimmers raise
Like those in beauty's mouth that shine
Made by the SOZODONT divine.

COUGHS AND COLDS.—Those who are suffering from coughs, colds, hoarseness, sore throat &c., should try "*Brown's Bronchial Troches.*"

JAMES COULT, Plasterer, White washer and Calsominer, residence 7th East Street, 11th Ward, Salt Lake City, is prepared to receive orders for this class of work, which will be promptly attended to.

Orders from the country will receive especial attention. d130

In Anoka, Minn., recently, a six-year-old girl was overheard telling her playmate that she had attended a church sociable, the evening before, and that a little boy kissed her while they were engaged in a play, but she said: "That's no harm, 'cause it was our preacher's boy, you know."

$8.00 per ton at the depot. **Crismon's** coal, the best for family use, reduced to **$8.00.** Remember this, and leave your orders at Z. C. M. I. drug store, at the yard, or at office M. B. Callahan's, where they will receive prompt attention. CRISMON BROS.,

WHAT a beautiful lot of **Baby Carriages** and so very cheap at Dinwoodey's Furniture Store. d125

PUBLIC speakers and singers will find "*Brown's Bronchial Troches*" beneficial in clearing the voice before speaking or singing, and relieving the throat after any exertion of the vocal organs. For coughs and colds the Troches are effectual. d143 eod

LYON'S KATHAIRON.

Lyon's Kathairon is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing headache and throbbing temples, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Kathairon properly.

HAGAN'S MAGNOLIA BALM

is an unfailing prescription for a faultless complexion. Sallowness, roughness, sunburn, moth patches, freckles, discoloration, dark spots, unwholesome paleness, tan, pimples, eruptions, redness and every other blemish disappear like magic by the use of Hagan's Magnolia Balm. A few applications applied with a soft linen cloth will leave the delicate hues of refined beauty and youthful bloom. Its application cannot be detected, and it is absolutely free from all possible harm, warranted purely a vegetable extract from the flowers of Southern France.

THE RESURRECTION.—To accomodate the public and meet the great demand for President Young's discourse on the "Resurrection" it has been determined to issue an authorized edition, in pamphlet form, neatly got up, in paper covers, and sold at ten cents a copy. It is now ready, and can be obtained at the NEWS office.

EVENING NEWS.

PRICE OF GOLD.

Corrected daily by Deseret National Bank.

SALT LAKE CITY, May 12, 1876.

Buying at $1.10¼ : *selling at* $1.12¼.

Local and Other Matters.

THERMOMETER 79 degrees F. in the shade at 1 p.m. to-day. Breezy, rather cloudy.

Admitted to Bail.—Yesterday, Judge Boreman admitted Dame, Lee and Adair to bail, in the respective sums of $20,000, $15,000, and $10,000.

The New Chief Justice.—Chief Justice Schaeffer is expected to be in Salt Lake, ready to assume his official labors, about the beginning of next month.

Confirmed.—The Washington *Star* of May 6 says—

"The Senate yesterday confirmed the following nominations—John W. Barnes, of Nebraska, receiver of public moneys for Beaver land district, Utah; Chas. M. Howard, of Michigan, register for the same."

The St. George Temple.—We understand the St. George Temple will be completed as soon as possible. Arrangements will be at once made to send the necessary complement of workmen there to accomplish this desirable object.

That Directory.—The business directory painted by Mr. William C. Morris, referred to in the NEWS the other evening, as a most excellent specimen of art, is now in position in the corridor of the Post-office, where it attracts public attention. Take a look at it.

Body Found.—The Ogden *Junction*, of May 10th, has the following—

"WEBER, May 10th, 1876.

"Joshua Williams, Esq.:

"Dear Sir:—The body of the little girl, [daughter of Mrs. O'Keefe], who was drowned at Weber Quarry, a few days ago, was found yesterday, about six miles down the river. Yours,
"A. H. VILLAS."

A Child Trap.—This morning a man living in the 20th Ward was before Justice Pyper on a charge of leaving a fifty-feet deep well open at the top, exposing children rambling in the vicinity to the danger of falling into this child-trap. The Justice gave the accused twenty-four hours in which to secure the opening.

On the Cheap.—This morning a burly Teuton entered a saloon, called for intoxicating beverages, disposed of them and then refused to furnish the equivalent therefor. A conservator of the peace was called and invited him to the City Hall. The Teuton refused to accompany him there until he found discretion to be the better part of valor.

"Juvenile Instructor."—We have to hand No. 8 of the current number of the *Juvenile Instructor*. Besides two articles continued from previous issues, there are "Down in a Volcano," "Musk," "Editorial Thoughts," "The Explosion," and various other papers, interesting, useful and instructive. There is an installment of the "History of Joseph, the Prophet," as usual. We have no hesitancy in recommending the *Instructor* as a most excellent family periodical.

Something Worth Knowing.—The *Scientific American* says that Mons. Eugene Tisseraud has recently communicated to the Academy of Sciences the fact—learned from his own observations—that if milk, as soon as possible after being drawn, is placed in a cold atmosphere—say a refrigerator—and an even temperature is maintained for twenty-four or thirty-six hours, it will be found that the refrigeration arrests all process of fermentation, and that the nearer the temperature of the milk is to freezing point, the more rapid will be the collection of cream, the more considerable will be the amount of cream, the amount of butter is greater; and the skimmed milk, the butter, and the cheese produced therefrom will be of better quality.

Hasn't Appeared.—The man capable of explaining Lanier's Centennial Cantata has not yet appeared, and it is questionable if he ever will. Now that the effusion has had time to get cold, it is an open question as to whether the author could do it himself. It is more than probable he may be in a similar situation a friend of ours was once in regarding his own handwriting, when he had to send for a former clerk of his to read one of his own letters, being utterly incapable of deciphering the document himself.

Although, as the report of the opening of the Exposition stated that "every word of the basso solo by Mr. Myrn N. Whitney was distinctly audible at the rear of the guests' platform," it is very questionable if the purport of the combinations of those words was understood by the intelligent audience.

Epidemic — Crops — Smelters.—Brother B. W. Driggs sends us the following from West Jordan, dated yesterday—

"An epidemic, known as diphtheria, is very prevalent in this neighborhood at present, with serious results. Brother Frederick A. Cooper, of this place, lost three children the last week, two of whom are lying dead in his house at this time. Many families are suffering with this dreadful disease.

"Prospects in other matters are flattering; crops bid fair, of which a larger than usual breadth has been sown.

"Quite an area of new land, on the west of the river has been planted this Spring. The county canal, so long under way, is so far completed as to encourage the hope that water will be plentiful this Summer.

"The stray pound business will no doubt be lively here this Summer. Through this medium and the exertions of the Cotton ranch fraternity, mouth of Bingham cañon, the county will be rid of many a 'bronco' horse.

"The Jordan or Galena Mining and Smelting Company, as also Sheridan Hill, are doing a fair business."

Why.—Now the question is asked why Walt Whitman was not induced to contribute a bundle of unintelligible lines of "Poetry," as well as Lanier, for the Centennial.

Jamaica Ginger.—Another addition has lately been made to the continually enlarging catalogue of home productions. This time it is "Essence of Jamaica Ginger," produced by R. Mathews & Co., of this City. We have tested the article and pronounce it, according to our judgment, excellent, being chemically pure. Prof. Barfoot is chemical director of the company manufacturing it, and his name, and the names of his associates are guarantees of good faith as to the purity of the article, which is good as possessing medicinal properties applicable in several common complaints. We do not think there is a superior article of the kind in the market.

Theatre.—The California Minstrels had another good house last night. Their performances were excellent as usual. The songs of the various gentlemen, the instrumental accompaniment, Mr. W. Emerson in his singing and dancing specialties, the banjo solo of Mr. Coes, Messrs. Schoolcraft and Oberist in their farcical sketch, and Mr. Ben Cotton as the "Coming Man," afforded a large amount of amusement and satisfaction. The brief farce last mentioned elicited uproarous laughter and sent the audience home in great glee.

This evening there is another attractive entertainment—the touching drama of "Rip Van Winkle." Mr. Robert McWade appears in his masterly impersonation of the kind-hearted, weak, ever-"shworing off" "Rip." Mr. Lindsay appears as "Knickerbocker," Mr. Harris as "Nick Vedder," "Mr. Bewring as "Lawyer App," Miss Walters as "Rip's Wife" and "Mrs. Knickerbocker." Other characters by the company.

Mr. Wade also appears in the grand "Rip Van Winkle" Matinee to-morrow.

Eastern Question.

BERLIN, 12.—The rumors of a general European Conference on the situation in Turkey are premature, but it is thought that it is probable that the question of holding on will be considered, should Turkey herself propose such a course to the guaranteeing powers first.

A conference of the three imperial chancellors—Count Andrassy and Princes Gortschakoff and Bismarck, was had yesterday at Prince Bismarck's residence. It is understood that Andrassy's note will form the basis of their conference.

The Turkish Ambassador has been instructed to express to the representatives of the Great Powers the Porte's deep regret at the Salonica outrage, and give assurances that the guilty persons will be punished. He is also instructed to declare that the Porte is willing to meet the wishes of the three Emperors regarding the execution of the programme embodied in Andrassy's note, and will raise no objection to the guarantees which may be required by the powers.

FRANCE.

Died.

PARIS, 12.—Amable Richard, Minister of the Interior, died last night.

A Paris dispatch to the *Times* says Ricard's death was caused by rupture and aneurism. This event will cause great sorrow in the political world and among his friends.
