PRICE OF GOLD.

Corrected Daily by HOOPER, ELDRIDGE & Co., Bankers.

SALT LAKE CITY, March 7, 1871.

Buying at $1.08½; Selling at $1.11½.

LOCAL AND OTHER MATTERS.

EXTRAORDINARY ATTRACTION.—There will be an extraordinary attraction at the Theatre to-morrow night. In addition to the drama, "Ireland as it Was," and the farce, "Dandelion's Dodges," there will be a grand piano solo by Signor Farini, who comes here with a reputation equal to any pianist in the country. The solo is of the Signor's own arrangement, entitled "The Mocking Bird," and will be played between the pieces. All lovers of music in the city should avail themselves of the opportunity to hear it.

HYRUM.—In Hyrum, Cache Co., an association was lately formed and the necessary stock subscribed for the purpose of putting a co-operative saw mill in operation in Hyrum kanyon. An industrial school has been established in the above place, in which the young ladies of the settlement are taught the useful art of straw braiding.

"FARM POMOLOGIST."—The following is from a late number of the above paper:

Gooseberries should by all means be in place before the buds swell. They stand a poor chance if removed in hot weather, after starting to grow, and much the same may be said of currants and all early starting shrubs, shade and timber trees.

As soon as freezing nights are over Onions, Peas, Radishes, Beets and Carrots should be planted, and the ground kept moderately moist. These will stand cold and considerable frost, and generally do better when planted early.

LECTURE AND READING ROOMS.—The first free lecture, under the auspices of the Library, Reading Room and Lecture Association, took place last night, in Morgan's Commercial College building, in the 14th Ward. The subject of the lecture was: "Libraries and Reading Rooms;" the lecturer on the occasion was Hon. Wilford Woodruff, who, after singing and prayer, gave a very interesting lecture on the subject. He mentioned the interest he felt in the welfare of this people, particularly in their intellectual welfare: quoted a passage from the Doctrine and Covenants, concerning the acquisition of knowledge from all good books; recommended reading history; private means, as a general thing, was insufficient to establish a suitable library, even for family use, and hence the advantage of free reading rooms, giving the public access to the daily papers, and telegrams from the whole world. The reading room does much to draw the mind of youth from the vortex of "civilization" so-called. Mentioned his own personal experience, and the profit he had derived from reading travels, history and scientific works; also President Smith's excellent memory gained by cultivation. Advised the people to contribute books and means to the library, and to improve their leisure time in treasuring up knowledge, especially of the rise and progress of this people and their remarkable history. Wished the undertaking success; encouraged the committee to go forward in their work. The library will be an advantage to both old and young. Advised the keeping of a personal journal, and spoke of its interest to generations coming. Said that an education was the best legacy, and that novels lead the mind astray; useful books vice versa. Closed by saying that the acquisition of knowledge is of slow growth and the result of patient labor.

A vote of thanks was tendered to the lecturer, and after singing and prayer the meeting was dismissed.

Hon. Albert Carrington will deliver the second lecture of the series, on Monday, 13th March, 1871, at the College building, under the auspices of the Library Association. Lecture free.

THE GALE LAST NIGHT.—The gale last night, was one of the fiercest known in this city or vicinity for several years; but severe as it was we have heard of but one casualty from its effects, and that was in the Sugar House Ward. Warden Rockwood dropped into the office this morning, and informed us that Mrs. Conwell, residing near the Penitentiary, came over to his house in a big hurry at about five o'clock this morning, informing him that the wind had blown the chimney down and the roof off her house, and that her husband lay there sick and helpless. Aid was immediately sent, and the sick man was removed on a litter to the Warden House, where he and his wife will remain until the damage to their building is repaired. This will be in a day or two, as the Warden sent into the city this morning for shingles and nails and whatever was wanted to effect the reconstruction necessary, which some of the forces at his disposal will soon be able to accomplish.

ABOLISHMENT OF CAPITAL PUNISHMENT.—There is a prospect that capital punishment will be abolished in the State of Nevada, in future. Mr. Clinton Patchen lately brought a bill before the State Assembly for that purpose. The bill passed that body by a vote of twenty-four to twenty. However, according to facts which were brought up in favor of the passage of the measure, the spirit and letter of the bill has been all but carried out in Nevada for years, as will be seen from the following, from a late issue of the *Reese River Reveille*:

"The main argument in favor of the bill was that the present law was a failure, nine-tenths of all the jurors being tacitly opposed to capital punishment. Mr. Lowry ventured the proposition that not less than six hundred murders had been committed in this State, and that but seven persons have been executed. The statement in regard to the number of murders is undoubtedly exaggerated, though it is certain that the number of executions bears no proportion to that of deliberate murders committed. Our opinion is that if juries had discharged their duties to the letter, the saving of human life would have been great. For every murderer who cheated the gallows, a dozen victims have been sacrificed."

SIX DOLLARS FOR THIRTY-FIVE CENTS.—No. 15 of Howe's *Musical Monthly*, the cheapest musical publication in this country, and probably in the world, was received this morning. It is a perfect marvel for lowness of price. It is printed on fine, stout paper, and in clear bold type. The present number contains four sets of standard waltzes; seven marches, polkas and mazurkas, and the words of twelve songs with piano accompaniment. The publisher says that if the pieces it contains were bought separately they would cost six dollars—a statement we can readily believe. It is published monthly at thirty-five cents, or three dollars a year, by Elias Howe, 103 Court St., Boston; and may be obtained through Calder's Music Store, or Dwyer's News Depot, East Temple St.

RENOWN.—Dr. J. D. Mark, Homeopathic practitioner, has removed his office, from a block and a half east of the Theatre, to his present place of business, on First South Street, a little west of the Meat Market, and immediately opposite Mrs. Pratt's school, where he is prepared to wait on his friends and patrons.

DIED.

At Walsburg, Round Valley, on the 21st ult., JOHN T., son of Hyrum S. and Emily Workman, aged 2 months and 10 days.

In this city, Feb. 28th, inst., EDWIN ROBERTS, son of Joseph and Caroline Rawlings.

FOUND.—On East Temple street, about two weeks ago, a small Bunch of Keys. The owner can have them by applying at this office. 433 tf

SUMMONSES.—We are now prepared to supply Justices of the Peace with Blank forms of summonses. Other Blanks usual also for sale at this Office. 428,434w-tf

☞ ☞ FAIR WARNING! ☜ ☜

The residents of Utah are cautioned against braggart impecunious Life Insurance Companies (vide Insurance Monitor). The Mutual Life of New York has been established Twenty-Eight years, has nearly Forty-Five Million Dollars Assets, and stands first in the world for capital and stability. Rates lower than any other paying corporation; Dividends nearly double any other Company. d75 tf

Enterprising! Economical! Liberal! Safe!
ORGANIZED IN MAY, 1866.

12,537 POLICIES ISSUED AND REVIVED IN 1870.
ISSUING 1,074 POLICIES MORE THAN ANY OTHER COMP'Y IN THE WORLD!
Insuring $25,440,000.00, a gain of 50 per cent. over 1869.
☞ 32,400 Policies Issued up to December 31st, 1870. ☜
Income for the Year 1870, - $2,128,201.16.

This is a progress as remarkable as it is encouraging. It is an axiom laid down by the oldest and most experienced actuaries, that the more NEW POLICIES that are issued to replace death claims, the more stability is insured, and the larger the NEW BUSINESS of a company, the more favorable is its relative position with that of others.

Paid in Death Claims and Annuities in the year 1870, $316,000.00, Which is a large sum, and yet a very low average of losses.

Paid to our Policy-holders in Dividends and for purchased policies, in the year 1870, the large sum of - - - - - - $482,694.00,
And have in hand for next dividend more than half a million of earned surplus, after defending permanent insurance fund, capital stock, and all other liabilities.

☞ No other Company surpasses the CONTINENTAL in ability to pay large Dividends to its members.

NET ASSETS, Dec. 31, 1870, - $4,505,235.29.

This company is Purely Mutual in its operations, dividing its entire surplus among its policy-holders annually on the Contribution Plan; and claims a larger business, and a lower ratio of expense to income than has ever been attained by any other company at a corresponding period in the history of another New York Company showing as low a rate of expense to income. No Extra Premium for travel or foreign residence. No Extra Premium on women. Thirty days grace on the payment of premiums. All Policies non-forfeitable, according to the expressed terms contained in each policy. Policy-holders have a voice in the elections and management of the company. Policies incontestible for the customary reasons.
