# MINING, BUSINESS AND STOCKS

## PIT EXCITED AS GOOD WEEK ENDS

### Uncle Sam Causes Scramble Among Brokers Who Crowd Exchange Floor.

### STOCK CONTINUES SKYWARD.

**Thousands of Shares Sell at Almost Any Price Holders Asked—Market is Strong.**

It has been a long time since the local stock pit witnessed as much excitement or heard as much noise or did as much business as it did this morning. Uncle Sam was the big feature with a capital F, and when this stock was opened for trading, the pit became filled with brokers anxious to sell or buy, with more wanting to buy than to sell. The ore find, as reported at length in yesterday's "News," has been confirmed and according to a message from the superintendent at the property, is bigger than it was at first expected.

"We have a bonanza," is the gist of this message. "The whole face is in ore, and there seems no end of it." Mr. Dern, sponsor of the Tintic family, of which Uncle Sam is a prominent member, was happy this morning—that's putting it mildly. Uncle Sam's activity has thrown a long-lacking ginger into trading, and all stocks are being exchanged at better figures than have been marked up for some time. A noticeable instance of "sympathetic" strength is that displayed by Yankee Con., a neighbor of Uncle Sam's. Yankee has been idle around the 44 cent mark for a few days, but sold at 48 on the open board this morning. The whole market is in better condition than it has been for months, and brokers are jubilant.

MAY DAY IS ACTIVE.

The trading was opened this morning by Carisa at 65 and 64; 300 going at the first price and 200 at the second. Lower Mammoth sold at $1.95 followed by May Day, another neighbor of the Uncle Sam. May Day sold heavy during both calls and climbed through each succeeding sale. The first run brought out 7,000 at 28, the second, 2,500 at 28½. When the open board call rolled around 2,000 May Day went at 28½ and closed its activity with the transfer of 1,000 at 29. When May Day stepped out Nevada Hills came in and 100 sold for $4.40. This is a high price and one that seems likely to hold good. Then came Uncle Sam. That's a story in itself.

BIG SCRAMBLE ENSUES.

The minute the stock was called the noise began. The pit, for weeks, only partially filled with brokers was crowded by the time the stock came along. Uncle Sam closed yesterday at 65, after a sensational run from 58 and the spectators made cigar bets on the impending run. When it became possible to distinguish a "bid" from an "ask" the stock was at 71. Sale after sale was made at this figure and in no time, 1,000 shares had been snapped up. In their anxiety to get in on the good thing, brokers yelled at the top of their voices and everybody argued with everybody the instant someone shouted "sold" or "take it" lough enough to be heard above the din. The caller pounded his right arm into lameness trying to keep business straightened out and a number of sales were called off on account of disputes. From 71 the stock went to 75 and all in all 9,100 shares moved; 800 followed at 76 and 1,600 at 77. This appeared to be the limit decided upon by the buyers so the stock went back to 74, 2,000 going at this figure, (seller sixty) and 1,000 flat. The open board trading in Uncle Sam was even more exciting and noisier. Sales and prices paid follow: 500 at 75, seller 60; 1,000 at 75; 1,300 at 76; 500 at 77, seller 60; 200 at 78; 200 at 79; 1,500 at 80; 100 at 81; 200 at 82.

Yankee—500 at 48.

### NEW COMPANY BORN.

**Salt Lake Mining and Milling Company Prepares to Develop Ground.**

Special Correspondence.

Provo, April 27.—Articles of incorporation of the Salt Lake Mining & Milling company, with its principal place of business in Salt Lake City, have been prepared here. The company owns the Red Rose group of 14 mining claims in the Detroit mining district, on which sufficient work has been done to demonstrate that the claims contain large deposits of copper with small values of gold and silver. The capital stock is $100,000. In shares of the par value of 10 cents each.

### NEW DISTRICT OPENS.

**Southwestern Portion of Wonder Territory Has Several Good Mines.**

Special Correspondence.

Wonder, Nev., April 25.—Following the news of sensational strikes in the southwestern part of the Wonder district, on the Golden, Rich Gulch and Colorados, comes the announcement that still further southwest, fully two miles south of the Colorado and Rich Gulch groups, in the same range of hills, shipping ore has been opened up on the Black Rock group. Samples taken give assays of from $9 to $800 in silver and gold.

Much importance attaches to this discovery. High grade ore was originally opened up here in the Jackpot and the Nevada Wonder. Then came the great strike on the Spider and Wasp. The Spider and Wasp is fully five miles northwest of the Nevada Wonder. A mining precedent was broken there. Usually the activities of a young camp are confined to properties in the immediate vicinity of the district's firstborn.

A few months thereafter shipping ore was opened up on the Billy-the-Kid (Ruby), nearly two miles south of the Spider and Wasp and three west of the Nevada Wonder. Then followed in quick succession sensational strikes on the Colorados, Rich Gulch and Golden Wonder that adjoin each other a mile to the south of the Billy-th-eKid, and fully three miles to the west of the Nevada Wonder. The Black Rock group, being a good two miles south of the Rich Gulch, proves up the western part of the Wonder district for five miles north and south.

The eastern section of the Wonder district is proved for two miles. What is happening is not the result of chance. Geologists who visited this district early declared that the main mineral belt lay to the west, that its trend was north and south, and that it was a part of the same mineral belt as Fairview, 16 miles to the south. The next map of Wonder will show the western section to be the all-important one of the camp, and the ground occupied by the Colorados, Rich Gulch and Wonder to be squarely in the district's center. The Black Rock ocuepies the same relative position on the south of these three noted properties as does the Spider and Wasp on the north.

### TO RUSH MATERIALS.

**Ely City Wants 240 Carloads of Supplies at Once.**

Special Correspondence.

Ely, April 25.—J. G. Bayles, assistant general manager of the Ely Townsite company, left yesterday morning for Salt Lake to hurry forward the shipments of material ordered for the building operations in Ely City.

The Townsite company has now ordered and on the way here 90 carloads of lumber, 20 carloads of brick and 50 carloads of miscellaneous building material.

Mr. Bayles' trip to Salt Lake is to see that this material reaches its destination promptly, so that there will be no lull in activities at Ely City.

### GOOD OIL IN UTAH.

**Precious Fluid is Not Far Below Surface in Washington County.**

"Best indications for oil I have ever seen," was the statement of Walter Spencer, who in company with Sid Hodson has just returned from a several weeks' trip to Washington county, Utah, where they were engaged in staking out large tracts of land, says the Tonopah Sun. The land secured, according to Mr. Spencer, is in the central portion of the county in the heart of the oil belt. Oil stands on the small lakes and springs and the odor can be plainly detected. The sandstone when broken up often contains little cavities filled with oil. Mr. Spencer from a rock about the size of a double fish retorted about a gill of oil which has the strong odor of gasoline and coal oil. It has a much more penetrating odor than th ordinary crude oil and by analisis has been found to be a very high grade product. It is reported that much of the territory is being staked off and that there is great excitement. No well has as yet been drilled but it is thought by experts who have been over the valuable find oil will be struck at comparatively shallow depth. If oil is struck the local men interested will not have to work any more.

On the return Messrs. Spencer and Hodson came via Arizona and on the way captured a Gilla monster which is now on exhibition at Rounsevell's. They were riding on the stage when they saw the monster in the sand. Getting off they stirred him up and he made for a bnuch of sage. They got him angry and he bit the stock of the whip and was easily pulled forth and lodged in a bag. While fooling with the animal he blew at them and both of the capturers were taken ill. In handling the monster great precaution is now taken.

### OPHIR'S TRAM RUNNING.

The Ophir possessions of the Cliff Mining company is now able to ship at least 50 tons more ore every day through the completion of a new tramway. W. F. Snyder has returned from a visit to the property and reports everything in excellent shape. The ore being shipped to the smelters goes strong in lead, silver and has copper and gold values. Probably one-fourth of the property has been prospected and enough ore to assure shipments for four years is now at hand and this supply is being increased right along. The new tramway will handle 15 tons of ore per hour with wagons and railroads in direct connection with each other and it will cost the Cliff company just 90 cents a ton to place the mine's products.

### EUREKA'S RECORD.

**Roads Are Improving, Permitting Mines to Ship in Better Shape.**

Special Correspondence.

Eureka, April 26.—The roads between the railroad station and mines are improving and an increase in the total for the week was noticed this week. The list of mines and the record for each follows:

### CONCENTRATES.

A. J. Davis leaves this afternoon for southern California where he will spend four or five days on mining business.

A telegram received at the local offices brings the information that Samuel Newhouse will reach Salt Lake from New York tomorrow. He will be accompanied by L. Hanchett and others.

Harry Joseph was showing Charles Gaudette, a wealthy operator of Fall River around Bingham yesterday. Mr. Gaudette is a shareholder in a number of Bingham properties, but this was a visit to the camp and mines in which he is interested.

Mat Cullen and associates have organized the Moscow Mining company to take over the Burning Moscow, Uranus Fraction, Moscow Extension and the local group, all Beaver county properties. Mr. Cullen is to be president of the company.

The Congor properties in the Bingham district are said to be bonded to prominent interests whose identity is withheld at present. About $750,000 is mentioned as the consideration for the properties which cover 155 acres adjoining the Bingham Amalgamated, Fortuna and Copper Hill properties.

John Graham, two other carpenters, Pat Watson, a stone mason and other workmen constitute a party leaving this afternoon for the antimony mines below Marysvale. A jig mill is to be erected as quickly as possible and another product thus added to Utah's constantly growing list.

President Stephen O. Snyder of the Gray Warrior Mining company is now on the company's placer holdings about 73 miles from Boise and on the Middle Boise river. Everything is in readiness for active work and preparations are now nearing completion to start the machinery going upon a long run. The company owns 160 acres of ground and good rock has been found along the Swanholm creek, to which the Gray Warrior has water rights.

Native copper is said to have been found at the mouth of Santaquin canyon and three miles from the town of that name. The reported find was made in the 20 foot shaft being sunk by John T. Openshaw and Charles and William Higginson. In this shaft it is said two feet of ore filled with native copper was found and this carries native copper. The ledge on which the shaft is being sunk is 40 feet wide on the surface. The reported find has created considerable excitement in the towns along the southern edge of Utah lake.

The Ohio-Kentucky has just sent two compressor plants to the Susan Duster and Prince, two of its best mines in the Pioche district. The Susan Duster shows good ore at a depth of 150 feet. The shaft dropped through the vein to 200 feet and at this depth, levels will be run towards the ore. A 100 foot iron-lead vein has been opened in the Prince and sinking is being carried on there, too. Numerous shipments of machinery are enroute towards Pioche, showing that the camp is to open up in great shape within a short time, as the mines are evidently in excellent condition and anxious to do business on a big scale.

All printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

## STOCK TRADING INSIGNIFICANT

### Disposition to Drag But Decline Stopped by Appearance of Buying Orders.

### DEMAND SOON EXHAUSTED.

**Higher Prices After Appearance of the Bank Statement—Close Firm But Nearly Lifeless.**

New York, April 27.—The opening dealings in stocks were insignificant in volume and there was no decisive current in the price movement. The drift was limited to small fractions either way.

The market showed a disposition to sag after the opening, but the decline had only reached ½ in Union Pacific and Reading when buying orders appeared. Later transactions were on a rising scale but the demand was exhausted by the time the market had gotten back to a parity with yesterday's closing. Denver & Rio Grande fell 1⅞.

The market closed firm but almost lifeless. The higher prices after the bank statement was published were made on very light transactions and did not hold at the top. Union Pacific rose 1¼, Northern Pacific 1¼ and Southern Pacific, Atchison, St. Paul preferred and Erie second preferred 1. Prices recovered again in the final dealings.

### LIVESTOCK.

CHICAGO.

Chicago, April 27.—Cattle—Receipts, 600; market steady. Beeves, 4.20@6.35; cows, 1.80@4.80; heifers, 2.75@5.40; calves, 3.50@5.50; good to prime steers, 5.35@6.55; poor to medium, 4.30@6.30; stockers and feeders, 2.80@5.10.

### PRODUCE.

CHICAGO.

Chicago, April 27.—The wheat market opened active and strong on good general demand. Continued absence of rain in Kansas was the main feature contributing to the strength. An advance of ½ to ¾d in the price of wheat at Liverpool was a bullish influence. July opened ⅝ to ⅞ to ⅞@⅞ higher at 83⅝ to 84.

In sympathy with wheat July corn opened ⅛ to ¼ higher at 50 to 50⅛@50¼ and on profit-taking sold off to 49⅝.

The close was steady ⅛@¼ under yesterday at 82⅝@83¼.

Corn closed easy, ⅜ lower at 49⅝.

Close: Wheat—May, 80½; July, 83⅛@83¼.
Corn—May, 50; July, 49⅝.
Oats—May, 44⅝; July, 41⅛@41⅞.
Pork—May, 15.50; July, 15.27½.
Lard—May, 8.62½@8.67½; July, 8.77½@8.80.
Ribs—May, 8.57½; July, 8.72½@8.75.
Rye—Cash, 72.
Barley—Cash, 66@74.

BUTTER AND EGGS.

New York, April 27.—Butter, easy, steady. Western factory to common, 21@23; eastern imitation creamery extras, 26; firsts, 23@24.

Eggs—Firm. Western regular packed firsts, 17½.

Chicago, April 27.—Butter, weak; creamery, 23@26; dairy, 22@23½.

Eggs—Firm, 15½@15½.

| April 25.. | 812,349.03 | 625,141.57 |
| April 26.. | 946,497.05 | 628,707.24 |
| April 27.. | 849,712.34 | 615,003.32 |
| Totals ... | $5,357,976.58 | $3,849,512.80 |

Increase, $1,508,463.78.

### ASSOCIATED WESTERN YALE CLUBS MEETING.

Cincinnati, April 27.—At the third annual meeting of the Associated Western Yale clubs in this city today President Arthur T. Hadley was the guest of honor, but chief interest centered on Secy. of War Taft, who presided as head of the organization. There was a general discussion of the best methods of extending the usefulness of Yale university in the west. Three hundred Yale graduates were present, representing all cities and states west to the Pacific coast.

### KATE CHESTER KILLED.

Peoria, Ill., April 27.—Mrs. Mate Chester of Chicago, grand secretary for Illinois of the order of the Eastern Star, fell down an elevator shaft in a hotel here today and was killed.

The Seven Troughs Red Top Mining Company
Is Now Offering to the Public
50,000 Shares of Its Treasury Stock at 10 Cents per Share
This property consists of approximately 45 acres, located in the heart of the Seven Troughs district, and is surrounded by some of the best properties in the camp. The Seven Troughs Kindergarten, on the east, in which Jesse Knight and associates are interested, is now shipping rich ore regularly; the Mazuma Mine, on the north, is sacking ore that averages better than $2,000 per ton; rich ore has recently been encountered on the Tiger claim adjoining us, and the ledge crosses the Red Top property at about 100 feet from where they struck the ore. We are sinking to tap this ledge, and should soon have as good a mine as any in the district.
Do not hesitate until this stock advances. Wire your order to-day for the number of shares you want, and let your remittance follow by mail. Subscriptions are now being received at the National Bank of the Republic, Salt Lake City, and at the office of the
Seven Troughs Investment Company Inc.
