RECEPTION FOR RETURNING VOLUNTEERS.

The Ogden Red Cross society has taken the initiative in the matter of providing a suitable reception for our boys returning from the Philippines. The society was active in supporting the needs of the soldiers as they passed through this city on their way to the coast, and has contributed to their comfort while in Ogden. Now preparations are being made to give the Utah, Wyoming, Idaho and Nebraska volunteers, who are expected to call in Ogden at the same time, a grand reception here. The committee will hold a meeting this evening in the county court house to decide whether the other counties will be invited to join in and make it a grand Utah celebration.

OBJECT TO INCREASED VALUATIONS.

The merchants of this city met with the county commissioners yesterday morning to talk over the matter of the proposed gigantic raise of assessed valuation in Weber county, and protest against it. A good showing was made against the proposition.

Soon after the meeting closed the board of county commissioners and other county officers met and held a conference with the State board of equalization, which consists of Governor Wells, Secretary Dyer and Auditor Lyman. Quite a number of Ogden merchants were present at the meeting. Governor Wells said the board had adjourned himself to the conference, saying that the board had no power to decrease the valuations, but considered the advisability of raising the assessed valuation of the city and county. The board had asked the merchants to be in the changes in valuations every one of the city and county. These explanations were made by the county officers and then the meeting of the board adjourned.

The members of the State board of equalization, consisting of Governor Wells, Secretary Thomas, Treasurer Jennings and C. Nelson, went south on the 2:30 p. m. train yesterday.
