TO THE NORTH POLE.

Attempt to Reach the Mysterious Region by Balloon.

A Plan Submitted by an Aeronaut and Endorsed by Baron Nordenskiold.

STOCKHOLM, Feb. 23. [Special]—Chief Engineer S. A. Andree, the Swedish aeronaut, has made up his mind to reach the North pole by means of a balloon. If all arrangements can be finished in time the journey will be undertaken already this summer; in any case not before the summer of 1896.

The Swedish Academy of Science and the Swedish Society of Anthropology and Geography recommend warmly Mr. Andree's plan, and will probably also bear the cost of the trip.
