MINING, BUSINESS AND STOCKS.

MAMMOTH WAS THE FAVORITE.

Opened at a Decline, but Soon Recovered.

PETRO SOMEWHAT RAGGED.

The Day's Business on the Salt Lake Exchange Was Light—Week's Sales.

TODAY'S METALS:
SILVER 59
LEAD $4.40
CASTING COPPER 17.

The bulls and bears continued one of the slowest days of the week on the Salt Lake Exchange yesterday, although the tone of the market was excellent, the stocks generally showing an upward tendency at the close. Mammoth was again the real feature of the day, 1,000 shares changing hands. The first sale of this favorite was at 2.30 and the last, on 500 shares block, at 2.35. The strength of Mammoth, in view of the litigation pending, with the probability that all shareholders will soon be represented, is surprising. The closing bid for Grand Central was 1.60, but no sales were recorded. Petro was weaker, with a considerable range in the prices sold, going as low as 45 and as high as 75c. Hercules was in demand at all the way from 24c to a trade. There was no change in Daly West, one block going at 12.00.

LISTED MINES.

Stocks.	Bid.	Asked.
Anchor		
Alta	1.00	1.10
Alliance	65	69
Allouez	45	
Bullion-Beck		4.00

Davis' Hosiery Mending Works, Tiles.

VIOLENT SLUMP IN STOCK MARKET

Closing Furiously Active and Excited, Showing Demoralization.

WALL STREET WORRY TODAY

Bidding Wildly in Bank Reserve Issues—Sale to be Thrown Over to 40 Brokerage.

New York, Sept. 15.—There was a disposition to overall business in the last five minutes, pending the publication of the bank statement. The immediate generally worse tight, and Amalgamated, copper and Sugar Trust—the volume of the latter being 5 per cent of Manhattan. Brooklyn Transit fell five at 65 to 64—the lowest price since the opening of the year. Sugar was down 3 at 127, and Tobacco 3 at 39. The closing was very active and excited, showing demoralization.

The appearance of the bank statement was a surprise, reserves increased to an extent of nearly three millions, when the expectation was for a decrease of about two millions. The decline in the market was precipitated by the statement, and the bulls were unable to rally from the effects of it. The bears were active in the last hour, and the market closed in a state of demoralization, with bidding in some issues wildly, and sellers in some cases, unable to find takers. The bank statement was not well understood, and was further confused by the bears' claim that the increase in reserves was due to the recent sale of securities by the banks. There was no more actual selling pressure, and prevailing opinion was that the sale of the stocks by the banks was made in order to give room for a bear raid, or a bear raid on a large scale.

The Transit is now the only security left at a low price, comparatively speaking, and the Tractions were demoralized by the bears. This will take a year or more to work off, and the Tractions will be sold to bears at the expense of the property, at the end of that time, unless the management can prevent it. The Sugar stock was the bear's best card today, and the bears made the most of it. It is a fact, that some of the refiners are from the lower working classes.

Hereafter the refiners and the sugar refiners stock is going down with those of the companies, and the Sugar Trust will be driven out of the refinery, joined in a union of labor with the Sugar Trust employees, and the Sugar Trust will be unemployed forever. The issues that are the Sugar Trust are absolutely worthless, and the Sugar Trust employees are going to find out that the Sugar Trust is a fraud. The bears have made several incidental improvements, and prevented the Sugar Trust from selling stock, and the sale of the stock is
