Wired From Washington.

WASHINGTON, 12.—Defense opened the day's proceedings in the Star route trial by calling Delegate Martin Maginnis, of Montana, to the witness stand.

The issue of standard silver dollars from the mints the week ending the 10th was 269,000; for the corresponding period last year, 144,000.

The *Sunday Capitol* says: Secretary Chandler will name the new 4,300 ton steel cruiser the *Chicago*. It is to represent the latest and best naval architecture.

It is understood that Senator Edmunds will only retain the office of President of the Senate until next December, when he will make way for Senator Anthony.

The Secretary of War has requested the President to order a court of inquiry to investigate General Hazen's administration of the signal service. The detail for the court may be expected in a few days.

The United States Treasurer says the gold, silver and United States notes in the Treasury to-day are as follows: Gold coin and bullion, $179,685,000; silver dollars or bullion, $105,251,198; fractional silver, $1,766,084.72; United States notes, $45,584,268; total, $358,188,946. Certificates outstanding—gold, $42,585,866; silver, $68,714,830; currency, $1,575,000.

The Treasury Department to-day mailed copies of the new tariff act to all collectors of customs, together with instructions that sections 7 and 9 of the act go into effect at once, and apply to all goods in bonded warehouses, as well as goods imported after the date of the passage of the act.

The Secretary of the Treasury having directed that the word "cents" be added to the new five-cent piece, the superintendent of the Philadelphia Mint, who designed the original coin, is engaged in preparing a device for the back of the proposed coin which will include the denomination and its value in unmistakable terms.

The President is still indisposed, and to-day refused to see all visitors excepting intimate friends. He has been suffering for some time from catarrhal affection, and is considerably annoyed at its tenacity. He will probably take a trip to Fortress Monroe towards the end of the present week.

The Chippewa Indians of Minnesota had an interview with the Secretary of the Interior to-day, and complained of trespass on their timber lands.

Rear-Admiral J. W. A. Nicholson, lately in command of the European station, was placed on the retired list yesterday, by operation of law. He is succeeded in the command of the European station by Rear-Admiral Charles H. Baldwin, formerly, member of the Light House Board. Rear-Admiral E. S. Cahoun will be retired in April next. These two retirements will make vacancies in the list of Rear-Admirals, which will be filled by the promotion of Commodore R. W. Shufeldt, now on duty with the Naval advisory board.

The Catalogue of Crime.

BUTLER, Iowa, 11.—Col. J. M. Thompson, ex-congressman, is arrested on the charge of raising a note for $400 to $4,000.

New York, 12.—A crank went into Stopen's billiard saloon yesterday afternoon and began—indiscriminate shooting with a revolver. He hurt nobody, but escaped on the elevated railroad. He was in mourning, and had evidently been to one of the famous funerals yesterday.

Columbus, S. C., 11.—Wattley, a patient in the lunatic asylum here, freed himself yesterday and killed a fellow patient and injured others before secured.

Uniontown, Pa., 12.—F. C. Breckenridge was on the witness stand this morning in the Dukes murder case. The point of his testimony was that Nutt was shot by Dukes. He was standing with his right arm resting on the mantel, and his left arm hanging by his side. He was exhausted, and breathing heavily from his struggle with Dukes, which was just over, and making no movement of any kind.

James J. Feather testified this afternoon, in the Dukes-Nutt trial, that after Dukes and Nutt had been separated in the former's room, he pushed Dukes into one corner, when Dukes said, "He came in here to whip me, and I'll shoot him." Feather replied, "He can't whip you now." Dukes drew his revolver and fired across the room at Nutt, killing him. Nutt was making no effort to draw a weapon.

William Packard, clerk in a hardware store, testified that on the Friday preceding the Sunday when the shooting was done, he had sold Dukes a 32-calibre Smith and Wesson double-acting revolver. Dukes selected it with great care from a number of others, saying that he wanted one that was sure. A couple of customers happended to drop into the store at the time, when Dukes concealed himself, saying that he didn't want everybody to know his business.

St Louis, 12.—The sentence on Oby Owen, defaulting teller of the Third National Bank, was again postponed this morning by the United States Court until Saturday next, as further time is required to take Owen's deposition in two suits pending against his bondsmen. Owen has given testimony almost daily, but the utmost secrecy has been preserved. It has leaked out, however, that his evidence is very unsatisfactory, and he has only accounted so far for a little over $40,000 of the $200,000 which he embezzled. The judge stated that he would read Owen's testimony, and that would influence him in passing sentence.

Little Rock, Ark., 12.—Telegrams announce a running fight on Sunday, near Goshen, Washington Co., between pursuing officers and the men who attempted to rob the Little Rock & Fort Smith train. Many shots were exchanged, and one robber was wounded but managed to escape. At last accounts the officers were in hot pursuit near the Missouri line.

Boston, 12.—Patrick Levy, passenger on the steamer Samaria, was arrested on the arrival of the steamer, on the charge of killing Patrick Hurley, farmer, in Mullingar, Ireland. Immediately after leaving Queenstown, Levy informed the officers of the Samaria that he committed the deed two years ago, saying Hurley hired a farm over the head of an evicted tenant, and he was induced by the payment of £20, (by whom he would not state,) to kill him. Levy says he never was suspected of the murder, and left Ireland to seek employment here. His destination was 24 East 21st street, New York, where his aunt, Mrs Partrick Squaulding, resides. Levy now denies the £20 story and says in a drunken quarrel he committed the deed. The British Consul advised letting the man proceed to his destination in New York and be kept under surveillance till advices from England are received.

San Francisco, 10.—Portland dispatch: Julius Marcus, absconding New York broker, is arrested here.

Philadelphia 10.—Thomas Maher, Jr., Isaac Street and Jos. Myers, convicted of making fraudulent returns as election officers, are each sentenced to three months' imprisonment and fined $100, and disfranchised for four years.

Boston, 10.—Harvey H. Follansbee, defaulting treasurer of the Boston Relief Association, is indicted for embezzlement of $27,000.

Atlanta, 10.—A drunken father in Hall County, named Merring, poured a shovel of hot coals on an infant, burning it to death.

Wiggins' Wind.

OTTAWA, Ont., 12.—About 4 o'clock this afternoon a crowd of excited people collected in front of Prof. Wiggin's residence, and began to clamor for his appearance. As the doors and windows remained firmly closed, cries of "fraud" and "humbug" filled the air, and an attack on the house was only averted by the opportune arrival of the police, who quelled the impending disturbance and assured the mob that Wiggins was not at home.

Ottawa, 12—Wiggins, to-day, claims his prophecy has been literally fulfilled. The highest tidal wave ever known has been reported at Halifax, and telegrams received from all ports indicate a severe tempest. He says he has always entertained the greatest anxiety for the safety of the people on the shores of the Bay of Bengal and the Gulf of Mexico. In the former the major tidal wave, of which the minor on our coast was a reflection, must have occurred on the afternoon of the 10th, London time. Hundreds of thousands of lives are perishing. He expresses great fears for the City of Chester, and characterizes this storm as the greatest that can occur on this planet; and the greatness of its extent is the only hope of safety in any particular quarter. He makes a sly hit at the Canadian and United States authorities for not hoisting the storm signals until the storm was actually beating upon the continent. Some people, he adds, expected an impossible storm yesterday; but he repeatedly said his object in making the predictions was for the safety of mariners, as no danger could possibly occur on land, except in the vicinity of places named as being exposed to the tidal wave, but people like to be frightened and cling to their own interpretation in preference to mine.

THE FLOODS.

AUSTRALIA, 12.—A break occurred in the levee at Mason's, just below here, on Saturday night, 500 yards, five feet deep. This will overflow a large portion of the country back of Concordia. The break at Baugh's or Green Grove which occurred on the 7th, overflowed the country back of Australia, before the break at Masons occurred.

Trains west from Delta will run to Tallula. The remainder of the distance, 52 miles, will be made in skiffs and on hand cars; time required for the trip, two days.

Memphis, 12.—The water has fallen nine inches since the decline has set in.

Two negroes, Tom Brown and Aaron Smith, were drowned last week, back of Austin, Miss., by the capsizing of a dug out.

Nothing additional has been learned here of the break which occurred on Saturday evening at Laconer Circle, 150 miles south of Memphis. When the *Kate Adams* passed there a force of men were at work trying to close the crevasse, which was about 25 feet wide, and it was thought they would succeed.

The break in Totten levee, 35 miles below Friar's Point, flooded all the country in the rear, as far down as Australia. This break is just above the line of the second Mississippi levee district, which remains intact, and the planters within that district do not fear an overflow.

Two men, names unknown, were drowned on Friday, 10 miles north of Marion. Their bodies were recovered and buried.

FOREIGN.

British Briefs.

London, 12.—The channel tunnel is vigorously agitated in view of securing government favor. In the mile and a quarter of bore on the French side, the French engineers have shown by experiment that they can proceed to Dover at the rate of 132 feet daily. This would complete the gallery 18 feet wide the whole way across in a little over eighteen months. French enthusiasm on the subject takes no account of English opposition to the tunnel up at London.

The ship *Willshire* at Queenstown, from San Francisco, reports that she fell in with the steamer *Gardenia* in distress, and towed her until February 21st, when in lat. 39 north, long. 20 west, she was obliged to abandon her, the wind being adverse. The *Gardenia* left Newcastle on Jan. 22d, for New York; was taken in tow on Feb. 11th, by the steamer *Boyne*, in lat. 42, long. 49, but the line parted, and the *Boyne* left the *Gardenia* on the 12th.

A stay of proceedings is granted in the suit of the King of the Belgians against Canon Bernard, to recover $700,000 in securities now in the possession of the sheriff. The securities were taken by Bernard, canon of the Catholic church in Belgium, now in prison here.

Mark Lane *Express*, in its review of the British grain trade during the week, says: "This week's spell of wintry weather has been beneficial to the young and weakly wheats which being coated with snow are protected. The supplies of wheat, though curtailed, were in somewhat improved condition. Trade was slow, and prices inanimate; prices unchanged. Foreign trade tedious and dragging; demand was small and supply moderate, rates are slightly lower.

The report that Forster would succeed the Marquis of Lorne as Governor-General of Canada, is discredited.

Wheat, 9s 8d and 10s per cental for California No. 1; 9s 5d and 9s 6d for California No. 2. Receipts of wheat for the week from Atlantic ports, 10,000 quarters; from Pacific, 20,000 quarters from other sources, 89,000 quarters. Receipts of corn, 45,000 quarters.

Dublin, 12.—The murder conspiracy prisoners are notified that their trial will begin April 9th. They will be tried on three counts, the Phoenix Park murders, attempted murder of Juror Field, and conspiracy.

The government has ordered that prompt measures be taken for the relief of starving people at Loughrea.

It is stated that before Egan quitted Ireland, he handed the Land League funds and documents to Parnell, Bigger and McCarthy. Stephens, ex-Fenian head-centre, informed an interviewer that he was never applied to in America to patronise assassins.

General Items.

Paris, 12.—The election for member of the Chamber of Deputies to fill the vacancy caused by the death of Gambetta yesterday, was without result. Sigismond Lecroist received the largest number of votes, but not the requisite number to elect, and another ballot will have to be taken.

Louise Michel has escaped to Ardennes. She writes Henri Rochefort she will appear before the judge when her trial occurs.

The resignation of President Grevy is again rumored.

Berlin, 12—The resignation of Admiral Van Stoch, Chief of the Ministry of Marine, has been in the hands of the Emperor a week.

Baden Baden, 12.—Owing to the suspicion that poison had been administered to him, the body of Gortechakoff will be subjected to an autopsy, and judicial inquiry will be instituted. The remains will be placed in the green chapel, where they will lie in state awaiting conveyance to Russia.

St. Petersburg, 12—Vera Phillipova, an important Nihilist, is arrested.

Markoff, president of the committee regulating the social condition of Russian Jews, has committed suicide.

Paris, 11.—The police dispersed several groups of Socialists in the Place de la Hotel de Ville. They made no resistance. Fifteen hundred persons afterwards reassembled, but the police and mounted municipals again dispersed them, and arrested four persons. The crowd is now marching to the Place du Frone, which is guarded. The cavalry charged twice, knocking down and crushing several men and boys.

Advices from Bangkok, Siam, to the 15th of January, say that the French engineers sent out by DeLesseps to survey the Isthmus of Kraw for a projected ship canal, had departed for Malay Peninsula, to commence work. While at Bangkok they were received by the King, entertained by General Halderman, American Minister, and received many courtesies at the hands of the Siamese princes and nobles.

NOTICE.

In the District Court in and for the Third Judicial District of Utah Territory, County of Salt Lake.

ISABEL DUNN, Plaintiff. vs. JOHN F. DUNN, Defendant. } SUMMONS.

The People of the United States in the Territory of Utah send Greeting: to John F. Dunn, Defendant.

YOU ARE HEREBY REQUIRED TO appear in an action brought against you by the above named plaintiff, in the District Court, of the 3d Judicial District of the Territory of Utah, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this Summons—if served within this County; or, if served out of this County, but in this district, within twenty days; otherwise within forty days—or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to have a decree from this Court dissolving the bonds of matrimony existing between the plaintiff and defendant, and for such other relief in the premises as shall seem to the Court just and equitable. The above relief is demanded by plaintiff upon the grounds that the defendant has wilfully neglected to provide her with the common necessaries of life, and she has been compelled to resort to manual labor for her own support, and that of her husband, and that defendant absents himself from plaintiff for months at a time, and is now so absent. And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to this court for the relief demanded therein.

Witness, the Hon. John A. Hunter, Judge, and the seal of the District Court, of the Third Judicial District, in and for the Territory of Utah, this 6th day of March, in the year of our Lord one thousand, eight hundred and eighty-three.
