IN JACKSON'S HONOR.

Wilson Addresses the Young Men's Democratic Association

ON MODERATE AND JUST TAXATION

Ex-Governor Boies Speaks on Currency Before the Jackonian Club, Omaha.

PHILADELPHIA, Jan. 8.—Jackson day was celebrated by the Young Men's Democratic association for the 25th consecutive time by an elaborate banquet at St. George hall tonight. Vice President Stevenson, who had been expected to be the chief guest, was unable to attend on account of his daughter's illness.

Congressman William L. Wilson, of West Virginia, was the guest of honor and the principal speaker. The toast "Party organization is the controlling force in national legislation; the preservation of great parties is the best security for national liberty," was responded to by Senator Stephen M. White, of California.

"Moderate and just taxation is the best achievement of legislative action," was the subject assigned Congressman Wilson. He said in part:

"Protection, in its real working, is nothing but the old device by which the rich throw on the poor a duty, those who labor in legislative lobbies throw on those who labor in shop and field, the chief burden of supporting the common government, and, in addition thereto, exact from them one or more days in every week of unrequited labor for their benefit and enrichment. A school that is wrong and injurious—the party of Jefferson and of Jackson—the party of free institutions, is pledged to wage a war of extermination.

"Moderate and just taxation is indeed the highest achievement of legislation. If we have taken as a party in our recent efforts to reach this high achievement, as we must admit that we have failed, let us accordingly and in the spirit of the most honest inquiry, ascertain how far that failure has been due to faithlessness in our own efforts or in our ranks, and how far it was due to the entrenchment of privileges so strong and so inveterate that no first assault could hope fully to dislodge it. I am one of those who believe our partial failure has been due to both causes, and so believing, I find in our present reverses no cause for despondency or for party disorganization and apathy, but a higher call to duty, a more advanced party policy, a more steadfast and loyal adherence to it."

SILVER QUESTIONS.

OMAHA, Neb., Jan. 8.—The Jacksonian club, the leading Democratic organization of the state, celebrated the eighty-second anniversary of the birth of their patron saint by a banquet at the Merrier hotel tonight. All the notables of the state democracy were present.

Ex-Governor Horace Boies, of Iowa, was the principal speaker of the evening. Ex-Governor Boies turned his attention to the currency question and said:

"Some effort, it is true, has been made to establish the free coinage of silver at the old or some ratio, but this lacked one of the essentials outlined by both parties, to wit: Proper legislative safeguards to maintain the parity of the two metals.

"To say that no legislation beyond an act using the free coinage of silver, at the old or some other ratio less than that which represents its commercial value with gold is all that is necessary to preserve their parity when coined, is to assume what is not proven, and, to say, under existing circumstances, it would not have that effect is the statement of a proposition equally unsupported by any demonstrated fact.

"The coinage of the silver dollar, for use in the ordinary business of the masses, would, I believe, then become self-regulating. Whenever the volume reached a limit beyond which it could not be used, its further coinage would cease, because of the want of demand for it, and up to that limit, it would continue, because under the plan I am trying to outline, less bullion would be required to make it than is equivalent in larger silver coins of the country.

"This being done, I believe Congress will then establish a ratio between gold and silver, at which, in the judgment of conservative men, bloodily to the free use of both as money metals their party would be likely to be maintained. I know this could not be accomplished except through a compromise of equally honest but conflicting opinions.

"A fixed ratio established, Congress should then provide for the issuing of both gold and silver into coins of the denomination of $5, $10 and $20, and should provide that upon the deposit of either of these coins, or their equivalent in bullion of either metal, in the treasury or any of the subtreasuries of the United States, the government would issue coin certificates, redeemable within a specified number of years, at the option of the government as to the time, and payable in gold or silver at the ratio established, at the option of the holder of the certificates.

"In the whole field of national politics there is, in my judgment, but one question in sight that is of sufficient importance to arouse the masses.

"If the next national Democratic convention will discard political studies of every description, commit the party unequivocally to a ratio at which gold and silver shall be equally freely coined, and put it in explicit terms the legislation that should be adopted to preserve the parity of the two metals so as to do it in a rational and reasonable way, the masses of American voters will come to the aid of the party in overwhelming numbers. If it fails to do this, charging circumstances or a better judgment than my own must reveal the time on which it can succeed."

BODIES FOUND.

Although Twister Did Forgetting the Names of his Own Children.

CHICAGO, Jan. 8.—After searching for more than six months, lawyers have found the heirs to the estate of the late John M. McCaffery, who died here last June, leaving about $500,000 worth of property.

After most careful investigation three heirs have been found and their claim to shares in the great fortune established.

In the will the testator declares that he has children whose names he could not remember. These children, the bill today declares, were Sarah, Susan and Margaret McCaffery, born between 1844 and 1849, and taken after placing them to a boarding school in Washington, their father disappeared in 1852, never communicating with them again. The names of the descendants of these three daughters are given and are held to be the rightful heirs. There are many other heirs to the estate as McCaffery was married three times.

California's Gubernatorial Contest.

SACRAMENTO, Cal., Jan. 8.—The Republicans of the assembly held two caucuses today, at which a concurrent resolution providing for the appointment of a non-partisan committee of five members from each house to investigate the recent gubernatorial election and protecting also that should be prevented from taking the oath of office pending such investigation was considered. At the morning caucus this resolution was knocked out by an adjournment by a vote of 33 to 9.

In the afternoon caucus the assemblymen appointed a committee to urge the Republican senators to enter a joint caucus to be held tomorrow for the purpose of taking final action on the gubernatorial question.

Thus far the legislature has transacted no business beyond the appointment of employes.

Lieutenant-Governor Millard is reported to be in a critical condition at Los Angeles.

JUDGES QUARREL.

And Their Letters to Each Other are Promptly Published.

LITTLE ROCK, Ark., Jan. 8.—Some sharp correspondence has passed between Judge Edgerton, who recently came to Little Rock from Sioux City to preside over the Federal circuit court during the absence of Judge Williams, and Judge E. S. Dundy of Omaha, who was assigned to Judge Edgerton's court.

Edgerton after his arrival here this morning from New Orleans found on his desk a Deadwood, S. D., paper containing the correspondence which has been given out by Judge Dundy. The epistle is dated Little Rock, December 18, 1894, and signed, "A. J. Edgerton," in which Judge Dundy is criticised for adjourning court at Deadwood without giving Judge Edgerton notice. The letter concludes:

"You seem to have a determination to make me in any possible way and take advice of and follow the directions of my superiors. When I asked for your assignment to aid me in holding the terms at Deadwood (but not to supplant and displace me), I thought you a considerate and honorable gentleman. I shall be glad when the term of your assignment expires."

Judge Dundy replies under date of Deadwood, December 20th: "The connection is a most remarkable one. As it is signed by 'A. J. Edgerton, Judge,' I suppose it must be treated as a judicial order, judgment or decree. Otherwise you might think I had some intention of annoying you. But on honor I meant no harm and had you not signed it as judge, I should feel the treating it the same as I do such professional communications from other strangers, and after looking over the dozen pamphlets I have concluded that you are suffering more from mental infirmity than you are from physical debility. Because of this conclusion it may be that I might not to write you as air until I have some evidence of the fact that you have a lucid interval."

Judge Edgerton appears to be somewhat worried after reading what had been published.

Rich Rock strike.

DEADWOOD, S. D., Jan. 8.—Mining circles are in a flutter of excitement over the announcement of a rich strike made in the Lamoreaux mine, situated on Green Mountain, a few miles south of Deadwood.

A twelve-foot vein has been uncovered, the ore from which, after many assays, gives returns averaging from $1,300 to $3,700 in gold per ton. The vein is well defined. The mine is owned by James Collins and Conny O'Leary, two poor miners, whom a chance "grub" in the mountains placed in fortune.

Bitterly and His Attorneys.

WASHINGTON, Jan. 8.—Samuel J. Bitterly, who in a memorial presented to Congress yesterday, preferred certain charges against Judge Hicks, has left the city expecting to return in a few days. Mr. Bitterly's attorneys, Messrs Corbett, Harper and Wilson, and Benjamin S. Butterworth, who have been his chief counsel in his big suit, disclaim any knowledge of the charges presented against Judge Hicks except what they learned from the newspapers.

Fate at Delagoa Bay.

LOURENZO MARQUEZ, Delagoa Bay, Jan. 8.—There was a panic here last evening, owing to Mahsnatis and Shiatakes people attacking Loyal Matolies, and swimming on the town. Armed crews are remaining in the vicinity of Lourenzo Marquez.

THE POOLING BILL.

Considered by the Senate Committee on Interstate Commerce.

WASHINGTON, Jan. 8.—The Senate committee on interstate commerce had the Hoke pooling bill under consideration today and postponed final consideration until next Tuesday, when the committee will meet again. The impression today were generally favorable to the bill and a belief was expressed after adjournment that the bill would be reported, practically without amendment, at the next meeting. The amendment suggested by Chairman Morrison, of the interstate commerce commission was discussed at some length, but the opinion seemed to prevail that if the bill should be amended in any way also late a date, it would fail because of the congestion in the Senate. It was resolved, however, to invite Colonel Morrison to be present at the next meeting to explain the amendment he suggests.

The change he seeks to secure is one which will make it evident to the country that the commission has not power to apportion and control pooling contracts before they take effect. Colonel Morrison says in his letter that there appears to be an impression prevailed that the bill as it stands gives the commission this supervision, but this is not true.

Bebs and Associates in Jail.

CHICAGO, Jan. 8.—Eugene V. Debs and associates, under sentence for contempt, surrendered to U. S. Marshal Arnold today and jail connections were properly made out. No proceedings in court looking towards a stay of sentence were begun. All the defendants except Howard and Rogers were present in the marshal's office.

Counsel for prisoners decided this morning not to contest the case any further before the circuit court, but will on Saturday ask the U. S. supreme court at Washington for a writ of habeas corpus. On this application, whether granted or not, they will have the right to take an appeal and in this appeal they may secure the liberation of the prisoners on bail, pending a hearing. Acting under the direction of Clerk Burnham, Mr. Richard, his assistant, issued orders of commitment on which Marshal Arnold, if he feels so disposed, may send the prisoners to jail.

The marshal says, however, that he will take no further proceedings until he has direct orders from Judge Woods, to whom he will apply for instructions this afternoon.

The cumulative sentence imposed on Debs was one year and on the other defendants six months.

Polygamists Wins the Suit.

NEW YORK, Jan. 8.—The celebrated case of Boundsman John W. Goodwin against the police board, which was the longest and most presumptuously hostile litigation in the annals of the police department, ending today by the board reinstating Goodwin to his former rank and paying him $3,000 back salary and $1,145 expenses for prosecuting his case. Goodwin got his scalp, and it was placed on him again, after an absence of six years.

FIGHT WITH TRAMPS.

They Board a Train and Attack the Crew.

BRIDGETON, N. J., Jan. 8.—The passengers of a fast Pennsylvania freight train left Newark last night bound for Philadelphia had a fight with tramps just below the city limits at North Bridgeton. The tramps boarded the train at the city line, were jolting in the caboose. Conductor Brennan ordered them out, which they refused to do, and overpowered Brennan and the rear brakeman. When the forward trainmen got to the caboose they were prevented by force from entering. They passed through a side window and saw the tramps searching the pockets of the crew. Some of the tramps boarded the engine and tried to throw the driver out from the engineer and fireman when the engineer threw a lot of steam on them and they fled. When the engineer tried to start the train one of the gang on the caboose with the conductor's lantern signaled the engineer to stop. He shut off the steam. The two forward trainmen managed to slip away from the train and ran half a mile to a signal tower and telegraphed here for aid. A squad of police went to the scene. Some of the gang of tramps broke into an unused signal tower and hid there. They opened fight. Three of them jumped from a second story and escaped. One got on an east bound train. The four prisoners gave their names as Henry Hinton, Peter Levison, James Sweeney and Leonard Swift. The man who boarded the east bound freight train was taken by the police to Jersey City and brought back here. He said he was Mike Boyle.

TUBERCULOSIS IN OUR DAIRIES

A Question Discussed by the Farmers' Club at the American Institute.

NEW YORK, Jan. 8.—Dr. Allen S. Heath presided at last night's session of the Farmers' Club of the American Institute, called to discuss the question "How shall tuberculosis in our dairies be remedied on the principles of justice and economy to the public, to the owner and to the dairymen?"

Prof. Leonard Pearson, chief of the veterinary department of the University of Pennsylvania, was present. He has experimented largely in the use of Koch's method for the discovery of tuberculosis and is firmly convinced that it will reveal the presence of the disease even in its first real beat.

It is probable that the American Institute will recommend to the legislature the passage of a law providing for the inspection and inoculation of all cattle in the state with the tuberculosis, either at a nominal cost or at the expense of the state.

FRAGRANT VANITY FAIR CIGARETTES

FRAGRANT VANITY FAIR

WM. S. KIMBALL & CO.
THE AMERICAN TOBACCO CO. SUCCESSOR

DR. SHORES GUARANTEES

To Cure the Worst Case of Catarrh in Three Months at $5.00 a Month, or a Total Cost of $15.00 Until Cured.

A Remarkable Offer From Dr. C. W. Shores (of the Month of January—The Question of Most Interest to Catarrhal Sufferers.

It used to be a question as to whether catarrh was curable, but Dr. C. W. Shores has demonstrated positively and beyond all reasonable doubt, that catarrh is curable, and he will prove it, by a thousand testimonials from people who have been cured, in fact, from every section of the intermountain country.

Now, the question of most interest, the question most frequently asked by the people, is, what is a cure? Dr. C. W. Shores is called upon to answer yourself or those every week, both in his office and through correspondence to his extensive mail business, as follows:

How long does it take to cure Catarrh?

In the past answer to this question has always been, and in fact, still the average case of catarrh can be cured in three months. He has given the answer to hundreds, yes, thousands of his patients, and in most cases, he has proven his judgment and answer correct, by effecting a cure with his new system of treatment in the time named.

But, he has recently decided at this time, by public demonstration, to settle this question once and for all. He states positively that the average case of catarrh, under his new treatment can be effectually and completely cured in three weeks.

Now to prove it. He has decided to place the risk entirely on his own shoulders, and to apply to every case of catarrh, but to take the risk entirely upon himself, for the sole purpose of demonstrating that in three months he can accomplish the result claimed to cure the average case of catarrh.

There is a hundred cases, undoubtedly somebody will take course, but to make the offer general and easy to all catarrhal sufferers, he is obliged to take the risk of curing every case in the three months' period, or to cure for, just three and a-half all he asks is that cured free of all further cost to the patient.

Every man, woman and child in the intermountain country who is able to read the newspaper knows that Doctor Shores treats and cures every case of catarrh at the nominal cost to the patient of $5.00 a month, or everything, medicine, care, cure, advice and medicine.

Now, this proposition speaks for itself. It is simple and resolves itself into a positive proposition. Every person suffering from catarrh who begins treatment during January and takes a full three months' course at $5.00 a month, or a total cost of $15, will be treated, cured for and supplied with all medicines until cured.

This offer only applies to catarrhal sufferers beginning treatment during January, and taking a regular three months' course without interruption and to those at a distance through the Medical Journal, as Dr. Shores prefers to be office. If you live at a distance and wish to take advantage of this magnificent offer, write for Doctor Shores' new system and medicines.

In conclusion, a word of advice. Consult Doctor Shores and begin treatment now. Don't wait until the last days of the month, for then his offices will be crowded and he may have to wait, and he doesn't want you to wait on February 1st. Our readers are able to take advantage of this great offer because should offices make it impossible for you to see the doctor. This is a timely warning and a fair one, for Doctor Shores' office closes Thursday, January 31st, at 5 o'clock in the evening.

ALL CATARRHAL SUFFERERS

BEGINNING TREATMENT DURING JANUARY WILL BE TREATED, CARED FOR AND SUPPLIED WITH ALL MEDICINES FOR ONE MONTH, OR HOLD UNTIL COMPLETELY CURED.

OTHER DOCTORS FAILED.

The testimonials and cards from the city papers, also issued to the former, are for such fine cures, because Doctor Shores has cured cases of catarrh that other doctors had failed, and although at one time, we were invited to look at the last patients, by the doctors, who had failed, and who had given up the case as incurable, we have cured many of these cases, and we can refer to them, if you desire, but the testimonials in the papers, and those issued in the pamphlet, are sufficient.

Now, the question of how long it will take to cure the case of last August is the question of interest. I can say that at all events, it will be not less than two weeks, and I can say that I have cured a case in two weeks, and I can say that I have cured a case in three weeks, and I can say that I have cured a case in four weeks, and I can say that I have cured a case in five weeks, and I can say that I have cured a case in six weeks, and I can say that I have cured a case in seven weeks, and I can say that I have cured a case in eight weeks, and I can say that I have cured a case in nine weeks, and I can say that I have cured a case in ten weeks, and I can say that I have cured a case in eleven weeks, and I can say that I have cured a case in twelve weeks, and I can say that I have cured a case in thirteen weeks, and I can say that I have cured a case in fourteen weeks, and I can say that I have cured a case in fifteen weeks, and I can say that I have cured a case in sixteen weeks, and I can say that I have cured a case in seventeen weeks, and I can say that I have cured a case in eighteen weeks, and I can say that I have cured a case in nineteen weeks, and I can say that I have cured a case in twenty weeks, and I can say that I have cured a case in twenty-one weeks, and I can say that I have cured a case in twenty-two weeks, and I can say that I have cured a case in twenty-three weeks, and I can say that I have cured a case in twenty-four weeks, and I can say that I have cured a case in twenty-five weeks, and I can say that I have cured a case in twenty-six weeks, and I can say that I have cured a case in twenty-seven weeks, and I can say that I have cured a case in twenty-eight weeks, and I can say that I have cured a case in twenty-nine weeks, and I can say that I have cured a case in thirty weeks, and I can say that I have cured a case in thirty-one weeks, and I can say that I have cured a case in thirty-two weeks, and I can say that I have cured a case in thirty-three weeks, and I can say that I have cured a case in thirty-four weeks, and I can say that I have cured a case in thirty-five weeks, and I can say that I have cured a case in thirty-six weeks, and I can say that I have cured a case in thirty-seven weeks, and I can say that I have cured a case in thirty-eight weeks, and I can say that I have cured a case in thirty-nine weeks, and I can say that I have cured a case in forty weeks, and I can say that I have cured a case in forty-one weeks, and I can say that I have cured a case in forty-two weeks, and I can say that I have cured a case in forty-three weeks, and I can say that I have cured a case in forty-four weeks, and I can say that I have cured a case in forty-five weeks, and I can say that I have cured a case in forty-six weeks, and I can say that I have cured a case in forty-seven weeks, and I can say that I have cured a case in forty-eight weeks, and I can say that I have cured a case in forty-nine weeks, and I can say that I have cured a case in fifty weeks, and I can say that I have cured a case in fifty-one weeks, and I can say that I have cured a case in fifty-two weeks, and I can say that I have cured a case in fifty-three weeks, and I can say that I have cured a case in fifty-four weeks, and I can say that I have cured a case in fifty-five weeks, and I can say that I have cured a case in fifty-six weeks, and I can say that I have cured a case in fifty-seven weeks, and I can say that I have cured a case in fifty-eight weeks, and I can say that I have cured a case in fifty-nine weeks, and I can say that I have cured a case in sixty weeks, and I can say that I have cured a case in sixty-one weeks, and I can say that I have cured a case in sixty-two weeks, and I can say that I have cured a case in sixty-three weeks, and I can say that I have cured a case in sixty-four weeks, and I can say that I have cured a case in sixty-five weeks, and I can say that I have cured a case in sixty-six weeks, and I can say that I have cured a case in sixty-seven weeks, and I can say that I have cured a case in sixty-eight weeks, and I can say that I have cured a case in sixty-nine weeks, and I can say that I have cured a case in seventy weeks, and I can say that I have cured a case in seventy-one weeks, and I can say that I have cured a case in seventy-two weeks, and I can say that I have cured a case in seventy-three weeks, and I can say that I have cured a case in seventy-four weeks, and I can say that I have cured a case in seventy-five weeks, and I can say that I have cured a case in seventy-six weeks, and I can say that I have cured a case in seventy-seven weeks, and I can say that I have cured a case in seventy-eight weeks, and I can say that I have cured a case in seventy-nine weeks, and I can say that I have cured a case in eighty weeks, and I can say that I have cured a case in eighty-one weeks, and I can say that I have cured a case in eighty-two weeks, and I can say that I have cured a case in eighty-three weeks, and I can say that I have cured a case in eighty-four weeks, and I can say that I have cured a case in eighty-five weeks, and I can say that I have cured a case in eighty-six weeks, and I can say that I have cured a case in eighty-seven weeks, and I can say that I have cured a case in eighty-eight weeks, and I can say that I have cured a case in eighty-nine weeks, and I can say that I have cured a case in ninety weeks, and I can say that I have cured a case in ninety-one weeks, and I can say that I have cured a case in ninety-two weeks, and I can say that I have cured a case in ninety-three weeks, and I can say that I have cured a case in ninety-four weeks, and I can say that I have cured a case in ninety-five weeks, and I can say that I have cured a case in ninety-six weeks, and I can say that I have cured a case in ninety-seven weeks, and I can say that I have cured a case in ninety-eight weeks, and I can say that I have cured a case in ninety-nine weeks, and I can say that I have cured a case in one hundred weeks.

DR. JULIA TAFT.

Doctor Shores treats and cures all forms of catarrh and all diseases of the eye, ear, nose, throat, lungs, stomach, liver, kidneys and bladder, all chronic, private and nervous diseases of both sexes, and diseases of women and children. Office hours—Forenoon, 10 to 12; afternoon, 2 to 4; evening, 7 to 8. Sundays, 11 to 12 m. Dr. J. R. Taft, M.D., in charge of Consultation Department. Medicines Free. Doctor Shores' motto is "Live Free, Quick Cure, Mild and Pleasant Treatment." If you cannot come to the office write for Doctor Shores' new system and medicines, and send to your case, diagnosis and get expert advice FREE.
