CUBAN FINANCES AND YELLOW FEVER.

CATTLE FEVER IN TEXAS.

THE CATALOGUE OF CRIME AND DISASTER.

POLITICAL POINTS.

Greenbackers.

DAYTON, O., 28.—The Greenback party held a convention at the city hall to-night and nominated a State ticket. For Secretary of State, Peter Harrod; for Judge of the Supreme Court, Jas. G. Grogan; electors at large, John Seitz and David Willis.

Labor Party.

CHICAGO, 28.—W. A. Carsey, president, and W. A. Wolf, secretary of the United States Labor Party, were to-night shown a dispatch from New York stating that the executive committe had decided to postpone from the 30th inst. to September 1st, the convention to be held in this city. These gentlemen said they had received no official notice of such action and would not recognize it if they had. They were superior to this executive committee, which represented a factious element, and that the convention would be held on the 30th inst. as heretofore arranged.

Independents.

PHILADELPHIA, 28.—A meeting of independent republicans was held today and a permanent organization effected under the name of the "Association of Republicans and Independents of the City of Philadelphia."

Blaine of Maine.

NEW YORK, 28.—Chickering Hall was crowded to-night at a meeting of Irish-born citizens who favor the election of Blaine and Logan. Austin G. Ford was chairman. He said it was strange to see 3,000 Irish-Americans assembled in New York City to endorse the nominee of the republican party.

The first speaker was Rev. George W. Pepper, of Ohio. He said they came together to-night to defeat the candidate supported by the London *Times*. The republican party had always been opposed by the English government, whose sympathies were with the democrats, the party of personal liberty and free trade, which cripples every country into which it has been introduced. He predicted that in November next Governor Cleveland would be buried so deep that the sound of Gabriel's trumpet would never reach him. Not one in ten Irishmen in Ohio would vote for Cleveland. The Catholics there were all opposed to him.

Henry Carey Baird was the next speaker. He said the only way to down England was to cripple her industries, and this could be done by keeping the republican party in power.

Judge Boorman, of Iowa, said he had come 1,400 miles to be present at the meeting. The democrats had said for 40 years, because they were Irish they must vote the democratic ticket. It was time to say they would vote the republican ticket for the same reason.

The other speakers were P. T. Barry of Illinois, and Captain O'Meagher Congdon.

Ratifying Cleveland and Hendricks.

ALBANY, 28.—There is a distinguished democratic gathering here in view of the formal notification of Governor Cleveland to-morrow of his nomination for President.

At 3 o'clock to-morrow the democratic phalanx will escort the members of the notification committee to the Executive Mansion, where the Governor will be formally notified by Col. Wm. F. Vilas, of Wisconsin. The Governor, it is expected, will briefly reply to the speech of Col. Vilas.

After the ceremony the visiting democrats will be entertained at dinner. In the evening in the various halls, meetings will be held.

The National Democratic Committee will meet in the morning, when Chairman Barnum will probably announce the executive committe and the reports of the committee on headquarters will be presented.

Gov. Cleveland has not yet begun to write his letter of acceptance.

Gov. Hendricks will be formally notified of his nomination as Vice-President at Saratoga on Wednesday.

The Strikers.

NEW YORK, 28.—To-day begins the second week of the bricklayers and laborers' strike for nine hours per day. The reports of the men on the strike are conflicting. The employers say 3,000 men are working. The men claim that 700 men, nearly all plasterers, engaged on jobs, where the employers refused to accede to the nine hours demand, quit work to-day; also that a number of hod-hoisting engineers, and a large number of framers had stopped work this morning.

A committee of the striking bricklayers reported to-night that four more firms surrendered. The framers, who struck to-day for nine hours, were all successful. They had been getting $3.25 a day, and agreed, in consequence of the reduction in the hours of labor, to accept $3 a day. At a meeting of the Mason Builders' Association to-night, word was received from several master builders, not members, that they had refused to yield and proposed to hold out as long as the members of the association.

Stabbed Seven Times.

DENVER, 28. — The *Republican's* Greeley, Colorado: John Shea, a miner, from Leadville, spent Sunday with his wife near Greeley. Early this morning while his wife was sleeping, Shea cut her throat and stabbed her seven times in the chest, and then stabbed himself eight times and fell dead. Mrs. Shea cannot live. Cause, jealousy.

Buildings Burned.

DEVIL'S LAKE, Dakota, 28.—Forty buildings were burned last night, including ten real estate offices, eight saloons and a number of other buildings. Loss, $200,000.

Fatal Railroad Wreck.

TERRE HAUTE, Ind., 28.—The passenger train on the Bedford narrow guage went through a bridge at Bloomfield, the entire train going into the river, killing one and seriously injuring a number of others.

Killed by Lightning.

A special from Paris, Ills., says: W. H. Van Sickle, a prominent farmer, was instantly killed by lightning while walking from the barn to the house.

HAVANA, 28.—The regular troops quartered at Puerto Principe, not having been paid for a long time, and credit being refused them, went to the stores and forcibly supplied themselves with provisions. The fact having been telegraphed to the Captain General, he sent for the Director General of the Treasury, who declared the only disposable money of the Government on the Island was $30,000 at Villa Clara, which was at once ordered by telegraph to Havana and thence remitted to Puerto Principe. The Spanish steamer *Concepcion* received from Madrid sailing orders, but there being no fund to pay the crew, she could not leave. In the meantime, the crew is dying of yellow fever. Up to to-day eleven men have fallen victims, among them two midshipmen, and a relative of Gen. of Beaumont Segundo Cago. The Director General of the Treasury having asked the well-known banker, T. W. Borges, for a loan of $100,000, was refused.

Yellow Fever.

TOPEKA, 28.—N. A. Adams, of Manhattan, purchased 200 head of Colorado steers at Kansas City last week, and 30 head of them have died with Spanish or Texas fever. One car load was stopped here, and out of that six have died since. The others were taken to Manhattan and are quarantined in the shipping pens there. Up to 3 o'clock this afternoon 20 had died. The people, and especially stock men, are greatly excited. In answer to a telegram, Governor Glyck has sent the State vetrinary surgeon to investigate the trouble.

FOREIGN.

STANLEY AFRICANUS ARRIVES IN EUROPE.

THE COLLISION OF THE "LAXHAM" AND "GIJON."

LEON HARTMAN, THE NOTORIOUS NIHILIST, SUICIDES.

DISASTROUS FIRE, WRECK, ETC.

The Dark Continent.

LONDON, 28.—Henry M. Stanley, the African explorer, arrived at Plymouth this evening. In an interview with an Associated Press reporter Stanley said he had returned to England considering he had completed the work of establishing satisfactory trading stations along the Congo river from its mouth to Stanley pool, 400 miles by the river. When he left the Congo country he was suffering badly from bronchitis, but was much benefited by the sea voyage. He eulogized the trading prospects of the country in the vicinity of the Congo river. He considers General Gordon's plans perfectly practicable as routes of escape from Khartoum, either by the way of Zanzibar on the east, or down the Congo to the west coast. If the Nile is blocked, Stanley considers Gen. Gordon can, during the present season, ascend the Nile from Khartoum to Gondokar, a distance of 500 miles, in eight days; thence proceed to Bohar and Elgahizal, and join Jupton Bey, who commands 400 troops, having in their possession £40,000. Gordon could then proceed with this addition to his force to Zanzibar. Should the soldiers refuse to take this journey, or should some other cause prevent the plan, Gordon could cross to Uganda, reach the Stanley station, and proceed down the Congo. Stanley considers the routes traversed by Schweinfurth, Samuel and Lady Baker and the Italian missionaries cannot be insurmountable to Gordon, the soldier, traveler and explorer. Should the garrisons at intermediate points along the Nile be in danger, Gordon could take them along with him. If they refused to accompany him at first they would be sure to follow after he had gone. He believes the sending of a large English force to extricate Gen. Gordon would be a most disastrous undertaking, and would likely be attended with great loss and expense. English troops would be unable to stand the climate. Stanley comments on the abandonment of the Congo treaty. He considers the leaving of the Congo in the hands of the Portuguese very inimical to English interests. The population of Madeira prepared an ovation for Stanley when his steamer arrived there, but he was unable to land, owing to the quarantine regulations.

That Collision.

LONDON, 28.—Survivors of the steamship *Laxham*, which collided with the Spanish steamer *Gijon*, report that on the evening of the disaster there was a thick fog. The *Laxham* was going slow, both steamers sonhding their whistles. The *Gijon* struck the *Laxham* amidships, and the latter was nearly cut asunder. The funnel fell and the steam pipes burst. The chief engineer was terribly scalded. Most of the *Laxham's* crew boarded the *Gijon*. Capt. Lothian tied his wife and child to himself and all three were hauled aboard the *Gijon*. The *Laxham* sank twenty minutes after the collision, and not long before the *Gijon* began to settle. Terrible confusion prevailed. The captain stood with a revolver in his hand, but was unable to keep order, as the passengers and crew were fighting for their lives. The boats were lowered and filled to their gunwale, but they could not accommodate half the people. Those fortunate enough to secure places in the boats were obliged to keep off the others with knives. The *Gijon* sank bow first The quarter-deck was crowded with men and women, the captain and officers standing on the bridge. It is estimated 120 persons perished.

The Cholera.

PARIS, 28.—Thirteen deaths from cholera at Marseilles last night; at Toulon 14; at Lavlite, a village near Toulon, one.

During the 24 hours ending at 9 to-to-night there 24 deaths from cholera at Marseilles and six at Arles.

Admiral Krantz, in command of the fleet at Toulon, telegraphs that he is sanguine of a daily diminution of the number of deaths from cholera in that city. Advices from the frontier are very unfavorable. The sanitary condition of the hospitals at Vintimiglia is deadful. It is feared the place will become a centre of infection. There are already 10 cases. A quarantine is imposed at Mobun. On leaving the tunnel soldiers surround the train and conduct the passengers to Laskret, where they are registered and numbered and given a little straw for a bed.

There is a mild case of cholera in one of the hospitals in this city.

Three deaths from that disease at Toulon to-day.

In Toulon are 81 cases at Recontre Hospital, and one in St. Maudrier Hospital. Three of the latter are serious. Two Toulon emigrants have died at Lascyne of cholera.

Suicide of Hartman.

Figaro to-day states that Hartman, the notorious Nihilist implicated in the assassination of the Czar, Alexander II, has committed suicide. He was starving, and ended his misery by taking poison. No one man had been more prominent in the revolutionary affairs of the continent than Leon Hartman. Years ago he was associated with the international movement led by Karl Marx, and was supported by Carl Hilnat. Later he was a secret agent of the German Socialists, and one of an active participant in the Nihilist movement of Russia. Fabulous prices have at times been set on his head, but he seemed to possess a charmed life. "I shall not die the death of a revolutionary patriot," he said frequently, "but I must come to it for want of bread." His words were prophetic.

Disastrous Fire.

There was a disastrous fire to-day at Marash, Asia Minor. A thousand shops, 200 houses, four hotels, three mosques and many public places were destroyed.

Wrecked.

Advices here state that the British ship *Arow Bay* from Dundee, April 4th, for San Francisco, has been totally wrecked off Valparaizo. The crew were saved by the steamer *Lilit*, from New York for Valparaizo, and is reported as having put in at Bahia on account of her machinery being damaged.

The Egyptian Question.

The Egyptian Conference met to-day at the Foreign Office, at 1 o'clock, and remained in session three hours and a half and then adjourned for a short meeting to-morrow.

BELOW TELEGRAPH.

A passenger steamer on the Volga capsized Sunday, and 50 persons were drowned.

Secretary Frelinghuysen has received intelligence from the City of Mexico to the effect that in compliance with the request of the United States Government the two Americans, Wm. Harwood and Edward Velash, recently arrested there upon a charge of defaming the President of Mexico, have been released.

The Assistant Postmaster of Brooklyn, Charles B. Martin, for some time missing, is now reported insane, and is in the care of friends.

Chicago, 28.—The City Council tonight passed an ordinance abolishing contract labor for prisoners at the city House of Correction. The inmates of this institution number from 1,000 to 1,500. It heretofore has been self-supporting. If the ordinance goes into effect, it will throw the cost of its maintenance on the city.

Philadelphia, 28.—Base Ball.—Providences 11, Philadelphias 4.

Chicago, 28.—Detroits 3, Chicagos 5.

Buffalo, 28.—Clevelands 3, Buffalos 9.

Boston, 28.—New Yorks 7, Bostons 0.

Chicago, 28.—Dr. C. C. O'Donnell who has made a special study of leprosy, arrived here Saturday, and announced that he had two lepers on the way here, and would exhibit them on the lake front this afternoon. The health authorities warned him and told him it would not be permitted, and they were not shown, the doctor announcing they had not arrived.

Philadelphia, 28.—In the United States Circuit Court to-day Oliver Ames, receiver of the Credit Mobelier of America, asked to be relieved of the receivership. No reason is assigned. Lamuel R. Shipley, president of the Providence Life Insurance & Trust Co. of this city, will be appointed his successor.

New York, 28.—The National Rifle Association has sent the Governor of each State and Territory a circular requesting him to contribute a prize to be competed for, at the annual fall meeting at Creedmoor, and to be known as the "Governor's Prize," each prize to be named after the Governor presenting it for competition.

St. Louis, 28.—Health Commissioner Stevenson will ask the Municipal Assembly, which meets August 1st, for an appropriation to close all the wells of this city, as a sanitary measure. Other measures are also to be taken to place the city in a thoroughly clean condition to meet any possible appearance of cholera this season.

Kansas City, 28.—The wife of Lieut. A. W. Greeley passed through this city this evening, en route from San Diego, Cal., to Portsmouth, N. H., where she expects to meet her husband August 2d. The lady is accompanied by her brother, F.L.G.Nesmith, and her two children.

The total expenses of the Greely relief expedition are estimated by the officials of the Navy Department at about $700,000. The original estimate was $500,000.

Some time ago the Commissioner of Internal Revenue issued an order providing that on and after the 1st of September, 1884, the collection of tax on whisky by assessment shall be discontinued. Strong efforts have since been made to have him rescind this order, but without avail.

The Civil Service Commission has examined about 500 candidates for 150 places as special examiners for the pension office, and papers are now being marked by the special board of examiners. No further examinations for this branch of the service will be held at this time, except about twenty pensioners for the Southern States, whose applications have just been received.

INTERESTING FROM ROCKVILLE.

ROCKVILLE, Utah, July 24, 1884.

Editor Deseret News:

DAMAGE BY WATER.

The benefits derived from the unusual snow fall of last spring have not been unmixed with counter results. Some irrigating companies failed to construct irrigating canals and dams sufficient to stem the tide until the waters began to recede about the last of June. Some of our roads and a considerable portion of our small allowance of land have taken their departure oceanward.

I have observed but one means by which the rapid current of the Rio Virgin can be

SUCCESSFULLY CHECKED.

Though not a grazing district much stock are permitted to run loose on the river bottoms, thereby preventing the growth of willows, grass, etc. By making a live fence of black willow stakes a double purpose is served, as the growth of wire grass and timbers toughen the soil so that in case the waters overflows it but little damage ensues. The black willow stakes, if set firmly in as near down to the water level as possible to prevent the water getting underneath, (they can be set out any time between the months of January and April), will form a barrier impervious to the water current, their fine fibrous roots being impedetrable, while the more sturdy cottonwood is torn out root and branch.

MISCELLANEOUS MATTERS.

The army worm has committed some depredations on young field plants but I believe the pest is subsiding.

Codling moth bids fair to nearly ruin our apple crop. The fruit crop otherwise is average.

Independence day was celebrated in our town with fair credit to those participating, all the ward, which includes Grafton, Springdale and Shonesburgh, joining with us.

A TERRIBLE STRUGGLE WITH A BEAR.

The boys on the mountain have had their annual bear fight. Several young men of this Ward are engaged building a saw mill, ranching, etc., on the head of the north fork of the Rio Virgen, about 80 miles north of this place. On the morning of the 17th inst., a bear was seen in the vicinity, and five of the boys started in pursuit. The track being difficult to follow they became separated and three returned to camp while the remaining two, Alfred F. and John H. Stout, continued the chase. As they neared a small grove of birch John, the younger, (the same young man who killed a bear a year ago, as related to the NEWS by your correspondent) who was in the rear, hearing the brush crack and a familiar growl, shouted, "There he comes!" and sprang to his brother's side. Both were armed with new Winchester rifles. The beast was foaming at the mouth with rage, and came towards them with a series of fierce "lunges," his jaws popping together like those of a maddened alligator. When the animal was within 15 feet both young men fired. The enemy turned as if from the force at which he was coming bringing him right at Alfred's feet. Instantly it arose and seized the latter, striking him a glancing blow on the left shoulder, and tried hard to bite the hunter's face who managed to turn the massive head aside by some unaccountable means. In the scuffle the bit through the hunter's boot and finally fastened his teeth under the knee cap. Alfred cooly said, "What you do, do quickly John, or I'm a goner." The latter however was not idle. He fired two shots into the bear's body near the heart, at which brute measured back from him, dragging Alfred with him. Then John put in a lucky shot just behind the ear, which dropped him, and he rolled down the hill. John, very properly deserted Alfred and fled. For a moment the brute form of friend and foe, and death apparently in the agonies of death, the call was equally urgent on the ties of affection and sense of danger. Prudence prevailed, and the young man dressed his brother's wounds. They were found to be severe but not dangerous, bone not broken, and he is now rapidly recovering.

PRESIDENTIAL.

President Henry Fabens, of Wabash College, Indiana, with other home missionaries visited us on the 13th and 14th inst., held three meetings and gave us good instruction.

Pioneer's day with us, is notable only for unusual quiet.

Sore eyes, the usual companion of "Dixie" summers, are now quite prevalent among children.

CHICAGO. ST. LOUIS.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 29, 1882.

"Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I leave you to be the terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. H. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible tetter and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have done it early since that time. My condition began to improve from the first. The sores have all healed, and I feel perfectly well in every respect—being able to do a good day's work, although 72 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully,

HIRAM PHILLIPS."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; $1, six bottles for $5.

CHEAP EUROPEAN EXCURSION

A SPLENDID OPPORTUNITY TO VISIT THE OLD COUNTRY AND RETURN IN SIX MONTHS.

A Special Cheap Excursion will leave Salt Lake City, Saturday, August 30th, 1884, for ENGLAND, IRELAND, SCOTLAND, PARIS, ANTWERP, HAMBURG and ROTTERDAM.

FARES FOR THE ROUND TRIP:

To Liverpool, Belfast or Glasgow, $155.00.

Antwerp, Hamburg Paris or Rotterdam, $175.00.

These Special Low Rates will entitle each passenger to Second Class accommodations on Railroads and Steamships, with the privilege of returning any time within six months from date of starting.

All who intend availing themselves of this splendid opportunity should make early application for tickets to insure a comfortable berth on the Steamer.

As only a limited number of tickets will be sold, they should be secured not later than August 20th.

HOTELS.

THE SPENCER HOUSE.

C. V. SPENCER, Proprietor.

Post Office Block, 1st East between 3d and 4th South, Nos. 251 and 253.

THIS HOUSE IS IN MANY RESPECTS the most convenient and pleasant resort for transient visitors and tourists that is afforded in Salt Lake City. The grounds are the largest of any of the hotel grounds, its extensive lawns and number and variety of its beautiful shades are not equalled by any other house. The proprietor has spared no pains to make it in every respect superior as a family Hotel, to anything yet opened to the public.

Prices are reasonable and graded to suit the wants of customers. d187
